## Welcome to Parkland College

On behalf of the trustees, administration, faculty, and staff at Parkland College, I am pleased to welcome you to an environment that embraces academic innovation, values diverse cultures and ideas, and promotes the hardworking Cobra spirit.

If you are new to campus, rest assured that your professors and counselors have your growth and success top-of-mind and are happy to work with you at a personal level. They want to learn your name as well as provide you with all the support services you need to earn your associate's degree or certificate. They want to smile when you cross our stage at commencement, receive your first university transfer letter, or land your first job. They are not just instructors and advisors but cheerleaders in your corner, working to build your confidence day by day.

If you are returning to Parkland College, whether after a long period away or after just a semester, please know that we are happy to have you back with us. We invite and encourage you to engage in Parkland College Student Life groups and activities, including our new Student Leadership Academy, Student Government, and service-learning opportunities. It is no surprise that getting involved in campus organizations makes you feel stronger scholastically, leads to greater persistence, and helps you complete your academic credential.

Remember, we are partners with you on this journey of learning. Call, email, or stop by, and we'll be glad to lend a hand. Oh—and be sure to let us know how we've helped you before you leave us. We enjoy smiling.

A handwritten signature in black ink that reads "Thomas R. Ramage". The signature is fluid and cursive, with a prominent initial "T" and "R".

Thomas R. Ramage, Ed.D.  
President

Parkland College ensures equal educational opportunities for all students. The college prohibits all forms of discrimination and harassment, including those that violate federal and state law, or college policy. It will not discriminate on the basis of sex/gender, race, color, age, creed, national or ethnic origin, physical or mental disability, veteran status, pregnancy status, religion, genetic information, gender identity/expression, or sexual orientation in its employment practices or educational programs and activities. It takes appropriate steps to ensure that the lack of English language skills will not be a barrier to admission and participation in vocational education programs. Parkland College has designated the vice president for student services (217/351-2551, 2400 W. Bradley Ave., Rm. U334, Champaign, IL 61821) and the director of human resources (217/353-2024, 2400 W. Bradley Ave., Rm. A116, Champaign, IL 61821) as the college officials responsible for coordinating civil rights compliance activities and grievance procedures.

This catalog is for information only and does not constitute a contract. The college reserves the right to change, modify, or alter without notice all fees, charges, tuition, expenses, and costs of any kind and further reserves the right to add or delete without notice any course or program offering, service, or information in this catalog.

In cases of discrepancy between the printed and online catalog, the online version takes precedence over the printed edition.

All students and alumni ("Students") are advised that Parkland College ("Parkland") Marketing and Public Relations Office take photographs and videotapes throughout the year. These photographs and videotapes often include students in classrooms, study areas, and at athletic events and Parkland-related activities. Parkland reserves the right to use these photographs and videotapes as a part of its publicity and marketing efforts. Students who enroll at Parkland do so with the understanding that these photographs and videotapes might include their names, pictures, images, voices, and likenesses, and such photographs or videotapes might be included, published, or used in Parkland publications including print, broadcast, or electronic media, for publicity, commercial, or marketing purposes, and enrollment at Parkland constitutes students' consent to the inclusion, publication, or use of their names, pictures, images, voices, and likenesses in Parkland publications, both printed and electronic, for publicity, commercial, promotional, or marketing purposes.

# 2019–2020 Academic Calendar

## Summer Session 2019

*Instruction begins May 20, June 17, and July 15 and ends no later than August 8.*

*Final exams will be held during the last class meeting*

March 25–31	Early registration for continuing students
April 1	Open registration begins
May 19	Last day to register for classes that begin the week of May 20
June 16	Last day to register for classes that begin the week of June 17
July 14	Last day to register for classes that begin the week of July 15

### Campus holidays and closures

May 27	Memorial Day (college closed)
July 4	Independence Day (college closed)
Fridays, June 21–August 9	College offices closed

## Fall Semester 2019

April 1–7	Registration for continuing students
April 8	Open registration begins
August 18	Last day to register for classes that begin the week of August 19
August 19	Full-semester and first 8-week classes begin
September 8	Last day to register for classes that begin the week of September 9
September 9	13-week classes begin
October 13	Last day to register for classes that begin the week of October 14
October 14	Second 8-week (midterm) classes begin
November 8	Deadline to petition for fall graduation
December 6	Last day of classes
December 9–13	Final examinations

### Campus holidays and closures

August 12	Faculty and Staff Development (offices closed 8–10 a.m.)
September 2	Labor Day (college closed)
November 28– December 1	Thanksgiving recess (begins at 5 p.m. on November 27; college closed)
December 21–January 1	Winter break (college closed)

## Spring Semester 2020

October 28–November 3	Registration for continuing students
November 4	Open registration begins
January 12	Last day to register for classes that begin the week of January 13
January 13	Full-semester and first 8-week classes begin
February 2	Last day to register for classes that begin the week of February 3
February 3	13-week classes begin
March 3	Deadline to petition for spring/summer graduation to participate in commencement
March 8	Last day to register for classes that begin the week of March 9
March 9	Second 8-week (midterm) classes begin
April 3	Deadline to petition for spring graduation not participating in commencement
May 7	Last day of classes
May 8–14	Final examinations
May 14	Commencement

### Campus holidays and closures

January 20	Martin Luther King Jr. Day (college closed)
February 27	Professional Development Day (no day or evening classes)
March 14–22	Spring vacation
March 20	Spring holiday (college closed)

*Class start and end dates, tuition due dates, add/drop/withdrawal dates, and final exam schedules are published on the student portal ([my.parkland.edu](http://my.parkland.edu)) and at [parkland.edu](http://parkland.edu).*

# Tentative 2020–2021 Academic Calendar

## Summer Session 2020

Instruction begins May 18, June 15, and July 13 and ends no later than August 6.

Final exams will be held during the last class meeting

March 23–29	Early registration for continuing students
March 30	Open registration begins
May 17	Last day to register for classes that begin the week of May 18
June 14	Last day to register for classes that begin the week of June 15
July 12	Last day to register for classes that begin the week of July 13

### Campus holidays and closures

May 25	Memorial Day (college closed)
July 4	Independence Day (college closed)
Fridays, June 19–August 7	College offices closed

## Fall Semester 2020

March 30–April 5	Registration for continuing students
April 6	Open registration begins
August 23	Last day to register for classes that begin the week of August 24
August 24	Full-semester and first 8-week classes begin
September 13	Last day to register for classes that begin the week of September 14
September 14	13-week classes begin
October 18	Last day to register for classes that begin the week of October 19
October 19	Second 8-week (midterm) classes begin
November 6	Deadline to petition for fall graduation
December 11	Last day of classes
December 14–18	Final examinations

### Campus holidays and closures

## Mission and Purposes

The mission of Parkland College is to engage the community in learning.

The following purposes are of equal importance in fulfilling the mission of Parkland College:

- Serve students by providing
  - high-quality and responsive developmental, technical-vocational, transfer, and lifelong educational programs;
  - high-quality and responsive support services;
  - a climate throughout the college that values and promotes integrity, inquiry, diversity, inclusion, active citizenship, global awareness, and academic freedom;
- Serve employees by providing a supportive and responsive work environment;
- Serve the larger community by providing services and resources that promote the intellectual, cultural, and economic development of Illinois Community College District 505.

## Statement of Core Values

As an institution of learning, Parkland College cultivates inquiry, practical application of knowledge, and broad enrichment across our community. The following values are important to the fulfillment of Parkland College's mission to provide programs and services of high quality to our students and community.

- **Honesty and Integrity.** In our daily operations, our classrooms, and all of our interactions, it is essential that we communicate openly, truthfully, and without hypocrisy.
- **Fairness and Just Treatment.** We advocate and strive for respect, equity, and justice in all of our operations and proceedings.

- **Responsibility.** We believe that employees and students are personally and mutually accountable for their actions as they carry out their duties. We understand the need to balance the pursuit of our own well-being with concern for others. Likewise, we understand the importance of balancing personal accountability with graciousness in the acceptance of help from others.
- **Multiculturalism.** We celebrate the diversity in both our community and our world. Our goal is to recognize, promote, utilize, and educate one another regarding the unique qualities and shared humanity of all people and cultures.
- **Education.** We provide a forum for innovation, critical thinking, open inquiry, and lifelong learning opportunities.
- **Public Trust.** In our efforts to serve the community, we honor the trust placed in us by our citizenry. We also rely on our community to guide and advise us as we continue to serve its needs.

## Civility Statement

Parkland's core values of Fairness and Just Treatment and Responsibility serve as guideposts for civility. Parkland College is committed to campuswide civility by cultivating a community where the faculty, staff, and students:

- Respect people and property
- Show empathy and tolerance
- Demonstrate concern for and fairness towards others
- Employ critical thinking and patience
- Accept accountability for their own actions

## Cultural Diversity

Parkland College's commitment to cultural diversity entails learning more about and respecting cultures other than our own; emphasizing similarities among cultures and appreciating their differences; sensitizing the faculty, staff, administration, and students to the plurality inherent in the term 'culture'; broadening our own personal definitions of culture; and bridging cultures.

Parkland College will help spread the awareness of cultural diversity to the residents of Illinois Community College District 505 by:

- Respecting the inherent right of all persons to live with dignity and freedom.
- Respecting individual rights of expression.
- Setting a standard for the larger community by promoting sensitivity, communication, and understanding among people with differing beliefs, color, gender, cultures, and backgrounds.
- Encouraging equal opportunity for students, faculty, and staff.
- Providing opportunities (e.g., curriculum development, art exhibits, theatrical presentations, and special events) for increasing our awareness of cultural differences and personal lifestyles within our college and within our communities.

## Equal Employment Opportunity

It is Parkland's policy, as an Equal Employment Opportunity (EEO) employer, to assure for all persons freedom from discrimination because of race, color, sex, gender, gender expression, national origin, religion, age, veteran status (including Vietnam veteran), marital status, ancestry, disability, or sexual orientation with respect to all aspects of employment, contractual services, and construction of college facilities. Such discrimination threatens the rights, privileges, opportunities, and freedom of all persons, and menaces the institution and foundations of democracy. The opportunity to be gainfully employed without discrimination because of race, color, sex, gender, gender expression, national origin, religion, age, veteran status (including Vietnam veteran), marital status, ancestry, disability, or sexual orientation is a human right in any free society.

## General Education and General Learning Outcomes

Educated persons tend to be inquisitive about all aspects of life; they seek, evaluate, and use information to make informed, reasonable decisions in a complex world of personal, professional, and environmental challenges. Parkland College is committed to equipping students with the knowledge, skills, and values essential for educated persons to realize their potential as learners, workers, and valuable participants in a global society. Students enter Parkland with different levels of general knowledge; all of Parkland's academic offerings will help them grow by improving their individual skills and competencies and by providing experiences in areas they have not yet explored.

### General Learning Outcomes

To this end, the Parkland College faculty has developed six general learning outcomes for students. At the conclusion of their certificate or degree program, all Parkland students will have taken courses that each assess one or more of the following outcomes.

#### Communication

- Students will demonstrate the ability to read, write, listen, and speak effectively.

#### Creativity

- Students will demonstrate the ability to develop and design, perform and/or interpret images, materials, and/or ideas in innovative ways.

#### Critical Thinking and Information Literacy

- Students will demonstrate the ability to evaluate perspectives, evidence, and implications, and to locate, assess, and use information effectively.

#### Reasoning and Inquiry

- Students will demonstrate the ability to solve problems using deductive reasoning and logic, quantitative reasoning, or the scientific method.

### Technology

- Students will demonstrate the ability to evaluate, select, and appropriately use current and emerging tools.

### Global Awareness and Ethical Reasoning

- Students will demonstrate an understanding of global issues, gender and sexual orientation, multicultural perspectives, and/or the role of ethical core values in making personal, social, academic, and professional decisions.

### General Education Core Curriculum

In addition to general learning outcomes, Parkland College offers students the broad and diverse range of general education courses. A solid core of these general education classes make up the Illinois Articulation Initiative (IAI) General Education Core Curriculum (GECC). The GECC course requirements are distributed across these disciplines: communications, social and behavioral sciences, humanities and fine arts, mathematics, and physical and life sciences. They are designed to provide an enlightening, interrelated program that ensures a wide range of diversified knowledge and promotes lifelong intellectual inquiry. The GECC constitutes an essential component of all transfer degrees. Associate degrees in career programs also include general education courses. For more information, see "General Education Core Curriculum Courses" on page 68.

## Collegewide Assessment

### Assessing Student Academic Achievement

Parkland's collegewide assessment program ensures continuous improvement in teaching and learning. Student learning is assessed and documented in each program of study the college offers, as well as in each area identified in the General Education objectives. Effective assessment of learning involves establishing goals and desired learning outcomes, measuring students' achievement of those goals and outcomes, changing instructional delivery techniques and components, suggesting appropriate changes in student behavior, and remeasuring students' achievement of goals and outcomes to determine whether the changes are effective.

Assessment is a faculty process, with administrative support, for the benefit of students. Parkland College is committed to fulfilling the promises made in the college's statement of mission and purposes. Collegewide continuous assessment of student academic achievement provides the evidence that Parkland is keeping its educational promises to the people it serves, Illinois Community College District 505.

### Assessing Support Services Effectiveness

Assessing the effectiveness of institutional support services, measuring how well the college achieves its stated goals, demonstrates Parkland's commitment to excellence. By assessing both student academic achievement and institutional support services, the college continuously strives to improve all its offerings. All Parkland institutional support

service areas, including the college bookstore, the Art Gallery, Student Services, WPCD-FM, the Business Office, and building and grounds operations, are engaged in a process to measure their effectiveness and to identify needed improvements. Each service area develops its own mission statement, sets measurable goals, assesses outcomes, and uses the results for continuous improvement.

## History

Parkland College is a public community college established to serve the needs of District 505 in vocational-technical and academic education. The establishment of the college was authorized by the 74th General Assembly in June of 1965 with the passage of House Bill No. 1710, better known as the Public Community College Act. This bill created the guidelines for the formation of such institutions throughout the state of Illinois.

A steering committee composed of 54 citizens and area school officials worked diligently to promote the passage of the approving referendum. The final result of this effort was a college district covering one of the largest geographic areas in the state. It now includes more than 2,908 square miles, contains 55 communities with approximately 244,000 inhabitants, and serves 25 high school districts in 12 counties. The committee envisioned a college that would offer a comprehensive program based on the needs of the communities it would serve. The program would include courses in liberal arts and sciences, general education, continuing education, and courses in career, technical, and semi-professional fields.

Parkland College was founded on March 12, 1966, when voters overwhelmingly approved the referendum to establish Junior College District 505. A seven-member board of trustees was elected in April, one month after the college district proposal was approved. The board held its first meeting in May 1966 to organize and establish regular meeting times. Its seven members then set down the principles around which the college would be built. The board is responsible for the adoption and enforcement of all policies needed to manage and govern the college.

Dr. William M. Staerkel assumed his duties as Parkland's first president in January 1967. That spring, the name Parkland College was adopted by the board. In September 1967, 1,338 students registered for Parkland's first classes, which were taught in temporary, rented facilities in downtown Champaign.

Construction of the permanent campus began after voters approved a \$7.5 million bond referendum in 1968. The permanent campus opened in fall 1973.

The Physical Education Building was completed in January 1976 and a significant renovation including the addition of a fitness center was completed in 2012. Parkland's playing fields, including a 400-meter running track, baseball and softball diamonds, and tennis courts, were completed in 1980. The South Building was completed in January 1983. The A Wing, which contains administrative offices and classrooms, was completed in 1984. Parkland's Theatre and the

William M. Staerkel Planetarium were completed in 1987. The Child Development Center was completed in 1995. The D Wing was completed in January 2002. The Tony Noel Agricultural Technology Applications Center was completed in 2001 and a 17,000 square foot expansion was opened in late 2010. The Parkhill Applied Technology Center, a 68,000 square foot free-standing instructional building, opened in 2012. The Student Union was completed and opened in 2014.

The planetarium was named in honor of Parkland's founding president, William M. Staerkel, who retired in 1987 with the distinguished title of president emeritus. Dr. Paul J. Magelli served as Parkland's second president from July 1, 1987, to September 14, 1989. After an interim period during which Dr. Robert Poorman directed Parkland, Dr. Zelema Harris became Parkland's third president on July 1, 1990.

Dr. Harris was successful in leading passage of a tax transfer referendum; introducing a team leadership/collaborative style of management; establishing new initiatives such as a retention program; expanding international education; implementing operational planning; and leading support for the Center for Excellence in Teaching and Learning. In addition to her work at Parkland, Dr. Harris served on the board of the American Association of Community Colleges and on the Commission on Institutions of Higher Education of the North Central Association of Colleges and Schools.

Dr. Robert Exley served as the fourth president of Parkland College from July 1, 2006 to May 21, 2007. Dr. Thomas Ramage was named interim president on June 26, 2007, and president on January 16, 2008. Under his leadership, the college saw the successful completion of its Master Plan, which included construction of the Parkhill Applied Technology Center, Fitness Center, Second Stage Theatre, and Student Union.

## Accreditation

Since 1972, Parkland College has been accredited by the Higher Learning Commission, 30 N. LaSalle Street, Suite 2400, Chicago, IL 60602-2504, [www.ncahlc.org](http://www.ncahlc.org), 800/621-7440.

Parkland College is committed to offering quality programs to help students achieve their academic goals. This commitment to quality means the college continually assesses the goals and objectives of each program and gathers data to determine how successful we are in meeting these goals and objectives. The support of our students, alumni, and their employers in helping us gather data for this assessment process is essential. This input helps us to refine and improve programs to meet high standards in a changing world. These assessment activities are summarized in Parkland College's assessment program, a crucial component of an effective institution of higher learning. If you have questions or comments about our academic assessment activities, please contact the vice president for academic services, 217/351-2542.

The following Parkland career programs are accredited by these agencies: Automotive Ford ASSET, Automotive

Service Excellence (ASE) Education Foundation; Automotive Technology, ASE Education Foundation; Dental Hygiene, Commission on Dental Accreditation of the American Dental Association (CODA); Emergency Medical Services, Commission on Accreditation of Allied Health Educational Programs (CAAHEP) and Committee on Accreditation of Educational Programs for Emergency Medical Services Professions (CoAEMSP); Nursing, Accreditation Commission for Education in Nursing (ACEN); Occupational Therapy Assistant, Accreditation Council for Occupational Therapy Education (ACOTE); Radiologic Technology, Joint Review Committee on Education in Radiologic Technology (JRCERT); Respiratory Care, Commission on Accreditation for Respiratory Care (CoARC); Surgical Technology, Commission on Accreditation of Allied Health Education Programs (CAAHEP); Veterinary Technology, Committee on Veterinary Technician Education (CVTEA) and Activities of the American Veterinary Medical Association (AVMA); Welding (lab accreditation as testing facility), American Welding Society. The following courses are approved by state agencies: Certified Nursing Assistant (CNA), approved by Illinois Department of Public Health; Land Surveying, courses accepted by Illinois Department of Financial and Professional Regulation (IDFPR) as compliant with the Illinois Professional Land Surveyor Act.

## Parkland College Association

The purpose of the Parkland College Association (PCA) is to provide advice, counsel, and assistance to the president of the college and to the Board of Trustees in order to advance the mission and purposes of Parkland College. The PCA has the authority and responsibility to participate fully in the formulation and implementation of policies and practices concerning the general development and enrichment of the academic life of the college, the development and review of the curricula of the college, the discussion and resolution of matters of concern to students and staff, and the promotion of cooperation and communication with the student body.

The PCA serves as the instrument of shared governance for the college through open dialogue, recommending policies and procedures, and the substantive work of its many committees, including academic assessment, college planning, curriculum, diversity, support assessment, professional development, student affairs, and sustainable campus.

## Parkland Campus and Facilities

Parkland's unique campus is one of the finest and most advanced community college facilities in the nation. The New York Museum of Modern Art included the college's architectural design in its 1979 "Transformations in Modern Architecture," an exhibit and book featuring examples of outstanding late twentieth-century architecture.

The 255-acre campus is located in the center of District 505, near the intersection of interstate highways 57, 72, and 74 (see maps on pp. 12–13).

The brick exterior walls and sloping roofs of the campus add to the interior design where comfortable furnishings suggest a "home-away-from-home" atmosphere for the many students commuting daily from nearby communities. Special features of the building include slanted, open-ceiling lines; planned intermingling of career and transfer curriculum areas; and faculty-student modules (lounge and study areas located near classrooms and faculty offices). All college facilities are fully accessible to students with disabilities.

Parkland's instructional classroom-laboratory wings, student services wing, and administrative offices are interconnected and joined to the centrally located College Center. This design enables travel between wings and the College Center without going out-of-doors, with the exception of the Donald C. Dodds, Jr. Athletic Center, the Tony Noel Agricultural Technology Applications Center, the Parkhill Applied Technology Center, and Parkland College on Mattis. The interior traffic patterns of the campus promote a mix of people with maximum student and faculty contacts. A close cooperation and working relationship exist between faculty and students in both transfer and technical areas. The overall openness and integration of laboratories and classrooms enhance both kinds of programs.

A new instructional wing was completed in January 2002 and joins the College Center on the first floor and the C Wing through a second floor bridge. Second floor connections to improve student flow between three other wings and the College Center were completed in fall 2001.

The Tony Noel Agricultural Technology Applications Center, on the west side of campus, opened for instruction in February 2001. The multi-purpose facility contains classrooms, computer lab, and a large laboratory for demonstrating agricultural equipment for the Precision Agriculture program to serve the agricultural community in east central Illinois, as well as a training facility for the Diesel Power Equipment Technology programs. The Prairie Gardens Plant Lab opened for horticulture instruction fall semester 2006. A second building on the west side of campus, the 68,000 square foot Parkhill Applied Technology Center opened in fall 2012. In 2007 Parkland acquired the property at 1307–1319 N. Mattis Avenue. The building, called Parkland College on Mattis, is home to Parkland Community Education, the Construction Education Alliance, the Illinois workNet Center, and several Parkland Health Professions programs.

## Center for Academic Success

The Center for Academic Success (CAS) in D120 is Parkland's one-stop learning center providing academic support for all students. CAS offers several kinds of academic and student support to help college students succeed: walk-in learning assistance and tutoring; modules and tutorials; advising and academic coaching; student orientation, advising, and registration (S.O.A.R.) and iConnect peer mentoring. CAS also provides programming focused on first year college success and beyond. Most services are free and available on a walk-in basis or by appointment. For hours, call 217/353-2005 or see [parkland.edu/cas](http://parkland.edu/cas).

## **Child Development Center**

The Child Development Center is an accredited lab school located on the south side of the campus. The center provides a quality, affordable, individualized program for young children and their families in Parkland College District 505. One of the center's goals is to provide developmentally and educationally appropriate activities that meet the social, emotional, physical, and cognitive needs of the individual child. Enrollment is open to children, ages two through five years old, whose parents are residents of District 505 or are employees or students of Parkland College. For tuition rates, payment policies, enrollment procedures, hours, or to submit an online application go to [parkland.edu/childdev](http://parkland.edu/childdev). For other questions, please call 217/373-3777.

## **College Bookstore**

The Parkland College Bookstore is located on the first floor of the Student Union. It offers new and used textbooks, general school supplies, and a wide variety of student-oriented merchandise such as college-imprint sportswear, academically priced computers and related accessories as well as gifts and snack foods. Call 217/351-2212 or visit [parklandbookstore.com](http://parklandbookstore.com) to check selection and book prices, to place an order, or for information about returns, book buyback, or hours.

## **Computer Technology Center**

The Computer Technology Center was created to serve District 505 residents who want to complete computer training courses using a self-paced format. CTC courses are open enrollment, which means students may begin and complete coursework at their own pace. Courses range from keyboarding to advanced-level Microsoft Office applications. Students may visit the open classroom to complete coursework, study online, or both. An instructor is available during open classroom hours (Monday–Thursday, 10 a.m. to 7 p.m.; Friday, 9 a.m. to noon). Students choosing to complete the work online are welcome to come to the open classroom for help. For specific information about courses and hours, call the Business/Computer Science and Technologies department office at 217/353-2099, the CTC director at 217/351-2506, or visit us online at [CSIT.parkland.edu/ctc](http://CSIT.parkland.edu/ctc).

## **Donna Hyland Giertz Gallery**

The Giertz Gallery at Parkland College is located on the first floor of the College Center. It features exhibits of works by local, regional, and national artists. In conjunction with the monthly exhibits, there are gallery receptions and artist talks, offering Parkland students and faculty the opportunity to speak with artists about their work. The gallery has rotating exhibits each year, including a Parkland art faculty exhibit in the fall and two juried student exhibits in the spring. Other exhibitions include solo, two-person, and group exhibitions by nationally recognized artists. The accessible gallery is free and open to the public. For additional information about exhibits and programming, please call the gallery office, 217/351-2485.

## **Library**

Parkland Library connects students with the information they need in school, work, and life. Located on the second and third floors of the College Center, the library offers space for quiet studying, group work, class preparation, and research. The library owns an extensive collection of print and digital books, magazines, newspapers, as well as videos, and other materials. There are over 80 computers with Internet access. Laptops, iPads, Chromebooks, Kindles, chargers and other loanable technology are available for check-out. Librarians teach research and information literacy skills in the 24-seat library classroom (R227), which serves as a quiet open computer lab when not otherwise scheduled. Professional assistance in the use of library resources is available all hours the library is open and online full-text resources are available 24/7. Questions can be sent by e-mail any time to “Ask a Librarian” at [Library@parkland.edu](mailto:Library@parkland.edu) or text 217/615-0079. For more information see the library web page at [library.parkland.edu](http://library.parkland.edu) or call the Research Help Desk at 217/373-3839.

## **Parkland College Theatres**

The Harold and Jean Miner Theatre, a flexible proscenium theatre with 315 seats, is the performance home for Parkland theatre, choral, and instrumental groups and is also used by community arts organizations, speakers, guest professional artists, and theatre classes.

Parkland's Second Stage, a black box theatre, offers a flexible space for student learning and community engagement. More information about theatre facilities and tickets to events can be obtained by calling the ticket office, 217/351-2528 or at [parkland.edu/theatre](http://parkland.edu/theatre).

## **PCTV**

Parkland College Television (PCTV) is a 24-hour cable and online streaming channel that delivers locally-produced educational programming and community interest programming about the college to District 505 households. PCTV also offers satellite programming from Classic Arts Showcase, NASA-TV, and DW-TV. PCTV can be viewed online and over cable on Comcast Cable channel 9, some Mediacom outlets on channel 10, and AT&T Cable channel 99. For additional information call 217/351-2475. PCTV also operates a video production facility that provides training for students and instructional support for faculty.

## **Student Union**

When entering the front door of the Student Union on the east side of campus, students, employees, and visitors step into the middle of an outstanding, student-centered experience from application to enrollment to graduation. Whether meeting with an academic advisor, applying for financial aid, veterans benefits, participating in a student organization, studying, or dining, students enjoy spacious, bright, comfortable surroundings and smooth access to services designed to support their success.

## The William M. Staerkel Planetarium

The William M. Staerkel Planetarium is the second largest planetarium in Illinois. It is home to both a Carl Zeiss M1015 projector and a Digistar 6 full-dome projection system. This well-equipped multimedia facility provides unique educational programs and unusual audiovisual entertainment to the college and the community. Special programs are presented for school groups on weekdays during the school year. Programs for the public are shown on Friday and Saturday evenings. For more information, call 217/351-2446 or visit [parkland.edu/planetarium](http://parkland.edu/planetarium).

## WPCD

WPCD 88.7, the radio voice of Parkland College, broadcasts 24 hours a day, 7 days a week, and streams online worldwide. With a power output of 10,500 watts, its signal covers much of east central Illinois, reaching close to 200,000 people. WPCD gives students the opportunity to participate in daily radio operations and learn about radio and the music industry. WPCD airs a variety of indie alternative college rock with the best hits of alternative music from the '90s, 2000s, and today. For more information call 217/351-2450 or visit [wpcd.parkland.edu](http://wpcd.parkland.edu).

## Parkland College on Mattis

Parkland maintains offices and offers classes, workshops, and other events at facilities located at 1307–1319 N. Mattis Ave., Champaign, IL 61821

## Parkland College Foundation

The Parkland College Foundation was established in 1969 as a nonprofit, tax-exempt corporation to fill several critical needs at Parkland College and the communities Parkland serves. To meet the demands of the constantly changing educational climate, the foundation provides scholarships to deserving students, state-of-the-art technical equipment and program enhancements to the academic departments, capital for additional college buildings and wings, and funds to broaden educational and cultural opportunities and services to citizens of Parkland College District 505. By administering these resources to the college, the foundation seeks to enhance the economic development of communities within Parkland College's district as well as the quality of life of its residents. Inquiries concerning the foundation should be addressed to the foundation executive director or program manager, 217/373-3789 or 217/351-2458. The foundation office is located in the Student Union, U340.

## Foundation Mission

The Parkland College Foundation generates funds to support student scholarships and fund academic excellence to benefit the communities served by Parkland College District 505.

## Foundation Guiding Principles

- Appreciation
- Character
- Commitment
- Fairness
- Integrity
- Stewardship
- Transparency
- Trust

## Parkland College Crest

Parkland College, established 1966

### ***The Lamp of Learning — Parkland College***

Dedicated to teaching — an open, comprehensive community college, giving full regard to the needs of the individual student.

### ***The Torch and Atomic Rings — Learning and the Sciences***

Knowledge, as an ancient tradition, passing man to man, encircled by the symbols of today — achievements of our technical world — seeking order and meaning in learning and in society.

### ***The Olive Branch and the Shield — Peace and Civic Concern***

The individual student becoming an active, responsible, self-disciplined citizen, knowing his or her abilities and interests, preparing for employment and improving skills and understanding; the institution serving in community economic and cultural growth.

### ***The Ear of Corn — The Community and its People***

Reflecting the needs and interests of all its citizens, planted and nourished by a committed public; the greater classroom for learning, a laboratory for out-of-class experiences; the present and future home of its students and alumni.

### ***The Tree on a Hill — The Institution and its Setting***

Growing at the heart of the district and at the high point of the terrain, sensitive to its neighbors and environment, taking as its name “a community of learning in the open, public land.”

## Access to Parkland

The Parkland College campus is located in northwest Champaign near the intersection of interstate highways 57, 72, and 74.

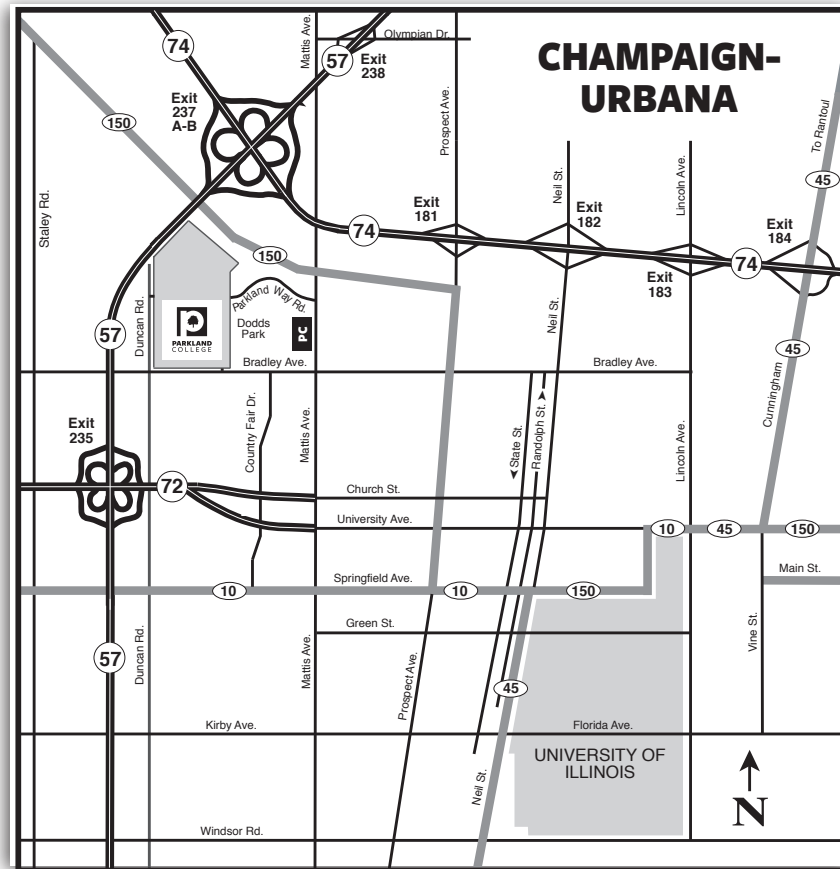

### To reach Parkland from Interstates 57 and 72:

From I-57, take Exit 235A to Champaign;

- On I-72, proceed east into Champaign (I-72 ends in Champaign);
- At the first traffic light, turn left onto Country Fair Drive;
- At the second traffic light, turn left onto Bradley Avenue;
- At the first traffic light, turn right into the Parkland College entrance.

### To reach Parkland from Interstate 74:

- Take Exit 181 to Champaign;
- At the first traffic light, turn south (left from the east and right from the west) onto Prospect Avenue;
- Travel south to Bradley Avenue and turn right;
- At the third traffic light, turn right into the Parkland College entrance.

## Community Education

1315 N. Mattis Ave., Champaign, IL 61821  
217/351-2235 or 217/353-2055,  
[parkland.edu/communityeducation](http://parkland.edu/communityeducation)

Community Education (CE) provides personal and professional development opportunities to transform lives for all ages and stages of life. Services include:

- customized training and solutions for area employers
- professional development for individuals who want to upgrade their job skills or train for a new career, including the Highway Construction Careers Training Program
- personal development classes for all ages, including day trips, international travel, youth programs, and the Traffic Safety Program

**Customized Training and Solutions.** CE works with area employers to provide custom solutions to meet their specific needs such as training, facilitating, individual or group coaching, consulting and assessments which can be provided on- or off-site. Topics include leadership and teambuilding, computer skills, organizational effectiveness, workplace essentials, language skills, quality assurance and project management, workplace safety, and wellness in the workplace.

**Professional Development.** CE offers short-term classes focused on specific skills and competencies for individuals entering or returning to the workforce, changing careers, or wanting to advance or be more productive at work. Classes include:

- Certifications and re-certifications such as CPR for Health-care Providers and Food Service Sanitation
- Continuing education for dental hygienists and assistants, massage therapists, and nurses

- Pre-license education for Real Estate Brokers and Tractor Trailer Driver Training (Class A CDL)
- Professional development and career training such as Computer Applications, Social Media, Leadership, Medical Coding, Pharmacy Technician, Dietary Manager, Unmanned Aerial Systems, and Workplace Safety
- Online career training programs

**Highway Construction Careers Training Program.** A pre-apprenticeship program funded by the Illinois Department of Transportation, designed to prepare individuals to enter into an apprenticeship with any of the trade unions.

**Personal Development.** Noncredit classes for a variety of ages are directed towards individuals interested in pursuing hobbies, exploring new interests, and enriching their personal lives. Short-term classes range from one hour to multiple weeks. Topics include cooking, floral design, photography, woodworking, painting, drawing, glass work, or creative writing. A variety of fitness, wellness, and money management classes keep participants physically healthy and financially sound, and the Traffic Safety Program helps keep drivers safe on the road. For individuals interested in seeing new or familiar places, CE offers monthly travelogues, day trips, overnight adventures, and travel to destinations both stateside and abroad. Online noncredit classes are also available. New subjects and trending topics are added every few months.

**Youth Programs.** Students between the ages of 8 and 18 can explore subjects through hands-on short-term classes during the year or week-long camps during the summer. Classes include SAT/ACT prep, culinary, coding, and art. Spring break and summer camps for students ages 8-13 years old engage youth in hands-on learning and exploration of mathematics, science, engineering, technology, visual arts, languages, writing, drama, cooking, and more. Small class sizes are designed to instill a desire for lifelong learning and are taught by innovative and creative teachers.

## Child Development Center

The Child Development Center is an accredited lab school located on the south side of the campus. The center provides a quality, affordable, individualized program for young children and their families in Parkland College District 505. One of the center's goals is to provide developmentally and educationally appropriate activities that meet the social, emotional, physical, and cognitive needs of the individual child. Enrollment is open to children, ages two through five years old, whose parents are residents of District 505 or are employees or students of Parkland College. For tuition rates, payment policies, enrollment procedures, hours, or to submit an online application go to [parkland.edu/childdev](http://parkland.edu/childdev). For other questions, please call 217/373-3777.

# Admission/Registration Information

## Admission Policy

Admission is open to anyone who is a graduate of an accredited high school or is at least 18 years of age and able to benefit from college-level instruction. Students under the age of 18 who have not earned a high school diploma or GED may request an exception to the admissions policy of the college as follows.

- Students who are attending an accredited high school and are at least 15 years of age should contact Early College Services (U236; 217/353-2663; email [earlycollege@parkland.edu](mailto:earlycollege@parkland.edu)).
- Students aged 15 who are being homeschooled must complete the Underage/Homeschool Enrollment Form prior to registration. This form may be obtained from Early College Services (U236; 217/353-2663). Also see page 52.

All students seeking a credential (degree or certificate) at Parkland must be assessed according to the Comprehensive Assessment Program (see p. 41).

Students who qualify for Adult Education classes are generally ineligible for degree or certificate-seeking status and are given a course enrollee status by the Office of Admissions and Records. However, Adult Education students who are enrolled in the ICAPS program may apply for degree-seeking status. See Assistant Dean, Adult Education (E107) for more information.

Admission to the college does not ensure admission to a particular course or program of study; some students may be required to enroll in specific courses before taking others. Admission to health professions programs is selective; see Health Professions Program Admission information on p. 19.

Because of state regulations, students who apply to Associate in Arts, Associate in Science, Associate in Engineering Science, or Associate in Fine Arts degree transfer programs will be accepted to the college but may be admitted to the program on a provisional basis until certain minimum entrance requirements are satisfied. See Transfer Program Admission on p. 19.

Should it be necessary to limit enrollment, priority will be given to residents of Parkland College District 505.

International students are welcome at Parkland. The college is authorized under federal law to enroll non-immigrant students. Prospective international students should contact the international admissions advisors in U238 (217/351-2890) to discuss eligibility for admission.

Parkland does not discriminate in the admission of students on the basis of race, color, national origin, age, gender, gender expression, sexual orientation, religion, veteran status, Vietnam veteran era, marital status, ancestry, or disability. Information regarding admission to the college and to

specific programs may be obtained from Admissions and Records (U214; 217/351-2482).

Each student is encouraged to consult with a Parkland admissions advisor in the selection of an academic program consistent with the student's interests and abilities.

## Transfer Program Admission

Illinois state law (Public Act 86-0954) specifies that 15 units of high school course work or the equivalent are required for admission to all public institutions. This act affects students at Parkland College who wish to be admitted to the following transfer programs: General Education Core Curriculum (GECC) certificate, Associate in Arts (A.A.), Associate in Science (A.S.), Associate in Engineering Science (A.E.S.), or Associate in Fine Arts (A.F.A) degree programs.

Parkland College's minimum entrance requirements for students who wish to enroll in the GECC certificate, A.A., A.S., A.E.S., or A.F.A. degree programs are 15 units of high school course work categorized as follows:

- Four years of English – written and oral communications, literature
- Three years of mathematics – including Algebra I, geometry, and Algebra II
- Two years of science – laboratory science
- Two years of social sciences – history and/or government
- Two years of electives – foreign language, music, art, or vocational education
- Two flexible academic units – two additional courses (years) from any of the science, social studies, and/or electives categories in addition to approved courses in mathematics and English such as advanced mathematics, computer science, journalism, speech, and creative writing

This requirement pertains only to the GECC certificate and the A.A., A.S., A.E.S., and A.F.A. degree transfer programs; it does not affect the career programs (A.A.S. and career certificates) or the Associate in General Studies (A.G.S.) degree program.

## Health Professions Program Admission

Admission to Parkland's health professions programs (Dental Hygiene, EMT-Basic, EMT-Paramedic, Massage Therapy, Medical Assisting, Nursing, Practical Nursing, Occupational Therapy Assistant, Radiologic Technology, Respiratory Care, Surgical Technology, and Veterinary Technology) involves special procedures and deadlines. Students interested in applying to a health professions program should obtain a copy of the application checklist explaining admission procedures for their specific program from the Office of Admissions and Records (U214) or from the program webpage at [parkland.edu/academics/departments/health](http://parkland.edu/academics/departments/health). The application deadline for most health professions programs is March 1 prior to fall semester enrollment. Programs with

spring semester admissions also have an October 1 application deadline.

Most programs require a \$10 nonrefundable processing fee that must be submitted with the specific program application checklist. The application will be processed only after this fee has been paid. This fee will be assessed each time the student submits an application checklist. NOTE: Students seeking admission to Kankakee's Medical Laboratory Technology program must apply through Kankakee Community College.

Students seeking admission to a health professions program are encouraged to submit all required credentials as early as possible. Once the selection process begins, qualified applicants will continue to be accepted on a monthly basis until programs are filled. It should be noted that many programs fill by the application deadline.

## Background Checks

**Licensure.** Students considering application to a health professions program need to be aware of potential legal limitations on licensure. Upon making application for the licensure exam, graduates may be required to provide personal history information by answering the following questions:

1. Have you been convicted of any criminal offense in any state or in federal court (other than minor traffic violations)?
2. Do you now suffer, have you suffered from, been diagnosed as having, or been treated for any disease or condition which is generally regarded by the medical community as chronic, i.e., (1) mental or emotional disease or condition, (2) alcohol or other substance abuse, (3) physical disease or condition that presently interferes with your ability to practice your profession?
3. Have you been denied a professional license or permit, or privilege of taking an examination, or had a professional license or permit disciplined in any way by any licensing authority in Illinois or elsewhere?
4. Have you ever been discharged other than honorably from the armed service or from a city, county, state, or federal position?
5. Are you a U.S. citizen or a lawfully admitted alien of the United States?

The Illinois Nurse Practice Act and Nursing Rules state that the Illinois Department of Professional Regulation may refuse to issue a license because of any "deceptive statement in any document connected with the practice of nursing pursuant to this Act."

**Employment.** Students should also be aware that many health care institutions now require drug and alcohol screening as well as a national criminal background check as part of their employment processes.

**Nurse Assistant program.** Nurse Assistant (CNA) course (NAS 111) students must complete and pass a live scan fingerprint background check prior to enrolling in the course.

**Clinicals.** Most health professions programs require students to pass a background check to be eligible for clinical.

More information can be found at [parkland.edu/academics/departments/health](http://parkland.edu/academics/departments/health).

## Application Procedure

### Degree/Certificate Students

The applicant who intends to earn a degree or certificate from Parkland must submit the following documents to the Office of Admissions and Records and complete the admission process before registering for courses:

1. A completed Admission Form, which is available at the Office of Admissions and Records (U214; 217/351-2482) or online at [parkland.edu/getstarted](http://parkland.edu/getstarted).
2. An official high school transcript forwarded by the high school last attended or a General Educational Development (GED) Score Report.
3. Official transcripts forwarded from colleges and universities previously attended, if credit earned there is to be used toward a degree or certificate at Parkland. Transfer credit may be accepted from another college or university accredited by a regional accrediting association (e.g., Higher Learning Commission). If the credit is not earned from a regionally accredited institution, the request for transfer credit is generally denied. In addition, for credit to be applied toward a degree or certificate at Parkland, the credit must have been earned at the time the institution was accredited. For more information on the transfer of credits process, see page 49.

It is recommended that the applicant also submit ACT/SAT scores forwarded from the American College Testing program/College Board. Tests scores are sent automatically to the college if the applicant lists Parkland as a college choice (ACT: code 1015 or SAT: code 1619). While not required for admission, the submission of ACT/SAT scores is recommended because they play a major role in determining academic readiness for college-level coursework and can be used as an aid in the selection of a program of study at Parkland College.

### Non-degree Students

The applicant who does not intend to earn a degree or certificate from Parkland must submit an Admission Form to the Office of Admissions and Records and complete any required assessment before registering for courses. **Students enrolling as non-degree are not eligible for financial aid.** To change from non-degree to degree-seeking, a new application must be filed and supporting documentation presented (see Application Procedure Degree/Certificate Students).

### Returning Students

Before registering for classes, students who have discontinued their attendance at Parkland should make an

appointment with an admissions advisor (U214; 217/351-2482) to begin the reinstatement process.

## International Students

The international admissions advisors provide admission services to all international students. For further information and assistance, call 217/351-2890. Academic advising and assistance with placement into Pre-College English as a Second Language (ESL) or College Composition for Non-Native Speakers of English is provided by the international student academic advisor in Counseling Services. For more information, call 217/351-2219.

## Advising Guidelines

Academic advising at Parkland is a shared responsibility. The faculty, department chairs, the Center for Academic Success, and Counseling Services all share the task of providing academic advice to students.

All Parkland students who are seeking a degree or certificate and who have not yet earned 30 hours of credit or are in selected programs regardless of number of hours earned must obtain advising prior to registering for classes. The following guidelines identify whom students should see for advice prior to registration:

- Students enrolled in an A.A.S. or Certificate program should see the faculty program advisor for their program or the appropriate department chair. If students are in a career program and are currently enrolled in a Critical Comprehension Skills (CCS) class, they should seek advice from Counseling Services.
- Students enrolled in an A.A., A.S., A.E.S., or A.F.A. transfer program may seek advice from a faculty program counselor or an advisor. Agriculture transfer students must see a faculty program advisor or the Agriculture/Engineering Science and Technologies department chair. Students enrolled in Fine and Applied Arts transfer programs (A.A. and A.F.A.) as well as A.A.S. programs should see the faculty program advisor for their program or the department chair.
- Students enrolled as applicants in a health professions program may seek advice from the Counseling Services.
- Students currently enrolled in CCS 098 should seek advice from the Center for Academic Success. Students currently enrolled in CCS 099 should seek advice from the Counseling Services or the Center for Academic Success.
- Students who are new to Parkland and are seeking a degree or certificate must see a counselor or advisor. New student athletes receive initial academic advice through the athletic department.

Parkland students who are not seeking a degree (course enrollees) and students who have earned more than 30 credit hours are not required to see a faculty program advisor, department chair, advisor, or counselor prior to registration. However, students in the Health Professions

programs must see a faculty program advisor regardless of the number of credit hours they have earned.

## Registration Procedure

### Assessment and Registration

Before new students can register for classes, their reading, writing, and mathematics skills must be assessed. See the Comprehensive Assessment Program (CAP) on p. 41 Using their placement test results and in consultation with an advisor or counselor, students then select and reserve courses. All degree-seeking students are required to complete S.O.A.R.—Student Orientation, Advising, and Registration. Registration is complete upon payment of tuition and fees.

### Registration Guidelines

Students are encouraged to plan for classes and register early. Check class schedule for specific dates and times.

### Options for Taking a Class Without a Grade

Students who wish to take a class without a letter grade being entered on the transcript have two options. They may audit the class or take the class on a credit/no credit basis. Students are advised to speak with an academic advisor and a financial aid advisor about the possible impact of either option on graduation requirements and on financial aid awards prior to requesting audit or credit/no credit status in a class.

### Auditing a Class

A student may choose to enroll in a class as an auditing student. To audit a class means that the student attends the class with the intent of learning the class content but is not evaluated on the attainment of student learning outcomes for the class. No credit is granted and no quality points towards the student's cumulative grade point average are earned.

1. Tuition and fees: The auditing student pays for the course based on residency rate and additional course fees.
2. Eligibility: The student must meet the admission requirements for the college as well as the placement requirements and prerequisites for the course.
3. Consulting with faculty: A student who wishes to audit a class must speak with the class instructor prior to registering as an audit student. The instructor will discuss expectations for the audit. The student will sign an audit contract form confirming agreement to class expectations.
4. Registration: The student must make the decision for auditing the class within the first week of the class session and bring a copy of the signed audit contract to the Admissions Office. Once registered, no reversal to credit status is permitted.

### **Credit/No Credit Status**

A student may take a class on a credit/no-credit (CR/NC) basis. Only one such course may count toward a degree or certificate. The academic department may require that certain required program courses be only taken for a quality grade.

1. Tuition and fees: The student choosing the credit/no credit option pays for the course based on residency rate and additional course fees.
2. Eligibility: The student must meet the admission requirements for the college as well as the placement requirements and prerequisites for the course.
3. Consulting with faculty: A student who wishes to take a class on the credit/no credit must speak with the class instructor prior to registering as a credit/no credit student. The instructor in consultation with the department chair will discuss class expectations and levels of proficiency that constitute credit for the course. The student will sign a credit/no credit contract form confirming agreement to class expectations and proficiency levels.
4. Registration: The student must make the decision for the credit/no credit option within the first week of the class session and bring a copy of the signed credit/no credit contract to the Admissions Office. Admissions will make a change in the student's enrollment status in the class. Admissions keeps a copy of the contract and makes a notation in the student's file. Once registered as a credit/no credit student, the student may not return to the conventional grading system (A,B,C,D, F) for the course.

### **My.parkland.edu**

Parkland College's online portal, my.parkland.edu, allows students to register and obtain information even when campus offices are closed. The registration and drop options are not available at all times.

### **Student Responsibility**

Students bear full responsibility for any complications that arise because of their failure to follow established policies, procedures, course requirements and prerequisites, or the advice of counselors or academic advisors. The college does not consider lack of student awareness as sufficient reason to waive any requirement or make exception to any policy or practice.

### **Class Schedule Information**

Detailed registration procedures are described in the Parkland College class schedule published for each semester. Students are responsible for becoming familiar with all dates, deadlines, and procedures related to registration.

## **Release of Information about Students**

### **Student Records**

Educational records are maintained by the Office of Admissions and Records in U214. In accordance with the college policy and state and federal regulations, student records are maintained in a manner that protects the privacy of students and provides eligible students access to the information recorded. For further information, consult the Family Educational Rights and Privacy Act (FERPA) — What You Should Know booklet available in the Office of Admissions and Records.

### **Privacy Act**

The Family Educational Rights and Privacy Act (PL 93-380) includes provisions that protect the privacy of students. These include: 1) The right to inspect and review their education records within 45 days of the day the college receives a request for access. 2) The right to request the amendment of their education records that they believe are inaccurate. 3) The right to consent to disclosures of personally identifiable information contained in their education record, except to the extent that FERPA authorizes disclosure without consent. An exception is disclosure to school officials within the college who have a legitimate educational interest. 4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the college to comply with the requirements of FERPA.

When a student seeks or intends to enroll in another academic institution, officials of that institution may request educational records of the student from the college and the college may disclose these records without the consent of the student.

### **Public Directory Information**

Parkland College defines public directory information as name; address; telephone numbers; major field of study; dates of attendance; enrollment status (full- or part-time); degrees, honors, certificates received or anticipated; e-mail address; weight and height if athletic team member; participation in officially recognized activities and sports; institutions previously attended; photo ID.

One provision of the Family Educational Rights and Privacy Act requires educational institutions to allow students who are currently enrolled to suppress certain information regarded as public directory information. Only a student who is currently enrolled at Parkland College may suppress the above public information items by completing and submitting a Public Directory Information form *prior to the second week of class (fifth day of class for summer sessions)*. Forms may be obtained from the Office of Admissions and Records in U214.

## Concurrent Enrollment at Parkland and the University of Illinois

The University of Illinois at Urbana-Champaign (Illinois) and Parkland College have a concurrent enrollment agreement that permits Parkland students to enroll in university courses that are not available at Parkland. Similarly, Illinois students may enroll in selected Parkland courses. Enrollment is on a space-available basis at each institution.

During each semester for which concurrent enrollment is sought, the student must register for at least as many (and normally more) semester hours at the principal institution and meet the admission requirements of the cooperating college. Students are required to pay the tuition and fees regularly assessed at each institution in accordance with the number of semester hours taken. The application fee for the University of Illinois, however, will be waived for Parkland students. International students will be assessed tuition and fees according to the residency regulations as established by Parkland College. To determine the appropriate rate of tuition and fees, international students should contact the International Admissions Office (U238; 217/351-2890) for information on residency classification before registering.

### Parkland Students

Parkland students wishing to enroll on a concurrent basis at the University of Illinois should do the following for each semester they wish to attend:

1. Enroll at Parkland for the semester being considered.
2. Consult their counselor or advisor to discuss the procedures and advisability of concurrent enrollment and determine the course desired and its availability.
3. Ask the director of Parkland's Counseling Services (U276) to sign the completed Concurrent Enrollment form.
4. Ask the appropriate assistant or associate dean of the University of Illinois college which offers the desired course to sign the completed Concurrent Enrollment form.
5. Once the request is approved, the Concurrent Enrollment form and a completed non-degree application for admission must be presented to the Office of Admissions at the University of Illinois, 901 W. Illinois, Urbana, Illinois.
6. Students seeking concurrent enrollment may register during the late registration period. If registration is completed by the end of the first week of late registration, the late registration fee will be waived.
7. This procedure must be followed at the beginning of each semester the student wishes to concurrently enroll. If a student was concurrently enrolled during the previous semester at Illinois, the student may not need to complete a non-degree application for admission. (Check with the University of Illinois Office of Admissions.)

### University of Illinois Students

University of Illinois students who plan to enroll on a concurrent basis at Parkland College should do the following for each semester they wish to attend:

1. Enroll at the University of Illinois for the semester being considered.
2. Consult their academic advisor to discuss the procedures and advisability of concurrent enrollment and determine the course desired and its availability.
3. Complete the Concurrent Enrollment form on the Parkland College website, [parkland.edu/uiuc](http://parkland.edu/uiuc). Submit the completed Concurrent Enrollment form electronically with the student's Academic History attached.
4. Students seeking concurrent enrollment may register during the open registration period for the appropriate semester.
5. This procedure must be followed at the beginning of each semester the student wishes to concurrently enroll. If a student was concurrently enrolled during the previous semester at Parkland College, the student will not need to complete an application for admission.
6. To receive fee adjustment, students must submit concurrent enrollment forms within 30 days of the beginning of the semester in which the student enrolls. Forms submitted after that time will not be valid for fee adjustment purposes.

## Reserve Officers Training Corps (ROTC) Registration

The University of Illinois at Urbana-Champaign has three ROTC detachments (Air Force, Army, and Navy). Parkland College students who are interested in enrolling for ROTC classes at the university may do so through the concurrent enrollment agreement between Parkland College and the University of Illinois. The Concurrent Enrollment (ROTC) form is found at [parkland.edu/admissions/forms](http://parkland.edu/admissions/forms).

Students who have enrolled in first- and second-year ROTC classes while attending Parkland College, intend to transfer to an Illinois college or university, and plan to commit to a third- and fourth-year Air Force, Army, and Naval ROTC program may be eligible for scholarships. For additional information, inquire at the ROTC office on the University of Illinois Urbana-Champaign campus.

# Financial Information

## Tuition and Fees

### General Information

Parkland College is a public institution supported by both district and state tax funds. Because of this, district resident students can further their education without incurring large financial obligations. Tuition for residents of District 505 is a two-tiered system.

- **Tier One in-district tuition rate:** District 505 residents will pay \$148.50 per credit hour. The following fees per credit hour are charged in addition to tuition: \$1.75 activity fee, \$1.75 registration fee, \$5 facility fee, and \$14 technology fee. District residents will pay a total of \$171 per credit hour in tuition and fees. Most credit courses are charged at the Tier One rate.
- **Tier Two in-district tuition rate:** Tier Two rates are reserved for specialty courses in high-cost career programs. Classes from Aviation, Ford Motor ASSET, Case New Holland Technician, Dental Hygiene, Practical Nursing, Nursing, Occupational Therapy Assistant, Respiratory Care, Surgical Technology, Veterinary Technology, and Radiologic Technology programs with the following course prefixes—AFM, ALV, AVI (except AVI 111, AVI 112, and AVI 113), CNH, DHG, LPN, NUR, OTA, RTT, SUR, VTT, and XRA—are charged at the Tier Two rate of \$225 per credit hour. The following fees per credit hour are charged in addition to tuition: \$1.75 activity fee, \$1.75 registration fee, \$5 facility fee, and \$14 technology fee. District residents will pay a total of \$247.50 per credit hour in tuition and fees at the Tier Two rate.

Tuition and fees listed in this catalog are subject to change by the Parkland College Board of Trustees.

In addition, course fees are charged for most courses to help defray costs of supplies, equipment, maintenance, and unusual expenses associated with the course. The additional course fee is indicated for each course at [parkland.edu/findaclass](http://parkland.edu/findaclass).

Note: All classes taken in preparation for the GED test are free. Refer to the section on Adult Education on p. 53 for more information.

**Financial responsibility.** When students register for classes, they agree to assume financial responsibility for all related tuition and fee charges billed to their student accounts. Students should not assume that classes are automatically dropped for non-payment or non-attendance. If they decide not to attend classes, they must officially drop the classes within the stated refund period to ensure cancellation of tuition and fees. Classes not dropped will be graded and students are responsible for all associated tuition and fees.

Payments for tuition and fees (or arrangements to pay their account balances with Financial Aid, Nelnet Deferred

Payment Plan, and/or outside agencies) must be made by the published deadlines. Students are responsible for making these financial arrangements and staying informed of their account balances. Students receiving, or anticipating receipt of, tuition assistance from agencies outside of Parkland must have written authorizations from the agency on file at the Cashier Office prior to registration or must have the written authorization in hand when they come to register. Students should renew authorizations for tuition assistance through the agency at the end of each authorized period. They will be required to pay their tuition and fees when authorizations for tuition assistance expire.

If Cashier Office records show that a student owes money to the college, college policy prohibits the release of grades, academic records, and processing of graduation for that student. In addition, the students will be denied permission to register for classes. A student who owes money to the college should contact the cashier (U250; 217/351-2233) for more information.

**Service fees.** A service fee is applied when a debit/credit card is used to pay tuition, fees, and other charges. In addition, a service charge is assessed for all checks returned by the bank for nonsufficient funds. Failure to pay nonsufficient funds checks could result in students being administratively withdrawn from their classes.

### Nelnet Deferred Payment Plan

Students may sign up with Nelnet to budget tuition and fees for up to five months per semester, interest-free. Payments are automatically deducted from checking, savings, or credit card. For more information see [parkland.edu/nelnet](http://parkland.edu/nelnet) or call the Cashier Office at 217/351-2233.

### Course Repeat Fee

Illinois community colleges receive state apportionment support for each student who is in certified attendance at midterm in a course plus one repeat enrollment under certain conditions. However, when a student exceeds the limit of Illinois Community College Board-approved repeat enrollments in a course, the student will be assessed a course repeat fee equal to the state apportionment for the course.

### Non-repeatable Courses

If a student earns an **A**, **B**, or **C** in a course identified as non-repeatable and wishes to repeat the given course, the student will be assessed a course repeat fee in addition to the tuition and course fees.

For a grade of **D**, **F**, or **W** (any grade other than A, B, or C) in first enrollment, the student is not assessed a course repeat fee for the first repeat, but is assessed the course repeat fee for the second or any subsequent repeat of the course.

### Repeatable Courses

The student will be charged a course repeat fee in addition to the tuition and course fees as soon as the repeat-enrollment limit has been exceeded for the given course. Exceptions may be recommended by the appropriate division dean.

## Tuition and Fee Charges

<i>Residence Classification for On-Campus Classes</i>	<i>Charge Per Credit Hour</i>
Resident of District 505* —Tier One rate . . . . .	\$171
Resident of District 505—Tier Two rate** . . . . .	\$247.50
Nonresident of District 505 but resident of Illinois . . . . .	\$386
Non-resident of Illinois including international . . .	\$531
Nonresident of District 505 in Ford ASSET and Case New Holland programs. . . . .	\$247.50
Nonresident of District 505 but resident of the U.S. in Aviation . . . . .	\$247.50
International rate for Aviation. . . . .	\$531
<i>Residence Classification for Online Classes</i>	<i>Charge Per Credit Hour</i>
Resident of District 505—Tier One rate. . . . .	\$171
Resident of District 505—Tier Two rate** . . . . .	\$247.50
Nonresident of District 505 but resident of Illinois . . . . .	\$247.50
Nonresident of Illinois including international . . .	\$302.50

\* See District 505 map on p. 12

\*\* The following course prefixes are charged the Tier Two rate: AFM, ALV, AVI (except for AVI 111, AVI 112, and AVI 113), CNH, DHG, LPN, NUR, OTA, RTT, SUR, VTT, and XRA

## Residence Classification

A resident of District 505 is one who has established a permanent dwelling place (domicile) in the district and shows evidence of continuing intent to remain in the district. Individuals must prove they reside in District 505 for other than educational purposes, and if they are under 21 years of age, must prove they are independent of parents or guardians. A map of District 505 appears on p. 12. Evidence of the applicant's residency should be submitted to the Office of Admissions and Records.

A student who takes exception to nonresidency ruling should pay the applicable fee and then file an Application for Change of Residence Classification, claiming a refund of the portion in excess of the resident rate. Appeals must be made within 30 calendar days (15 days for summer terms) from the date instruction begins for the term for which the rate is assessed. Requests for current semester consideration filed after the 30 calendar day period will not be accepted. All appeals must be accompanied by documentation to support the request. A refund will be provided only if a change of residence classification is granted.

Information on residence classification is available from the Office of Admissions and Records (U214) and online.

## Nonresident Students

Illinois students who are not residents of District 505 pay an additional charge to cover the difference between the regular tuition and state support and what it costs the college to provide instruction. For the 2019–2020 academic year, Illinois students who are not residents of District 505 will be

assessed an additional \$215 per credit hour. For out-of-state and international students, the total additional assessment is \$360 per semester hour.

## Tuition Under the Career Agreement

Illinois students who are not residents of District 505 and are admitted into a Parkland career program may be eligible to pay in-district tuition and fees under the Career Agreement among participating Illinois community colleges. For information about the rules and procedures on how to apply for Career Agreement tuition benefits, see page 52.

## Tuition for Senior Citizens

Residents of District 505 who are 65 years of age or older may enroll in classes (excluding workshops and noncredit classes) by paying a semester registration fee of \$5 in addition to any course fee required. Details of the program may be obtained from the Office of Admissions and Records.

## Refund Policies: Tuition and Fees

- There will be a full refund of tuition and fees for any course cancelled by the college.
- No refund will be granted when a student is dismissed or suspended from the college for disciplinary reasons.

A student who believes an exception should be made to the refund policy should complete a Request for Billing Adjustment form available from the cashier (U250).

## Credit Courses

The following refund policies apply to fall and spring full-semester and part-semester courses and summer courses.

- A 100 percent refund of tuition and fees will be made if an official drop without record occurs during the first week of the class session regardless of when the first class meeting is scheduled. (See WebAdvisor in my.parkland.edu for specific dates.)
- No refund of tuition and fees will be made for official withdrawal from credit courses after the first week of the class session.

## Noncredit Courses

- There will be a full refund for any noncredit workshops/courses cancelled by the college.
- A 100 percent refund of tuition will be made if an official drop is made before the first day of the workshop/course.
- No refund will be made if the drop is made after the workshop/course has started.

## American Opportunity Tax Credit and Other Educational Tax Benefits

The American Opportunity Tax Credit originally modified the existing Hope Credit for tax years 2009 and 2010. This was later extended through 2018, making the benefit available to a broader range of taxpayers, including those with

higher incomes and those who owe no tax. It also adds required course materials to the list of qualifying expenses and allows the credit to be claimed for four post-secondary education years instead of two. There are a variety of tax credits, deductions, and savings plans available to taxpayers to assist with the expense of higher education.

- A tax credit reduces the amount of income tax a student or family may have to pay.
- A deduction reduces the amount of personal income that is subject to tax, thus generally reducing the amount of tax the student may have to pay.
- Certain savings plans allow the accumulated interest to grow tax-free until money is taken out (known as a distribution), or allow the distribution to be tax-free, or both.
- An exclusion from income means that the student won't have to pay income tax on the benefit the student is receiving, but the student will also not be able to use that same tax-free benefit for a deduction or credit.

Other tax benefits include the Lifetime Learning Credit, Exemption of Employer-Provided Assistance, Exemption of Scholarships and Tuition Remission, and Deduction of Student Loan Interest. Visit the Tax Benefits for Education: Information Center online at [irs.gov](http://irs.gov) for more information.

## Financial Assistance

Parkland College administers comprehensive financial aid programs that include grants, loans, scholarships, and part-time employment. The purpose of these programs is to assist students who, without such aid, would be unable to attend college.

However, Parkland strongly believes that students and their families have primary responsibility for providing financial support in acquiring a college education. Information may be obtained from the Office of Financial Aid and Veteran Services (U286; 217/351-2222) or by visiting [parkland.edu/financialaid](http://parkland.edu/financialaid).

### Eligibility

To be eligible for most financial assistance programs from Parkland, a student must:

1. Be degree-seeking and enrolled or accepted into an eligible degree or certificate program at Parkland.
2. Complete a Free Application for Federal Student Aid (FAFSA) and list Parkland as one of the school choices. The FAFSA may be completed online at [www.fafsa.gov](http://www.fafsa.gov). Campus-based aid is distributed to eligible applicants on a first-come, first-served basis. Parkland's school code is 007118.
3. If requested, forward to the Office of Financial Aid and Veteran Services signed copies of requested verification forms, applicant's federal tax transcript and, if a dependent, his or her parents' federal tax transcript. Students and parents who complete the FAFSA using the IRS Data Retrieval Tool may not be required to submit federal tax transcripts.

4. Maintain satisfactory academic progress. (see p. 28)
5. Demonstrate financial need. Financial need is considered to be the difference between one academic year's educational expenses (tuition, books, fees, room and board, commuting costs, etc.) and the applicant's resources for the same period (aid from parents, savings, trusts, grants, personal earnings, etc.) as documented in the applicant's Free Application for Federal Student Aid.

## Student Rights and Responsibilities

Some important factors should be considered when contacting Parkland for information concerning enrollment. Education is a large investment of time, money, and effort, and every student should carefully evaluate his or her potential commitment. In making this decision, the student should find out about the school's academic programs, facilities, cost, job placement services, refund policy, and financial aid programs.

The student has the right to ask the college:

- what the cost of attending is and what the refund policy for students who drop or withdraw is
- what financial assistance is available, including information on all federal, state, local, private, and institutional financial aid programs
- what the procedures and deadlines for submitting applications for each available financial aid program are
- what criteria are used to select financial aid recipients
- how it determines financial need, that is, how costs (tuition and fees, room and board, travel, books and supplies, and personal and miscellaneous expenses) and what resources (such as parental contribution, other financial aid, assets, etc.) are considered in the calculation of need
- how much of a student's financial need, as determined by the institution, has been met
- to explain each type and amount of assistance in a financial aid package
- in the case of a loan, what the interest rate is, the starting date of repayment, the duration of repayment, and any cancellation and deferment provisions
- in the case of work-study, the type of job available, its working hours, duties, and the rate, time, and frequency of payment
- to reconsider a financial aid package, if a mistake has been made
- how the school determines if a student is making satisfactory progress and the consequences of unsatisfactory progress
- what special facilities and services are available to a student with disabilities

Along with these consumer rights, students must realize there are responsibilities assumed in order to qualify for and receive any award.

It is the student's **responsibility** to:

- review and consider all information about a school's program before enrollment
- pay special attention to the application for student financial aid, completing it accurately and submitting it on time to the right place (errors can delay financial aid payments)
- provide all additional documentation, verification, corrections, and/or new information requested by either the Office of Financial Aid and Veteran Services or the agency to which the application was submitted
- read, understand, and keep copies of all forms that must be signed
- accept responsibility for the promissory note and all other agreements that are signed
- notify the lender, in the case of a loan, of changes in name, address, or educational status
- perform in a satisfactory manner the work that is agreed upon in accepting a Federal Work-Study job
- know and comply with the school's refund/repayment policy
- know and comply with the school's satisfactory progress policy (see p. 28) for financial aid recipients

### Release of Financial Information

The Office of Financial Aid and Veteran Services will release information about the financial status of a student to those parties within the college concerned with financial welfare as related to the student's attendance at Parkland. Inquiries from off-campus agencies and individuals such as landlords will be answered only if the student has completed a Permission to Release Student Record form, which is available from the Office of Financial Aid and Veteran Services in U286.

### Major Financial Aid Programs

Parkland administers a variety of federal and state programs, along with many special scholarships just for Parkland students.

**Monetary Award Program (MAP).** The MAP is awarded by the Illinois Student Assistance Commission (ISAC) and is designed to pay tuition and mandatory fees at Parkland for Illinois students, subject to funding levels by the state of Illinois.

**Federal Pell Grant.** The Federal Pell Grant is designed to help pay college-related expenses. The exact dollar award is determined by the student's class load and the Expected Family Contribution (EFC) as calculated by the federal government.

NOTE: The amount of Federal Pell Grant funds a student may receive over the student's lifetime is limited by a new federal law to the equivalent of six years of Pell Grant funding.

**Federal Work-Study (FWS).** As a campus-based program, FWS is awarded through the Office of Financial Aid and Veteran Services in the form of part-time employment.

To continue participating in FWS students must be enrolled in at least six credit hours during the regular academic year and have a 2.0 GPA. The actual FWS award is based on demonstrated financial need.

**Federal Supplemental Educational Opportunity Grant (FSEOG).** As a campus-based program, the SEOG is award-ed to students who have exceptional financial need. SEOG awards depend on the amount of funds available.

**William D. Ford Direct Loan Program.** Students enrolled in eligible college transfer or vocational/technical programs may apply for this loan. Depending upon demonstrated financial need and academic program length, dependent/independent freshman students may borrow up to \$5,500/\$9,500. Dependent/independent sophomores may borrow up to \$6,500/\$10,500 with demonstrated financial need. Repayment begins six months after the student drops below half-time student status, but there are deferment provisions. Monthly repayment varies with the total amount borrowed.

Application for the Direct Loan at Parkland begins when applying for financial aid on the Free Application for Federal Student Aid. All applicants must have a Federal Pell Grant eligibility determination made before loan processing can be completed. First-time borrowers must complete loan entrance counseling before receiving their first check. Direct loans are made through the U.S. government.

NOTE: If a student is a first-time borrower on or after July 1, 2013, there is a limit on the maximum period of time (measured in academic years) that the student can receive Direct Subsidized Loans. This time limit does not apply to Direct Unsubsidized Loans or Direct PLUS Loans. If this limit applies to a student, the student may not receive Direct Subsidized Loans for more than 150 percent of the published length of the student's program. This is called the "maximum eligibility period." A student's maximum eligibility period is based on the published length of the student's current program. The student can find the published length of any program of study in the college catalog.

**Direct Parental Loan for Undergraduate Students (PLUS).** PLUS loans are available to qualifying parents of dependent students who are enrolled at least half-time. Repayment begins within 60 days of the final PLUS disbursement unless deferment is requested. Application for the Direct PLUS loan begins when completing a PLUS Application, which is available online at [www.studentloans.gov](http://www.studentloans.gov). Direct PLUS loans are made through the U.S. government.

**Parkland College Foundation Scholarships/Special Scholarships.** Students may also apply for special scholarships and scholarships available through the Parkland College Foundation. A list of these scholarships begins on p. 31.

### Selective Service Registration Status

Under Title IV of the Higher Education Act of 1965 as amended, any person required to register with selective service who fails to do so is ineligible for federal and state

financial aid. All male U.S. citizens born after December 31, 1959, who are 18, but not yet 26 years old are required to register.

Those persons not required to register with selective service must, nevertheless, indicate why they do not have to be registered. These persons include members of the Armed Forces on active duty, lawful non-immigrants on visas, incarcerated persons, those continually confined to a hospital or residence, and U.S. citizens or immigrants who are born male and have changed their gender to female.

### Retaking Coursework

In accordance with Part 668 Student Assistance General Provisions Retaking Coursework (§ 668.2), upon successful completion of a class (with a D or better), students may repeat the course once and receive financial assistance.

### Tax Reform Act of 1986 and Financial Aid

For tax years beginning on or after January 1, 1987, portions of any financial aid awards (excluding loans) not used directly for tuition and course-related expenses are considered taxable income by the IRS.

Financial aid recipients are encouraged to confer with the Internal Revenue Service or an income tax consultant regarding their potential tax liability. For more information, visit the Tax Benefits for Education: Information Center at [www.irs.gov/uac/Tax-Benefits-for-Education:-Information-Center](http://www.irs.gov/uac/Tax-Benefits-for-Education:-Information-Center)

### Satisfactory Academic Progress Policy for Financial Aid Recipients

In accordance with the U.S. Department of Education, Parkland College is required by federal regulations (Federal Regulations 34CFR Parts 668.32f and CFR 668.34) to establish satisfactory academic progress standards for federal and state financial aid recipients enrolled in eligible degree and certificate programs. These minimum standards ensure that only those recipients demonstrating satisfactory progress toward the completion of their educational objective continue to receive financial assistance.

The following are minimum standards required by a student to be eligible for the following types of student financial aid regardless if a student has previously received student financial aid: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study Program (FWS), Federal Direct Stafford/Ford Loans, Federal Parental Loan for Undergraduate Students (PLUS), and Illinois Monetary Award Program (MAP).

#### Minimum Standards Regarding Maximum Hours Attempted

- Students enrolled in eligible *degree programs* cannot exceed 150 percent of the number of credits needed to complete the program. Attempted hours include all Parkland 100–299 level classes, developmental coursework, repeated hours, all transfer credit, military credit and proficiency exam credit. Withdrawals, failures, incompletes,

and “N” grades are also considered attempted hours. Note: Military Withdrawal grades are excluded from attempted hours.

- Students enrolled in eligible *certificate programs* cannot exceed 150 percent of the number of credits needed to complete the program. Attempted hours include all Parkland 100–299 level classes, developmental coursework, repeated hours, all transfer credit, military credit, and proficiency exam credit. Withdrawals, failures, incompletes, and “N” grades are also considered attempted hours. Note: Military Withdrawal grades are excluded from attempted hours.

#### Minimum Standards for Satisfactory Course Completion Rate

- All *degree/certificate students* must comply with the minimum standards for Satisfactory Course Completion Rate of 67 percent regardless of the student previously receiving financial aid at Parkland or any other institution of higher education. The 67 percent Satisfactory Completion Rate refers to the percentage of *cumulative* hours successfully completed (earned) in relation to *cumulative* hours attempted (*including transfer hours*). Attempted hours include all Parkland 100–299 level classes, developmental coursework, repeated hours, proficiency exam credit, and transfer hours. Withdrawals, failures, incompletes, and “N” grades are also considered attempted hours. Note: Military Withdrawal grades are excluded from attempted hours.

Successfully completed (earned) hours are those classes for which there is a letter grade of A, B, C, D, or proficiency exam credit.

Example: To meet the minimum completion rate of 67 percent, a student who has attempted 28 cumulative hours at the end of a semester must have successfully completed (earned) a minimum of 19 cumulative hours (round up).

#### Minimum Standards Regarding GPA

- Students who have attempted 60 or more credit hours (including transfer and military credit) must maintain a minimum cumulative college GPA 2.0 or better.

#### Review Period

Every student who receives financial aid for the first time at Parkland will be reviewed to determine if the student has met the three minimum standards set by this policy (i.e., minimum completion rate, GPA, and maximum hours attempted). Students who have not successfully completed 67 percent of previous attempted hours will be placed on Financial Aid Warning; students who have attempted 60 or more hours with less than a 2.0 cumulative college GPA will be placed on Financial Aid Warning. Degree seeking students who have attempted 150 percent of the number of credits needed to complete the program (including all transfer credit hours and military credit) will be placed on Financial Aid Suspension at the beginning of that semester and not eligible for financial aid. Certificate seeking students

who have attempted 150 percent of the number of credits needed to complete the program (including all transfer credit hours and military credit) will be placed on Financial Aid Suspension at the beginning of that semester and not be eligible for financial aid.

At the end of each semester, the record of every student who has completed a FAFSA and received financial aid requiring satisfactory academic progress will be reviewed to determine if the student has made progress according to the three minimum standards set by this policy.

The Office of Financial Aid and Veteran Services is NOT notified when a student finishes an incomplete class or receives a grade change. Therefore, it is the student's responsibility to notify the Office of Financial Aid and Veteran Services when incomplete courses are finished and/or grade changes are made.

### **Financial Aid Warning**

If a student is not making satisfactory progress under the minimum completion rate standards, he/she will be placed on Financial Aid Warning and allowed the following semester of enrollment to achieve the minimum satisfactory completion rate of 67 percent of all cumulative hours attempted. If at the end of that semester the student has not met the minimum completion rate of 67 percent of all cumulative attempted hours, the student will be placed on Financial Aid Suspension status.

If a student is not making satisfactory progress under minimum cumulative college GPA requirement, he/she will be placed on Financial Aid Warning and allowed the following semester of enrollment to achieve the minimum cumulative college GPA of 2.0 or better. If at the end of that semester the student has not met the minimum GPA requirement, the student will be placed on Financial Aid Suspension status.

Note: There is no Financial Aid Warning period for degree or certificate seeking students who have attempted the maximum of 150 percent of the number of credits needed to complete the program (immediate financial aid suspension occurs).

### **Financial Aid Suspension**

A student who has not met the minimum completion rate of 67 percent after one semester on Financial Aid Warning will be placed on Financial Aid Suspension and not eligible to receive financial aid funds covered under this progress policy.

A student who has attempted 60 or more credit hours and does not have a cumulative college GPA of 2.0 or better after one semester on Financial Aid Warning will be placed on Financial Aid Suspension and not eligible to receive financial aid funds covered under this progress policy.

A student enrolled in a degree program who has exceeded 150 percent of the number of credits needed to complete the program (including all transfer credit hours and military credit) will be placed on Financial Aid Suspension status without a period of Financial Aid Warning.

A student enrolled in a certificate program who has exceeded 150 percent of the number of credits needed to complete the program (including all transfer credit hours and military credit) will be placed on Financial Aid Suspension status without a period of Financial Aid Warning.

### **Financial Aid Reinstatement**

There are two ways a student's eligibility can be reinstated from suspension status:

1. Meet minimum cumulative completion rate and/or cumulative college GPA requirement standard(s) as set forth in this policy; or
2. Submit an appeal that is approved by the Financial Aid Appeals Committee placing the student on Financial Aid Probation or Extension.

### **Financial Aid Probation Status**

A student who submits a Minimum Course Completion Rate and/or GPA appeal that is approved by the Financial Aid Appeals Committee will be placed on Financial Aid Probation, and financial aid will be reinstated. While on Financial Aid Probation, students must complete 100 percent of the semester attempted hours with a minimum of a 2.0 semester college GPA. Failure to do so will result in Financial Aid Suspension.

### **Financial Aid Extension Status**

A student who submits a Maximum Hours Attempted appeal must also submit a graduation audit confirming the ability to complete his/her program in one semester. If the appeal is approved, the student will have aid reinstated and be placed on Financial Aid Extension for one semester of enrollment.

### **Appeal Process**

Students who fail to meet the Parkland Satisfactory Progress requirements defined by this policy may submit a written appeal to the Satisfactory Progress Appeals Committee. Appeal forms are available from the Office of Financial Aid and Veteran Services website. Appeals must clearly explain why the minimum standard was not met, and what has changed that would allow the student to be successful. The Committee will take circumstances, such as medical reasons, family crisis, personal problems, or other circumstances which adversely affected academic performance, under consideration. Supporting documentation must be included with the appeal. The appeal and supporting documentation should be sent to the Appeals Committee in care of the Parkland Office of Financial Aid and Veteran Services.

The Appeals Committee meets at least three times each semester to review appeals. The Office of Financial Aid and Veteran Services will email notification of the Committee's decision to the student's college email account. The Appeals Committee is comprised of staff members from other departments within Parkland College.

A student who submits a *Minimum Course Completion Rate and/or GPA* appeal that is not approved by the Financial Aid Appeals Committee must meet the minimum cumulative

completion rate and/or cumulative college GPA requirement standard(s) as set forth in this policy. Note: The decision of the committee is final.

A student who submits a *Maximum Hours Attempted* appeal that is not approved by the Financial Aid Appeals Committee will be placed on Financial Aid Cancellation Status. The committee will not accept future appeals for review. Note: The decision of the committee is final.

### **Return of Title IV Funds Policy**

The Higher Education Amendment of 1998 requires institutions to calculate the amount of Title IV aid earned by students who totally withdraw from the institution before completing 60 percent of the enrollment term. Parkland must calculate the amount of Title IV funds the student earned for the period enrolled before withdrawing. This process requires Parkland to determine whether any Title IV funds received by or on behalf of that student must be returned or if the student is entitled to further disbursements of awarded Title IV funds. A student who attended more than 60 percent of the payment period earns 100 percent of his or her aid.

The return of Title IV funds formula calculates the amount of Title IV aid to which a withdrawn student is entitled in direct proportion to the percentage of the period that the student attended.

Parkland will notify the student that he or she must repay the overpayment or make satisfactory repayment arrangements within 30 days of determining that a student has completely withdrawn from all classes.

## **Financial Assistance for Veterans, Reservists, and Servicemembers**

### **Assistance Programs**

**Veterans Benefits (G.I. Bill®).** Parkland College is approved for G.I. Bill benefits. Veterans and servicemembers should contact the Office of Financial Aid and Veteran Services for information concerning the financial assistance and/or benefits available to them. For additional information about assistance for veterans, servicemembers, and reservists, see p. 34.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website, [www.benefits.va.gov/gibill](http://www.benefits.va.gov/gibill).

**Selective Reserve Benefits (Chapter 1606–1607).** Parkland is approved for selective reserve benefits. Reservists and members of the National Guard should contact the Office of Financial Aid and Veteran Services for information concerning the financial assistance and/or benefits available to them.

**Survivor/Dependent Benefits.** Parkland is approved for survivor/dependent education benefits. Spouses and children of veterans who were either killed in action, missing in action, a prisoner of war, or were 100% disabled due to a service-connected cause should contact the Office of Financial Aid and Veteran Services for information concerning the financial assistance/benefits available to them.

**Illinois Veterans Grant (IVG).** A veteran who entered the armed forces while a resident of Illinois may be entitled to an IVG, which covers tuition and mandatory fees for college/vocational skills credit and audited college credit classes. Applications for the IVG may be obtained from the Illinois Student Assistance Commission.

**Illinois National Guard Grant (ING).** Enlisted persons who have served at least one year in the Illinois National Guard or Naval Militia may apply for the ING. The ING covers tuition and mandatory fees for college/vocational skills credit and audited college credit classes. Persons are eligible for the ING only during the period they are enlisted in the guard or militia. Applications for the ING may be obtained from the Illinois Student Assistance Commission.

**Servicemembers Tuition Assistance.** All servicemembers and their dependents (if U.S. citizens) who are stationed and living within the college district are authorized to attend Parkland and pay tuition and fees at the in-district rate.

**Illinois MIA/POW Scholarship.** The spouse or child of an Illinois Veteran who was either killed in action, missing in action, a prisoner of war, or was 100% disabled due to a service-connected cause may be entitled to the Illinois MIA/POW scholarship, which covers in-district tuition and mandatory fees. Applications for the MIA/POW scholarship may be obtained from the Illinois Department of Veterans Affairs or the Parkland Office of Financial Aid and Veteran Services.

### **Policy on Satisfactory Academic Progress**

Students who are receiving educational benefits through the VA must continue to make satisfactory progress in their academic major. Satisfactory progress will be measured in terms of a student's college (cumulative) grade point average (GPA). Students receiving benefits are expected to maintain a college GPA that does not subject them to academic probation (see p. 43). If a student maintains a probationary GPA for two consecutive terms, or is academically suspended or dismissed from Parkland College, the student's future enrollment certification will be suspended and the VA will be notified of the student's unsatisfactory progress.

Students using the state Veterans benefits, who have attempted 60 or more credit hours (including transfer and military credit), must maintain a cumulative GPA of 2.0 or higher. Students who have attempted 60 or more hours with less than a 2.0 cumulative GPA will be placed on warning. Students on warning will be allowed the following semester of enrollment to achieve a cumulative GPA of 2.0 or higher. If at the end of that semester the student has not met the

minimum GPA requirement, the student will be placed on suspension and will be ineligible to use the benefit. There are two ways a student's eligibility can be reinstated from suspension status: 1) meet minimum cumulative college GPA requirement standard(s) as set forth in this policy; or 2) submit an appeal that is approved by the Financial Aid Appeals Committee placing the student on probation. While on probation, students must maintain a GPA of 2.0 or higher for their semester college GPA. Failure to do so will result in suspension.

A student receiving benefits is expected to complete all of the credit hours he or she is certified for each semester. In some situations, a student who does not achieve this course completion schedule may be charged with overpayment.

Students may only enroll in classes that apply to their declared major if they expect to receive G.I. benefits.

## Scholarships

Information on available scholarships may be found in the scholarship search in [my.parkland.edu](http://my.parkland.edu).

### Special Scholarships

**ACADEMIC OPPORTUNITY SCHOLARSHIP FOR UNDERREPRESENTED STUDENTS.** This two-year merit scholarship is awarded to District 505 graduating seniors who represent a cultural, ethnic, or racially underrepresented group at Parkland College, or in a specific career/degree field. Covers 50% of full-time in-district tuition and fees, but does not cover books, supplies, or noncredit course costs. Eligibility is contingent upon a 3.0 cumulative GPA on a 4.0 scale or a 4.0 on a 5.0 scale and demonstrated participation in high school and/or community activities.

**INTELLECTUAL FREEDOM AWARD.** Awarded to a student for the best essay (1,000-1,500 words) on intellectual freedom. The essay will be published in the commencement edition of the Prospectus.

**PARKLAND COLLEGE ATHLETICS SCHOLARSHIP.** Tuition and fee waivers for athletes in the men's and women's basketball, men's baseball, women's softball, women's volleyball, men's golf, and men's and women's soccer.

**PARKLAND COLLEGE MUSIC SCHOLARSHIP.** 50% tuition and fee waivers to students who are majoring in music. May be renewed for an additional year.

**PARKLAND COLLEGE FAA STUDENT ACTIVITIES SCHOLARSHIP.** 50% tuition waivers for high school graduates, or those with high school equivalency, who participate in student activities.

**PARKLAND COLLEGE STUDENT ACTIVITIES SCHOLARSHIP.** Tuition waivers to high school graduates, or those with high school equivalency, who participate in student activities. Applications are available in the Office of Student Life, Room 111.

**PARKLAND COLLEGE STUDENT TRUSTEE AND STUDENT GOVERNMENT PRESIDENT.** In recognition of the

responsibilities of the Student Trustee and President of Student Government in representing the Parkland College student body, and their attendance at IBHE and ICCB student advisory meetings throughout the academic year, students holding these elected positions will be awarded a partial tuition waiver. This waiver will be in effect during the fall and spring semesters, and will not exceed the value of six credit hours of in-district tuition and fees for each semester.

**PARKLAND COLLEGE THEATRE SCHOLARSHIP.** 50% tuition and fee waivers to high school graduates who are majoring in theatre. May be renewed for an additional year.

**PARKLAND COLLEGE TRUSTEES SCHOLARSHIP.** Awarded to the top 10 percent of graduating seniors from each high school in District 505 who attend Parkland full-time immediately after graduation from high school. Pays 50% all resident tuition and fees for two academic years.

Note: Tuition and fees covered by tuition waivers and/or scholarship awards do not include additional course fees (flight instruction fees) charged for aviation (AVI) courses.

### Parkland College Foundation Scholarships

The following scholarships are available to Parkland students from funds contributed by individuals and organizations. Some scholarships may not be awarded every year. Information on available scholarships may be found in the scholarship search in [my.parkland.edu](http://my.parkland.edu).

#### Accounting

Billy Byers Accounting Scholarship  
Faculty Choice Accounting Scholarship  
Jack L. James Clifton Gunderson Excellence in Accounting Scholarship  
Arthur H. Winakor Memorial Scholarship  
William D. Yaxley Memorial Scholarship

#### Agriculture

AgReliant Genetics Scholarship  
Agriculture Business Management Scholarship  
John and Marge Albin Scholarship  
Brokish Family Scholarship  
Cargill, Inc. Scholarship  
Champaign County Farm Bureau Scholarship  
Paul and Joyce Curtis Memorial Scholarship  
Ehler Brothers Company Scholarship  
Robert Ralph Ford Memorial Agriculture Scholarship  
Farm Credit Illinois Scholarship  
Vincent Green Agriculture Scholarship  
Growmark Foundation Scholarship  
Bill Huss Chapel Cemetery Association Scholarship  
Illinois Foundation Seed, Inc. Scholarship  
Floyd and Marian Ingersoll Ag Scholarship  
Mike Mettler and Priscilla Atkins Scholarship  
for Horticulture  
Donald M. Nelson Agriculture Transfer Scholarship  
O'Dell Family Scholarship

### **Veterinary Technology**

Dr. and Mrs. Paul F. Cook Veterinary Technician Scholarship  
 Melissa Bailey Wolfram Memorial Scholarship  
 Vet Tech Faculty and Staff Scholarship

# Student Services/ Activities/Policies

## Student Services

### Counseling Services

**Counseling and Advising Services.** Academic and educational planning are provided to support students in the completion of their chosen degree or certificate. Advising assists students with course selection, transfer options, and guidance throughout their educational path. (U267)

Short-term, solution-focused, and confidential mental health counseling is provided for currently enrolled students. Students experiencing significant distress are seen as soon as possible. (U267)

For office hours, scheduling options, or more information, call 217/351-2219 or see [parkland.edu/counseling](http://parkland.edu/counseling).

**Career Services.** Students are assisted in exploring their interests, skills, and values to select college majors and career goals. Additional career services include assistance with resume writing, interviewing skills, and other job search strategies. (U267)

**Accessibility Services.** In accordance with the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973, Parkland College provides auxiliary aids and services for students who self-identify their disability. Students with disabilities who desire academic accommodations must register with Accessibility Services. They should provide appropriate documentation of their disability and schedule an intake appointment by visiting U260, emailing [accessibilityservices@parkland.edu](mailto:accessibilityservices@parkland.edu), or calling 217/353-2338.

Parkland offers academic accommodations for students with documented disabilities. These accommodations can include but are not limited to: alternate testing arrangements, note takers, textbooks in alternate format, sign language interpreters, captioning services, and adaptive aids.

Students with disabilities, like all students, are expected to comply with all standards and policies of the college, including admission procedures, behavior/conduct, assessment testing, attendance, auditing a class, and others. More information about Parkland's policies and procedures can be found in this catalog (see index for specific listings).

Students who feel they have been excluded from participation in, or denied the benefits of, any program, service, or activity due to their disability are encouraged to contact the director of counseling services at the above number. Parkland's Student Policies and Procedures Manual contains the ADA Grievance Policy and Procedures. This information is available at [parkland.edu/studentpolicy](http://parkland.edu/studentpolicy), from the director of counseling services (U260), or the vice president of student services (U334).

### Assessment Center

The Assessment Center (U203) administers a wide variety of exams and evaluations for Parkland students and community members. New students take placement tests in reading, writing, mathematics, or English as a Second Language. The staff also administer certification exams on behalf of Pearson VUE, Castle Worldwide, and PSI, while still providing board exams, and standardized tests such as the GED and CLEP exams. Distance learners can request proctoring for their paper- and computer-based exams. Appointments are required for all assessments, and a valid photo ID must be presented to test. For appointments, please start with the website, [parkland.edu/assessment](http://parkland.edu/assessment). For more information, call 217/351-2432.

### Adult Re-entry Services

Parkland's Adult Re-entry Services, located in the Admissions and Records Office (U214), helps busy adults find a convenient way to finish their college degrees. Guidance is provided through the development of individualized learning plans, which outline exactly what is needed and which courses are necessary for degree completion. Several four-year universities offer advanced degrees that can be earned by taking courses through Parkland or online. For information, call 217/353-2666 or e-mail [adultreentry@parkland.edu](mailto:adultreentry@parkland.edu).

### Perkins Grant Program for Career and Technical Programs

The Carl D. Perkins Career and Technical Education Act of 2006 has allocated federal monies to Parkland College for students in career and technical education programs. Services include purchase of class supplies tools, uniforms, and adaptive equipment. For further information, contact 217/351-2218 or visit M120.

### Assistance for Veterans, Reservists, and Servicemembers

Parkland has been designated a "Servicemember's Opportunity College" by the American Association of Community Colleges. This designation is a recognition of the special efforts extended by the college to meet the postsecondary educational needs of servicemembers.

Servicemembers, veterans, and reservists who lack adequate preparation for college-level study may enroll in remedial courses. However, Applied Learning Skills (ALS) courses are not approved by the Veterans Administration. For further information, contact the Office of Financial Aid and Veteran Services, 217/351-2228.

A maximum of 75 percent of graduation requirements may be completed at other colleges and/or through non-traditional means. The remaining 25 percent must be completed in courses offered by Parkland, but need not be earned in consecutive terms. Non-traditional means of earning credits include Parkland College proficiency tests, College Level Examination Program (general and subject tests), Defense

Activity for Non-Traditional Educational Support (DANTES) tests, and credit based on the completion of service school courses that have been evaluated by the Commission on Accreditation of Service Experiences (CASE) of the American Council on Education. Servicemembers, veterans, and their dependents are encouraged to consult with their Base Education Services Office or with Parkland's Office of Admissions and Records concerning the possible award of credit earned through nontraditional means.

### **TRiO/Student Support Services**

TRiO/Student Support Services is a federally-funded program open to first-generation college students, students with demonstrated financial need, and/or students with documented disabilities. TRiO/SSS provides a welcoming environment, and is committed to encouraging and supporting students along their academic journey toward graduation and transferring to a four-year university. The TRiO/SSS program provides opportunities for academic development and personal growth to individuals who are members of groups that are typically underrepresented in post-secondary education. These opportunities include academic advising; academic, career, and personal development workshops; financial and economic literacy programs; cultural and social events to help students become actively involved in the college community; and tutoring. For more information, call the TRiO/SSS office at 217/353-2267, e-mail [TRiO@parkland.edu](mailto:TRiO@parkland.edu), or visit U252.

### **Student Life**

The Office of Student Life (U111) coordinates and administers programs, activities, and services that facilitate the student's academic, social, cultural, and personal adjustment to college as well as support the academic mission through co-curricular programming.

Services and programs offered through the Office of Student Life include Parkland IDs, leadership development, honors organizations, new student orientation, volunteer opportunities, co-curricular and extracurricular activities, wellness programs, and commencement.

**Housing.** The Office of Student Life refers students and parents seeking off-campus housing to the webpage [parkland.edu/studentlife](http://parkland.edu/studentlife). The linked information providing off-campus housing sites in the Parkland area is not intended to be an endorsement by Parkland College for any housing site.

**Student ID cards.** Parkland ID cards are issued free of charge to all students through the Office of Student Life, and are valid as long as the student is enrolled at Parkland. To obtain a Parkland ID, students must show a photo ID and proof of enrollment. Parkland ID cards are required to check out library materials and for many other on-campus activities and services. A charge applies for replacement ID cards. For ID office hours and other information, see [parkland.edu/studentlife](http://parkland.edu/studentlife).

## **Student Organizations and Activities**

Parkland College offers many extracurricular activities for all Parkland students. These activities provide opportunities for self-expression and to make new friends, learn new skills, develop lifelong interests, and learn through practical experiences. For more information, please call the activities program manager in the Office of Student Life, 217/353-2627, or visit room U111.

### **Student Association**

All Parkland students are members of the Student Association and can vote in Student Government elections. The Student Government, composed of the executive officers (president, vice president, treasurer, and secretary) and 10 senators, represents the Student Association in developing and recommending policies and procedures regarding the welfare of students; establishes a budget for student activities; develops cultural, social, and educational activities; and promotes student organizations. The Student Association also elects a student trustee to serve as a representative with an advisory vote on the college Board of Trustees.

All students are encouraged to be candidates for Student Government and student trustee. Elections and qualifications are detailed in the Student Association Constitution available in the Student Government office, U117, or the Office of Student Life in U111.

### **Student Organizations**

- ACCESS—students with disabilities and allies
- Alpha Phi Omega—service and philanthropy
- Astronomy Club
- Brother to Brother
- Board Gamers
- Chess Club
- Club Latino
- Cru—formerly Campus Crusade for Christ
- Criminal Justice Club
- English Conversation Club—international cultures
- German Club
- International Students Association
- Japanese Culture Club
- MMA – Mixed Martial Arts
- Parkland College Student Education Association
- Parkland Motorsport—Automotive Technologies
- Parkland Pride!—LGBT students and allies
- Parkland Running Club
- Parkland Scholars Group—Honors Program
- Phi Alpha Chi—Agriculture Club
- Phi Theta Kappa—Honor Society
- Pre-Law Club
- P.U.S.H.—Parkland United for Student Health
- Respiratory Therapy Students Association
- S.A.D.H.A.—Student American Dental Hygienists Association

Science Club

S.N.A.P.—Student Nurses Association at Parkland College

S.V.A.P.—Student Veterans at Parkland College

Social Justice Club Surgical Technology Club

Surgical Technology Club

Veterinary Technicians Association

Students interested in participating in any of these organizations, or in starting a new group, should contact the Office of Student Life in U111. To start a new club students need 10 peers and a faculty/staff advisor.

### **Parkland College Alumni Association**

The Parkland College Alumni Association was established in 1984 to promote alumni involvement with the college by keeping members informed about activities, programs, services, and the continued growth of Parkland College. The association supports the goals and objectives of the college through fellowship and group activities, both on and off campus. For more information on membership benefits, please call the Alumni Association at 217/351-2458.

### **Student Publications**

*The Prospectus*, a weekly print and digital format newspaper, offers students experience in reporting, writing, photography, advertising, production, layout, design, and online design.

Student writers and editors use Macintosh computer equipment to produce the paper. Positions are open to all students; those majoring in mass communications, and visual arts find this experience particularly helpful in building their portfolios of published material. Paid positions and scholarships are available pending budget approval. For information, call 217/353-2627.

*Images* is the literary and visual fine arts magazine published by the *Prospectus*, featuring short fiction, nonfiction, poetry, and visual and digital arts created by Parkland students. Submissions for inclusion in the publication are accepted January through March each year. For more information, call 217/353-2627.

All student publications are governed by a student-faculty board (Publications Board) and by Student Government. For information, call 217/353-2627.

### **Intramural Activities**

Intramural activities are provided for all Parkland students and staff. Funded and staffed by students, the intramural program offers bowling; volleyball; basketball; running; and other sports, contests, activities, and special events.

Individuals interested in participating in Intramurals can obtain information in Room P204. For information call 217/351-2226.

### **Art, Music, Speech/Debate, and Theatre**

The Fine and Applied Arts department provides students with opportunities to enrich their artistic and performance

skills through a variety of activities. Art students participate in juried shows held annually in the Donna Hyland Giertz Gallery, and the music program offers a variety of vocal and instrumental ensembles. The Harold and Jean Miner Theatre and Parkland Second Stage provide beautiful settings for music and theatre productions that range from comedies to Broadway-style musicals to serious contemporary plays. Communication students may participate in an annual David Jones persuasive speech contest for scholarship awards, and the Speech/Debate Team competes with other colleges and universities in team and individual events.

### **Wellness Center**

The Wellness Center (U111) provides health education programs and presentations that help Parkland students and employees develop healthy lifestyles while cultivating a culture of wellness on campus through knowledge and behavioral change. The Wellness Center guides individuals towards healthy living initiatives by providing community referrals, smoking cessation education, stress management techniques, general wellness consultations, and alcohol and other drug education. Social media and interactive technology is used for fun wellness challenges throughout the year. Illness, first-aid, and medical emergencies should be directed to Public Safety. Call 217/373-3879 or 217/353-2323 for more information.

## **Intercollegiate Athletics**

Parkland College intercollegiate athletics provides opportunities for students to participate in state, regional, and national levels of competition. The intercollegiate program includes competition for men in baseball, basketball, golf, and soccer, and for women in basketball, soccer, softball, and volleyball.

The college is a member of the National Junior College Athletic Association (NJCAA-Div. II) and Region 24, as well as the Mid-West Athletic Conference (M-WAC). Since 1999, Cobras sports teams have won five national titles (volleyball in 1999, 2015, and 2016; baseball 2002 and 2009), and finished as the national runner-up on eight occasions. Each year, many Parkland athletes earn All-Conference, All-Region, and NJCAA All-American recognition. Parkland College alumni include four players in Major League Baseball, notably two-time Rawlings Gold Glove winner, Kevin Kiermaier.

Students interested in tryouts and scholarship opportunities should contact the Athletic department at 217/351-2226. Admission to all Parkland College sporting events is free to Parkland students, faculty, and staff (Parkland College ID required).

**The Equity in Athletics Disclosure Act (EADA) Report is available upon request from the director of athletics in P204.**

## Policies Governing Student Life

### Student Policies and Procedures Manual

The following policies are published in the Parkland College Student Policies and Procedures Manual:

- Academic Honesty
- Academic Standards
- ADA Grievance Policy and Procedures
- Alcohol and Other Drug Use
- Chronic Communicable Diseases
- Computer and E-mail Use Policies
- Financial Aid and Satisfactory Progress
- Grade Appeal
- Harassment/Discrimination of Students
- Refund: Tuition and Fees
- Right to Assembly
- Sexual Assault
- Student Conduct Code
- Student Grievance Procedure
- Student Records
- Students with Disabilities

Copies of the manual or revised policies and procedures may be obtained from the dean of students, U243; director of athletics and student life, U119; vice president for student services, U334; or online at [parkland.edu/studentpolicy](http://parkland.edu/studentpolicy).

### Safety Glasses Policy

The Illinois School Code, Chapter 122, “Eye Protection Devices,” states:

All individuals will wear industrial quality eye protection devices at all times while in a room or other enclosed area where they and others are participating in any phase of activity of such course which may subject the student or teacher to the risk of hazard of eye injury from the materials or processes used in said course. These activities may be defined as experiences involving hot molten metals; milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid metal, wood, or plastic; heat treatment, tempering, or kiln firing of any metal or other materials; gas or electric welding; repair or servicing of any vehicle; and caustic or explosive materials.

Visitors to shops or laboratories will be furnished with and required to wear industrial-quality eye protection.

### Bringing Children to Class

The learning environment must be as free as possible from disruptions. Policy 5.04 states that children are not permitted in classes and are not to be left unattended anywhere on campus.

## Department of Public Safety

Parkland’s Department of Public Safety is made up of the Division of Police and the Division of Security. The Division of Police provides a law enforcement function to the college, to assure a safe and secure environment. All law enforcement officers are certified by the Illinois Law Enforcement Training and Standards Board, and all sworn officers in the department maintain basic Emergency Medical Technician (EMT) or First Responder level training. Public Safety provides such services as unlocking and jump-starting vehicles, and safety patrols.

The main Public Safety office is located in A160, and includes a Lost and Found. A college center substation is in X110 and the Student Union substation is in U136. You can reach the department by calling 217/351-2369; using emergency call boxes located throughout campus; dialing 2369 from house phones; or dialing 911 from faculty-staff office phones. Visit [parkland.edu/police](http://parkland.edu/police) for more information.

# Academic Policies and Procedures

## Comprehensive Assessment Program (CAP)

The primary objective of the Comprehensive Assessment Program (CAP) policy is to ensure that all entering students have the requisite skills and knowledge for success in college-level transfer and career courses. The key to accomplishing this objective is a placement and assessment structure that uses multiple measures to place students in courses that are appropriate to their skills and knowledge, allowing them realistic opportunities to attain their chosen academic goals.

Students should be placed at a level which will challenge them but which is not beyond their academic reach. Students whose placement test results indicate that they will benefit from skills instruction to achieve required levels of core academic competencies will be placed in developmental classes or equivalent support course work. Individuals who are not yet ready to take Parkland's developmental course work will be referred to programs designed to meet their needs. Academic success is the goal of the CAP policy; consequently, course placements made through CAP procedures are mandatory.

The CAP policy requires that students starting at Parkland College are assessed for academic readiness at the college level in reading, writing, and mathematics skills. Students for whom English is not their native language will be assessed for their English language skills in listening comprehension, reading comprehension, grammar, and language use.

Information about placement scores can be found at [parkland.edu/assessment](http://parkland.edu/assessment).

## Grading

Parkland College uses the following grades to indicate the level of student achievement of the educational objectives of a course:

Quality Grades	Quality Points Per Credit Hour
AH — A with honors	4
A — High degree of excellence	4
B — Better than average	3
C — Average achievement	2
D — Minimum achievement	1
F — Failure	0

To qualify for a grade of AH "A with honors," a student must:

- be earning the grade of A in a 100 or 200 level course at the time the honors project is proposed,
- submit an honors project proposal that must be approved by the course faculty member,
- complete satisfactorily a significant honors project as determined by the faculty member, and
- finish the course earning the grade of A.

Note: The amount of additional work required is approximately that of a one-hour-credit project of IND 288. The honors project has no bearing on the class grade. Students are not required to be a member of the Honors Program to earn an A with honors grade, but must be a member of the Honors Program to qualify for honors scholarships. Professors are not required to allow A with honors options in their classes.

A student receiving an F grade may not continue in a sequential course. Many academic programs require a minimum grade of C to continue in a sequential course. See specific course descriptions on page 232 and following.

Under state and federal family privacy rights and due process, the college will not deny students the right to see and discuss their work product, including grades on tests, unless there is some prevailing and rational institutional reason. However, requests for grade changes and grade appeals must be made by midterm of the following fall or spring semester.

Students in health career programs must earn a grade of C or higher in all program courses in order to continue in the program.

## Other Grades

*0 quality points per credit hour:*

- I — Incomplete
- W — Withdrawal
- CR — Credit
- NC — No Credit
- P — Institutional Proficiency/CLEP
- T — Audit
- MW — Military Withdrawal
- IM — Military Incomplete
- Y — See Instructor

*Adult Continuing Education courses only:*

- S — Satisfactory achievement
- U — Unsatisfactory achievement

An **I** (Incomplete) grade may be awarded by a faculty member when a student has completed at least 80 percent of the requirements of a course and has the consent of the faculty member to complete the additional requirements for a quality grade. The student must sign a standard Incomplete Grade Contract with the faculty member. A copy of this contract must be filed in the department office. The required work must be completed by the *end* date of the next term. If the **I** grade is awarded for the spring semester, the required work must be completed on or before the *end* date of the fall semester. A student receiving an **I** grade may not continue in a sequential course without faculty/department chair approval. Failure to resolve an **I** grade within the allotted time will result in a failing grade. Incomplete grade contract forms are available online or at the office of the division dean.

A withdrawal grade of **W** indicates the student officially withdrew or was withdrawn from a course following the established procedures outlined on p. 45.

Most courses may be taken on a credit/no-credit (**CR/NC**) basis, but only one such course may count toward each degree (A.A., A.S., A.E.S., A.F.A., A.A.S., A.G.S.) or certificate earned at Parkland College. The decision for this option must be made no later than the first week of class. Once the credit/no-credit option is chosen, the student may not return to the conventional grading system (**A, B, C, D, F**) for the completion of that course. If a student chooses a credit/no-credit option for more than one course and later wishes to have those hours in more than one course applied to a degree, that student may retake any previous credit/no-credit opted course for a quality grade.

Each department determines what proficiency level constitutes credit/no credit for the courses in that department. Departments may require certain courses in a particular program be taken for a quality grade; the catalog reflects those requirements. Each student must sign a standard contract with the faculty member confirming the use of the credit/no-credit option. A copy of this contract must be in the student's file in the Office of Admissions and Records. Contract forms are available online or at Admissions in U214.

An institutional proficiency/CLEP grade of **P** indicates a student has passed a proficiency examination for a course, receiving the credit for the course toward graduation. No quality points are awarded.

An audit is indicated by the grade of **T**. No credit is granted nor quality points awarded for an audit. To audit a course, students must meet the admission requirements of the college and the course prerequisites and pay the same tuition and fees as students enrolled for credit. Students who choose to audit a course will register during the open registration period. Once registered, a student may not change from audit to credit status or vice versa. Students who are Monetary Award Program recipients must check with the Office of Financial Aid before signing up to audit a course.

Active or reserve military or National Guard personnel who are currently enrolled may qualify for a grade of military withdrawal (**MW**) or military incomplete (**IM**) if they are called to active duty. The following procedures apply:

- Prior to any action, the student should consult with his/her instructors. Each faculty member may choose to award a quality grade or credit/no grade if the student has satisfied the primary objectives of the course.
- If the student has completed 80 percent or more of the material, but does not qualify for a quality grade, a grade of **IM** may be given, and the faculty member should complete an Incomplete Grade Contract. In the event that the **IM** grade is not completed during the prescribed time limit, such grade will automatically be changed to **MW**.
- If the student has not completed 80 percent of the course material, the student may request from Admissions a grade of **MW**.
- A grade of **MW** will entitle the student to a complete refund of tuition and fees. Students with concerns during

this process should contact the department chair or the dean of learning support.

## Grade Point Average

A student's grade point average (GPA) determines his or her scholastic standing. A student's GPA is based solely on courses taken at Parkland College.

The program GPA is used to determine eligibility for graduation in degree and certificate programs (see page 65). Only courses numbered 100-299 that are counted for the given degree/certificate are included in this GPA. It is computed by the following formula:

$$\text{Program GPA} = \frac{\text{total quality points earned for } \mathbf{A, B, C, D, \text{ and } F} \text{ grades (for all courses attempted that apply to program)}}{\text{total quality hours attempted (for all courses attempted that apply to program)}}$$

The college (cumulative) GPA includes credits from all courses attempted numbered below 300. The college GPA does not determine eligibility for completion of a degree or certificate, but it may be used for financial aid eligibility and academic probation (see p. 43). The college GPA is computed by the following formula:

$$\text{Cumulative GPA (College GPA)} = \frac{\text{total quality points earned for } \mathbf{A, B, C, D, \text{ and } F} \text{ grades (for all courses attempted)}}{\text{total quality hours attempted (for all courses attempted)}}$$

Courses with grades of **I, W, CR, NC, P, T, MW, IM, S,** and **U** are not considered part of total hours attempted for purposes of determining GPA, but they are recorded on a student's academic record.

## Repeating a Course

When a course is repeated, only the first quality grade will be excluded from the GPA calculation. The second and subsequent quality grade(s) will be used in computing the GPA. Any credit earned in a given course cannot be lost by a later attempt. The grade received when the course was first taken, however, will remain on the permanent record. Many transfer institutions will include both grades in determining the GPA. Courses taken on the quarter system and then repeated on the semester system will both be included in the GPA.

## Midterm and Final Grades

A midterm grade, which gives an indication of student progress at midterm, and the final grade for a course are recorded for all students. However, the midterm grade does not become part of the student's official record.

Midterm and final grades may be accessed online. Students who need a printed grade report for an employer may print

them from the online system or request them in person with a picture ID at the Office of Admissions and Records. Grades and transcripts will be withheld if there are outstanding obligations, financial or otherwise, to the college. Students not meeting these obligations may not be allowed to register during subsequent semesters at Parkland until their record is cleared.

### Final Examinations

A final examination is generally required in all courses. Final examinations are administered at regularly scheduled times in accordance with an officially published final examination schedule in the class schedule.

If a student is unable to appear for a final examination, it is his or her responsibility to inform the faculty member prior to the scheduled examination time. Three examinations scheduled for the same day may be considered a conflict and may be resolved by arrangement with the faculty.

### Change of Grades Policy

Changes of grades due to errors in grading or reporting or from an incomplete to a quality grade may be initiated by a faculty member at any time until the end of the fall or spring semester following that in which the course was scheduled. A grade change may also be initiated by the chair of the department that offered the course if, and only if, the faculty member is unavailable. The approval of the department chair is required for the grade change to be entered on the student's transcript. A signed copy of the Change of Grade form will be kept in the Office of Admissions and Records.

### Academic Record Exclusion

Parkland College recognizes that students may return to the college after an absence of at least two years and be seriously encumbered by a prior academic record that is exceptionally poor, i.e., consisting primarily of **D** and **F** grades, but that prior record may not accurately represent the student's current abilities and commitment to education.

In such cases the college acknowledges that although all prior grades and any earned credits must remain on the student's transcript, it may be reasonable to exclude the prior academic record from the computation of the student's cumulative grade point average. In order to qualify for an academic record exclusion a student must successfully complete at least 15 credit hours within two years upon return to Parkland. Forms to request academic record exclusion should be submitted to the Office of the Dean of Learning Support (D108).

### Individual Grade Exclusion

Students who have changed from a transfer program to a career program or from one career program to another career program (A.A.S. degree and career certificate) may request that **D** and **F** grades earned in credit hours not required in the new program be excluded from the computation of their cumulative grade point average in the new

program. These courses must have been required in the previous program and not required in the new career program. This policy does not apply to persons changing from one transfer major to another transfer major or from a career program to a transfer program. Any excluded grades and earned credits remain on the student's transcript. Forms to request an individual grade exclusion should be submitted to the Office of the Dean of Learning Support (D108).

### Academic Honors (Dean's List)

A Parkland College dean's list is published for the fall and spring semesters, listing the students whose scholastic achievement has been outstanding. Awarding of honors will be based on performance on courses 100–299 (excluding ALS courses). To be on the dean's list, a student must earn a minimum 3.5 GPA for the semester in which they are being awarded. For students who earn fewer than 12 hours in that semester, a minimum 3.5 cumulative GPA with 12 or more cumulative hours must be achieved for the academic year (summer, fall, spring). The academic year begins with the summer semester.

### Academic Warning

Students will be placed on academic warning if, after attempting six or more credit hours, their cumulative grade point average is less than:

6–11 inclusive — 1.5	33–44 inclusive — 1.8
12–22 inclusive — 1.6	45–55 inclusive — 1.9
23–32 inclusive — 1.7	56 and above — 2.0

Students placed on academic warning should meet with an academic advisor or counselor before they may register for classes, and are strongly encouraged to make an appointment with an academic coach in the Center for Academic Success to discuss strategies for improving academic success.

### Academic Probation

Students will be placed on academic probation if, after attempting six or more credit hours, their cumulative grade point average is less than:

6–11 inclusive — 1.0	33–44 inclusive — 1.6
12–22 inclusive — 1.3	45–55 inclusive — 1.8
23–32 inclusive — 1.5	56 and above — 1.9

Students placed on academic probation are required to meet with an academic advisor or counselor before they may register for classes. Students placed on academic probation who already registered for classes will be unable to make changes to registration or to register for additional classes until meeting with an advisor. Additionally, students placed on probation are subject to the following restrictions:

1. Enroll in no more than 13 hours (7 hours in summer).
2. Enroll in no more than one online class.
3. Enroll in no more than one midterm start class (fall or spring semester).

## Academic Suspension

Students will be placed on academic suspension if, while on academic probation, their semester grade point average is below 1.75. The suspension will be until the end of the semester (fall or spring) after being placed on suspension. Students placed on academic suspension are not able to register for any courses.

## Academic Dismissal

Students will be placed on academic dismissal if, during the term in which they return from suspension, their semester grade point average is below 1.75. The dismissal will be for one calendar year. Students placed on academic dismissal are not able to register for any courses.

## Returning from Academic Suspension or Dismissal

Students on academic suspension or academic dismissal may seek reinstatement when they have completed the mandated period of suspension (one full semester, not including summer) or dismissal (one full calendar year). To complete the process for readmission to course work, the student must do the following:

1. **Financial aid:** Complete an online Free Application for Federal Student Aid (FAFSA) application if financial assistance is needed. This must be done in a timely manner so that forthcoming aid, if any, is in place by the start of the semester.
2. **Academic plan:** Meet with an academic advisor, counselor, or academic coach to develop an academic plan for the semester the student wishes to be readmitted to. The academic plan should meet the following stipulations: no more than 13 credit hours (7 hours in the summer); no accelerated classes (8 weeks or less, except in the summer); no more than one online class; include FYE 101, Strategies for College Success. Where appropriate, advising staff may propose modifications of conditions to the dean of learning support.
3. **Dean's approval:** Submit a copy of the completed academic plan signed by the counselor, advisor, or advocate to the office of the dean of learning support (D108) for approval. In order to meet registration deadlines, academic plans must be submitted by the Thursday prior to the beginning of class.
4. **Class registration:** Upon notification of the dean's approval, register for classes. Registration for classes must be in accordance with the courses approved and within the time frame indicated in the dean's approval email.
5. **Progress review:** Make appointments to see an academic coach in CAS at least two times in the first semester upon returning to classes to review academic progress. The first meeting should take place by the third week of the semester.

Failure to adhere to these steps is taken as an indication of the lack of readiness to pursue academic success and

may result in the discontinuation of registration privileges in the future.

## Appealing Academic Suspension or Dismissal

Students on academic suspension or dismissal are not permitted to register for classes. Students who wish to appeal in order to register for classes should know that requests for readmission during suspension or dismissal are rarely granted and considered only in cases of documented extenuating circumstances. To complete the process of appeal, the student must:

1. **Financial aid:** Complete an online Free Application for Federal Student Aid (FAFSA) application if financial assistance is needed. This must be done in a timely manner so that forthcoming aid, if any, is in place by the start of the semester.
2. **Academic plan:** Meet with an academic advisor, counselor, or academic coach to develop an academic plan for the semester the student wishes to be readmitted to. The academic plan should meet the following stipulations: no more than 13 credit hours (7 hours in the summer); no accelerated classes (less than 16 weeks, except in the summer); no more than one online class; include FYE 101, Strategies for College Success.
3. **Dean's approval:** Submit the Petition to Appeal Academic Suspension or Dismissal form together with relevant documentation supporting the cited extenuating circumstances to the dean of learning support in D108. Petitions to appeal suspension or dismissal must be submitted by the Monday of the week prior to the start of the 16-week session.
4. **Class registration:** Upon notification of the dean's approval, register for classes. Registration for classes must be in accordance with the courses approved and within the time frame indicated in the dean's approval email.
5. **Progress review:** Make appointments to see an academic coach in CAS at least two times in the first semester upon returning to classes to review academic progress. The first meeting should take place by the third week of the semester.

Only the dean of learning support or designee can approve an appeal against academic suspension or dismissal. The dean may impose additional requirements when approving an appeal.

## Program Dismissal

A student may be dismissed from a program of study for reasons including incompetence, impaired practice, or behavior that is unethical, illegal, and/or jeopardizes the safety of others. The action of program dismissal can be taken only by the appropriate department chair in consultation with the academic division dean. Additional information on specific dismissal procedures pertaining to Health Professions or Aviation programs is provided in student program handbooks or student guidebooks respectively.

## Attendance

Regular and prompt attendance is expected at all classes. Regular attendance and consistent study habits are necessary for academic success in college.

If students are absent for more than one day due to an emergency, they or their family members should contact the dean of students at 217/353-2048. The dean's office will send notification of the absence to the students' instructors. Students are also responsible for contacting their instructors as soon as they are able to do so. The dean's office absence notification does not excuse students from assignments, exams, or being marked absent. Faculty will handle the absence per policies outlined in the class syllabus. Faculty have the prerogative of lowering grades due to excessive absences. Due to the Family Educational Rights and Privacy Act (FERPA), instructors will not speak with students' families about course work unless a signed release of confidentiality form is on file in the Office of Admissions and Records.

Parkland College recognizes and values the diverse religious beliefs of its constituents, and practices shared responsibility in the event a religious observance conflicts with scheduled class work or assignments. Students who inform instructors in advance of an intended absence for a religious observance will not be penalized. The instructor will make reasonable accommodations for students in these situations; these may include altering dates of examinations and assignments, permitting a student to attend another section of the same course for a class period, or similar remedies. Instructors are not responsible for teaching material again. Instructors should inform students of these expectations at the beginning of the semester so that arrangements can be made accordingly. Grievances pertaining to the Religious Observances policy shall be handled according to usual college policies and procedures.

## On Time Registration

Students must be registered for a course before instruction begins. Students who miss the registration deadline for a course will be directed to choose from classes available in the next instructional session of the same semester. Information about registration deadlines is published in the Parkland class schedule, on the student portal ([my.parkland.edu](http://my.parkland.edu)), and at [parkland.edu](http://parkland.edu).

## Drop/Withdrawal Procedures

### Student-initiated Action

A student enrolling in a class automatically assumes certain responsibilities. One of these responsibilities is to properly drop or withdraw from a class if the student decides not to take or complete the course. A student, having been enrolled in a class, remains enrolled until the student initiates a drop or a withdrawal or the student is administratively dropped or withdrawn (see Faculty/Administrative Action section).

**Drops.** Students have the privilege of dropping a class without the class becoming part of their permanent academic

record during specified drop periods. For all classes, regardless of semester and length of session, the deadline to drop is the Sunday following the start of class at 11:59 p.m. A refund of tuition and fees is given when a class is dropped.

**Withdrawals.** After the drop period, students may withdraw themselves from classes with a grade of W recorded on their permanent academic record. No refunds are given. Students are responsible for obtaining their instructor's signature and submitting the appropriate form either in person to the Office of Admissions and Records or emailing it [admissions@parkland.edu](mailto:admissions@parkland.edu). Withdrawals may not be done online in the student portal or by telephone. The deadline to withdraw is 5 p.m. on the last business day of the week before the last week of instruction. The specific dates for drops and withdrawal for standard class sessions are published online and in the class schedules. Students should consult class syllabi for withdrawal deadlines for non-standard class lengths. Failing to withdraw properly from a class may result in receiving a failing grade of F for that class.

Students who are failing a course due to violations of the academic honesty policy (Policy 8.06) or failing a clinical course in a Health Professions programs (see Catalog, page 190, Program Requirements) may not be permitted to withdraw. For questions, see the appropriate academic division dean.

### Faculty/Administrative Action

**Developmental drops.** In keeping with the college's On Time Registration policy for students who place into developmental classes, students who miss the first two meetings of a developmental class will be dropped without record on the recommendation of the instructor. The course will not appear on the student's permanent academic records and a full refund will be given. Dropped students will be given the opportunity to register for 13-week developmental classes.

**Faculty-initiated withdrawals.** At the census day immediately following the student drop period, faculty members will initiate the administrative withdrawal process for students who have never attended. After the census date and at any time up until midterm, faculty members will initiate the administrative withdrawal process for students who have ceased to attend. Attendance in an online class is measured in terms of submission of a graded activity, student participation in online class discussions, or contact with the faculty member.

At midterm, faculty members are required to certify students' attendance according to the requirements of the Illinois Community College Board. Each faculty member must sign the following statement at midterm: "I hereby certify that the above listed students, unless (W) grade has been marked, are currently attending and actively pursuing completion of the course at midterm, and I have proper documentation to support this certification." At midterm or at any other time prior to midterm, the faculty member may administratively withdraw any student who does not satisfy the conditions of the previous statement. After midterm, faculty cannot withdraw any student; withdrawal

from a class must be done by the student prior to the withdrawal deadlines published online and the class schedule. All faculty-initiated withdrawals result in a W grade on the permanent academic record. No refunds are given.

Should a student who has been administratively withdrawn return to class and the faculty member determines it is possible for the student to earn a quality grade, the faculty member may complete and submit the appropriate form to the Office of Admissions and Records. The student will be allowed to re-register for the class with no additional tuition and fees, assuming that the student has not received any refund. The Business Office will determine whether additional tuition and fees are due.

**Other administrative withdrawals.** A student also may be withdrawn from a course by administrative action as a result of the failure to abide by a contract that he or she signed, or emergency or disciplinary procedures under the provisions of board policy on student rights and responsibilities. Administrative withdrawals result in a W grade on the permanent academic record. No refunds are given.

**Financial aid implications.** Students are responsible for understanding that student-initiated withdrawals or administrative withdrawals may result in loss of financial aid.

#### **Exceptions to Drop and Withdrawal Procedures**

**Request for late withdrawal.** A student may appeal a grade to the dean of learning support in cases where F grades have been recorded because a student was unable to officially withdraw. The student may petition the dean of learning support for retroactive withdrawal from any and all courses in the semester in question. The student must provide verifiable evidence of the cause for failing to withdraw properly. The student has until the end of the fall or spring semester following the semester in question to submit an appeal for retroactive withdrawal. If the petition is granted, the grades will be changed to W by the Office of Admissions and Records.

**Requests for medical withdrawal.** A student may petition the dean of learning support for a medical withdrawal from any and all courses in a semester. The student must provide documentation to verify the medical circumstances that prevent the completion of classes. Such a petition must be submitted no later than the end of the fall or spring semester following the semester in question. Medical withdrawals may be granted a billing adjustment for full or partial refund of tuition by the business office. Students receiving financial aid are not eligible for a billing adjustment.

**Requests for drops without record.** Official records may be expunged only by action of the dean of learning support. Such action is to be used rarely and only in the most extenuating circumstances. A student when appealing to the dean for a drop without record must provide verifiable evidence of the circumstances. The student has until the end of the fall or spring semester following the semester in question to submit this appeal. If the petition is granted, the dean shall submit a signed document of the reasons for the action.

Students may appeal decisions made by the dean of learning support on exception requests to the Student Affairs Committee.

#### **Change of Program Status (Program Code) Procedure**

Students who wish to change their program status will need to complete a Program Code Change form available from the Office of Admissions and Records (U214). Students may submit these forms to the Office of Admissions and Records anytime during the semester.

#### **Transcripts**

A transcript is an official record of a student's academic history of course enrollment and achievements. All courses officially attempted are listed.

An official transcript is signed and dated by the director of enrollment services and sent from the Office of Admissions and Records directly to another institution or organization upon official request from a student. Official transcripts may be requested in person (with picture ID), by mail, or online (at [www.credentials-inc.com/tplus/?ALUMTRO007118](http://www.credentials-inc.com/tplus/?ALUMTRO007118)). Written requests must include the signature of the student whose official record is being requested.

Students may request to receive their transcripts directly. Any transcript given to the individual student will be stamped "Issued to Student"; it is the student's responsibility to consult with the receiving institution or organization to determine whether a transcript issued directly to the student is considered official. All transcripts are \$5 each. Rush (same day) transcript orders may not be available during peak registration periods. Students may obtain a free unofficial copy of their transcript online.

Parkland cannot forward the original or a copy of any document received by Parkland from another institution or agency to a third institution. Transcripts, test scores, and other documents must be requested by the student from the originating institution or agency.

#### **Acceptance of Credits Earned Outside of Parkland College**

Students who have earned college credit or a degree from another institution may choose to have their transcripts evaluated for possible credit toward a degree or certificate at Parkland College.

#### **Transfer of Academic Credits**

Parkland College accepts the transfer of credit as stated below. Transfer credit is denoted on the academic transcript with a grade of TR.

**Credits from regionally accredited institutions.** Students may transfer in credits from coursework completed at regionally accredited institutions. Transferable coursework includes the following:

- Courses from Illinois colleges and universities with an IAI GECC or Majors course number. Parkland College

participates in the Illinois Articulation Initiative and will accept transfer courses with IAI course codes.

- Courses from regionally accredited institutions for which direct course equivalency has been established.

Procedure:

- The student submits a completed Parkland College admission application with a declared program of study in a degree or certificate to Admissions and Records.
- The student requests an official transcript from the institution previously attended to be sent to Parkland College. Given that evaluation of petitions for transfer of credits may take up to four weeks, the student is advised to consult a counselor or academic advisor on the selection of courses. If student submits an “Issued to Student” or other informal transcript, the director of enrollment services (or designee) will review the transcript for authenticity and may authorize using the informal transcript on a conditional and temporary basis for educational planning purposes. This step does not nullify the requirement for an official transcript.
- Admissions and Records notifies the student through their Parkland student email account of the results of the transcript evaluation for transfer credit.

**Credits from coursework based on nationally curated curriculum.** In selected career programs, students may transfer in credits from coursework completed at specific non-regionally accredited institutions (including but not limited to vocational training centers and professional schools) offering nationally curated curriculum. Transfer of credit from non-regionally accredited institutions is based on formal agreements between Parkland College and the institution with approval from the vice president for academic services. Such agreements will include a crosswalk that aligns coursework already completed with Parkland coursework. For more information, contact the dean of career and technical education (M123; 217/353-2182).

**Course substitutions.** In cases where direct equivalency between courses cannot be established, the student may request a course substitution. Course substitution may be used for Parkland courses and/or non-Parkland courses taken at a regionally accredited institution if the courses are evaluated as appropriate substitutes for program course requirements.

Procedure:

- The student submits a Request for Credit by Course Substitution form to the appropriate department chair.
- The department chair reviews the request and recommends to the division dean a course substitution if the course under consideration fulfills intended program and/or course outcomes.
- If the dean approves a course substitution, the request form with the dean’s signature is sent to Admissions and Records where the student’s academic record is annotated. The division dean notifies the student through their Parkland student email account of the results of the course substitution request.

### **Credit for Prior Learning**

Parkland College accepts certain forms of college-level learning acquired outside of a regionally accredited institution to fulfill degree and certificate requirements. Proficiency credit or credit by exam and other forms of prior learning assessments (PLA) are used to determine equivalency of learning to Parkland courses. Proficiency credit is denoted on the academic transcript with a grade of P.

Students may use self-reported learning confirmed through appropriate proficiency exams and other forms of PLA assessment (listed below) to fulfill up to 25 percent of a degree or certificate. In specific career-oriented programs, prior learning may be used to fulfill up to 50 percent of a degree or certificate if the following conditions are met:

- The prior learning took place in an organized structured setting where instruction leads to certification in a technical field and is delivered by professionals in the field; and/or
- The prior learning leads to an industry-recognized certification, state or federal certification, and/or state or federal license.

For more information, contact the dean of career and technical education ((M123; 217/353-2182); dean of health professions (L119; 217/351-2383); or chief pilot/director of the Institute of Aviation (Willard Airport, Savoy; 217/244-8687).

The following forms of assessment for prior learning are accepted:

**Proficiency Examination or Credit by Examination.** A student may petition to demonstrate mastery of the knowledge and skills for a course through an exam.

Procedure:

- The student requests a proficiency exam by submitting the Petition for Credit by Examination (Proficiency Examination) to the appropriate department chair. For aviation, the student consults with the chief pilot/director of the Institute of Aviation and uses an aviation version of the petition form.
- The department chair determines whether a proficiency exam is appropriate and whether the student is eligible to take a proficiency examination.
- If approved for the proficiency exam, the student pays the required fee at the Business Office.
- The student brings the form with documentation of payment back to the department chair who makes arrangements for administering and grading the proficiency exam.
- The division dean approves or denies the petition based on the results of the proficiency exam. If approved, the student’s academic record is annotated to reflect proficiency credit.

Rules governing the procedure:

- The proficiency exam for a given course may be taken only once.

- Proficiency exams may not be used to replace grades (including F, NC, T, or W grades) already earned or to duplicate credit already earned.
- A proficiency exam for a course will not be administered if the student is enrolled for that course and instruction has begun or if the student has passed a higher level course than the one for which the proficiency credit is requested.
- Concurrent enrollment in or prior completion of at least six semester hours at Parkland is required.

**Licensure and industry-recognized certifications.**

Some career programs accept licensure and industry-recognized certifications in lieu of a proficiency exam. The acceptance of credit is recorded as proficiency credit. The student petitions for acceptance of licensure or industry-recognized certifications by submitting the *Petition for Credit by Examination (Proficiency Examination)* form to the division dean. If petition is approved, the dean notes completion of alternative examination on the form. The student's academic record is annotated to reflect credit acceptance.

**Course equivalency review.** The department chair in consultation with the division dean determines that prior learning acquired in an organized structured setting where instruction leads to certification in a technical field is equivalent to major course components as delineated in relevant Course Information Form(s) and that course-level assessments used measure the attainment of expected student learning outcomes. The requirement of a proficiency exam is waived but the proficiency fee may apply.

**Advanced Placement (AP) and International Baccalaureate (IB) program scores.** Parkland College accepts a specified range of AP and IB scores as equivalencies for selected college courses. Students should submit their AP and/or IB scores to the Office of Admissions and Records (U214) for credit/placement evaluation. For information on policies about course equivalencies for AP and IB scores, see [parkland.edu/CreditByExam](http://parkland.edu/CreditByExam).

**College Level Examination Program (CLEP).** CLEP is a national credit-by-examination program that offers students the opportunity to obtain recognition for college-level achievement. For information on policies about CLEP exams for selected courses, see [parkland.edu/CreditByExam](http://parkland.edu/CreditByExam).

**Credit for military training.** Parkland College accepts certain forms of military training as equivalent to college-level learning and awards proficiency credit accordingly.

Procedure:

- Documentation: Student submits documentation of military training (Joint Services Transcript (JST) or transcript from the Community College of the Air Force (CCAF) to Admissions and Records for evaluation.
- General elective credit: Admissions and Records evaluates military course work as general elective (not General Education Core Curriculum) credit or occupational elective credit per American Council of Education recommendation.

- Direct course equivalency: The student interested in direct course equivalency should follow the procedure for proficiency credit. The department chair may require a proficiency exam. The proficiency exam fee is waived for military personnel.

### Transfer of Credits to Four-year Institutions

Parkland is accredited by the Higher Learning Commission (see page 8). This accreditation facilitates the transfer of credit to other colleges and universities across the country.

Students planning to transfer to senior colleges are responsible for selecting appropriate courses (see Course Patterns at [parkland.edu/counseling](http://parkland.edu/counseling) and the Illinois transfer website, [www.itransfer.org](http://www.itransfer.org)). Advisors and counselors are available to assist students with the transfer process.

### Classification — Course Load

A freshman student at Parkland College is one who has earned fewer than 30 semester hours of credit. A sophomore student is one who has earned 30 or more semester hours of credit, excluding courses in progress.

A full-time student is one who is enrolled in 12 credit hours or more in a given semester. A part-time student is one who is enrolled in fewer than 12 credit hours in a given semester.

A full-time eligible student is one who has completed the application procedures and has submitted the required credentials to the Office of Admissions and Records. A student who has completed the application, submitted the appropriate transcripts, and declared that he or she is seeking a degree is classified as a degree-seeking student. An applicant who has completed the application, but has not supplied the college with transcripts from high school and/or college, is eligible to attend as a course enrollee. Course enrollees are not eligible for financial aid.

### On Time Registration Limits on Maximum Course Load

In line with the On Time Registration policy (see p. 45), students of any classification who are eligible to take 16-week classes may enroll for up to 18 credit hours without special approval. Students who wish to take more than 18 credit hours must obtain the approval of a Parkland counselor or academic advisor. Students who are eligible to take only 13-week or shorter classes may enroll for no more than 13 credit hours. Students who are eligible to take only 8-week classes may enroll for no more than 8 credit hours. These limits apply to the fall and spring semesters.

### Summer Session Maximum Course Load

A student is permitted to take no more than the equivalent of one credit hour per week of class, excluding any overlapping sessions.

## Student Study Time Expectations

Two hours or more of study outside of class for each class hour of lecture/discussion are usually needed for satisfactory performance. Laboratories usually require outside work to complete reports and lab assignments.

Students who plan to work while attending Parkland should take study time into consideration when planning their schedules and consult their advisor or counselor for advice on a balance of working hours and credit hours carried. In general, 16 credit hours allow minimum time for work; 12 credit hours usually allow 10 hours per week for work; 8 credit hours allow 20 work hours.

## Online Learning Options

### Online Courses

In online courses, students interact with their instructor and classmates through the Internet.

Students who take an online class will read lectures, submit assignments, take quizzes, and do other course activities online. Parkland online courses follow the same semester schedule as traditional classes, and students should be prepared to begin completing course work on the first day the class is scheduled.

Online courses provide a convenient delivery method at Parkland, but also require the most time, self-discipline, and time-management skills. Because online students never attend class on-campus (except in special circumstances), they need to be extremely motivated to do well in the course.

Online students are expected to have good reading, writing, and study skills. They must keep up with the class reading; must meet assignment deadlines; and must read assignments and directions carefully. Online students should have good computer and Internet skills.

### Hybrid Courses

Hybrid courses are courses in which a significant portion of the learning activities has been moved online; time spent in the classroom is reduced but not eliminated. Such courses combine the best features of in-class teaching with the best features of online learning: students experience active, independent learning while seat time is reduced.

Hybrid courses are designed for students who can be successful in online courses but wish to maintain face-to-face contact with the instructor and other students. Students are required to attend class on campus as well as complete coursework online. Hybrid courses offer convenience but require more dedication and different time-management skills than traditional classroom learning.

Questions about online or hybrid courses may be directed as follows:

- Registration questions: contact Admissions and Records, U214, 217/351-2489, [admissions@parkland.edu](mailto:admissions@parkland.edu).

- Technology questions: contact Tech Service Desk, 217/353-3333, [techhelp@parkland.edu](mailto:techhelp@parkland.edu).

## Student Complaint Procedure Regarding Academic Matters

1. Class and course or grade concerns should be first discussed with the faculty member.
2. If the student is not satisfied with the faculty member's response or explanation, or if the student does not feel comfortable speaking with the faculty member, the student should meet with the department chair.
3. The department chair or designated equivalent should hear the student's concern and resolve it if it is a procedural or technical matter. If it is a personal or faculty member conflict matter, the chair should hear it out and then:
  - a. recommend that the student discuss it with the faculty member, if appropriate and not already discussed,
  - b. discuss the matter with the faculty member
    - (i) with the student present, if student so desires,
    - (ii) without the student present, if student so desires, or
    - (iii) after the semester grades are submitted, if the student fears that his or her grade may be jeopardized (this session may or may not include the student).
4. If the student is not satisfied with the department chair's response or explanation, the student should see the division dean, who will hear and ask if the student has discussed the matter with the faculty member and department chair, if appropriate. The division dean will resolve the matter if it is a procedural or technical matter. If the matter is personal or a faculty member conflict, the division dean will discuss the matter with the faculty member and/or the department chair, as the student desires. The department chair and/or the faculty member will be notified after the semester grades are submitted if the student fears that his or her grade may be jeopardized.
5. If the student is still not satisfied with the response, the student should follow the student grievance procedures, or the grade appeal process printed in the Student Policies and Procedures Manual. Information on these processes is available on the web at [parkland.edu/studentLife/policies](http://parkland.edu/studentLife/policies). The student should note that utilizing the grade appeal process precludes the student from using the student grievance hearing process (and vice versa) for the same occurrence.

Students, faculty, and department chairs must know that any student complaint will be discussed with the faculty member and chair either at the time of the complaint or at the end of the term.

## General Information

To meet the broad range of student objectives, Parkland College offers several types of instructional programs, study alternatives, and academic support services. Parkland's two-year Associate in Applied Science (A.A.S.) degree and Certificate career programs prepare students for immediate employment in a wide variety of career fields. The Associate in Arts (A.A.), the Associate in Science (A.S.), the Associate in Engineering Science (A.E.S.), and the Associate in Fine Arts (A.F.A.) transfer degrees are available for students planning to complete the first two years toward a bachelor's degree at Parkland and then transfer to a four-year college or university for study in a specific major. The General Studies program (A.G.S.) is designed for students who wish to earn an associate's degree but not in a specific career or transfer area.

Developmental education programs provide students with academic deficiencies an opportunity to prepare themselves for college-level work. Many continuing education courses and workshops that enhance personal and professional growth are available to all district residents. Free classes offered through the Adult Education program enable adults to earn a high school equivalency diploma (GED).

A wide variety of other educational programs and academic support services available at Parkland are described in this section.

## Educational Guarantees

### Career and Technical Programs

Parkland College guarantees that graduates in all career associate's degree (A.A.S.) and certificate programs will have acquired skills needed by employers. Parkland College will provide training in specific skill areas, at no cost to the student, when the program completer and/or the employer states that the individual lacks specific skills that are directly related to his or her position in the occupation for which he or she received training at Parkland. Time limits and other restrictions may apply. Further information regarding educational guarantees related to career programs may be obtained by contacting the dean of career and technical education at 217/353-2182.

### Transfer Courses

Parkland College additionally guarantees that Parkland students who complete the requirements for baccalaureate-oriented associate's degrees can transfer all credits in courses selected with the assistance of a Parkland College counselor to a specified four-year college or university in Illinois as planned. If a course selected with the assistance of the college does not transfer, Parkland will refund the tuition for the course. The transfer guarantee is accessible to full- and part-time students. Further information regarding educational guarantees related to transfer programs may be obtained by contacting the dean of arts and sciences at 217/353-2181.

## Illinois Community College Career Agreement

Parkland College honors the Career Agreement with partnering Illinois community colleges whereby students from other community college districts who wish to enroll in career programs that are not available in their home community colleges and who are deemed eligible by Parkland College will be charged tuition at the in-district/program rate for District 505 residents.

The Illinois community colleges participating in the Career Agreement are:

Black Hawk College  
Carl Sandburg College  
College of DuPage  
College of Lake County  
Danville Community College  
Elgin Community College  
Heartland Community College  
Highland Community College  
Illinois Central College  
Illinois Eastern Community Colleges  
Illinois Valley Community College  
John A. Logan College  
John Wood Community College  
Joliet Junior College  
Kankakee Community College  
Kaskaskia College  
Kishwaukee College  
Lake Land College  
Lewis and Clark Community College  
Lincoln Land Community College  
McHenry County College  
Moraine Valley Community College  
Morton College  
Oakton Community College  
Parkland College  
Prairie State College  
Rend Lake College  
Richland Community College  
Rock Valley College  
Sauk Valley Community College  
Shawnee Community College  
South Suburban College  
Southeastern Community College  
Southwestern Illinois College  
Spoon River College  
Waubonsee Community College  
William Rainey Harper College

Student eligibility to receive tuition benefits under the Career Agreement will be governed by the following rules:

1. **Eligibility:** Any student who seeks eligibility for in-district tuition benefits under the Career Agreement must submit the following forms to the appropriate division dean office:

- a. Authorization for Enrollment letter from his or her home community college
- b. Parkland College Career Agreement—Request for Approval form

The division dean reviews and determines if eligibility criteria are met. Eligibility criteria include:

- a. The student’s home community college does not offer the career program in question.
  - b. The student has secured proper documentation from their home community college.
  - c. The student has been accepted into the career program in question.
- The division dean in consultation with the vice president for academic services may grant exceptions to the above requirements.
2. **Scope of course eligibility:** For the eligible student, technical and general education courses attempted in pursuit of the career program will qualify for in-district/program tuition.
  3. **Annual review of eligibility:** Each summer, the division dean conducts a review of every Career Agreement student’s eligibility to continue to receive tuition benefits. The review will determine whether the student retains eligibility for the in-district/program tuition rate for the forthcoming year (fall, spring, and summer semesters). Eligibility is terminated if and when the student completes the career program within the year.
  4. **Application for eligibility deadline:** The deadline for a student to submit an application for tuition benefits under the Career Agreement is 30 days after the start of 16-week session (inclusive of the first day of instruction) in the fall and spring semesters and 15 days (inclusive of the first day of instruction) after the start of the summer semester in May. After the deadline, the student may submit an application for eligibility for the following semester.

## Special Academic Programs

### Adult Education and Workforce Development

1307 N. Mattis Ave., Champaign, IL 61821

As the largest provider of workforce training in the community, Parkland College provides the vital service of “improving the educational level of working-age adults”—a benchmark of workforce progress in the state of Illinois<sup>1</sup>. As a community college, however, Parkland takes an even more dynamic approach to workforce development, continually seeking new industry partnerships and state, regional, and national resources that boost the public’s access to higher-paying jobs and advancing technologies while meeting the needs of district employers.

The dedicated focus on community workforce development permeates the efforts of specific Parkland units (Adult

Education, Community Education, and Workforce Development), and also serves as a guiding force for many who support the college, from its academic departments to the Parkland foundation with its multifaceted entrepreneurial program to the college’s career advisory boards of area business and technology leaders. These groups work individually and collaboratively to build stronger local economies and produce more highly skilled employees in east central Illinois.

<sup>1</sup>Illinois Workforce Investment Board, Measuring Progress: Benchmarking Workforce Development in Illinois. June 2009.

### Workforce Innovation and Opportunity Act (WIOA)

The Workforce Innovation and Opportunity Act, signed into law on July 22, 2014, aligns federal workforce development and adult education services that prepare low-income workers for economic and career success. The unemployed, dislocated workers, out-of-school youth, and re-entry population receive comprehensive support through a seamless provision of services across core program agencies.

**WIOA Title I – Adult, Youth and Dislocated Worker Employment and Training:** Parkland College’s workforce development initiatives annually serve Local Workforce Investment Area (LWIA) #17 and portions of LWIA #23. Title I funding from the Workforce Innovation and Opportunity Act (WIOA) provides eligible students with financial support to access career and technical education training that leads to postsecondary credentials aligned with in-demand industry sectors.

**WIOA Title II – Adult Education and Family Literacy Act:** Title II funding provides basic literacy and language services to English Language Acquisition (ELA) learners and adults seeking a high-school equivalency credential. Services emphasize transition to postsecondary education and employment through the use of integrated education and training instructional models.

**Career Pathways:** Designed to meet the needs of both adult learners and employers, career pathway programs provide sequenced education coursework leading to credentials for in-demand occupations.

**Bridge Programs:** Bridge programs prepare adults with limited academic or limited English skills to enter and succeed in credit-bearing postsecondary education and training leading to career-path employment in high-demand, middle- and high-skilled occupations.

**Integrated Career and Academic Preparation System (I-CAPS):** Through I-CAPS programming, adult learners receive both basic skills and professional technical training for specific career pathways, leading to both technical credentials and high school equivalency (HSE) preparation. Upon program completion, adults earn college credit and stackable credentials that can be applied to further training or and industry-recognized certification to demonstrate workforce readiness.

## Short-term Certificate Pathways

Students who assess at the CCS 098 reading level are eligible to enroll in certain certificate programs with concurrent enrollment in ALS 199: Support for Workforce Training (SWFT) course. Pathway students earn a workforce certificate in one or two semesters. Required enrollment in CCS 098 is waived; the SWFT course provides appropriate literacy and numeracy support. After completing the credential, students can go directly into the workforce or continue their education. For a complete and up to date list of certificate programs in which students are eligible for this course, please visit [parkland.edu/cas](http://parkland.edu/cas).

## Case New Holland Diesel Power

As a joint agreement between Case New Holland and Parkland College, the CNH Service Technician program prepares students to maintain and repair equipment used in a Case New Holland agricultural or construction equipment dealership. Candidates for this program must be sponsored by a CNH dealership within a 175-mile radius of Parkland College. Students will work in the dealerships for two periods of time over the duration of the program of study. Based on successful completion of the degree, students will be transitioned into full-time employment with their respective dealerships.

For more information, call the Agriculture/Engineering Science and Technologies department at 217/351-2290.

## Ford ASSET

As a joint agreement between Ford Motor Company, Ford and Lincoln dealers, and Parkland College, the Ford ASSET (Automotive Student Service Educational Training) program is designed to develop entry-level, product-trained service technicians for Ford and Lincoln dealerships. Since enrollment is limited, students are encouraged to submit their admission applications, indicating interest in the ASSET program, as early as possible.

The ASSET program is an intensive professional training program, requiring strong student commitment and solid academic preparation and skills in reading and mathematics. Application to the program is open to any student who is interested in a highly skilled professional technical career in the automotive dealership setting.

For more information, call the Agriculture/Engineering Science and Technologies department at 217/351-2290.

## Parkland Pathway to Illinois

Parkland Pathway to Illinois is a program in which students can begin college at Parkland and seamlessly transfer to the University of Illinois at Urbana-Champaign. This is an opportunity for qualifying students to gain guaranteed transfer admission to Illinois. While preparing to transfer, participating students will be able to integrate their experience as full-time Parkland College students while utilizing resources and classes at Illinois. For more information, including the participating colleges and majors at Illinois, call Parkland's

Office of Admissions and Records at 217/351-2482, or visit [parkland.edu/admissionsoffice](http://parkland.edu/admissionsoffice) and select Pathway to UIUC.

## High School Articulation Agreements

Articulation agreements have been developed between Parkland College and local high schools and vocational centers to minimize duplication of course content for career program students who complete occupational sequences in high school and wish to receive advanced training at Parkland. Individuals can convert credits for high school course work to credits toward a Parkland College degree through fulfillment of specific requirements in identified courses, or through passing a proficiency examination.

For more information, contact the appropriate Parkland College department chair or the dean of career and technical education at 217/353-2182. Information is also available through high school guidance counselors.

## Early College Services

Parkland College provides opportunities for academically ready high school-aged students to earn college credit. Enrollment into these opportunities is coordinated by the Early College Services office. Early college opportunities are as follows:

**Dual Credit:** Dual credit courses are sponsored jointly by high schools in District 505 and Parkland College. The program allows high school students 15 years of age and older to take college credit classes while they are still in high school to earn both high school and college credits. As long as students meet the Parkland class prerequisites and have the written approval of their schools and parents, they may take:

- Online classes
- Parkland classes taught in the high schools
- Parkland classes taught on Parkland's campus
- Early College and Career Academy (ECCA) classes if their high school is a participant in the EFE #330 program
- Early Transfer Academy (ETA) if their high school approves of ETA classes as dual credit

**Dual Enrollment:** Dual enrollment refers to the provision that permits high school students 15 years of age and older to take classes at Parkland to earn college credit. These classes do not count for high school credit. To participate in dual enrollment, the student must meet class placement requirements and prerequisites and have written approval of their schools and parents.

**Early College and Career Academy:** The Early College and Career Academy (ECCA) is a collaboration between the Education for Employment #330 (EFE) K-12 Career and Technical Education cooperative and Parkland College. The ECCA provides an opportunity for high school juniors and seniors to earn dual credit upon completion of Parkland College courses in manufacturing, automotive technology, computer networking, computer programming, health professions, emergency medical services, and criminal justice.

All courses taught at Parkland College. In some programs, students have the opportunity to earn professional licenses, industry-recognized certifications, and/or Parkland certificates through the ECCA. The EFE 330, located in Room A113 at Parkland College, works with Parkland to administer the program.

**Early Transfer Academy:** The Early Transfer Academy (ETA) is a set of classes offered for high school and home school juniors and seniors to fulfill the State of Illinois General Education Core Curriculum (GECC). ETA participants can then transfer the completed GECC package of course credits to public colleges and universities across the state of Illinois, fulfilling lower-division, general education course requirements (as stipulated under the Illinois Articulation Initiative Act). Interested students should inquire with their home high school as to whether these classes can be taken for dual credit. For more information, call Early College Services at 217/353-2663.

**College for Home Schooled Students:** Students who are home schooled at the high school level and are 15 years of age and older may enroll in college classes for which they have met all academic eligibility requirements and course prerequisites.

For more information, contact Early College Services (U233; 217/353-2663; email [earlycollege@parkland.edu](mailto:earlycollege@parkland.edu)).

## International Education

Parkland College recognizes the profound importance of changes in the world's political, economic, cultural, and natural environments. Parkland College's international efforts assist faculty in internationalizing the content and perspective of their curriculum; help develop and promote opportunities for faculty, staff, and students to work and study abroad; sponsor international study-travel tours; welcome international students and visitors to Parkland's campus; and sponsor events providing information about international issues to members of the college community. Parkland maintains memberships in several international education consortia and other organizations. The International Services ([parkland.edu/international](http://parkland.edu/international)) website serves as a portal for Parkland faculty and students into the world of international possibility. For more information, call 217/353-2170.

### Pre-college ESL

The ESL program offers a series of 3-credit-hour and 4-credit-hour courses in multiple skill areas for academic preparation. Students can enroll part-time or full-time; course placement is based on scores from CaMLA EPT, TOEFL, or IELTS. The courses are available from beginning through advanced levels in grammar/writing, reading/vocabulary, and listening/speaking/pronunciation. Supplemental instruction through computer-based assignments and specialized electives may be available depending on student need. International students can apply to this program from their home countries or from other colleges in

the United States. Students do not need a TOEFL or IELTS score to apply to the ESL program. For more information, call 217/351-2217.

### International Admissions

The International Admissions Office provides admission services and immigration advising for international students and applicants. For information or assistance, call 217/351-2890.

### Parkland Study Abroad

Parkland College encourages students to explore the world and discover the benefits of living and studying in another country. Students may choose a short-term stay, or spend the entire semester abroad. To be eligible, students must have completed a minimum of 12 credit hours, including ENG 101, with a cumulative grade point average of at least 2.75. Final determination of acceptance rests with Parkland College.

Information on Study Abroad can be found at [parkland.edu/international/studyabroad](http://parkland.edu/international/studyabroad), or call 217/351-2532, or email [jlittleton@parkland.edu](mailto:jlittleton@parkland.edu).

### Global Studies Emphasis Designation

A Global Studies Emphasis designation on a student's transcript indicates that the student has acquired in-depth education of a particular country or region of the world by completing the following:

- Two semesters of a foreign language\* (8–10 credit hours)
- A Study Abroad program (of any length)
- Three courses in International Studies (9–12 credit hours) from the following list:

AGB 106, BUS 152, COM 120, ECO 165, GEO 140, GEO 143, HIS 101, HIS 102, HIS 108, HIS 109, HIS 123, HIS 125, HIS 128, HIS 129, HIS 140, HIS 165, HIS 166, HIS 167, HIS 168, HIS 169, HIS 289, HUM 101, HUM 102, HUM 103, HUM 104, HUM 105, HUM 106, HUM 109, HUM 123, HUM 124, HUM 125, HUM 166, LIT 146, LIT 147, LIT 148, LIT 149, LIT 201, LIT 202, MKT 218, MUS 124, MUS 243, MUS 244, POS 165, POS 167, POS 202, POS 202, REL 101, REL 102, REL 120, REL 121

\*Two International Studies courses may be substituted for two language courses if the student participates in a study abroad program in an English-speaking country.

### Dental Hygiene Clinic

For \$10 a semester, the public can receive a medical history review and blood pressure screening, oral examination, oral cancer screening, oral hygiene instruction, dental cleaning, fluoride treatment, X-rays, and pit and fissure sealants. Teeth bleaching is provided at an additional cost. Each appointment is approximately three and one-half hours long and must be made in advance by calling 217/351-2221. There is no charge for children under 11, adults over 65, Medicaid recipients, or Public Aid recipients. *Children under the age of four cannot be treated.*

## Massage Therapy Clinic

The public can receive one-hour massages for \$10 from students in the massage therapy program during spring and summer semesters. Interested individuals should make an appointment in person at the Health Professions department (Parkland College on Mattis location), 1309 N. Mattis Ave., Champaign. Appointments will be taken only on the Tuesday following the Martin Luther King, Jr. holiday between 11 a.m. and 7 p.m.

## Transfer Agreements

Parkland has articulated agreements with specific universities to ensure ease in transfer of credits upon completion of studies at Parkland. Departmental and counseling offices have copies of the agreements and equivalencies to assist the student in determining which courses will transfer to a given university.

Associate in Arts, Associate in Science, Associate in Engineering Science, and Associate in Fine Arts degree students, who early in their academic program of study identify the senior institution to which they will transfer and who comply with terms of the agreements, may expect to complete baccalaureate requirements within the same period of time and with nearly the same course work experience as if they had spent their entire academic career on the campus of the senior institution to which they transfer.

### Illinois Articulation Initiative

The Illinois Articulation Initiative (IAI) ([www.itransfer.org](http://www.itransfer.org)) is a comprehensive statewide transfer agreement among colleges and universities in Illinois. This effort includes public community colleges, public universities, and private colleges and universities. The following summary highlights the major features of the initiative.

1. **IAI General Education Core Curriculum (GECC):**  
The GECC comprises a list of statewide articulated general education courses that will be accepted for transfer by all participating colleges and universities in Illinois.
  - a. Students who complete the A.A. degree, or the A.S., A.F.A., or A.E.S. degree with the additional course work needed to complete the General Education Core Curriculum, will have their lower-division general education requirements accepted as complete at the participating Illinois college or university to which they transfer.
  - b. Students who complete and attain certification of the General Education Core Curriculum at any participating college or university in Illinois will have met their lower-division general education requirements upon transfer to another participating college or university in Illinois.
  - c. The General Education Core Curriculum and the list of statewide articulated general education courses are a great advantage for students who are undecided about where they want to transfer, or who are undecided about their major.

- d. The IAI GECC transfers as a package and its transferability is backed by state law (Public Act 99-0636). Course-to-course transfer, however, is not guaranteed.
2. IAI Baccalaureate Majors' Recommendations (IAI Majors). IAI Majors describe courses typically taken by freshmen and sophomores for a specific major. These course recommendations are meant for students who are undecided about a transfer school. Students who know where they want to transfer should see that school's catalog and an admissions counselor for specific advice.

### Parkland College's Participation in the Illinois Articulation Initiative

As a participant in the Illinois Articulation Initiative (IAI), Parkland College will observe the following procedures concerning the adoption and implementation of the agreements associated with the IAI:

- Students who complete an A.A. degree at Parkland will be certified as also having completed the General Education Core Curriculum (GECC) certificate.
- Students who complete the GECC but do not receive an A.A. degree must formally petition the Office of Admissions and Records to receive the GECC certificate.
- Completion of the GECC certificate will be noted on the official transcript.
- Parkland College will recognize all of the courses on the IAI approved list of courses taken at any participating college or university for credit toward fulfilling Parkland College's GECC certificate requirements.
- Courses with D grades or better are acceptable for evaluation of individual courses for GECC requirements. However, completion of the GECC certificate requires that students must earn a minimum of 2.0 GPA for the courses that count towards the GECC. There is one IAI exception to this rule: the ENG 101-102 two-course sequence in writing (6 semester credits) requires a grade of C or higher.
- In order to complete the transferable GECC certificate, students need to complete a minimum of 15 credit hours of the GECC requirements in residence at Parkland College.
- The Office of Admissions and Records will evaluate courses taken at out-of-state or non-participating in-state institutions.
- Students who transfer in fractional credit (less than a full semester hour of a course) from a participating college or university may have the remaining fraction of an hour waived to complete an approved area of the General Education Core Curriculum. However, students must complete a minimum of 38 semester hours to satisfy the Parkland College General Education Core Curriculum certificate requirements.
- Students may use Advanced Placement (AP), International Baccalaureate (IB), and College Level Examination Program (CLEP) scores to fulfill GECC requirements. For

more information, see [parkland.edu/admissions](http://parkland.edu/admissions). Students should note that transfer institutions will follow their established (local) credit policies on the acceptance of standardized test scores.

### **MyCreditsTransfer**

Parkland College participates in MyCreditsTransfer, a state-wide initiative designed to facilitate transfer within Illinois using the nationally available tool, Transferology. Within Transferology students can find the courses that transfer between institutions, degree requirements that courses taken can satisfy, as well as different majors that institutions offer. There is no charge to use Transferology. For more information, contact a counselor or academic advisor or go to [itransfer.org/students.aspx](http://itransfer.org/students.aspx).

### **Concurrent Enrollment—University of Illinois and Parkland College**

The University of Illinois at Urbana-Champaign (UIUC) and Parkland College have a concurrent enrollment agreement that permits Parkland students to enroll in UIUC courses that are not available at Parkland while the students are also enrolled at Parkland. Similarly, UIUC students may enroll in selected Parkland courses after consulting their UIUC academic advisor. (See registration procedures on p. 21.)

Parkland students should contact the director of Counseling Services (U279; 217/373-3826). UIUC students may submit documentation in person at the Office of Admissions and Records (U214), via email at [registration@parkland.edu](mailto:registration@parkland.edu), or by fax at 217/353-2640.

### **2+2 Agreements**

Parkland College has developed 2+2 articulation agreements with selected universities to provide students the opportunity to obtain bachelor's degrees in technical and other specific fields. Under the 2+2 agreement, Parkland graduates who have earned Associate in Applied Science (A.A.S.) degrees in specific occupational programs or A.A. or A.S. degrees with specific course work can transfer to the cooperating four-year institution, usually with junior standing. Check specific agreements with Counseling Services (U267). Currently, the following 2+2 agreements are in effect:

#### **Colorado State University Global Campus**

Colorado State University Global Campus offers a variety of advanced degrees and degree specializations, all offered in an online format. Tuition relief is available for students transferring to CSUGC within one year of their graduation from Parkland. Contact the Office of Admissions and Records at 217/351-2482 for additional information.

## **Military Transfer Agreements**

**Servicemembers Opportunity College (SOC).** Colleges and universities participating in SOC agree to overcome most of the obstacles in higher education for persons serving in the military. Accordingly, Parkland College will award college credit to servicemembers for learning acquired in nontraditional ways within the guidelines of the American Council on Education.

As a part of SOC, Parkland is also a participant in the CONAP System of the United States Army. CONAP (Concurrent Application) allows recruits to the Army to be admitted into Parkland at the time of entry into the Army. Under CONAP, students will be committed to the graduation criteria of the catalog of the year in which they are admitted regardless of date of enrollment. Students will also have the option to graduate under the requirements of any subsequent catalog. All other agreements applying to the SOC students will also apply to the CONAP students.

Further information about SOC and CONAP may be obtained from Counseling Services.

## **Division of Learning Support**

The Division of Learning Support provides academic support services to assist students in their academic pursuits.

### **Center for Academic Success**

The Center for Academic Success (CAS) in D120 is Parkland's one-stop learning center providing academic support for all students. CAS provides several kinds of academic and student support to help college students succeed: walk-in learning assistance and tutoring; modules and tutorials; advising and academic coaching; student orientation, advising, and registration (S.O.A.R.) and iConnect peer mentoring. CAS also provides special programming focused on first year college success and beyond. Most of the services are free and provided on a walk-in basis or by appointment. For hours, call 217/353-2005 or see [parkland.edu/cas](http://parkland.edu/cas).

**Math Faculty Tutoring.** Experienced math faculty provides hands-on tutoring and instruction to students in MAT 059, 060, 072, 098, 124, and 143. Students are encouraged to

work on math assignments in this tutoring area and receive immediate guidance and help.

**Peer Tutoring Program.** The Peer Tutoring Program is designed to help students understand course material, complete assignments, and prepare for tests. Peer tutors are students who have excelled in their classes and received tutor training. Tutoring is available for accounting, biology, chemistry, computer information systems, computer science, economics, mathematics, physics, Spanish, and others.

**Writing Lab.** The Writing Lab provides writing help for students, faculty, and staff. It is staffed by experienced English instructors who will work with writers at any stage of the writing process: understanding an assignment, developing a focus, organizing a paper, researching, drafting a paper, documenting resources, and using correct grammar and punctuation. Assistance is given for writing assignments in any Parkland course. Writing help is also offered for personal essays for transfer and scholarship applications and cover letters for employment.

**Student Orientation, Advising, and Registration (S.O.A.R.)** A comprehensive new student orientation enhances first-year student success.

**First Year Experience Programming.** CAS offers a First Year Experience course (FYE 101) that will help students succeed in college and beyond. Includes self-assessment, goal setting, educational and career planning, time management, interpersonal communication, and personal development.

**Academic Advising.** CAS provides students with academic advising services. A team of experienced academic coaches and an academic advisor help students understand placements, choose appropriate classes, and do long-term academic planning. They serve as student liaisons with faculty and student services departments to promote student success.

**Academic Coaching.** Academic Coaches will help students navigate barriers to college success by providing assistance with study skills, time management, educational plans, communication skills, as well as connecting students to campus and community resources.

**Academic Development Lab.** CAS provides academic development specialists who will work one-on-one with students to acquire college-ready math, reading, study, and writing skills. The lab is also equipped with learning software to support students in improving academic skills.

**Instructional Modules.** Modules are lab-based equivalents of traditional classroom courses. Instructors use alternative teaching/learning approaches to help all students learn and succeed. CAS offers modularized pre-college classes: developmental reading (CCS 098,099) and writing (ENG 098,099). Each module is a one-credit-hour course. Enrollment is based on instructor referral with program director and/or department chair approval. For more information, visit CAS (D120) or call 217/351-2441.

**Supplemental Tutorials.** CAS offers one- to two-credit hour tutorials that provide extra assistance to help

students succeed in a variety of courses: reading, writing, math, elementary chemistry, Kaplan test prep for Health Professions, and ESL/ENG grammar and writing.

## Library

Parkland Library connects students with the information they need in school, work, and life. Located on the second and third floors of the College Center, the library offers space for quiet studying, group work, class preparation, and research. The library owns an extensive collection of print and digital books, magazines, and newspapers, as well as videos, and other materials. There are over 80 computers with Internet access. Laptops, iPads, Chromebooks, Kindles, chargers and other loanable technology are available for check-out. Librarians teach research and information literacy skills in the 24-seat library classroom (R227), which serves as a quiet open computer lab when not otherwise scheduled. Professional assistance in the use of library resources is available all hours the library is open and online full-text resources are available 24/7. Questions can be sent by e-mail any time to “Ask a Librarian” at [Library@parkland.edu](mailto:Library@parkland.edu) or text 217/615-0079. For more information see the library web page at [library.parkland.edu](http://library.parkland.edu) or call the Research Help Desk at 217/373-3839.

## Professional Development and Instructional Technology

Professional Development and Instructional Technology (PDIT) facilitates the adoption of innovative and effective practices in teaching, learning, and instructional technology; and promotes the college’s culture of excellence, lifelong learning, and continuous improvement among all Parkland faculty and staff.

PDIT staff work with input from faculty, staff, administration, and the PCA Professional Development Committee to facilitate the award-winning professional development program of the Center for Excellence in Teaching and Learning. Professional development funds are administered by PDIT and are available on a limited basis to full-time faculty, part-time faculty, and staff.

## Center for Excellence in Teaching and Learning

The Center for Excellence in Teaching and Learning facilitates and enhances quality teaching, student learning, and excellence in the workplace. It empowers professionals to address challenges while fostering the scholarship of teaching and student service. Scholarship incorporates the reading of relevant literature and conducting systematic classroom investigations for the study of teaching and learning within a supportive academic community. The center uses faculty and staff feedback to design and implement an ongoing professional development system for all faculty and staff at Parkland College.

For more information, call 217/373-3767 or e-mail [centerforexcellence@parkland.edu](mailto:centerforexcellence@parkland.edu).

## PCTV

Parkland College Television (PCTV) is a 24-hour cable and online streaming channel that delivers locally-produced educational programming, and community interest programming about the college to District 505 households. PCTV also offers satellite programming from Classic Arts Showcase, NASA-TV, and DW-TV. PCTV can be viewed online and over cable on Comcast Cable channel 9, some Mediacom outlets on channel 10, and AT&T Cable channel 99. For additional information call 217/351-2475. PCTV also operates a video production facility that provides training for students and instructional support for faculty.

## Service Learning

Parkland College encourages a campus-wide commitment to community involvement through a variety of organizations, academic service learning, and volunteer efforts. Service learning strives for a reciprocal relationship between the college and the community with tangible benefits for both. Through service learning activities, students gain an awareness of personal and civic responsibility through the application of learned skills and critical reflective thinking directed towards the common good.

Students, faculty, and potential community partners who wish to learn more about opportunities to learn in community-based activities, who wish to design service learning modules, or who know of community needs that could be addressed by partnership with Parkland may contact the service learning coordinator at 217/351-2534 or [bnudelman@parkland.edu](mailto:bnudelman@parkland.edu).

## Honors Program

The Parkland Honors Program is open to all students who have demonstrated consistent academic excellence, motivation, and leadership. The objectives of the program include integrating academic study and extracurricular projects; bridging school, community, and the workplace; fostering collaboration among faculty and students; and promoting a synthesis of various academic disciplines.

Students will be accepted into the Honors Program based on any one of the following: high school GPA, SAT score, ACT score, placement into ENG 106, Parkland GPA in 100 and 200 level courses, or Honors Application Essay. Students must apply for admission into the Honors Program, and the director of the Honors Program may interview each applicant before admission is confirmed.

After being admitted to the Honors Program, students may receive a scholarship each semester they successfully complete an honors project.

To graduate as an Honors Program Scholar, students must have a 3.5 GPA, participate in the annual Honors Symposium, participate in the Honors Graduation Convocation, and earn three honors credits. Credits are earned by completing A with honors projects, doing independent honors projects, or participating in an honors class. Students may

complete A with honors projects in many Parkland classes but professors are not required to allow honors projects. One of the three required honors credits must be a service learning project. An honors designation will appear on the transcripts and diplomas of all students who meet Honors Program graduation requirements.

For information about the Honors Program, contact the honors program director at 217/373-3739 or [mjones@parkland.edu](mailto:mjones@parkland.edu).

### **Phi Theta Kappa Honor Society**

Phi Theta Kappa, international honor society of the two-year college, invites applications from students who have earned 12 semester credit hours at Parkland in courses numbered 100-299 toward an A.A., A.S., A.E.S., A.F.A., or A.A.S. degree and have achieved a minimum of a 3.5 (on a 4.0 scale) college (cumulative) GPA. Phi Theta Kappa promotes scholarship, leadership and service, and fellowship among members.

Parkland's chapter is Alpha Psi Eta. New members are inducted in the fall and spring. For more information, please call the chapter advisor at 217/353-2131 or email [lgarrett@parkland.edu](mailto:lgarrett@parkland.edu).

## **Other Academic Support Services**

In addition to the support services in the Division of Learning Support, other academic support services at the college include:

### **Presentation Center**

Communication faculty provide one-on-one coaching to help students or staff members practice presentations, cope with speech anxiety, develop and organize solo or group presentations, and improve oral communication skills. Services are free and provided on a drop-in basis or by appointment. Visit the Presentation Center in C150, email [presentationcenter@parkland.edu](mailto:presentationcenter@parkland.edu), or go to [faa.parkland.edu/communication/lab.html](http://faa.parkland.edu/communication/lab.html) for more information about drop-in hours.

### **Tech Service Desk**

Tech Service Desk staff assist students, faculty, and staff with technical issues, Parkland system questions, and password resets.

Located in room A184, Tech Service Desk hours are 7:30 a.m. to 6 p.m., Monday–Thursday, and 7:30 a.m. to 5 p.m., Friday. A satellite location in the Parkland Library is open from 10 a.m. to 2p.m., Monday–Thursday, and 10 a.m. to noon on Friday. Answers to questions can also be found in the Parkland College KnowledgeBase at [kb.parkland.edu/](http://kb.parkland.edu/). For more information, see the Tech Service Desk website at [parkland.edu/techsd](http://parkland.edu/techsd).

Nursing  
Occupational Therapy Assistant  
Practical Nursing  
Radiologic Technology  
Respiratory Care  
Surgical Technology  
Veterinary Technology

## **AVIATION . . . . . 219**

# Graduation

## Conferral of Degrees and Certificates

Associate degrees and certificates are conferred at the end of each semester. Students who plan to graduate are encouraged to file a Petition to Graduate form early in the term prior to the semester in which they anticipate graduation. This form must be on file in the Office of Admissions and Records (U214) by the published date(s) in the college Academic Calendar.

Commencement is held each year at the completion of the spring semester. All students who have graduated with an associate degree or certificate of 30 or more credits since the last commencement, or who expect to graduate at the end of the spring semester or the following summer session, are encouraged to participate.

## Graduating with Honors

To recognize students who have demonstrated academic excellence in their pursuit of higher education, Parkland College will publicly acknowledge graduating students who have achieved at least a 3.50 program GPA with a minimum of 30 credit hours of 100–299 level course work applicable to the program at Parkland College. The designation “Graduated with Honors” will be stated on the student’s transcript and diploma. See p. 60 for Honors Program requirements.

## Graduation Requirements

*It is the student’s responsibility to know and fulfill all degree/certificate academic requirements and graduation procedures. The advisor’s role is to assist the student in making decisions.*

Although academic program requirements may change with each edition of the college catalog, students may graduate under the current program requirements or any program requirements in effect since their first enrollment. Students in a transfer program may change majors and may graduate under the current transfer program requirements or any transfer program requirements in effect since their first enrollment. Students whose enrollment has been interrupted for two years (or more), four successive semesters (excluding summers), must follow the graduation requirements of the catalog in effect at the time of reentry or any catalog published after reentry. Students entering Parkland College under Army Reserve and National Guard (ARNG) and/or Servicemembers Opportunity Colleges Associate’s degree (SOCAD or CONAP) programs will be given opportunities to complete their programs under the conditions of their student agreements.

The grade point average used to determine eligibility for graduation in degree and certificate programs includes only courses that are counted for the degree/certificate. This grade point average is called the *program* GPA (see p. 42).

- For A.A.S. degrees and certificates, required courses and all electives that are eligible to be counted for the degree/certificate will be included in the calculation. If a student

takes more electives than are required for the degree/certificate, all eligible electives will be used in calculating the program GPA.

- For A.A., A.S., A.E.S., and A.F.A. degrees, all courses numbered 100–289 (except courses with ALS prefixes) with an even or zero middle digit will be included in the calculation.
- For the A.G.S. degree, all courses numbered 100–299 will be included in the calculation.

The program GPA will not include any courses numbered below 100 and above 299. The program GPA will include only courses completed at Parkland College. The college (cumulative) GPA is not used to determine eligibility for completion of a degree or certificate, but the college GPA may be used for financial aid eligibility and academic probation.

Graduation from any program at Parkland College requires a minimum program grade point average of 2.0.

Parkland College publishes the list of students who have graduated in a degree or certificate program each term at [parkland.edu/graduates](http://parkland.edu/graduates).

Career program general requirements are found on p. 71, transfer program general degree requirements on p. 72, and general studies program requirements on p. 75.

The maximum amount of proficiency credit or credit from other forms of prior learning assessment allowed toward a degree is 25 percent. Exceptions based on licensure and certifications are permitted in selected Health Professions and aviation programs. For more information, contact the dean of health professions (L119; 217/351-2383) or chief pilot/director of Institute of Aviation (Savoy) 217/244-8687.

A minimum of 15 credit hours of specialty or technical course work required by the A.A.S. must be completed at Parkland. Proficiency credit or credit from prior learning assessment do not count toward minimum residency requirements.

The student is responsible for specifying on the Petition to Graduate form the year of the catalog to be used for the determination of graduation eligibility.

## Procedure for Late Graduation Petitions

Students who submit petitions to graduate after the official deadline published in the college catalog and the class schedule will be considered for graduation during the next graduation petitioning time period. The college will not award degrees retroactively or backdate diplomas.

If all graduation requirements have been completed, the Office of Admissions and Records will, upon request, provide a letter stating that all graduation requirements have been completed and the date on which graduation will occur.

## Program Course Substitution Policy for Graduation

Course substitutions for program requirements may be granted for credits earned at regionally accredited institutions. Requests for course substitutions will be reviewed

and approved by the appropriate department chair(s) and division dean(s).

**Substitutions for general education courses.** A course substitution requested by the student for a general education course requirement requires approval from the appropriate department chair and division dean. For example, a student in computer science who requests a substitution for the mathematics general education requirement must receive written permission from the chair of the Mathematics department and the dean of arts and sciences rather than from the chair of the Business/Computer Science and Technologies department and dean of career and technical education.

**Substitutions for career courses.** A course substitution request from students working toward a career-oriented degree or certificate will be reviewed and evaluated by the appropriate department chair(s)/program director(s) and approved by the division dean.

For more information on course substitution procedure, see page 47.

### Second Degree and/or Certificate Requirements

If a student has earned less than 75 credit hours and qualifies for two associate degrees at a given time, the student must choose which degree he or she wishes to receive. If a student has earned 75 or more credit hours and has completed the requirements for two associate degrees, he or she may petition to receive two degrees if the conditions below are met.

**Additional credit hours.** If a student wishes to complete a second degree, an additional 15 credit hours must be satisfactorily completed at Parkland. If the second degree is a transfer degree—Associate in Arts (A.A.), Associate in Science (A.S.), Associate in Fine Arts (A.F.A.), or Associate in Engineering Science (A.E.S.)—the 15 additional credit hours must be in baccalaureate-oriented courses (numbered 100–289 and whose second digit is even). If the second degree is an Associate in Applied Science (A.A.S.), Associate in General Studies (A.G.S.), or a certificate of 30 or more credits, the 15 additional credit hours can be selected from any courses numbered 100–299. An exception to this 15-credit-hour requirement applies when the second credential is a certificate within the Associate in Applied Science degree that the student is already qualified to receive.

**Second transfer degree.** A student may earn only one Associate in Arts (A.A.) degree, one Associate in Science (A.S.) degree, one Associate in Fine Arts (A.F.A.) degree, or one Associate in Engineering Science (A.E.S.) degree. Because the IAI General Education Core Curriculum requirements are not satisfied by completion of the A.S., A.F.A., or A.E.S. degrees, a student who first receives any of these degrees may complete an A.A. degree upon successful completion of 15 additional credit hours and all IAI General Education Core Curriculum requirements.

**Catalog requirements.** To receive two degrees and/or two certificates, the student must complete requirements for both credentials. For the second degree or certificate, the student will follow requirements as stated in the catalog of the year in which the student originally enrolled or any catalog published thereafter. If the student does not attend Parkland for a period of two years (that is, four successive semesters excluding summers) or more, the student will meet the degree requirements for the catalog of the year in which he or she re-enrolls. The student may use any portion of the additional required hours to satisfy degree requirements.

**Financial Aid requirements.** If the student intends to declare a pursuit of two credentials at the same time (two certificates, degree and a certificate, or two degrees) for veterans benefits and other financial aid purposes, he or she must meet with the director of enrollment services or his/her designee for approval.

## General Education Requirements for All Degrees

General education consists of courses that colleges and universities consider necessary for students' success in college and life. These courses are designed to help equip students with the knowledge, skills, and values essential for educated persons to realize their potential as learners, workers, and participants in a global society. The general education curriculum for the transfer-oriented Associate in Arts (A.A.) degree and Associate in Science (A.S.) degree comprises about two-thirds of the associate's degree and one-third of most bachelor's degrees. In Associate of Applied Science degrees, general education accounts for approximately one-quarter of the degree requirements.

The general education requirements for degrees offered by Parkland College are as follows:

	<i>Semester Credits</i>
<b>Associate in Arts (A.A.) Degree</b>	
Communications . . . . .	9
ENG 101–102 and COM 103	
Social and Behavioral Sciences electives . . . . .	9
Select from two or more subject areas.	
Humanities and Fine Arts electives . . . . .	9
One Humanities and one Fine Arts course required.	
Mathematics elective . . . . .	3
Physical and Life Sciences electives . . . . .	8
One laboratory-based Physical Science course and one laboratory-based Life Science course required.	_____
	38
<b>Associate in Science (A.S.) Degree</b>	
Communications . . . . .	9
ENG 101–102 and COM 103	
Social and Behavioral Sciences electives . . . . .	6

Select from two or more subject areas.	
Humanities and Fine Arts electives . . . . .	6
One Humanities and one Fine Arts course required.	
Mathematics elective . . . . .	3–5
Physical and Life Sciences electives . . . . .	7–8
One laboratory-based Physical Science course and one laboratory-based Life Science course required.	

31–34

*The general education requirements in the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) Requirements. Students may choose to take one additional HUM/FA course and one additional Social/Behavioral Science course to complete the IAI GECC certificate at Parkland College or at the transfer institution (see page “General Education Core Curriculum Certificate” on page 74).*

### **Associate in Applied Science (A.A.S.) Degree**

Communications . . . . .	6
General Education electives . . . . .	9
Select from two or more of the following:	
Communications, Humanities and Fine Arts, Mathematics, Physical/Life Sciences, and Social and Behavioral Sciences	

15

### **Associate in General Studies (A.G.S.) Degree**

Communications . . . . .	9
ENG 101-102 and COM 103 or one of the following:	
COM 120, 140, 200, 205	
Social and Behavioral Sciences and Humanities and Fine Arts electives . . . . .	15
Mathematics and Physical and Life Sciences electives . . . . .	11

35

NOTE: All general education degree requirements for A.A., A.S., A.F.A., and A.E.S. degree programs will be waived for a student who has completed a baccalaureate degree from a regionally accredited institution. Only nonspecific general education degree requirements for A.A.S. or Certificate programs will be waived for a student who has completed a baccalaureate degree from an accredited institution.

Electives are chosen from courses identified as General Education Core Courses for the A.A., A.S., A.E.S., and A.F.A. degrees. (See page 68.)

## **General Education Core Curriculum (GECC)**

Parkland College is a participant in the Illinois Articulation Initiative (IAI), a statewide agreement that allows transfer of the completed Illinois General Education Core Curriculum (GECC) between participating institutions. Completion and certification of the transferable GECC at any participating college or university in Illinois means that lower-division general education requirements for an associate’s or bachelor’s degree have been satisfied. The IAI agreement permits students to transfer this portion of an associate’s or a bachelor’s degree program from one institution to another

without loss of credit. This has been a binding agreement for first-time freshmen since the summer of 1998.

Starting in 2019–2020, students who complete the IAI general education requirements will be awarded the GECC certificate. For more information on the certificate and course distribution requirements, see page 74. Specific courses to fulfill GECC requirements are on page 68. IAI codes are explained on “Illinois Articulation Initiative (IAI) General Education Core Curriculum and Baccalaureate Majors Codes” on page “Illinois Articulation Initiative (IAI) General Education Core Curriculum and Baccalaureate Majors Codes” on page 230. Additional information is available on the IAI website at [www.itransfer.org](http://www.itransfer.org). Courses with the same IAI code may be used to fulfill General Education Core Curriculum (GECC) requirements only if the courses lead to different learning outcomes. Students considering taking courses with the same IAI code for GECC requirements are advised to speak with the dean of arts and sciences (X220) before registering.

## **General Elective Courses**

Each student should check the requirements of the institution to which he or she is transferring.

Parkland College general elective degree requirements may be satisfied as follows:

### **Associate in Arts (A.A.)**

### **Associate in Science (A.S.)**

### **Associate in Engineering Science (A.E.S.)**

### **Associate in Fine Arts (A.F.A.)**

Student may select only baccalaureate-oriented courses (courses numbered 100–289 whose second digit is even) to meet this requirement. Student should check with his or her advisor in the selection of appropriate courses.

### **Associate in Applied Science (A.A.S.)**

### **Associate in General Studies (A.G.S.)**

Student may select any course numbered 100–299.

# General Education Courses

Choose courses from the following list of electives required to fulfill degree requirements. *Courses with the same IAI code may be used to fulfill General Education Core Curriculum (GECC) requirements only if the courses lead to different learning outcomes. Students considering taking courses with the same IAI code for GECC requirements are advised to speak with the dean of arts and sciences (X220) before registering. (see p. 71).*

## GENERAL EDUCATION CORE CURRICULUM (GECC)

### COURSES FOR TRANSFER DEGREES

**Associate in Arts (A.A.), Associate in Science (A.S.)**

**Associate in Engineering Science (A.E.S.)**

**Associate in Fine Arts (A.F.A.)**

**General Education Core Curriculum Certificate**

#### Communications

Complete any sequence from the following:

COM 103, ENG 101, 102

COM 103, ENG 106

*(Grade of C or higher required for ENG 101, ENG 102, and ENG 106)*

#### Social and Behavioral Sciences

ANT 101\*, 103\*, 105, 200

ECO 101, 102

GEO 140, 143\*, 200\*

HIS 101, 102, 104, 105, 108\*, 109\*, 120, 121, 123\*, 128\*, 129\*, 140\*

POS 120, 122, 124, 202\*

PSY 101, 205, 207, 208, 209, 223

SOC 101, 102, 200, 203, 240

#### Humanities

FRE, GER, JPN, SPA (only 104 courses)

HUM 101, 102, 103\*, 104\*, 105\*, 106\*, 107\*, 109\*, 121

LAS 188

LIT 120, 121, 125, 126, 127, 141, 142, 146\*,

147\*, 148\*, 201, 202, 204, 205

PHI 100, 103, 105

REL 101, 102\*, 104, 105, 120\*, 121\*

#### Fine Arts

ART 161, 162, 163, 164, 165, 166\*

HUM 101, 102, 103\*, 105\*, 109\*, 121

MUS 121, 123, 124\*

THE 100, 101, 124, 125

#### Mathematics

MAT 106, 107, 108, 128, 129, 141, 143, 145, 160, 200, 228

*(MAT 106 satisfies the general education mathematics requirement only in Early Childhood, Elementary, and Special Education.)*

#### Physical Sciences

AST 101, 102

CHE 101, 104, 106

ESC 101, 102

PHY 121, 120/129, 141

*(PHY 120 must be paired with PHY 129 to earn general education credit.)*

#### Life Sciences

BIO 101, 104, 105, 107, 109, 141, 142, 106/186

*(BIO 106 must be paired with BIO 186 to earn general education credit.)*

#### Interdisciplinary Physical and Life Sciences\*\*

SCI 108 (IAI LP 900L course)

SCI 208 (IAI LP 901L course)

*\*\* Students must select one IAI LP 900L course and one IAI LP 901L course.)*

## GENERAL EDUCATION COURSES FOR APPLIED SCIENCE DEGREES

**Associate in General Studies (A.G.S.)**

**Associate in Applied Science (A.A.S.)**

**Certificates of at least 21 hours of program courses**

#### Communications

For the Associate in Applied Science (A.A.S) and certificates

Complete any sequence from the following:

ENG 101, 102

ENG 101, and any COM course listed below

ENG 106 and any COM course listed below

ENG 111 and any COM course listed below

**Or any two** COM courses listed below

COM 103, 120, 140, 200, or 205

For the Associate in General Studies (A.G.S.)

Complete ENG 101 and ENG 102

and any of the COM courses listed below

COM 103, 120, 140, 200, or 205

#### Social and Behavioral Sciences

ANT 101\*, 103\*, 105, 200

ECO 101, 102

GEO 140, 143\*, 200\*

HIS 101, 102, 104, 105, 108\*, 109\*, 120, 121, 123\*, 128\*, 129\*, 140\*, 145, 203

POS 110, 120, 122, 124, 202\*

PSY 101, 107, 203, 205, 207, 208, 209, 223, 224, 225

SOC 101, 102, 200, 202, 203, 204, 240

#### Humanities/Fine Arts

ART 121, 122, 124, 125, 128, 129, 145, 161, 162, 163,

164, 165, 166\*, 181, 185, 201, 202, 228, 229

GDS 102, 108

All FRE, GER, ITA, JPN, SPA courses

All HUM courses

LAS 188, 189

All LIT courses

MUS 100, 121, 123, 124\*

PHI 100, 103, 105

REL 101, 102, 104, 105, 120\*, 121\*

All THE courses

#### Mathematics

MAT 106, 107, 108, 110, 124, 125, 128, 129,

131, 141, 143, 145, 160, 200, 228

#### Physical/Life Sciences

Choose from any course numbered 100–299 with any of the following prefixes:

AST, BIO, CHE, ESC, PHY, SCI

\*Satisfies non-Western culture requirement.

NOTE: Refer to p. 230 for explanation of course numbering system.

## Parkland Courses with the same IAI General Education Core Curriculum Code

Courses with the same IAI code may be used to fulfill General Education Core Curriculum (GECC) requirements only if the courses lead to different learning outcomes. Students considering taking courses with the same IAI code for GECC requirements are advised to speak with the dean of arts and sciences (X220) before registering. This applies to A.A., A.S., A.E.S., A.F.A. degrees only.

### Communication Courses

IAI C1 901R: ENG 102, ENG 106

### Social and Behavioral Sciences Courses

IAI S2 920N: HIS 123, HIS 128, HIS 129, HIS 140

IAI S2 923D: HIS 120, HIS 121

### Humanities Courses

IAI H1 900: FRE 104, GER 104, JPN 104, SPA 104

IAI H2 903N: HUM 104, HUM 106, HUM 107

IAI H3 908N: LIT 146, LIT 147, LIT 148

IAI H5 901: REL 104, REL 105

IAI H5 904N: REL 102, REL 120, REL 121

### Fine Arts Courses

IAI F2 902: ART 162, ART 163

### Humanities/Fine Arts Courses

IAI HF 904N: HUM 103, HUM 105, HUM 109

### Mathematics Courses

IAI M1 900: MAT 129, MAT 143, MAT 228

IAI M1 902: MAT 108, MAT 160

IAI M1 906: MAT 141, MAT 145

### Physical Sciences Courses

IAI P1 906L: AST 101, AST 102

IAI P1 902L: CHE 101, CHE 106

### Life Science Courses

IAI L1 910L: BIO 141, BIO 142

### Interdisciplinary Life and Physical Sciences Courses

NONE

## Career Program General Requirements

Parkland College's career and technical education and health professions programs are based both on student interests and community employment needs and prepare students to enter challenging, specialized careers after two years or less of college. Practical, job-preparatory knowledge is emphasized. Students can pursue most of these programs either full- or part-time.

### Associate in Applied Science (A.A.S.) Degree

*Credit Hours*

Communications.....	6
General Education Electives .....	9
Specialty/Technical Courses.....	45
<b>TOTAL HOURS REQUIRED</b>	<b>60</b>

Candidates for the A.A.S. degree must fulfill these general requirements in addition to specific program requirements to graduate:

- 1. Total credit hours.** Complete at least 60 credit hours of course work with a minimum program grade point average of 2.0. Some A.A.S. programs require more than 60 credit hours for a degree.
- 2. Residency minimum.** Complete at Parkland a minimum of 15 credit hours of specialty or technical course work required by the selected A.A.S. program. Proficiency credit or credit from prior learning assessment do not count toward credit hours in residence.
- 3. Reverse transfer.** Students who transfer without completing an A.A.S. degree, but desire a degree from Parkland may transfer credit hours back for the degree. Students applying for reverse transfer after an absence of two years or more from Parkland must meet the degree requirements of the catalog of the year when the reverse transfer is requested. For more information, contact Admissions and Records (U214; 217/351-2482).
- 4. Standing.** Be in good standing and meet all college obligations.
- 5. Health professions programs.** Health professions programs may have different minimum grade point average, residency, and transfer requirements. All programs require a minimum grade of C for each program course. Specific information about these requirements is provided in the Student Handbook for each program.

### Certificate

Candidates for certificates must fulfill these general requirements in addition to the specific program requirements to graduate:

- 1. Total credit hours.** Certificates require less than 60 hours but vary in total number of required hours. Complete all required courses for the certificate as listed in the catalog program pages.

- 2. Residency minimum.** Complete at Parkland a minimum of 51 percent of hours required for the certificate with a minimum program grade point average of 2.0.
- 3. Reverse transfer.** Students who transfer without completing a certificate, but desire a certificate from Parkland may transfer credit hours back for the certificate. Students applying for reverse transfer after an absence of two years or more from Parkland must meet the certificate requirements of the catalog of the year when the reverse transfer is requested. For more information, contact Admissions and Records (U214; 217/351-2482).
- 4. Standing.** Be in good standing and meet all college obligations.
- 5. Health professions programs.** Health professions programs may have different minimum grade point average, residency, and transfer requirements. All programs require a minimum grade of C for each program course. Specific information about these requirements is provided in the Student Handbook for each program.

## Transfer Program General Degree Requirements

The Associate in Arts (A.A.), Associate in Science (A.S.), Associate in Engineering Science (A.E.S.), and Associate in Fine Arts (A.F.A.) transfer degrees allow students to complete the first two years of study leading to a bachelor's degree. The third and fourth years of study are completed at a four-year college or university to which the student transfers after the completion of the A.A., A.S., A.E.S, or A.F.A. degree at Parkland.

The first two years of most four-year programs can be completed at Parkland. Students are advised to consult with a counselor, academic advisor, or faculty advisor as soon as possible after admission to Parkland to plan their program of study. This is important because four-year colleges and universities vary in their requirements. Sometimes students are interested in the first two years of a transfer area not specifically listed and would benefit from guidance on choosing courses.

### Associate in Arts (A.A.) or Associate in Science (A.S.) Degree Requirements

*The Associate in Science does not satisfy the IAI General Education Core Curriculum Requirements (see p. 67).*

Candidates for either the A.A. or the A.S. degree must fulfill these general requirements to graduate:

- 1. Total credit hours.** Complete at least 60 credit hours of baccalaureate-oriented courses with a minimum program grade point average of 2.0 in those courses. Course work for the A.A. degree includes at least 38 hours of General Education Core Curriculum requirements; course work for the A.S. degree includes at least 31 hours of General Education Core Curriculum requirements.
- 2. Residency minimum.** Complete a minimum of 15 credit hours of baccalaureate-oriented course work directly applicable to the selected A.F.A. degree program at Parkland. Proficiency credit or credit from prior learning assessment do not count toward credit hours in residence.
- 3. Reverse transfer.** Students who transfer without completing an A.F.A. degree, but desire a degree from Parkland, may transfer credit hours back for the degree. Students applying for reverse transfer after an absence of two years or more from Parkland must meet the degree requirements of the catalog of the year when the reverse transfer is requested.
- 4. Standing.** Be in good standing and meet all college obligations.

### Associate in Fine Arts (A.F.A.) Degree Requirements

*The Associate in Fine Arts degree (with the exception of Art Education) does not satisfy the IAI General Education Core Curriculum Requirements (see p. 67).*

Associate in Fine Arts (A.F.A.) degree accommodates the unique needs of students majoring in art and music. Typically, art and music majors must complete a sequential list of courses in their major during their freshman and sophomore years, requirements that are not addressed by A.A. and A.S. degrees. Students may choose to take the courses necessary to complete the IAI General Education Core Curriculum requirements at Parkland College or after transferring.

This degree has been carefully designed with input from art and music faculty from both community colleges and universities to enhance transferability. It is presented as an associate's degree for the satisfactory completion of a prescribed curriculum intended to transfer to baccalaureate degree programs in one of the fine arts: art, music, or theatre.

Candidates for the A.F.A. degree must fulfill these general requirements:

- 1. Total credit hours.** Complete at least 60 credit hours of baccalaureate-oriented courses of which at least 25 credit hours are general education electives, with a minimum program grade point average of 2.0.
- 2. Residency minimum.** Complete a minimum of 15 credit hours of baccalaureate-oriented course work directly applicable to the selected A.F.A. degree program at Parkland. Proficiency credit or credit from prior learning assessment do not count toward credit hours in residence.
- 3. Reverse transfer.** Students who transfer without completing an A.F.A. degree, but desire a degree from Parkland, may transfer credit hours back for the degree. Students applying for reverse transfer after an absence of two years or more from Parkland must meet the degree requirements of the catalog of the year when the reverse transfer is requested.
- 4. Standing.** Be in good standing and meet all college obligations.

## Associate in Engineering Science (A.E.S.) Degree Requirements

The Associate in Engineering Science degree does not satisfy the IAI General Education Core Curriculum requirements (see p. 67).

Typically, engineering majors must complete a sequential list of courses in their major during their freshman and sophomore years, and then complete the general education requirements over all four years for a baccalaureate degree. Consequently, these students' needs are not addressed by an A.S. degree. The Associate in Engineering Science (A.E.S.) degree is designed to accommodate the specific needs of engineering transfer students.

Engineering faculty from community colleges and universities have carefully designed the curriculum content for an A.E.S. to ensure transferability. The A.E.S. is designed to maintain academic standards while affording enough flexibility to accommodate the variety of pre-engineering programs across the state. It is presented as an associate's degree for the satisfactory completion of a prescribed curriculum intended to transfer to baccalaureate degree programs in engineering.

Candidates for the A.E.S. degree must fulfill these general requirements:

- 1. Total credit hours.** Complete at least 60 credit hours of baccalaureate-oriented courses of which at least 34 credit hours are general education electives, with a minimum program grade point average of 2.0. Course work for the A.E.S. degree includes CHE 101, ENG 101, ENG 102, MAT 128, MAT 129, MAT 228, PHY 141, and six credit hours in Humanities, Fine Arts, or Social and Behavioral Sciences and meets the general education elective requirements (see page 151).
- 2. Residency minimum.** Complete a minimum of 15 credit hours of baccalaureate-oriented course work directly applicable to the A.E.S. degree program at Parkland. Proficiency credit or credit from prior learning assessment do not count toward credit hours in residence.
- 3. Reverse transfer.** Students who transfer without completing the A.E.S. degree, but desire a degree from Parkland, may transfer credit hours back for the degree. Students applying for reverse transfer after an absence of two years or more from Parkland must meet the degree requirements of the catalog of the year when the reverse transfer is requested.
- 4. Standing.** Be in good standing and meet all college obligations.

## Associate in Arts (A.A.) Degree General Course Requirements

Program Code: H.GAA.AA

The Associate in Arts (A.A.) degree is designed so that students may complete the lower-division (freshman and sophomore) portion of a Bachelor of Arts (B.A.) degree. The A.A. degree includes the transferable General Education Core courses and the lower-division Baccalaureate Major Field core courses recommended by the Illinois Articulation Initiative.

All course work must be baccalaureate-oriented (courses numbered 100-289 whose second digit is even).

The A.A. degree is ideally suited for students seeking a B.A. degree in areas such as liberal arts and sciences, English, psychology, and many other fields. Since admission to colleges and universities—and to specific majors—is often competitive, students planning to transfer should understand that completing the recommended courses alone does not guarantee admission.

It is recommended that students fulfill the foreign language requirement of the program of the senior institution to which they are transferring. In general, credit for the four years of the same high school foreign language or credit for two years in the same foreign language at the college level satisfies the foreign language requirement of most bachelor of arts degrees.

### General Education Core Curriculum Requirements (38 hours)

	Cr. Hrs.

# General Education Core Curriculum Certificate

Program Code: H.GAA.CRD

Graduation requirement — 38 hours

The General Education Core Curriculum (GECC) certificate enables students to fulfill the lower-division general education course requirements for the Associate in Arts (A.A.) degree and a bachelor’s degree. The completed certificate comprises two-thirds of the A.A. degree and one-third of most bachelor’s degrees and includes specific general education courses spread across five academic discipline areas.

Parkland College is a participant in the Illinois Articulation Initiative (IAI), a statewide transfer agreement which provides smooth transfer of credits among more than 100 participating colleges and universities in Illinois. A key component of the IAI is the agreement among participants to accept the completed GECC as a package in transfer in lieu of their own lower-division general education courses. GECC courses are all IAI approved courses with IAI descriptor numbers. At Parkland, these baccalaureate-oriented courses are numbered 100–289 whose middle digit is even.

Given that the transfer guarantee is on the GECC as a completed “package” and that course-to-course transfer credit is not part of this guarantee, the student is strongly advised to complete the GECC certificate before transferring to pursue a bachelor’s degree.

The GECC Certificate is part of the transferable Associate in Arts degree; it is neither a workforce certificate nor an industry-recognized credential.

## Program Notes\*

- IAI codes are explained in the section “Illinois Articulation Initiative (IAI) General Education Core Curriculum and Baccalaureate Majors Codes” on page 230. Also see the IAI website at [www.itransfer.org](http://www.itransfer.org).
- Parkland College courses with IAI General Education Course Codes are listed on pages 69–70. As a general rule, students should choose courses with different IAI codes to fulfill GECC requirements. However, courses with the same IAI codes may be used if the courses lead to different learning outcomes. Students considering taking courses with the same IAI code to complete the GECC are strongly advised to speak with the dean of arts and sciences (X220) before registering.
- Parkland College will recognize all courses on the IAI approved list of courses taken at any participating college or university for credit toward fulfilling Parkland College’s GECC requirements. In order to receive the GECC certificate from Parkland College, students need to complete a minimum of 15 credit hours of the GECC in residence at Parkland College.
- Students may use Advanced Placement (AP), International Baccalaureate (IB), and College Level Examination Program (CLEP) scores to fulfill GECC requirements. For more information, see the Credit by Exam webpage. Students should note that transfer institutions will follow their institutional credit policies on the acceptance of standardized test scores.

## Associate in Science (A.S.) Degree General Course Requirements

Program Code: N.ASG.AS

The Associate in Science (A.S.) degree is designed to facilitate the transfer of students in science, technology, engineering, and mathematics (commonly known as STEM) disciplines into four-year institutions to complete a Bachelor of Science (B.S.) degree. It replicates as closely as possible the lower division (freshman and sophomore) coursework required of students in their chosen STEM field of study. The A.S. degree includes the transferable General Education Core Curriculum courses and the lower-division Baccalaureate Major Field core courses recommended by the Illinois Articulation Initiative. All course work must be baccalaureate-oriented (courses numbered 100-289 whose second digit is even).

Students should note that the A.S. degree requires only 31 to 35 hours of general education coursework and does not fully satisfy the IAI General Education Core Curriculum requirements. Two additional courses to complete the general education requirements may be taken after transferring. The A.S. degree is so designed to enable students to take more university majors-required coursework in the first two years thereby achieving junior status upon transferring. At the same time, it permits STEM students to complete the associate's degree prior to transferring.

### General Education Core Curriculum Requirements (31–34 hours)

	Cr. Hrs.
Communications (9)	
COM 103 Introduction to Public Speaking .....	3
ENG 101 Composition I .....	3

Physical and Life Sciences .....	7–8
<i>Must include one laboratory-based Physical Sciences course and one laboratory-based Life Sciences course.</i>	

### A.S. Degree Requirement (6–10 hours)

One additional mathematics and one additional physical or life science course  
 Any AST, BIO, CHE, ESC, MAT, PHY, or SCI courses numbered 100 through 289 whose second digit is even, beyond the general education requirements in mathematics and science.

### Area of Concentration or General Electives Courses (16–23 hours)

Concentration or major field recommended (same or related course prefix) or electives .....

Total Semester Credit Hours 60

## Associate in General Studies (A.G.S.) Degree Requirements

Candidates for the Associate in General Studies must fulfill these requirements to graduate:

- 1. Total credit hours.** Complete at least 60 credit hours of work in courses numbered 100-299 with a minimum program grade point average of 2.0.
- 2. Residency minimum.** Complete a minimum of 15 credit hours of college courses numbered 100-299 at Parkland. Proficiency credit or credit from prior learning assessment do not count toward credit hours in residence.
- 3. Reverse transfer.** Students who transfer without completing the A.G.S. degree, but desire a degree from Parkland, may transfer credit hours back for the degree. Students applying for reverse transfer after an absence of two years or more from Parkland must meet the degree requirements of the catalog of the year when the reverse transfer is requested.
- 4. Standing.** Be in good standing and meet all college obligations.

## Associate in General Studies (A.G.S.) Degree General Course Requirements

Program Code: Y.GSU.AGS

### Associate in General Studies (A.G.S.)

Graduation requirement — 60 semester hours

The Associate in General Studies (A.G.S.) degree program consists of courses designed to meet individual goals for personal improvement and self-understanding. This program is designed for students who wish to earn an associate's degree but not in a specific career or transfer area. This associate's degree is not covered by the "articulation compact program" nor by the Illinois Articulation Initiative. To be awarded the Associate in General Studies degree, a student must complete the following requirements:

	Cr. Hrs.
Communications (9)	
COM 103 Introduction to Public Speaking .....	3
or one of the following: COM 120, 140, 200 or 205	
ENG 101 Composition I .....	3
ENG 102 Composition II .....	3
Social and Behavioral Sciences	
and Humanities and Fine Arts .....	15
<i>Must include at least 6 hours in Soc/Beh Sci and 6 hours in Hum/FA.</i>	
Mathematics and Physical and Life Sciences .....	11
<i>Must include at least 3 hours in a 100-level math course and at least 3 hours of Phys/Life Sci.</i>	
Electives .....	25
Students are encouraged to explore one or more fields in some depth. Electives may be taken in either baccalaureate-oriented courses or occupational field of study.	

Total Semester Credit Hours 60

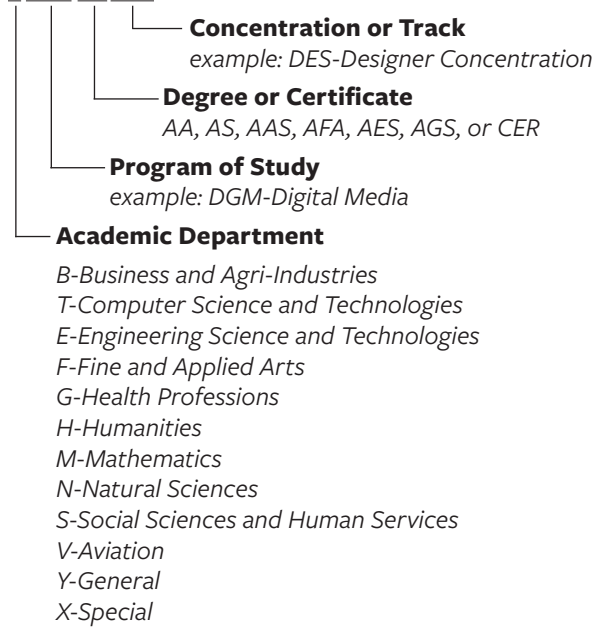

# Program of Study Code

Check with your counselor, academic advisor, program director, or department chair to confirm that you are officially enrolled in the program of study of your choice. Accurate academic advising and timely meeting of graduation requirements depend on your selection of the appropriate program of study.

The graphic below explains how to read a Program of Study code.

SAMPLE PROGRAM OF STUDY CODE:

T.CSC.AS.TEC

# arts and sciences

*Nancy Sutton, dean*

*Donnita Harris, administrative assistant*

*Li Barbee, operations assistant*

*Sean Dannenfeldt, operations manager*

# Fine and Applied Arts

C-wing • 217/351-2217 • [parkland.edu/faa](http://parkland.edu/faa)

*Julie Weishar, department chair*

*Amy Frasca, department assistant*

Students who aspire to careers in artistic and creative fields will benefit from the carefully designed degree programs offered through Fine and Applied Arts. FAA's courses and programs are developed in collaboration with other Illinois schools and are designed for ease of transfer to institutions offering bachelor's and higher degrees. FAA students work with faculty advisors throughout their time at Parkland.

Students who plan to transfer may earn Associate in Fine Arts degrees in art and design, art education, music performance, or music education, and Associate in Arts degrees in music, theatre arts, and communication. Career programs include Associate in Applied Science degrees in graphic design; interactive design; communication: media arts and production, broadcast technology, and photography; and entertainment technology in the field of theatre arts.

Parkland College's Harold and Jean Miner and Second Stage Theatres, musical ensembles, Giertz art gallery, debate team, radio and television stations, and student-staffed Applied Media Promotions and Perimeter Road Sound Recordings give Fine and Applied Arts students hands-on experience that prepares them for internships and employment. FAA also hosts a number of annual events for students including the David Jones Persuasive Speech contest, graphic design and fine arts juried student exhibitions in The Donna Hyland Giertz Gallery, and a student-run theatre production that raises money for a memorial scholarship. In addition, partial-tuition scholarships are available each year by audition for communication, music, and theatre students, and partial scholarships, including the Underwood-Alger and Don Lake scholarships, are available to art and design students.

# ART AND DESIGN

Program Code: F.AAD.AFA

## Associate in Fine Arts (A.F.A.)

Graduation requirement — 63 semester hours

Students preparing to transfer to a four-year college in Art and Design will find that the Associate in Fine Arts degree (A.F.A.) is designed to allow them to complete a baccalaureate program with a major in studio art. Completion of this program alone does not guarantee admission either to baccalaureate programs or to upper division specialty art courses. Students may be required to demonstrate their skills through a portfolio review at the institution to which they wish to transfer. Although it is designed to meet transfer requirements, the A.F.A. does not complete the requirements of the Illinois Articulation Initiative (IAI) General Education Core Curriculum (GECC) for lower division general education requirements at participating schools and students will be required to complete additional general coursework upon transfer. Therefore, students are advised to complete the GECC before they transfer. To transfer into a baccalaureate program with a fine arts major in art and design, students should complete the course work in consultation with a Parkland Art and Design faculty advisor and the catalog of the four-year college or university they plan to attend.

For more information, see [parkland.edu/artdesign](http://parkland.edu/artdesign).

### Program Notes\*

- ART 165 may not be used as a fine arts elective for students pursuing an A.F.A. in Art and Design.
- Students interested in focusing on graphic design should choose GDS 102 and studio classes; ART 128, GDS 120, and GDS 122 are recommended.

### Suggested Full-time Sequence

Social/Behavioral Science electives (POS 122 recommended)	6
<i>Choose from two or more subject areas.</i>	
Humanities elective	3
Fine Arts elective (ART 163, ART 164, or ART 166 recommended)	3
<i>One course from Soc/Beh Sci, Hum, or FA must fulfill the non-Western culture requirement.</i>	
Mathematics elective	3
Physical Sciences elective	4
Life Sciences elective	4

## Required Program Courses (22 hours)

ART 121 Two-Dimensional Design	3
ART 122 Drawing I	3
ART 123 Drawing II	3
ART 124 Three-Dimensional Design	3
ART 161 Art History I	3
ART 162 Art History II	3
ART 221 Figure Drawing	3
ART 283 Portfolio Seminar	1

## Beginning Studio Art Electives 6

Select two studio art courses in consultation with an art program advisor:

- Painting (ART 201, Painting I)
- Ceramics (ART 145, Ceramics I)
- Sculpture (ART 181, Sculpture I)
- Jewelry and metalworking (ART 185, Metalwork/Jewelry I)
- Photography (ART 128\*, Digital Photography; ART 129, Film Photography)
- Graphic Design (GDS 102\* and 120\*)

## Advanced Studio Art Electives 3

Select one advanced studio class in your area of interest.

- Students whose portfolio of work indicates superior proficiency in a particular art studio discipline may receive credit by four-year institutions for “studio art” II courses:
- Painting (ART 141, Watercolor I; ART 202, Painting II; ART 241, Watercolor II)
- Ceramics (ART 245, Ceramics II)
- Sculpture (ART 182, Sculpture II)
- Jewelry and metalworking (ART 186, Metalwork/Jewelry II)
- Color (ART 125, Color)

# ART EDUCATION

Program Code: F.AAE.AFA

## Associate in Fine Arts (A.F.A.)

Graduation requirement — 60 semester hours

Students preparing to transfer to a four-year college in Art Education should be aware that to teach in Illinois public schools, teachers must be certified by the state of Illinois either by completion of an approved teacher preparation program or through transcript analysis. To transfer as a junior into an approved baccalaureate program in art education (K–12 or 6–12), students must complete a minimum of 60 semester credit hours, including the general education courses specified to meet certification requirements. Students should plan their transfer programs with a Parkland Art and Design faculty advisor and the catalog of the four-year college or university they plan to attend. Students must also pass examinations in basic skills (reading, writing, grammar, and math) required for admission. Students are strongly encouraged to complete an A.F.A. prior to transferring. Since admission is competitive, completion of the recommended courses does not guarantee admission.

For more information, see [parkland.edu/artdesign](http://parkland.edu/artdesign).

### Program Notes

- The Art Education A.F.A. meets the IAI general education core curriculum requirements.
- EDU 101 is recommended.

### Suggested Full-time Sequence

## Required Program Courses (13 hours)

ART 121 Two-Dimensional Design	3
ART 122 Drawing I	3
ART 123 Drawing II	3
ART 124 Three-Dimensional Design	3
ART 283 Portfolio Seminar	1

## Beginning Studio Art Electives

6  
Select studio art courses from the following disciplines in consultation with an art program advisor:

- Painting (ART 201, Painting I)
- Ceramics (ART 145, Ceramics I)
- Sculpture (ART 181, Sculpture I)
- Jewelry and metalworking (ART 185, Metalwork/Jewelry I)
- Photography (ART 128, Digital Photography; ART 129, Film Photography)

## Advanced Studio Art Electives

3  
A second course in a medium will be reviewed for transfer credit by portfolio assessment on a per student basis. Students whose portfolio of work indicates superior proficiency in a particular art studio discipline may receive credit by four-year institutions for “studio art” II courses:

- Painting (ART 141, Watercolor I; ART 202, Painting II; ART 241, Watercolor II)
- Figure drawing (ART 221, Figure Drawing)
- Ceramics (ART 245, Ceramics II)
- Sculpture (ART 182, Sculpture II)
- Jewelry and metalworking (ART 186, Metalwork/Jewelry II)
- Photography (ART 228, Advanced Digital Photography; ART 229, Advanced Film Photography)
- Color (ART 125, Color)

# COMMUNICATION

Program Code: F.MCT.AA

## Associate in Arts (A.A.)

Graduation requirement — 60 semester hours

Students preparing to transfer in Communication typically choose between two areas of concentration. Media Communication includes concentration areas in advertising/public relations, audio/video/Internet production, journalism/photojournalism, and media theory/research/effects. Public and Professional Communication includes concentration areas in interpersonal, public address, organizational communication, and rhetorical studies. The coursework in either of these concentrations will provide a solid foundation for transfer. Given that some schools have specific requirements for admission, students should plan their transfer programs with a Communication faculty advisor and the catalog of the four-year college or university they plan to attend.

For more information, see [parkland.edu/communication](http://parkland.edu/communication).

# COMMUNICATION: BROADCAST TECHNOLOGY

Program Code: F.MCC.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

Students preparing for careers as broadcast technicians or station engineers will find that the Broadcast Technology A.A.S. program prepares them for careers in radio and television engineering and technical support and to attain professional certification. Students gain experience working in broadcast facilities, including Parkland's WPCD-FM radio station. The program stresses maintenance and repair as well as performance measurements and installation of various types of equipment used in the broadcast industry. Students should plan their Broadcast Technology AAS degree program with a Communication faculty advisor.

For more information, see [parkland.edu/communication](http://parkland.edu/communication).

### Program Note\*

Enrollment in COM 292 requires program director or department chair approval and sophomore standing in Broadcast Technology.

### Suggested Full-time Sequence

# COMMUNICATION: MEDIA ARTS AND PRODUCTION

Program Code: F.MCB.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

Students preparing for careers in the media industry will find that the Media Arts and Production A.A.S. program curriculum prepares them for employment in small and medium market radio and TV stations as well as corporate communication and public relations offices. Because communication technology personnel must perform a variety of duties, this program stresses versatility. Communication courses offer students experience in live-audience and recorded speaking. Advertising and business courses involve students in other aspects of the communication industry. Audio, video, and Internet components are meshed with an understanding of the history and theory of development of the message. Students polish their skills by operating WPCD-FM, Parkland's 10,500-watt educational radio station, and filling production crew positions at PCTV, Parkland's educational cable access channel. Students should plan their Media Arts and Production A.A.S. degree program with a Communication faculty advisor.

For more information, see [parkland.edu/communication](http://parkland.edu/communication).

### Program Notes\*

- Enrollment in COM 292 requires approval of the program director.
- Concurrent enrollment in COM 141 and COM 140 recommended.
- Students who take MUS 161 may also want to consider taking MUS 162, Advanced Music Recording.

# COMMUNICATION: MEDIA PRODUCTION

Program Code: F.MPR.CER

## Certificate

Graduation requirement — 18 semester hours

Students interested in enhancing their production skills in media, music, computers, and the arts will find that this certificate prepares them for entry-level positions that require in-depth knowledge of mass communication production techniques and software. Students will gain practical production experience in radio, television, sports, music, film, and digital media. Graduates are employed as production assistants at radio or television stations or companies with business interests in gaming, music, film, or other entertainment industry fields. Students should plan their certificate program with a Communication faculty advisor.

For more information, see [parkland.edu/communication](http://parkland.edu/communication).

## Program Note

Production graduates are expected to have broadcast writing and broadcast announcing skills. Students who cannot meet these criteria will be advised to enroll in COM 106 or COM 140.

# GRAPHIC DESIGN

Program Code: F.GDS.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 62 semester hours

The Graphic Design program prepares students for careers in marketing communication, advertising, and related design fields. Courses cover principles of design, visual communication, creative problem solving, and digital media. Students learn to create digital art for print and web.

For more information, see [parkland.edu/graphicdesign](http://parkland.edu/graphicdesign).

### Program Notes

- Students interested in transferring to a B.A. or B.F.A. program with an emphasis in graphic design should follow the A.F.A. program under Art and Design and consult with the graphic design program director.
- Students interested in transferring to a B.A. or B.F.A. program at Illinois State University as part of the 2+2 articulation agreement should consult with the graphic design program director.
- Students interested in the Graphic Design Pathway to Illinois program should consult with the graphic design program director.

# GRAPHIC DESIGN: PRINT PRODUCTION

Program Code: F.GPP.CER

## Certificate

Graduation requirement — 23 semester hours

The Print Production certificate program prepares students for entry-level positions that require in-depth knowledge of graphic arts software. Students will learn the practical side of preparing digital press-ready files for efficient output while gaining practical experience creating posters, brochures, newsletters, and other printed materials. The certificate stresses Macintosh computer proficiency and a thorough understanding of various commercial printing processes. Graduates are employed in printing facilities and in-house corporate art departments as pre-press operators, print production specialists, or production assistants.

For more information, see [parkland.edu/graphicdesign](http://parkland.edu/graphicdesign).

## Program Note

Print production students are expected to have a minimum keyboard ability of 30 WPM with 80% accuracy. Those who cannot meet these criteria will be advised to enroll in CIS 156.

# MUSIC EDUCATION

Program Code: F.MSE.AFA

## Associate in Fine Arts (A.F.A.)

Graduation requirement — 65 semester hours

Students preparing to transfer to a four-year college or university in Music Education will find that the A.F.A. degree curriculum prepares them to complete a bachelor's degree in music. Completion of the A.F.A., however, does not fulfill the requirements of the Illinois General Education Core Curriculum (GECC). Therefore, students are advised to also complete the GECC before transferring. Transfer admission is competitive and completion of this program alone does not guarantee admission either to the baccalaureate program or to upper-division music courses. Some colleges and universities also require competency in a single foreign language. Students should plan their transfer program with a music faculty advisor and the catalog of the four-year college or university they plan to attend.

For more information, see [parkland.edu/music](http://parkland.edu/music).

Choose nine hours from the following courses:

MUS 102 Music Theory and Harmony II	3
MUS 104 Ear-Training, Sight-Singing, and Keyboard Harmony II	2
MUS 164 Class Guitar	
or MUS 165 Class Piano I	2
MUS 166 Class Piano II	2
Applied Music (MUS 180/280)	2-8
Ensembles	1-4

Total Semester Credit Hours 60

# MUSIC PERFORMANCE

Program Code: F.MSP.AFA

## Associate in Fine Arts (A.F.A.)

Graduation requirement — 64 semester hours

Students preparing to transfer to a four-year college or university in Music Performance will find that the A.F.A degree curriculum prepares them to complete a bachelor's degree in music performance. Completion of the A.F.A., however, does not fulfill the requirements of the Illinois General Education Core Curriculum (GECC). Therefore, students are advised to also complete the GECC before transferring. Transfer admission is competitive and completion of this program alone does not guarantee admission either to the baccalaureate program or to upper-division music courses. Some colleges and universities also require competency in a single foreign language. Students should plan their transfer program with a music faculty advisor and the catalog of the four-year college or university they plan to attend.

For more information, see [parkland.edu/music](http://parkland.edu/music).

### Program Note\*

MUS 121 may not be used as a fine arts elective for students pursuing an A.F.A. in music performance.

### Suggested Full-time Sequence

# THEATRE ARTS

Program Code: F.THE.AA

## Associate in Arts (A.A.)

Graduation requirement — 60 semester hours

Students preparing to transfer to a four-year college in Theatre Arts will find that the A.A. degree curriculum prepares them to complete a baccalaureate degree. Students may choose to focus on either performance or design. Performance emphasizes acting, voice, and movement; design emphasizes the role of art and design in theatre. Both concentrations immerse students in the foundational studies of theatre arts and provide a wide range of experiences both on stage and back stage. Transfer admission is competitive and completion of this program alone does not guarantee admission either to the baccalaureate program or to upper-division theatre courses. Students should plan their transfer programs with a theatre faculty advisor and the catalog of the four-year college or university they plan to attend.

For more information, see [parkland.edu/theatrearts](http://parkland.edu/theatrearts).

### Program Note\*

THE 107 is a one-credit hour course and must be taken a total of four times for degree completion.

# THEATRE ARTS: ENTERTAINMENT TECHNOLOGY

Program Code: F.ENT.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 62 semester hours

Students preparing for careers in the entertainment technology industry will find that the Entertainment Technology A.A.S. curriculum prepares them to pursue careers in a variety of fields including theatre, film, television, entertainment venues, theme parks, and commercial scenery shops. They may find work as union stagehands or in a commercial technology vendor company. Students work with professionals in the field and get real world, hands-on experience that helps build their resumes as they work toward their career goals. This versatile program provides foundational skills in wood and metal custom fabrication, lighting and sound technologies, management principles, basic automation operation and design, and industrial safety. Students should plan their A.A.S. program with a Theatre faculty advisor.

For more information, see [parkland.edu/theatrearts](http://parkland.edu/theatrearts).

# THEATRE ARTS: ENTERTAINMENT TECHNOLOGY

Program Code: F.ENT.CER

## CERTIFICATE

Graduation requirement — 24 semester hours

Students interested in enhancing their skills will find that the Entertainment Technology certificate prepares them for entry level technical careers in the entertainment industry. The program focuses on fundamental skills employers look for. Students work with professionals in the field and get real world, hands-on experience that helps build their resumes. This is a two-semester intensive program of study that will provide students with a strong foundation in lighting and sound technology, custom fabrication in metal and wood, industrial safety, and hands-on show experience. It prepares students for careers in theatre, film, television, commercial entertainment, and theme parks. Students should plan their certificate program with a Theatre faculty advisor.

For more information, see [parkland.edu/theatrearts](http://parkland.edu/theatrearts).

# Humanities

*C-wing • 217/351-2217 • [parkland.edu/humanities](http://parkland.edu/humanities)*

*Matthew Hurt, department chair*

*Amy Frasca, department assistant*

Success in college and the workplace requires competency in English, with strong reading, writing, and critical thinking skills. Humanities offers courses that give students this vital liberal arts foundation: composition, reading, religion, philosophy, literature, humanities, foreign languages, and more. It provides these learning opportunities at varying skill levels, from courses in developmental English and English as a Second Language (ESL) to Honors Program classes.

## **PROGRAMS**

English (Literature), A.A. . . . . . 98

Liberal Arts and Sciences, A.A. . . . . 99

# ENGLISH (LITERATURE)

Program Code: H.ENG.AA

## Associate in Arts (A.A.)

Graduation requirement — 60 semester hours

The English (Literature) program is for students interested in literature and literary studies and/or planning to transfer as a junior into a baccalaureate English program. Because literature deals with the full range of human experience, the program's recommended literature and creative writing courses offer an excellent supplement to all of the general education requirements for the A.A. degree. Students are encouraged to complete the A.A. degree prior to transferring to maximize transferability of credits. Because baccalaureate program admission is competitive, completion of the recommended courses and the Parkland degree do not guarantee admission.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the catalog of the four-year college or university they plan to attend.

### Required General Education Core Courses (38 hours)

Mathematics elective .....	3
Physical Sciences elective .....	4
Life Sciences elective .....	4

## Recommended Literature and Writing Courses (6 hours)

Choose any two literature or creative writing courses in addition to the literature elective. Requirements for the English major vary widely from one institution to another, with some programs requiring or including new courses at the lower-division level. If a particular program does not offer a course, or does not offer it at the lower-division level, the transfer student will receive credit toward graduation for the course, but the credits may not apply toward the number of credits required in the major. Upon transfer to a baccalaureate institution, students may expect 3 to 9 semester credits to be applied to a major in English.

The courses below are those most likely to be accepted as major courses in baccalaureate English programs. Students are encouraged to keep course syllabi and a writing portfolio to assist in articulating courses not included below and for outcomes assessment in the major.

### Common survey courses:

LIT 201	British Literature I
LIT 202	British Literature II
LIT 204	American Literature I
LIT 205	American Literature II

### Common genre courses:

LIT 121	Introduction to Poetry
LIT 126	Introduction to Drama
LIT 127	Introduction to Fiction

A few universities require a multicultural or human diversity course within the English major. Universities with such a requirement may accept:

LIT 141	Introduction to African-American Literature
LIT 146	Introduction to Non-Western Literature
LIT 147	Introduction to African Literature
LIT 148	Introduction to Latin American Literature

A few universities offer a specialization in creative writing. Universities offering the creative writing specialization will accept one of the following courses in the creative writing specialization only:

ENG 161	Creative Writing I — Fiction
ENG 162	Creative Writing I — Poetry
ENG 261	Creative Writing II — Fiction
ENG 262	Creative Writing II — Poetry

### A.A. Degree Requirement (3 hours)

# LIBERAL ARTS AND SCIENCES

Program Code: H.LAS.AA

## Associate in Arts (A.A.)

Graduation requirement — 60 semester hours

The Liberal Arts and Sciences transfer area provides students with the broad educational experience and background necessary to pursue a bachelor's degree at a four-year institution as well as to enter almost any profession or career. Emphasis in the first two years is on gaining reading, writing, speaking, and problem-solving skills in humanities, sciences, social sciences, and mathematics.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the catalog of the four-year college or university they plan to attend. Refer to the general course requirements on p. 73 and to the following suggested sequence of courses as a guide to completing an Associate in Arts degree.

### Suggested Full-time Sequence

# Mathematics

*X-wing • 217/351-2225 • parkland.edu/math*

*Brian Mercer, department chair*

*Karen Rocha, administrative assistant*

Most careers today require a solid background in math. Employers want workers with varying degrees of mathematic ability for the fields of business (accountants, cashiers, real estate agents), medicine and science (pharmacists, physicians, engineers), technology (architects, auto service technicians, programmers), human services (psychologists, educators, EMTs), and others. Parkland is committed to helping its students select the math courses most appropriate to its wide and varied career offerings, and can assist those without college-level math skills through developmental courses.

The Associate in Science degree program in mathematics emphasizes scientific and theoretical applications and is designed for students who intend to transfer to a four-year institution to pursue a bachelor's degree in mathematics or science.

## PROGRAM

Mathematics, A.S. . . . . . 102

# MATHEMATICS

Program Code: M.MAT.AS

## Associate in Science (A.S.)

Graduation requirement — 60 semester hours

The following curriculum emphasizes scientific and theoretical applications and is designed for students interested in transferring to a four-year institution to pursue a bachelor's degree in computer science or mathematics.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the catalog of the four-year college or university they plan to attend.

### Program Notes\*

- MAT 124 and MAT 125 are prerequisites for MAT 128.
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken at Parkland or after transferring.

# Natural Sciences

X-wing • 217/351-2285 • [parkland.edu/ns](http://parkland.edu/ns)

Scott Siechen, department chair

Karen Rocha, administrative assistant

The Natural Sciences department educates students and the public about the nature and practice of science. Courses are offered on chemistry, physics, astronomy, meteorology, geology, biology, evolution, environmental biology, microbiology, kinesiology, forensic science, and human anatomy and physiology. Many courses are offered entirely or partly online. All of these disciplines address the increasingly important issues of scientific literacy and how science relates to our society.

Besides serving students in preparatory, career, and transfer level courses, the Natural Sciences department also takes an active role in community activities and programs by hosting the regional Science Olympiad competition for central Illinois middle and high school students, and offering noncredit courses through Parkland's Community Education department. The Natural Sciences department produces the Parkland television channel's Surrounded by Science series and sponsors the monthly World of Science Lecture series held at the Staerkel Planetarium. The department includes the Parkland Fitness Center and the William M. Staerkel Planetarium (second largest in the state), both of which are used by community members as well as Parkland students.

## Associate in Science (A.S.)

Graduation requirement — 60 semester hours

The following curriculum is designed for students planning to transfer to a four-year institution to pursue a bachelor's degree in kinesiology or physical education. Graduates may teach and/or coach at the elementary, secondary, or college level, or pursue careers in exercise physiology, athletic training, and sports management.

Students should plan their program of study with a Parkland counselor or academic advisor and the catalog of the four-year college or university they plan to attend.

### Program Notes\*

- At least one course from an area other than psychology is required to fulfill the Social/Behavioral Science elective.
- KIN 103, 147, 203, and 247 are not repeatable for kinesiology elective credit.
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken at Parkland or after transferring. Contact Counseling Services for guidance on GECC completion.
- Recommended courses are designed to facilitate completion of the A.S. degree and transfer into a four-year college or university with junior standing. Students are advised to follow the recommendations.

### Required General Education Core Courses (32–34 hours)

	Cr. Hrs.
Communications (9)—Three courses	
COM 103 Introduction to Public Speaking .....	3
ENG 101 Composition I .....	3
ENG 102 Composition II .....	3
Social/Behavioral Sciences electives (6)—Two courses ...	6–8
Choose from two subject areas	
Humanities/Fine Arts electives (6)—Two courses .....	6
Choose at least one course from Hum and one course from FA	
<i>One course from Soc/Beh Sci, Hum, or FA must fulfill the non-Western culture requirement.</i>	
Mathematics elective (3)—One course .....	3
<i>Recommended: MAT 108</i>	
Physical Sciences/Life Sciences (lab-based) electives (8)—Two courses .....	8
Choose at least one course from Phy Sci and one course from Life Sci	

### A.S. Degree Requirement (7–8 hours) Cr. Hrs.

One additional mathematics course .....	3
<i>Recommended: MAT 107</i>	
One additional physical science or life science course ...	4–5
<i>Any AST, BIO, CHE, ESC, PHY, or SCI course numbered 100 through 289, whose second digit is even, beyond the general education requirements in science</i>

## PERSONAL FITNESS TRAINING

Program Code: N.FTR.CER

Graduation requirement — 26 semester hours

The Personal Fitness Training Certificate Program prepares students for successful employment in the fitness industry as a personal fitness trainer. Graduates are prepared to take the Certified Personal Training examination administered by the National Strength and Conditioning Association. The NSCA-CPT is a nationally accredited certification program in the fitness industry.

### Program Notes\*

- BIO 121 and BIO 122 may be substituted for BIO 111.
- Students must hold current CPR and AED certification by time of program completion. Students may gain certification on their own through agencies such as Red Cross or American Heart Association, or they may take KIN 183.

# PHYSICAL SCIENCE

Program Code: N.PSC.AS

## Associate in Science (A.S.)

Graduation requirement — 60 semester hours

The following curriculum is designed to provide transfer students with the necessary background to complete a bachelor's degree with a major in one of the physical sciences.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the catalog of the four-year college or university they plan to attend.

### Program Notes

- Math requirements vary. All physical science majors must complete MAT 128. MAT 124 and 125 are prerequisites for MAT 128. Consult transfer institution about additional math.
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken at Parkland or after transferring. Contact Counseling Services (U267) for guidance on GECC completion.
- Recommended courses are designed to facilitate completion of the A.S. degree and transfer into a four-year college or university with junior standing. Students are advised to follow the recommendations.

\*\* PHY 143 and MAT 228 are not required for graduation but recommended for physical chemistry majors only.

# Social Sciences and Human Services

*D-wing • 217/351-2229 • parkland.edu/sshs*

*Joseph Walwik, department chair*

*Tyra Buchanan, department assistant*

Courses offered by the Social Sciences and Human Services department assist students in developing a thorough understanding and appreciation of humans in relation to their social environments. For students pursuing professions that emphasize the social sciences, choices encompass a wide variety of associate degree programs which teach students to extend human and social services to benefit others.

Career programs such as criminal justice, incorporate theory and practical field experience and prepare students for entry level work upon graduation. Transfer programs provide a well rounded foundation in areas such as education, history, political science, psychology, social work, and sociology. Social science and human services students completing associate degrees in transfer programs are well prepared to enter four-year universities to work toward their baccalaureate degree.

# CRIMINAL JUSTICE

Program Code: S.CJS.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

The Criminal Justice Program prepares students for employment in industry or government positions such as municipal, county, and state police agencies or the private security field.

Note: In order to complete the program, students must be able to pass a criminal background check required by agencies providing internships (if the student pursues the internship option).

### Program Notes\*

- SCI 108 and SCI 208 are the recommended courses for this degree. SCI 108 is not a prerequisite for SCI 208. These courses may be taken in any order. Both courses must be taken to fulfill the physical/life science requirement. One approved IAI transfer level physical science course and one approved IAI transfer life science course may be substituted for the SCI 108, SCI 208 sequence if necessary.
- General electives can be any college-level course.
- CJS 101 is a prerequisite for all CJS courses except CJS 104 and CJS 127.
- Students **must carry health insurance and pass a criminal background check** prior to being allowed to participate in CJS 218 (internship).

# CRIMINAL JUSTICE EDUCATION

Program Code: S.CJE.AA

## Associate in Arts (A.A.)

Graduation requirement — 60 semester hours

The following sequence of courses is designed to provide transfer students with the necessary background to complete a bachelor's degree in criminal justice.

Graduates may enter careers in municipal, county, state, and federal law enforcement agencies or in the private security field. Students interested in completing baccalaureate degrees in criminal justice and related majors are strongly encouraged to complete an A.A. degree prior to transfer. To transfer into an approved baccalaureate degree program in criminal justice as juniors, students need to complete a minimum of 60 semester credits from the framework below. Since admission is competitive, completion of the recommended courses does not guarantee admission.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the catalog of the four-year college or university they plan to attend.

### Program Notes\*

- SCI 108 and SCI 208 are recommended for this degree. They may be taken in any order, but both courses must be taken to fulfill the Physical and Life Science general education requirement. One IAI physical science course and one IAI life science course may be substituted for the SCI 108–SCI 208 sequence.
- All A.A. students must take a course that satisfies the non-western cultures requirement.
- CJS 101 is a prerequisite for all CJS courses except CJS 104 and CJS 127. Suggested coursework is based on transfer patterns.

### Required General Education Core Courses (38 hours)

	<b>Cr. Hrs.</b>
Communications (9)—Three courses

# EARLY CHILDHOOD EDUCATION

## Associate in Arts (A.A.)

Program Code: S.ECE.AA

Graduation requirement — 60 semester hours

To teach young children in Illinois public schools (birth to second grade), teachers must be certified by the state of Illinois. To transfer into an approved baccalaureate program in early childhood education as a junior, students must complete specific requirements and a minimum of 60 semester credits. Students are strongly encouraged to complete an A.A. degree prior to transfer. Since admission is competitive, completion of the recommended courses does not guarantee admission. A minimum grade point average for most universities is required for program admission.

All transfer applicants are required to pass the Test of Academic Proficiency (TAP), or pass the ACT + Writing with a score of 22+ (see an advisor for further details), and this score may be required at time of application. Contact Parkland's Counseling Services for more information about this test and suggested timing.

Students planning to teach at the early childhood level in Illinois are advised to plan their transfer programs with a Parkland academic advisor or counselor to meet specific requirements of their preferred transfer college or university and the Illinois State Teachers Certification Board.

### Program Notes

- A criminal background investigation is required prior to field experience. Students are responsible for any fees.
- Licensure by the State of Illinois requires that all courses in program be passed with a grade of C or higher.
- Most teacher certification programs require passing the Test of Academic Proficiency (TAP), or passing the ACT + Writing with a score of 22+ (see an advisor for further details) before transfer. For more information, see [www.icts.nesinc.com](http://www.icts.nesinc.com).
- EDU 101 and PSY 207 are required for transfer.
- The following universities have specific math requirements for education transfer students.  
EIU: MAT 105–106 sequence recommended  
ISU: Any IAI transfer math course  
UIUC: MAT 105–106 sequence recommended

### Required General Education Core Courses (38 hours)

# ELEMENTARY EDUCATION

## Associate in Arts (A.A.)

Program Code: S.EED.AA

Graduation requirement — 60 semester hours

To teach in Illinois public elementary schools (grades 1–6), teachers must be certified by the state of Illinois. To transfer into an approved baccalaureate program in elementary education as a junior, students must complete specific requirements and a minimum of 60 semester credits. Students are strongly encouraged to complete an A.A. degree prior to transfer. Since admission is competitive, completion of the recommended courses does not guarantee admission. Students should be aware that a minimum grade point average for most universities is required for program admission.

All transfer applicants are required to pass the Test of Academic Proficiency (TAP), or pass the ACT + Writing with a score of 22+ (see an advisor for further details), and this score may be required at time of application. Contact Parkland’s Counseling Services for more information about this test and suggested timing.

Students planning to teach at the elementary level in Illinois are advised to plan their transfer programs with a Parkland academic advisor or counselor to meet specific requirements of their preferred college or university and the Illinois State Teachers Certification Board.

### Program Notes

- A criminal background investigation is required prior to field experience. Students are responsible for any fees.
- Licensure by the State of Illinois requires that all courses in program be passed with a grade of C or higher.
- Most teacher certification programs require passing the Test of Academic Proficiency (TAP), or passing the ACT + Writing with a score of 22+ (see an advisor for further details) before transfer. For more information, see [www.icts.nesinc.com](http://www.icts.nesinc.com).
- EDU 101, PSY 207, and MAT 105 are required for transfer into Elementary Education.
- Placement out of or completion of MAT 124 is required for transfer.
- Recommended courses are designed to facilitate completion of the A.A. degree and transfer into a four-year college or university with junior standing. Students are advised to follow the recommendations.

# SECONDARY EDUCATION

## Associate in Arts (A.A.)

Program Code: S.SED.AA

## Associate in Science (A.S.)

Program Code: S.SED.AS

Graduation requirement — 60 semester hours

To teach in Illinois public high schools (grades 6–12), teachers must be certified by the state of Illinois. To transfer into an approved baccalaureate program in secondary education as a junior, students must complete specific requirements and a minimum of 60 semester credits. Students are strongly encouraged to complete an A.A. or A.S. degree prior to transfer. Since admission is competitive, completion of the recommended courses does not guarantee admission to any particular transfer institution. Students should be aware that a minimum grade point average is required for program admission at most universities.

**All transfer applicants are required to pass the Illinois Basic Skills Test, and this score may be required at time of application.** Contact Parkland’s Counseling Services (U267) for more information about this test and suggested timing.

Students planning to teach at the secondary level in Illinois are advised to plan their transfer programs with a Parkland academic advisor or counselor to meet specific requirements of their preferred college or university and the Illinois State Teachers Certification Board.

### Program Notes\*

- A criminal background investigation is required prior to field experience. Students are responsible for any fees.
- Licensure by the State of Illinois requires that all courses in program be passed with a grade of C or higher.
- Most teacher certification programs require passing the Illinois Basic Skills Test before transfer. For more information, see [www.icts.nesinc.com](http://www.icts.nesinc.com).
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken after transferring.
- Check with transfer institution regarding foreign language requirements.
- PSY 101 is the prerequisite for PSY 220 and PSY 209.
- EDU 101 and PSY 209 or PSY 220 are required for transfer into Secondary Education
- Recommended courses are designed to facilitate completion of the A.A. and A.S. degree options and transfer into a four-year college or university with junior standing. Students are advised to follow the recommendations.

## SPECIAL EDUCATION

### Associate in Arts (A.A.)

*Program Code: S.SPD.AA*

### Associate in Science (A.S.)

*Program Code: S.SPD.AS*

*Graduation requirement — 60 semester hours*

Students interested in completing a baccalaureate degree in special education are strongly encouraged to complete an A.A. or A.S. degree prior to transfer. To transfer into an approved baccalaureate program in special education as a junior, students must complete specific requirements and a minimum of 30–60 credits. UIUC recommends early transfer after completion of 30 credits, including required courses. Since admission is competitive, completion of the recommended courses does not guarantee admission. Students should be aware that a minimum grade point average for most universities is required for program admission.

**All transfer applicants are required to pass the Illinois Basic Skills Test, and this score may be required at time of application.** Contact Parkland's Counseling Services (U267) for more information about this test and suggested timing.

Students planning to teach in special education in Illinois are advised to plan their transfer programs with a Parkland academic advisor or counselor to meet specific requirements of their preferred college or university and the Illinois State Teachers Certification Board.

### Program Notes\*

- A criminal background investigation is required prior to field experience. Students are responsible for any fees.
- Licensure by the State of Illinois requires that all courses in program be passed with a grade of C or higher.
- Most teacher certification programs require passing the Illinois Basic Skills Test before transfer. For more information, see [www.icts.nesinc.com](http://www.icts.nesinc.com)
- The following universities have specific math requirements for education transfer students.  
EIU: MAT 105–106 sequence recommended  
ISU: Transfer math other than MAT 108 recommended
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken after transferring.
- Check with transfer institution regarding foreign language requirements.
- EDU 101 and PSY 209 and PSY 220 is required for transfer into Special Education
- Recommended courses are designed to facilitate completion of the A.A. and A.S. degree options and transfer into a four-year college or university with junior standing. Students are advised to follow the recommendations.

# HISTORY

Program Code: S.HIS.AA

## Associate in Arts (A.A.)

Graduation requirement — 60 semester hours

To transfer as a junior into a baccalaureate history program, students must complete a minimum of 60 semester credits. Freshmen and sophomores who plan to major in history are encouraged to fulfill general education requirements with foundation courses in the sciences (e.g., biology, chemistry, physics, and anatomy and physiology) and mathematics (e.g., college algebra, calculus, and statistics). The number of history courses taken at Parkland should be kept to a minimum.

The courses below are recommended for students planning to transfer into a baccalaureate history program, including into a baccalaureate program leading to state certification as a high school (6–12) history teacher. Students planning to seek high school (6–12) teacher certification are encouraged to consult the specific general education courses recommended for Secondary Education.

To transfer as a junior, students must complete a minimum of 60 semester credits. Students seeking a bachelor's degree in history are strongly encouraged to complete an Associate in Arts or Associate in Science degree prior to transfer. Since admission may be competitive, completing the recommended courses does not by itself guarantee admission.

### Program Notes

- Recommended courses are designed to facilitate completion of the A.A. degree and transfer into a four-year college or university with junior standing. Students are advised to follow the recommendations.
- Additional history courses (such as non-Western civilization) may transfer either for history major credit or as general education credit, depending upon the school. Students should select courses in consultation with an advisor.
- Competency through the second, third, or fourth semester in a single foreign language is required for the B.A. degree in history in some schools and for all majors in the College of Arts and Sciences at other schools. Ask about the language requirement of the schools you are considering, and complete the required foreign language courses before transfer. In general, two years of foreign language study in high school will substitute for two semesters in college.

# POLITICAL SCIENCE

Program Code: S.POS.AA

## Associate in Arts (A.A.)

Graduation requirement — 60 semester hours

Political Science is the study of the theory and practice of government and politics. Students of politics describe and analyze political systems and behavior. Baccalaureate programs offer courses in areas such as public administration, public law, international relations, comparative politics, political behavior, political philosophy, and U.S. government. Students interested in pursuing a bachelor's degree in political science are strongly encouraged to complete an Associate in Arts or Associate in Science degree prior to transfer. A minimum of 60 semester credits is required for transfer as a junior into a baccalaureate Political Science program. Since admission is competitive, completing the recommended courses does not by itself guarantee admission.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the catalog of the four-year college or university they plan to attend.

# SOCIAL WORK

Program Code: S.SOW.AA

## Associate in Arts (A.A.)

Graduation requirement — 60 semester hours

The profession of social work is devoted to helping people function optimally in their environment by providing direct and indirect services to individuals, families, groups, organizations, and communities and by working to improve social conditions. Bachelor's degree programs in social work prepare students for careers in public and private agencies such as child welfare, mental health, corrections, shelters, and many other workplaces. Students interested in completing bachelor's degrees in social work are strongly encouraged to complete an Associate in Arts degree prior to transfer. To transfer into an accredited bachelor's degree program in social work as juniors, students need to complete a minimum of 60 semester credits (up to a maximum of 64 semester credits) from the adjacent list. Students should contact their counselor or advisor about the particular social work baccalaureate program for specific entry requirements, including language requirements. Since admission is competitive, completion of these courses alone does not guarantee admission.

### Program Note

- Recommended courses are designed to facilitate completion of the A.A. degree and transfer into a four-year college or university with junior standing. Students are advised to follow the recommendations.

# SOCIOLOGY

Program Code: S.SOC.AA

## Associate in Arts (A.A.)

Graduation requirement — 60 semester hours

Sociology is the systematic and scientific study of behavior of small groups and society. To transfer as a junior into a baccalaureate sociology program, students must complete a minimum of 60 semester credits. Students are strongly encouraged to complete an Associate in Arts or Associate in Science degree prior to transfer. Freshmen and sophomores who plan to major in sociology are encouraged to complete additional foundation courses (including courses in the social and behavioral sciences) and mathematics.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the catalog of the four-year college or university they plan to attend.

### Program Note

Recommended courses are designed to facilitate completion of the A.A. degree and transfer into a four-year college or university with junior standing. Students are advised to follow the recommendations.

# career and technical education

*Roberta Scholze, dean*

*Megan Przygoda, administrative assistant*

# Agriculture/Engineering Science and Technologies

*Parkhill Applied Technology Center, T Building • 217/351-2290 • [parkland.edu/agest](http://parkland.edu/agest)*

*James Mansfield, department chair*

*Christine Murphy-Lucas, administrative assistant*

**Agriculture** offers up-to-date and vital courses for students seeking careers in a variety of agriculture-related industries. Certificate and degree programs provide hands-on experience with agriculture to prepare students for jobs immediately upon completion as well as prepare students who intend to transfer to a university.

Nearly a quarter of all jobs in America are related to agriculture, and the rapidly changing face of agriculture has resulted in new and exciting career opportunities. High-tech intensive farming techniques, seed genetics, precision agriculture technology, and sophisticated marketing and research activities all require educated, well-trained workers. Agriculture students benefit from study at the 42-acre demonstration plot land laboratory, and from modern classroom space in the Tony Noel Agriculture Technology Applications Center building. The Agriculture Program also provides opportunities for students to participate in a number of student organizations and develop their leadership potential as well as improve their soft skills that many employers are seeking.

**Horticulture** is another important area within this division. The need for trained professionals to design, construct, and manage landscape projects for homes and businesses has never been greater. This program also prepares students for careers in greenhouse management and floriculture, all of which depend on many hands-on courses to provide practical education and training. With a modern greenhouse providing space for some of the hands-on instruction, students gain both the horticulture and business skills they need to succeed in this growing industry.

**Engineering Science and Technologies** offers certificates and degree programs that respond to technological advances and industry demand. Its hands-on approach to learning includes lab work, course projects, and internships. Career programs prepare students for jobs in technical fields such as automotive technology, collision repair, electronics, industrial technology, construction, and more. Students are given opportunities to expand their interests in organizations such as Parkland Motorsports and Diesel Pulling Club, as well as student chapters of the National Home Builders Association and the Illinois Professional Land Surveyors Association.

Graduates in most of our technical fields are able to continue their education and receive baccalaureate degrees from a variety of area colleges or universities. Students interested in pursuing the four-year degree should create an educational plan with their academic advisor consulting the catalog of the four-year institution they plan to attend.

The Parkhill Applied Technology Center, located on the west side of campus, is home to the Automotive Technology, Ford ASSET, Automotive Collision Repair, Industrial Technology, and Welding programs. This state-of-the-art facility offers students hands-on skills learning in a facility that simulates the conditions that they will experience in real life jobs. Parkland College has long-standing partnerships with area industries and job placement is very high for graduates in these technical fields.

## ADVANCED APPLICATOR TECHNICIAN

Program Code: B.AAT.AAS

### Associate in Applied Sciences (A.A.S.)

Graduation requirement — 61 semester hours

The Advanced Applicator Technician program prepares students for careers as advanced applicator technicians. Students will demonstrate proficiency in basic agronomic skills; effective operation of applicator equipment; knowledge of applicator procedures; Department of Transportation and Environmental Protection Agency regulations; general maintenance and repair of application equipment; and use of precision agriculture technologies.

#### Program Notes\*

- Students must be accepted into the program before enrolling in AGB 111, AGB 113, AGB 117, and AGB 118. See agriculture program director for approval.
- Six hours of student work exploration (AGB 191) should follow the suggested course sequence. See agriculture program director for an alternative work exploration plan.
- General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/ life sciences.

#### Suggested Full-time Sequence

# AGRICULTURAL BUSINESS: PRECISION AG TECHNOLOGY

Program Code: B.ABT.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

The Precision Ag Technology Program prepares students for positions that require the use of current technology in agriculture such as global navigation satellite systems, geographic information systems, precision software programs, precision hardware/equipment, and unmanned aerial systems (UAS). Students are prepared for positions with soil testing companies, crop consulting firms, fertilizer and chemical suppliers, and agriculture equipment dealers.

### Program Notes\*

- Select a math course with advice from an agriculture faculty advisor.
- General Education electives are chosen from the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.

# AGRICULTURE

Program Code: B.AGR.AS

## Associate in Science (A.S.)

Graduation requirement — 60 semester hours

Baccalaureate degree programs in agriculture may include various specialties, such as agricultural economics, agribusiness, agricultural sciences (animal science, crop or plant science, soil science, and horticulture), agricultural mechanics, and agriculture education. To transfer into a baccalaureate degree program in agriculture as a junior, students need to complete a minimum of 60 semester credits.

Students are strongly encouraged to complete an A.S. degree prior to transfer. Since admission is competitive, completion of the recommended courses does not guarantee admission.

Students should plan their transfer programs with an agriculture faculty member.

### Program Notes\*

- Math requirements vary; students should plan their transfer programs with an advisor and the catalog of the four-year college or university they plan to attend.
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken at Parkland or after transferring. Contact Counseling Services for guidance on GECC completion.
- Recommended courses are designed to facilitate completion of the A.S. degree and transfer into a four-year college or university with junior standing in agriculture. Students are strongly advised to follow the recommendations.

### Suggested Full-time Sequence

# AUTOMOTIVE FORD MOTOR ASSET PROGRAM

Program Code: E.AFT.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 71 semester hours

ASSET (Automotive Student Service Educational Training) is a two-year program leading to an Associate in Applied Science degree in Automotive Service Technology. It is a joint effort of Ford Motor Company, Ford and Lincoln dealers, and Parkland College. The ASSET curriculum utilizes periods of classroom work alternating with periods of work experience. Graduates of the ASSET program can enter the workforce as entry-level service technicians with certifications from Ford Motor Company, or transfer earned credits toward a bachelor's degree.

Curriculum for the Automotive Technology degree is based on the Master Automotive Service Technology standards (MAST) set by the Automotive Service Excellence (ASE) Education Foundation.

Students enter the ASSET program each fall semester. Classroom sessions are eight weeks long and alternate with eight-week work sessions. Enrollment in all AFM classes requires approval of the ASSET director.

Students are required to bring a laptop computer to all Ford ASSET (AFM) courses.

### Program Note\*

General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.

## CLASS SEQUENCE FOR THE TWO-YEAR PROGRAM:

### August to October (8-weeks)

# AUTOMOTIVE MAINTENANCE AND LIGHT REPAIR

Program Code: E.AUS.CER

## Certificate

Graduation requirement — 27 semester hours

The Automotive Service Certificate Program prepares graduates with basic skills for use in mass merchandiser/service centers. The content of this certificate is based on the Maintenance and Light Repair standards set by the National Automotive Technician Education Foundation.

## Program Notes\*

Students wishing to transfer Maintenance and Light Repair credits from another training program must provide the following:

- Official transcript clearly stating the completion of the MLR standards set by NATEF with quality grades.
- Evidence that the training program was NATEF MLR accredited at the time of completion.
- Motorsport Concentration students may substitute AFD 296, AFD 297, and AFD 298 for AFD 110 and AFD 111.

# AUTOMOTIVE TECHNOLOGY

Program Code: E.AUT.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 71–73 semester hours

The Automotive Technology Program prepares graduates for entry-level employment in the automotive industry. The Automotive Technician Program is designed to give graduates skill to succeed in new car dealerships and independent service centers. This program is designed to develop strong technical skills along with managerial skills.

Curriculum for the Automotive Technology degree is based on the Master Automotive Service Technology standards (MAST) set by the Automotive Service Excellence (ASE) Education Foundation.

Students should plan their programs with a faculty advisor.

NOTE: Students considering transferring to a senior institution will need to contact the institution as soon as possible to determine the general education courses that are transferable and the required credit hours.

### Program Notes\*

- Up to two credit hours of student work experience (AFD 211) may be completed before meeting the required prerequisites. See instructor for work plan.
- AFD elective courses are offered each semester and may be completed during other semesters than the suggested sequence.
- A valid driver's license is required for internship courses
- MAT 124 or MAT 107 or MAT 108 may be taken instead of MAT 131.
- General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.
- For the Motorsport concentration, two credit hours of AFD 211 may be substituted for AFD 273 if work experience does not meet AFD 273 placement requirements.

### Required Program Courses (33 hours)

	<b>Cr. Hrs.</b>
AFD 112 Introduction to Power Trains .....	3
AFD 113 Automotive Chassis Systems Maintenance and Light Repair .....	7

# CASE NEW HOLLAND SERVICE TECHNICIAN

Program Code: E.CNH.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 67 semester hours

This program prepares students to maintain and repair equipment used in a Case New Holland agriculture or construction dealership.

### Program Notes\*

- Before enrolling in program-specific courses, students must be accepted into the program.
- Must have a valid driver's license.
- Must have sponsoring dealership.
- General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.

# COMPUTER-AIDED DRAFTING (CAD): STRUCTURAL AND CIVIL

Program Code: E.CIV.CER

## Certificate

Graduation requirement — 29 semester hours

The Computer-Aided Drafting: Structural and Civil certificate prepares the student for employment as a drafting technician in the design of buildings, roads, utility systems, and site improvements. Course work includes 3D modeling for buildings and site work, automated drafting of survey data, geographic information systems, and computer networking.

## CONSTRUCTION: BASIC CONSTRUCTION SKILLS

Program Code: E.CBS.CER

### Certificate

Graduation requirement — 18–19 semester hours

The Basic Construction Skills certificate equips students with beginning hands-on skills needed for entry-level jobs in the construction trades. This program of study can be started during either the fall or spring semester.

### Program Note

Students in this program whose reading placement level is CCS 098 are eligible to take ALS 199 Support for Workforce Training in place of CCS 098. For more information, contact the Center for Academic Success at 217/353-2005.

### Suggested Full-time Sequence

# CONSTRUCTION MANAGEMENT

Program Code: E.CDM.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 65 semester hours

The Construction Management Program prepares students to enter the construction industry in technical, managerial, and supervisory roles in three major areas: residential and light commercial building construction, heavy commercial building construction, and civil construction (roads, bridges, utilities). Entry-level employment is generally in the areas of project management, field inspection, material testing, cost estimating, computer-aided drafting, and surveying.

### Program Notes\*

- Students may substitute a technical elective for CIT 230 and another surveying course for CIT 211 with approval of a construction faculty advisor.
- Students planning to transfer should take MAT 124 instead of MAT 131. Select a math elective with advice from a construction faculty advisor.
- Students planning to transfer should take ENG 101 instead of ENG 111. Select a second communications course with advice from a construction faculty advisor.
- Students transferring to a four-year institution should plan their programs with a construction faculty advisor.
- General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.

# CONSTRUCTION MANAGEMENT: INTERRUPTED SEQUENCE

Program Code: E.CDM.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 65 semester hours

The following work-study sequence for the Construction Management Program was designed to enable students to alternate work experience and class studies. Other schedules may be used when jointly developed with employers.

### Program Notes\*

- Students may substitute another surveying course for CIT 211 with approval of a construction faculty advisor.
- Students must complete a minimum of 12 credit hours of curriculum including CIT 111 and CIT 113, and maintain a minimum 2.0 GPA prior to beginning supervised work experience.
- Students may take 4 credit hours in CIT 230, 3 credit hours of which may be substituted for a core technical course to be agreed upon by the student, the employer, and the program director.
- Students planning to transfer should take MAT 124 instead of MAT 131. Select a math elective with advice from a construction faculty advisor.
- Students planning to transfer should take ENG 101 instead of ENG 111. Select a second communications course with advice from a construction faculty advisor.
- Students transferring to a four-year institution should plan their programs with a construction faculty advisor.
- General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.

# CONSTRUCTION MANAGEMENT: LAND SURVEYING

Program Code: E.CDS.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 65 semester hours

The Construction Management: Land Surveying program prepares the student either for employment as a surveying technician or for transfer to a four-year degree program to become an Illinois professional land surveyor.

See Professional Licensing Notes\*\* for education requirements for becoming a professional land surveyor. See a faculty advisor to discuss four-year degree options.

Surveying technicians and professional land surveyors work in the fields of engineering, construction, land development, aerial photography, geographic information systems, agriculture, natural resource management, and government. Course work focuses on knowledge and hands-on skills needed for entry level employment and for professional licensing.

All of the surveying courses offered in this program have been accepted by the Illinois Land Surveyors Licensing Board as meeting the requirements of the 24 credit hours required by the Illinois Professional Land Surveyor Act of 1989 and the Illinois Administrative Code as amended.

### Program Notes\*

- CIT 234 and CIT 235 are available during odd-numbered years. CIT 253 and CIT 254 are available during even-numbered years.
- Students may substitute a technical elective for CIT 233 with approval of a faculty advisor.
- Students planning to transfer should take ENG 101 instead of ENG 111. Select a second communications course with advice from a construction faculty advisor.
- Students seeking a professional license should take MAT 124 and MAT 125 instead of MAT 131 and MAT elective.
- General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.

	MAT 125*	

### Professional Licensing Notes \*\*

Per the Illinois Professional Land Surveyor Act of 1989 (225 ILCS 330/12), to qualify for admission to the Illinois Surveyor-In-Training (NCEES: Fundamentals of Land Surveying) examination, the candidate must have "a baccalaureate degree in a related science if he or she does not have a baccalaureate degree in land surveying from an accredited college or university."  
 Per Title 68, Section 1270.15 of the Illinois Administrative Code, "a baccalaureate degree in a Related Science is a baccalaureate degree from an accredited college or university that includes core courses in at least the following subjects, or their equivalents, for the minimum semester hours shown. The following subjects all may be completed prior to, concurrent with, or subsequent to receiving the baccalaureate degree. a) Mathematics (College Algebra and beyond) – 15 semester hours b) Basic Sciences (Physics and/or Chemistry) – 8 semester hours c) Additional Basic Sciences (including, but not limited to: Geology, Geography, Dendrology, Astronomy, Biology, Soil Mechanics, and engineering sciences) – 20 semester hours d) Land Surveying courses (including, but not limited to: fundamentals of land surveying, boundary surveying, route surveying, topographic surveying, descriptions, legal aspects, subdivision design, data computations and adjustments, map projections and geometric geodesy and photogrammetry) – 24 semester hours

# CONSTRUCTION MANAGEMENT: LAND SURVEYING

Program Code: E.CLS.CER

## Certificate

Graduation requirement — 24–25 semester hours

The Construction Management: Land Surveying certificate program provides approved surveying courses for the student who plans to become a professional land surveyor and who has or will have satisfied all other educational requirements for licensure prior to applying for admission to the Illinois Surveyor Intern (NCEES: Fundamentals of Land Surveying) examination.

See Professional Licensing Notes\*\* for education requirements for becoming a professional land surveyor.

All of the surveying courses offered in this program have been accepted by the Illinois Land Surveyors Licensing Board as meeting the requirements of the 24 credit hours required by the Illinois Professional Land Surveyor Act of 1989 and the Illinois Administrative Code as amended.

## Program Notes\*

- Students may substitute a technical elective for CIT 233 with approval of a land surveying faculty member.
- Meet with program director as soon as possible to review educational requirements for professional licensing and to develop an appropriate academic plan.

## Suggested Part-time Sequence

## Professional Licensing Notes \*\*

Per the Illinois Professional Land Surveyor Act of 1989 (225 ILCS 330/12), to qualify for admission to the Illinois Surveyor-In-Training (NCEES: Fundamentals of Land Surveying) examination, the candidate must have “a baccalaureate degree in a related science if he or she does not have a baccalaureate degree in land surveying from an accredited college or university.”

Per Title 68, Section 1270.15 of the Illinois Administrative Code, “a baccalaureate degree in a Related Science is a baccalaureate degree from an accredited college or university that includes core courses in at least the following subjects, or their equivalents, for the minimum semester hours shown. The following subjects all may be completed prior to, concurrent with, or subsequent to receiving the baccalaureate degree.

a) Mathematics (College Algebra and beyond) – 15 semester hours

b) Basic Sciences (Physics and/or Chemistry) – 8 semester hours

c) Additional Basic Sciences (including, but not limited to: Geology, Geography, Dendrology, Astronomy, Biology, Soil Mechanics, and engineering sciences) – 20 semester hours

d) Land Surveying courses (including, but not limited to: fundamentals of land surveying, boundary surveying, route surveying, topographic surveying, descriptions, legal aspects, subdivision design, data computations and adjustments, map projections, and geometric geodesy and photogrammetry) – 24 semester hours

# CONSTRUCTION TRADE TECHNOLOGY

## Plumbers and Pipefitters Concentration

Program Code: E.CTT.AAS.PFT

### Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

The Construction Trade Technology program is designed to allow trade union apprentices to complete an Associate in Applied Science degree at Parkland College. Completion of this degree prepares student apprentices to enter management positions.

This PFT concentration in the CTT.AAS degree program allows students who have been accepted into the Local Plumbers and Pipefitters Apprenticeship Program Local 149 to earn an AAS while they are completing the Apprenticeship sequence. Credit for prior learning may be used to fulfill up to 50 percent of the CTT.AAS program (see catalog, page 47).

#### Program Notes\*

- General education electives can be chosen from two of the following categories: communications, social/ behavioral sciences, humanities/fine arts, mathematics, and physical/ life sciences.
- Students planning on transfer should take note of the following general education choices:
  - a. Plan their programs with a construction faculty advisor.
  - b. Take ENG 101 Composition I in place of ENG 111. ENG 111 may fulfill developmental writing requirement.
  - c. Take COM 103 Introduction to Public Speaking in place of COM 120.

# CUSTOMIZED CAREER PREPARATION

Program Code: B.CCP.AAS

### Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

This program allows students to develop and pursue individualized programs of study that meet their own personal and career goals. With the assistance of the professional staff in career programs and departments, each student will develop a viable program of study during the first semester of enrollment at the college. This plan must receive approval of the assigned faculty mentor and the appropriate department chair(s). A unique aspect of this program is the awarding of credit for non-collegiate prior learning or work experience.

#### Program Note\*

General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.

# DIESEL POWER EQUIPMENT TECHNOLOGY

Program Code: E.PET.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 70 semester hours

Prepares students to maintain and repair machinery and equipment used in the agriculture, construction, and motor trucking industries.

### Program Notes\*

- Before enrolling in program-specific courses, students must be accepted into the program.
- A tool set is required for all technical program courses.
- Some courses may need to be taken during the summer.
- Must have valid driver's license.
- General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.

# ENGINEERING SCIENCE

Program Code: EENS AES

## Associate in Engineering Science (A.E.S.)

Graduation requirement — 60 semester hours

The A.E.S. degree involves the completion of required general education, mathematics, and science courses as well as 10 credits in elective courses. Students are advised to follow the recommended courses for specific engineering fields but may choose from among those courses or general education courses to reach 60 semester hours.

Transfer institution requirements may vary. Students should check individual college/university requirements before choosing courses and work with a counselor or academic advisor. The A.E.S. does not include completion of the IAI General Education Core Curriculum (GECC) and students completing this degree will likely have additional general education requirements at their transferring institution. Since admission into baccalaureate engineering programs is highly competitive, completion of the recommended courses does not guarantee admission.

### Program Notes\*

- For transfer to UIUC Computer Science, MAT 200 may be substituted for MAT 229.
- CIS 122 is a prerequisite for CSC 123 or CSC 127.
- For transfer to UIUC Computer Science, CSC 123 and CSC 125 may be substituted for CSC 127.
- For UIC Chemical Engineering, take CHE 203, CHE 204, CHE 205, CHE 206 prior to transfer; for UIUC Chemical Engineering, consult with UIUC transfer advisor.

### Required Communications Courses (6 hours)

ENG 101 Composition I	3
ENG 102 Composition II	3

### Required Mathematics and Science Courses (36–39 hours)

MAT 128	Calculus and Analytic Geometry I	5
MAT 129	Calculus and Analytic Geometry II	4
MAT 228	Calculus and Analytic Geometry III	4
MAT 229	Differential Equations	5
CHE 101	General Chemistry I	5
PHY 141	Mechanics	4
PHY 142	Electricity and Magnetism	4
PHY 143	Modern Physics	4
CSC 127	Introduction to Computing	3

## Recommended Engineering courses (16–18 hours)

The listing below includes recommended courses for specific fields in engineering sciences.

### Aerospace

ENS 201	Engineering Mechanics (Statics)	3
ENS 203	Engineering Mechanics II	3

### Agricultural, Biological, Civil, and Engineering Mechanics

CHE 102	General Chemistry	5
ENS 101	Introduction to Engineering and CAD	3
ENS 201	Engineering Mechanics (Statics)	3
ENS 202	Engineering Mechanics of Solids	3
ENS 203	Engineering Mechanics II	3

### Chemical

CHE 102	General Chemistry	5
CHE 203	Organic Chemistry I	3
CHE 204	Organic Chemistry Lab I	2
CHE 205	Organic Chemistry II	3
CHE 206	Organic Chemistry Lab II	2

### Computer Engineering

MAT 200	Introduction to Discrete Mathematics	3
---------	--------------------------------------	---

(in addition to MAT 229)

### Computer Science

MAT 200	Introduction to Discrete Mathematics	3
---------	--------------------------------------	---

(instead of MAT 229)

CSC 123	Computer Science I (C/C++)	4
CSC 125	Computer Science II (C++)	3

### Electrical

No additional math or science courses

### General and Industrial

ENS 101	Introduction to Engineering and CAD	3
ENS 201	Engineering Mechanics (Statics)	3
ENS 202	Engineering Mechanics of Solids	3
ENS 203	Engineering Mechanics II	3

### Materials Science

CHE 102	General Chemistry	5
---------	-------------------	---

### Mechanical

ENS 201	Engineering Mechanics (Statics)	3
ENS 202	Engineering Mechanics of Solids	3
ENS 203	Engineering Mechanics II	3

### Nuclear

ENS 201	Engineering Mechanics (Statics)	3
ENS 203	Engineering Mechanics II	3

### Non-STEM GECC electives

Humanities or Fine Arts electives	0–6
Social/Behavioral Sciences electives	0–6

One course from Soc/Beh Sci, Hum, or FA must fulfil the non-Western culture requirement.

# GEOGRAPHIC INFORMATION SYSTEMS

Program Code: B.GIS.CER

## Certificate

Graduation requirement — 14 semester hours

Geographic Information Systems (GIS) is a method of using data gathered from various sources, including Global Position Satellite (GPS) systems, to develop “layers” of information about a geographic location. Applications are used in mapping streets, utilities, environmental markers, crime studies, and many other types of physical and societal information. It is an emerging industry that also has emerging career opportunities.

## Suggested Part-time Sequence

## HORTICULTURE: FLORAL DESIGN

Program Code: B.FLD.CER

### Certificate

Graduation requirement — 24 semester hours

The Floral Certificate is designed to meet the growing need for trained professionals to work successfully in the floral industry. The curriculum combines training in horticulture with business management, plant identification, floral techniques, and hands-on training. Students learn and practice design elements and various styles, using fresh and dried flowers. Graduates may be employed as florists in flower shops, floral departments in garden centers, chain stores, and supermarkets. Florists are also hired by floral wholesalers or work independently out of their own homes.

### Suggested Full-time Sequence

# INDUSTRIAL MAINTENANCE TECHNOLOGY

Program Code: E.IMT.CER

## Certificate

Graduation requirement — 37 semester hours

The Industrial Maintenance Technology Program prepares students to install and maintain the electromechanical, mechanical pneumatic, and hydraulic systems used in manufacturing and building facilities. The student acquires knowledge of electrical power and motors, control systems, pumps, compressors, pneumatics, hydraulics, and power transfer devices. Students can expect to find employment as installers, technicians, and service representatives in manufacturing, sales, and customer service.

# INDUSTRIAL TECHNOLOGY

Program Code: E.MFG.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 70–72 semester hours

The Industrial Technology program prepares high school students and community college students for careers in manufacturing. The program offers students opportunities to learn science, math, technology, and communications in real-life settings.

### Program Notes\*

- Prior to enrolling in MFT 151, students must complete a minimum of 12 hours of curriculum and MFT 131 or approval of the department chair or program director.
- General education electives include mathematics and at least one elective from the following categories: communications, social/behavioral sciences, humanities/fine arts, physical/life sciences.

# INDUSTRIAL TECHNOLOGY

Program Code: E.MAN.AS

## Associate in Science (A.S.)

Graduation requirement — 60 semester hours

The following curriculum emphasizes a course of study in core technical courses in the industrial technology, machining area. This program is designed for students interested in transferring to a four-year institution to pursue a baccalaureate degree in technology.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the catalog of the four-year college or university they plan to attend.

### Program Notes\*

- MAT 124 is a prerequisite for MAT 125 and MAT 160.
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken at Parkland or after transferring. Contact Counseling Services for guidance on GECC completion.
- Recommended courses are designed to facilitate completion of the A.S. degree and transfer into a four-year college or university with junior standing in technology. Students are strongly advised to follow the recommendations.

# Business/Computer Science and Technologies

B-wing • 217/353-2099 • 217/353-2165 • parkland.edu/bcst

Derek Dallas, department chair

Sandra Schleaf, administrative assistant

Business/Computer Science and Technologies offers up-to-date and vital courses for students seeking careers in a variety of business, computer science, and hospitality industries. Certificate and degree programs provide hands-on experience with state of the art software applications as well as hardware/equipment aligned with the most current technologies used in those areas. Students receive the general and specialized skills and principles needed for entry-level positions on the local and state levels and/or are well prepared for transfer to the University of Illinois as well as many other public/private state universities.

## Business

Business is a popular field for both A.A.S. (career degree) students and those planning to transfer. The Parkland Business Program prepares students for various career areas including accounting and marketing; it also includes a transfer degree in business administration. Once in the workforce, business careers are often high-paying, especially with Bachelor's and Master's degrees.

## Computer Science and Technologies

Computer technology changes constantly, requiring more workers with updated skills. Computer Science and Information Technology (CSIT) provides students with a wide range of career options: programmers, databasemanagers, network administrators, 3D animators, web designers, and business administrative professionals. CSIT offers A.A.S. degree and certificate opportunities in four program areas of study, plus an A.S. degree in Computer Science/Computer Information Systems. After completion of their studies, students are prepared to pursue a career or continue their education by transferring to a four-year institution.

CSIT gives students the hands-on training and knowledge they need to be successful by staying up to date with the latest in computer software and systems training, constantly offering new courses based on input from the IT industry. Through Service Learning students gain experiential learning as they work closely with nonprofit clients to manage projects with real-world specifications and timeframes.

## Computer Technology Center

The Computer Technology Center (CTC) provides students with convenient office technology training in courses ranging from computer basics and keyboarding to a variety of Microsoft and web applications. With open registration, flexible scheduling, and the option of online courses, the CTC allows students to learn at their own pace.

## Hospitality

Hotel/motel and restaurant management offer rewarding careers for sociable people who enjoy a fast-paced environment and are quick problem solvers. The hospitality industry can demand long hours and evening and weekend work, but typically pays well and offers rapid advancement. The newest degree, Culinary Arts Management, helps students prepare for culinary jobs, specifically preparing for positions such as kitchen manager. Well-trained workers are in demand worldwide. In addition to local employment, Parkland graduates have reported getting jobs with Disney, at Hilton hotels in Florida and Singapore, and at the MGM Grand in Las Vegas.

# BUSINESS ADMINISTRATION

Program Code: B.BUS.AS

## Associate in Science (A.S.)

Graduation requirement — 60 semester hours

Business administration programs include courses and majors in general business, accounting, finance, marketing, and management. The following recommendations apply to courses and programs in all of these fields. To transfer into a baccalaureate degree program in business administration as a junior, students need to complete a minimum of 60 semester credits. Students are strongly encouraged to complete an A.S. degree prior to transfer. Since admission is competitive, completion of the recommended courses does not guarantee admission.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the degree requirements of the four-year college or university they plan to attend.

### Program Notes\*

- Math requirements vary; students should plan their transfer programs with an advisor and the catalog of the four-year college or university they plan to attend.
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken at Parkland or after transferring. Contact Counseling Services for guidance on completing the GECC.

## General Education Core Courses (33–34 hours)

Cr. Hrs.

Communications (9)	
ENG 101 Composition I	3
ENG 102 Composition II	3
COM 103 Introduction to Public Speaking	3
Humanities elective	3
Fine Arts elective	3
Social/Behavioral Sciences electives (6)	
ECO 101 Principles of Economics I	3
Social/Behavioral Sciences elective	3
<i>Second Soc/Beh Sci from another discipline.</i>	
<i>One course from Soc/Beh Sci, Hum, or FA must fulfill the non-Western culture requirement.</i>	
Mathematics* (4–5)	
MAT 143 Calculus for Business and Social Sciences	4
or MAT 128 Calculus and Analytical Geometry I	5
Life Sciences elective	4
Physical Sciences elective	4

## A.S. Degree Requirement (4–9 hours)

MAT 141* Finite Mathematics	4
or MAT 145* Linear Algebra for Business	4
or MAT 160 Statistics	4
One Life or Physical Sciences elective	3–5
<i>Choose from AST, BIO, CHE, ESC, or PHY courses numbered 100 through 289 whose second digit is even.</i>	

## Recommended Business-Related Courses (19–20 hours)

*These courses are strongly recommended for transfer into a baccalaureate program in business administration.*

ACC 101 Financial Accounting	4
ACC 102 Managerial Accounting	3
CSC 105 Introduction to Computers and their Application to Business and Commerce	4
or CIS 200 Business Computer Systems	3
BUS 101 Introduction to Business	3
BUS 204 The Legal Environment of Business	3
ECO 102 Principles of Economics II	3

## General Electives (0–1 hours)

*Select courses to meet minimum 60-hour degree requirement.*

# BUSINESS ADMINISTRATIVE TECHNOLOGY

Program Code: T.OCA.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

The Business Administrative Technology Program prepares students for administrative and technical support positions. Skills addressed include software applications, workplace ethics, mathematics, bookkeeping, and communications. Work experience is required at the end of the program. This can transfer to EIU as a 2+2 program.

### Program Notes\*

- CTC substitutions are accepted for CIS 131, CIS 134, CIS 135, and CIS 138.
- General education electives are chosen from the following categories: communications, social and behavioral sciences, humanities/fine arts, mathematics, and physical/life sciences. For more information, see General Education requirements on p. 67.

# COMPUTER SCIENCE/COMPUTER INFORMATION SYSTEMS

Program Codes:

**Computer Science:** T.CSC.AS.TEC

**Computer Information Systems:** T.CSC.AS.BUS

## Associate in Science (A.S.)

Graduation requirement — 60 semester hours

Baccalaureate degree programs in Information Technology have traditionally grown from a number of different disciplines, including Mathematics, Business, and Engineering. Computer Science (CS) degrees usually have a general theoretical emphasis. Computer Information Systems (CIS) degrees have more of a business emphasis. Computer Engineering degrees have a hardware emphasis. At the two year level, either the CS or CIS degree provides a good foundation for further study in most fields of Computer Science. Engineering degrees are most specific to future engineering study. To transfer into a baccalaureate degree program in Computer Science as a junior, students need to complete a minimum of 60 semester credits. Students are strongly encouraged to complete an A.S. degree prior to transfer. Since admission is competitive, completion of the recommended courses does not guarantee admission.

Students should plan their transfer programs with a faculty advisor and the catalog of the four-year college or university they plan to attend.

### Program Notes\*

- MAT 124 and 125 are prerequisites for MAT 128.
- PHY 141 is required for students planning to transfer to UIUC and others.
- IAI CS 922, Computer Organization, is not offered at Parkland. Check with your transfer institution to see if it is required in their program.
- Computer Information Systems transfers to UIUC School of Business, Management Information Systems.
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken at Parkland or after transferring. Contact Counseling Services for guidance on completing the GECC.
- Recommended courses are designed to facilitate completion of the A.S. degree and transfer into a four-year college or university with junior standing. Students are strongly advised to follow the recommendations.

# CUSTOMIZED CAREER PREPARATION

Program Code: B.CCP.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

This program allows students to develop and pursue individualized programs of study that meet their own personal and career goals. With the assistance of the professional staff in career programs and departments, each student will develop a viable program of study during the first semester of enrollment at the college. This plan must receive approval of the assigned faculty mentor and the appropriate department chair(s). A unique aspect of this program is the awarding of credit for non-collegiate prior learning or work experience.

### Program Note\*

General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on p. 67.

### Suggested Full-time Sequence

<i>FALL</i>	<i>SPRING</i>

# DATA SYSTEMS AND DEVELOPMENT

Program Code: T.CPL.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60–63 semester hours

The Data Systems and Development program equips students for a wide range of opportunities as computer programmers and software designers. Areas include mobile application development, systems and database programming, and web development. Students begin their training with foundational language courses and then may choose from a wide variety of advanced, industry-specific courses to customize their degree. Students may also choose to select from a number of smaller degree certificates embedded within the software development program. This program transfers to EIU, UIS, and SIU under the 2+2 agreement. Students who are interested in transferring to EIU should speak with the department chair as EIU has a different set of required courses.

### Program Notes

- Students intending to transfer to EIU's Computer Information Technology Program should take the following required classes marked with an asterisk:
  - Program courses and electives: CSC 115, CSC 123, CSC 125, CSC 133, CSC 179, ELT 155
  - General education electives: ECO 101 (Soc/Beh Sci elective, MAT 141 (Math elective), PHY 121 (Phys Sci elective).
- Students intending to transfer to UIS are recommended to take MAT 200 for the math elective.
- General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on p. 67.

### Suggested Full-time Sequence

## DIGITAL MEDIA

Program Code: T.DGM.AAS

### Associate in Applied Science (A.A.S.)

Graduation requirement — 64 semester hours

The Digital Media program equips students with the skills necessary for the design of computer-generated applications and media. Areas include 3D animation and game design. The digital media program prepares students for employment in such areas as gaming, feature film, web design, video and commercial production, post-production, visual effects, and architectural design.

Students begin their training in classes in 2D and 3D fundamentals, imaging, and design. Students then study the aesthetic and design aspects of digital media with focused courses in graphic design, fine arts, and advanced imaging.

This program transfers to the Bachelor's of Science in Media Arts in the School of Informatics and Computing at Indiana University-Purdue University Indianapolis (IUPUI).

## DIGITAL MEDIA CERTIFICATES

### 3D COMPUTER ANIMATION SOFTWARE

Program Code: T.VGW.CER

#### Certificate

Graduation requirement — 12 semester hours

This certificate program equips students with technical skills and proficiency in high-end 3D computer animation software used in feature films, video, and commercial production, CAD/CAM, 3D gaming, and architectural design.

#### Required Program Courses (12 hours) Cr. Hrs.

CSC 187	3D Computer Animation I	4
CSC 188	3D Computer Animation II	4
CSC 189	3D Computer Animation III	4

Total Semester Credit Hours

12

### 3D SOFTWARE DEVELOPMENT

Program Code: T.CGR.CER

#### Certificate

Graduation requirement — 12 semester hours

This certificate program equips students with software development and programming skills to work in three-dimensional graphics software and application environments in the field of computer graphics. This is an advanced-level certificate containing courses with extensive prerequisites.

#### Required Program Courses (12 hours) Cr. Hrs.

CSC 212	Mobile Application Development	4
CSC 231	Computer Graphics I	4
CSC 233	Computer Animation IV	4

Total Semester Credit Hours

12

# NETWORK ADMINISTRATION AND SUPPORT

Program code: T.CNA.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 65-67 semester hours

The Computer Network System Administrator program prepares students to manage and administer the computer networks of small to medium-sized enterprises. Students will learn to use a variety of operating systems: use, install, and maintain networks; program routers and switches; develop networking software and develop and study documentation used to manage a network. Students will receive extensive hands-on experience.

### Program Notes\*

- Students planning to transfer to a 4-year institution should take COM 103; those planning to enter the workforce upon graduation should take COM 120.
- Successful completion of CSC 117 earns the student a Google-issued industry-recognized credential as an IT support professional

### Suggested Full-time Sequence

FALL	SPRING
1st Semester	2nd Semester

# HOSPITALITY INDUSTRY: CULINARY ARTS MANAGEMENT

Program Code: B.HCM.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 68 semester hours

The Culinary Arts Management Program prepares students for management and supervisory positions with commercial kitchens. Course work provides an emphasis in fundamental culinary arts skills and knowledge, quantity food production, cost control and staff supervision.

### Program Note\*

General Education electives are chosen from two of the following categories: communications, social/behavioral sciences, humanities/fine arts, mathematics, physical/life sciences. For more information, see General Education requirements on page 67.

# Health Professions

L-wing 217/351-2224 • H-wing • 217/353-2760 • [parkland.edu/hp](http://parkland.edu/hp)

*Carolyn Ragsdale, dean*

*Rachel Delaney, administrative assistant*

*Molly Rittenhouse, administrative assistant*

*Diane Cousert, assistant dean, nursing and health professions operations*

*Kim Pankau, department chair*

Parkland's Health Professions career programs are designed to give students leading-edge skills in caring for the well being of others, through hands-on training in up-to-date labs, classrooms, area clinics, and local hospitals. Health Professions instructors are professionals in their fields and are required to keep current in their knowledge. All the degree programs and many of the certificate programs are fully accredited and prepare students for transfer, licensing exams, or whatever they need to move ahead in their chosen healthcare fields.

## Selective Admissions Information

Selective admissions information for Dental Hygiene, Practical Nursing, Massage Therapy, Medical Assisting, Nursing, Occupational Therapy Assistant, Radiologic Technologist, Respiratory Care, Surgical Technology, and Veterinary Technology programs:

1. Admission into most Parkland College Health Professions programs is selective, which means that admissions are competitive and programs may have their own admissions criteria and minimum scores for admission. You must be accepted into the program prior to taking any courses in the major. Students are conditionally admitted to all selective admissions programs until all the program requirements are fulfilled by the established deadlines.
2. To determine if your program of interest has selective admission, or if additional admission criteria are used, please see the program page or visit the website for that program. A selective admission "score" is required for most programs.
3. A specialized orientation, called "Get the Facts," is online and is required for all applicants. At the end of the presentation students are directed to take a brief survey. The information in this orientation is extremely important for understanding the selective admission process and how scores are determined.
4. It is strongly recommended that you work closely with an advisor, counselor, or the Health Professions assistant dean, department chair, or program director when seeking entrance to a Health Professions program.
5. Students who wish to apply transfer credit towards a Health Professions degree or certificate should verify acceptable credits before applying to the program by sending official transcripts to Parkland College Admissions and Records and requesting a transcript evaluation. Only undergraduate credit from regionally accredited institutions is accepted for scoring.
6. Application deadlines for selective admissions programs are March 1 for fall admission and October 1 for spring admission, where applicable.
7. Admission to Parkland College does not guarantee a student's admission into any selective admissions program. Students who have not yet been accepted to the program of their choice will have a program code that begins with the letters A.G.S. (Associate in General Studies) followed by the letters of their selected program (for example DHG, MSG, NUR, OTA, XRA, RTT, SUR, VTT). Once the

student is admitted to the selective admissions program, the program code changes to AAS (Associate in Applied Science) followed by the letters of the major. The same coding process is used for certificate (CER) students.

8. Students seeking admission into a Health Professions program should be aware of the following policies and procedures:
  - a. All biology courses required in Health Professions programs must be taken within the past five years of application to the program. If you have taken Anatomy and Physiology or microbiology at another college, you should contact the Parkland College Natural Sciences Department for questions regarding transferability.
  - b. Biology 121 requires high school or college chemistry, or passing score on the chemistry competency test within the past three years prior to taking BIO 121.
  - c. Mathematics skills are important to each Health Professions program. Math assessment is good for two years. Check the math requirement for each program carefully. Math assessment is not required if you have transferable college-level math taken within five years.
  - d. Students for whom English is a second language will be required to take TOEFL or IELTS and achieve the minimum or greater scores in reading, listening, speaking, and writing, established by each program prior to admission to any Health Professions program. Spoken and written language skills are critical to student success in clinical courses. Accurate communication between the students and patients, families, care providers, physicians, all facility employees, and faculty is essential to patient safety. See the Health Professions website for more information.
9. Prospective and admitted Health Professions students will need to meet the following clinical eligibility requirements depending on the specific program (refer to program website):
  - a. Upon admission, students may be required to pass a background check, drug screen, physical, and TB test and present evidence of immunization and Basic Life Support (BLS) certification.
  - b. American Heart Association BLS (Basic Life Support) Healthcare Provider or Red Cross Professional Rescuer cards are the only acceptable BLS cards for the Health Professions programs. No other BLS cards or BLS classes are accepted. KIN 183 does not meet this requirement.
  - c. Most Health Professions programs require a State Police background check and drug testing for entrance to clinical sites. The Healthcare Worker Background Check Act list of disqualifying conditions is used to determine eligibility for NAS 111 students. The Illinois Department of Public Health list of disqualifying conditions will be used to determine eligibility for all other programs. A positive finding may limit entry to the program, clinical placement, advancement in a program, license to practice, and/or employment. Contact the Illinois Department of Financial and Professional Regulation at 217/785-0800.
  - d. Students are required to have and maintain a current Healthcare Record, TB and immunizations, and all programs

(except Veterinary Technology) must maintain a current BLS card, as specified above, while enrolled in a Health Professions program. Dates must be good through the semester in which the student is enrolled. Failure to maintain these important clinical and contractual credentials could result in dismissal from the course and/or the program.

- e. Students are responsible for the cost of screening required by clinical agencies, including but not limited to background checks, drug screening, physical, and immunizations or proof of immunizations. These costs are not all included in course fees.

## Program Requirements

1. Program procedures vary. For additional information on each requirement, refer to the specific program handbook.
  - a. Grades greater than or equal to a C and a Program Grade Point Average (PGPA) of 2.0 are required for all Health Professions program courses. Some programs require a PGPA higher than 2.0.
  - b. Program grading scales are often higher than the traditional college scale.
  - c. Each program has requirements for Satisfactory Academic Progress, including but not limited to the following: passing clinical; requirements for grade point average; number of allowable course withdrawals or repetitions; criteria for program dismissal; attendance, including limits regarding attendance; readmission to the program; professional behavior; and criteria for academic probation.
  - d. Students who receive a clinical course failure may not withdraw from the course without the permission of the faculty. Students who have been dismissed from a clinical site may receive a clinical failure and may or may not be placed in another clinical facility.
  - e. Graduation requirements are specific for each program.
  - f. Some programs have time limits, requiring program completion within a specified number of semesters or years.
  - g. Credit/No Credit options are not available for any program courses.
  - h. Students admitted to a Health Professions program or returning to a program after an absence must follow the catalog specified by the program handbook.
  - i. Students should be aware that repeating a course will require paying a course repeat fee in addition to required tuition and fees.
  - j. Selective admission students follow the catalog that is in effect when they take their first program course,
2. A student may be dismissed from a Health Professions program on any of the following grounds: behavior in the classroom, laboratory, or clinical that jeopardizes the safety of others; unethical or illegal behavior; incompetence; and impaired practice. Information on procedures related to program dismissal is provided in the student program handbook.

# DENTAL HYGIENE

Health Career Admissions  
Program Code: G.DHG.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 78.5 semester hours

The Dental Hygiene Program prepares students to become part of the dental health team. The dental hygienist is responsible for providing such services as scaling and polishing teeth, taking radiographs, applying fluoride and surface sealants to the teeth, and local anesthesia and conscious sedation. The dental hygienist is the primary oral health educator in clinical and nonclinical settings. The program is accredited by the Commission on Dental Accreditation, American Dental Association. For state licensure, Graduates must successfully complete a National Dental Hygiene Board Examination and a Regional (clinical) Board Examination.

### Program Notes\*

- This is a selective admissions program — students must be admitted into the program before taking DHG courses. See the selective admissions page for more information regarding admission, progression, and graduation.
- To be admitted to the program, students must place into MAT 108 within the past two years, and must place into ENG 101 and college level reading.
- A selective admission score of 2.75 or above must be attained to be considered for admission. A rubric will be applied and additional points will be given for number of required General Education and Science courses completed.
- TOEFL iBT requirements in reading, listening, speaking, and writing are as follows: 21-21-26-23.
- IELTS requirements in reading, listening, speaking, and writing are as follows: 6.5; 6.5; 7.5-8; 6.
- ALS 196 is an optional course for Board review.

Graduation requirements are as follows:

- Students are required to keep a grade of C (75%) or higher in all program courses.
- Students who have been dismissed from a clinical site may receive a clinical failure.
- Clinical and lab courses have specific proficiencies and patient completion requirements that must be met each semester to continue and graduate from the program.
- Students must adhere to all ethical and professional behavioral policies of the American Dental Hygienists' Association Code of Ethics in order to progress and graduate.

# EMERGENCY MEDICAL SERVICES: EMERGENCY MEDICAL TECHNICIAN (EMT)

Health Career Admissions  
Program Code: G.EMA. CER

## Certificate

Graduation requirement — 5 semester hours

The Emergency Medical Technician (EMT) course prepares the student to provide pre-hospital assessment and care for patients of all ages with a variety of medical conditions and traumatic injuries. Areas of study include an introduction to emergency medical services systems, roles and responsibilities of an EMT, anatomy and physiology, medical emergencies, trauma, special considerations for working in the pre-hospital setting, and providing patient transport.

The EMT course meets the National Standard Curriculum provided by the National Department of Transportation, and/or the 2009 National Emergency Medical Services Education Standards provided by the National Association of State EMS Officials. This course prepares the student to take the State of Illinois EMT license examination or the National Registry of Emergency Medical Technician examination.

## Program Notes

- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 18-22-22-17; *or*
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6-6.5-6.5-5.
- Students are required to keep a current CPR card throughout the course.
- Students must be 18 years of age and pass EMS 110 with an 80% or higher final grade to qualify to take the EMT licensing examination.
- Students in this program whose reading placement level is CCS 098 are eligible to take ALS 199 Support for Workforce Training in place of CCS 098. For more information, contact the Center for Academic Success at 217/353-2005.

# EMERGENCY MEDICAL SERVICES: PARAMEDIC

Health Career Admissions  
Program Code: G.EMT.CER

## Certificate

Graduation requirement — 29 semester hours

The EMS-Paramedic Certificate Program prepares students to practice as an advanced EMS provider with opportunities for increased responsibility. The students will achieve competencies in the cognitive, psycho-motor, and affective domains from didactic instruction, classroom lab skills, and actual clinical application with patient contacts under the supervision of a trained pre-hospital and hospital preceptor. Students will learn to administer medication, start intravenous lines, interpret EKG rhythm strips, and deliver the appropriate interventions, as well as to administer many other advanced life support procedures.

The EMS-Paramedic Program meets the National Standard Curriculum provided by the 2009 National Emergency Medical Services Education Standards provided by the National Association of State EMS Officials. Graduates are eligible to take the Illinois EMT-Paramedic license examination and/or the National registry for Emergency Medical technicians Paramedic examination.

## Program Notes

- To be admitted to the program, students must place into MAT 060 within the past two years, and place into ENG 099 and college level reading.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 18-22-22-17; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6-6.5-6.5-5.
- Students must pass EMS 110 and/or be licensed as an EMT in the state of Illinois.
- Students must have documentation of patient care experience in the role of EMT by submission of one of the following:
  - A letter from an EMS pre-hospital agency or the U.S. military of 300 hours of patient care contacts.
  - A letter from an EMS pre-hospital agency or the U.S. military of six months of full-time employment in the role of EMT.
  - Completion of EMS 138, EMT Work Practicum.

# EMERGENCY MEDICAL SERVICES: PARAMEDIC

Health Career Admissions  
Program Code: G.EMT.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

The EMS-Paramedic A.A.S. Program prepares students to practice as an advanced EMS provider with opportunities for increased responsibility. Students will achieve competencies in the cognitive, psycho-motor, and affective domains from didactic instruction, classroom lab skills, and actual clinical application with patient contacts under the supervision of a trained pre-hospital and hospital preceptor. Students will learn to administer medication, start intravenous lines, interpret EKG rhythm strips, and deliver the appropriate interventions, as well as to administer many other advanced life support procedures.

The EMS-Paramedic Program meets the National Standard Curriculum provided by the 2009 National Emergency Medical Services Educational Standards provided by the National Association of State EMS Officials. Graduates are eligible to take the Illinois EMT-Paramedic license examination and/or the National Registry for Emergency Medical Technicians Paramedic examination.

### Program Notes

- To be admitted to the program, students must place into MAT 072 within the past two years, and place into ENG 101 and college level reading.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 18-22-22-17; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6-6.5-6.5-5.
- Students must pass EMS 110 and/or be licensed as an EMT in the state of Illinois.
- Students must have documentation of patient care experience in the role of an EMT by submission of one of the following:
  - A letter from an EMS pre-hospital agency or the U.S. military of 300 hours of patient care contacts.
  - A letter from an EMS pre-hospital agency or the U.S. military of six months of full-time employment in the role of an EMT.
  - Completion of EMS 138, EMT Work Practicum.
- Students must complete the overall program with an 80% to qualify to take the National or State licensure exam. In order to successfully complete and graduate from the Parkland College Paramedic Program, the student must fulfill the following:
  - All classroom and clinical requirements.
  - Achieve an 80% average on all quizzes, homework, and exams.
  - Have satisfactory attendance (no more than 10 percent of the total scheduled hours missed for any reason).
  - Satisfactory evaluation on clinical experiences.
  - Satisfactory rating on all practical examinations.
  - Satisfactory completion of field internship.
  - Maintain compliance with all the policies outlined for the Paramedic Program.
  - Advanced Placement Policy: Students are required to successfully complete all of the requirements and courses in the Paramedic Program to be eligible for graduation and to sit for the National Registry of EMT certification exam and/or the Illinois state paramedic exam. Advanced placement based on experiential learning will not be considered. Students transferring from other institutions accredited paramedic programs (CAAHEP) may be eligible for acceptance into various stages of the program. This is determined after transcripts, course syllabi, outlines, and skills have been evaluated by the appropriate staff and faculty of the Parkland College/Carle Regional EMS Consortium.
  - The program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP). CAAHEP, 25400 US Hwy 19N, Suite 158, Clearwater FL 33763, [www.caahep.org](http://www.caahep.org); CoAEMSP, 8301 Lakeview Pkwy, Suite 111-312, Rowlett TX 75088, 214/703-8445, FAX 214/703-8992, [www.coaemsp.org](http://www.coaemsp.org).

# FIRE SERVICE TECHNOLOGY

Program Code: G.FST.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

The program is designed to provide the student with the training and education required of a fire service professional.

### Program Notes

- Students intending to transfer to SIU, WIU, or another university should consult with their program advisor. Typically, substitutions are as follows: COM 103 for COM 120, MAT 108 for MAT 131, PHY 121 for PHY 112.
- To be admitted to the program, students must place into MAT 072 within the past 2-½ years or have completed MAT 060 with a grade of C or higher in the past 2-½ years. Students must also place into ENG 101 and college level reading at the time of application.
- For progression and graduation, all students must adhere to the following:
  - Earn a grade of C (2.0) or higher in all program courses.
  - Adhere to all ethical and professional behaviors as stated within the International Association of Fire Chiefs Firefighter Code of Ethics.

### Suggested Full-time Sequence

FALL	SPRING	FALL	SPRING
1st Semester	2nd Semester	3rd Semester	4th Semester
FST 114	FST 112	FST 152	FST 110

# LIFE SAVING SKILLS CERTIFICATES

## ADVANCED CARDIAC LIFE SUPPORT (ACLS)

Program Code: G.ACL.CER

### Certificate

Graduation requirement — 1 semester hour

The Advanced Cardiac Life Support Certificate provides advanced training for the student who plans to work in the critical care area of cardiac life support and has completed the first year of a Health Professions program, has satisfied, or will have satisfied all other educational requirements for licensure prior to applying for this certificate.

### Program Note

Meet with the course faculty to determine specific eligibility.

### Required Program Course (1 hour) Cr. Hrs.

LSS 211 Advanced Cardiac Life Support (ACLS).....1

Total Semester Credit Hours 1

## APPLIED ELECTROCARDIOGRAPHY

Program Code: G.AKG.CER

### Certificate

Graduation requirement — 1 semester hour

The Applied Electrocardiography Certificate provides training for the student who plans to work in an office that provides care to patients with cardiac diagnoses. Students must be enrolled in or have completed Medical Assisting certificate program, or have the permission of the faculty.

### Program Note

Meet with the course faculty to determine specific eligibility.

### Required Program Course (1 hour) Cr. Hrs.

HCS 173 Applied Electrocardiography .....1

Total Semester Credit Hours 1

## DYSRHYTHMIA (EKG) CERTIFICATION

Program Code: G.EKG.CER

### Certificate

Graduation requirement — 3 semester hours

The Dysrhythmia (EKG) Certification Certificate provides advanced cardiac strip interpretation training for the student who plans to work in a cardiac or critical care area and will be responsible for cardiac strip interpretation and documentation. The student must have completed the first year of a Health Professions program, and has satisfied, or will have satisfied all other educational requirements for licensure prior to applying for this certificate.

### Program Note

Meet with the course faculty to determine specific eligibility.

### Required Program Course (3 hours) Cr. Hrs.

LSS 210 Dysrhythmia (EKG) Certification.....3

Total Semester Credit Hours 3

# MASSAGE THERAPY

Health Career Admissions  
Program Code: G.MSG.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 60 semester hours

The Massage Therapy A.A.S. Program trains students in basic therapeutic massage techniques to educate them about the human body and the physiological effects of massage on the body, to prepare them for their role in the health care community, and to promote professionalism, caring, high ethical conduct, and continuing education. This program is designed for part-time or full-time students to attend during the day or evenings and weekends.

### Program Notes

- This is a selective admissions program—students must be admitted into the program before taking MSG courses. See the selective admissions page for more information regarding admission, progression, and graduation.
- Placement into ENG 101 and college level reading is required for admission to the program. Students should see an academic advisor for guidance through the application process.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 15-15-18-15; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6-6-6-5.
- BIO 111 online or hybrid courses are not accepted.
- A scoring rubric will be applied for all applicants, and the most qualified students will be admitted. Selection criteria include a minimum 2.0 grade point average, certificate/degree completion, biology completion, biology grade, and/or military experience.

Graduation requirements include the following:

- The ability to give an effective full body Swedish Massage in 60 minutes.
- Completion of 30 hours of massage clinicals.
- Meet all ethical and behavioral requirements of the Professional/AMTA Code of Ethics and the program.

# MEDICAL ASSISTING

Health Career Admissions  
Program Code: G.MAS.CER

## Certificate

Graduation requirement — 25 semester hours

The Medical Assisting Program prepares students to act as a liaison between the physician and the patient. Medical assistants are skilled healthcare workers who demonstrate their knowledge in both clinical and administrative areas. In the administrative area, typical tasks include medical records management, and patient scheduling. Clinical tasks include taking vital signs, EKGs, venipuncture, administering medications and immunizations, sterile instrumentation, and point of care testing. Medical assistants primarily work in outpatient settings but may work in hospitals, medical billing companies, or any place office skills and medical knowledge merge. The Medical Assisting Program is approved by the American Registry of Medical Assistants, [www.arma-cert.org](http://www.arma-cert.org) and the National Healthcareer Association, [www.nhanow.com](http://www.nhanow.com). Upon completion, students will be eligible to sit for the National Healthcareer Association (NHA) certification exam.

## Program Notes

- This is a selective admissions program. Students are admitted in the fall semester only. See the selective admissions information page for information regarding admission, progression, and graduation.
- To be admitted to the program, students must place into MAT 072 within the past two years, and must place into ENG 101 and CCS 099.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 18-18-22-20; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6-6-6.5-5.
- A scoring rubric for admission into the program will be used that awards points for completion with a C or higher of each of the following courses: HCS 151, HCS 154, HCS 173, HCS 174, MAS 155, COM 103 or COM 120. Students should contact the program director for more information.
- Students must complete the program in four sequential semesters. A student who has been out of the program more than two years after completing MAS 135/137 will need to meet with the program director, reapply for selective admissions, and reassess competency in all MAS courses through cognitive and/or psychomotor evaluations.
- To remain in the program and graduate, students must complete all required program courses with a C or higher in each course and maintain a 2.5 PGPA and follow all program ethical criteria as outlined in the student handbook, as well as all standards of conduct established by Parkland College and the clinical practice agency.

# ACCELERATED MEDICAL ASSISTING: (CNA TO CMA BRIDGE)

Health Career Admissions  
Program Code: G.AMA.CER

## Certificate

Graduation requirement — 12 semester hours

The Accelerated Medical Assisting Certificate provides an opportunity for qualified certified nursing assistants to enter the medical assisting field. The program is an accelerated curriculum that will prepare graduating students to function in the role of a Medical Assistant who will veave act as a liaison between the physician and the patient. Medical assistants are skilled healthcare workers who demonstrate their knowledge in both clinical and administrative areas. In the administrative area, typical tasks include medical records management and patient scheduling. Clinical tasks include taking vital signs, EKGs, venipuncture, administering medications and immunizations, sterile instrumentation, and point of care testing. Medical assistants primarily work in outpatient settings but may work in hospitals, medical billing companies, or any place office skills and medical knowledge merge. The Medical Assisting Program is approved by the American Registry of Medical Assistants, [www.arma-cert.org](http://www.arma-cert.org) and the National Healthcareer Association, [www.nhanow.com](http://www.nhanow.com). Upon completion, students will be eligible to sit for the National Healthcareer Association (NHA) certification exam.

## Program Notes

- Applicants must be currently employed as a certified nurse assistant and in good standing with the Illinois Department of Public Health (IDPH).
- To be admitted to the program, students must place into MAT 072 within the past two years, and must place into ENG 101 and CCS 099, and/or approval of program director.
- Applicants must be recommended by the employer and show evidence of having worked at least 300 hours as a CNA with a letter of verification from an employer.
- Students will obtain externship assignment through their employer. Employer must be able to provide all applicable administrative and clinical medical assistant skills and competencies within the scope and practice of a CMA.
- Students must complete the program in two sequential semesters. A student who has been out of the program more than 2 years after completing MAS 135/137 will need to meet with the program director, reapply for selective admissions, and reassess competency in all MAS courses through cognitive and/or psychomotor evaluations.
- To remain in the program and graduate, students must complete all required program courses with a C or higher in each course and maintain a 2.50 GPA and follow all program ethical criteria as outlined in the student handbook, as well as all standards of conduct established by Parkland College and the clinical practice agency.

## MEDICAL ASSISTING: CAREER ADVANCEMENT

Health Career Admissions  
Program Code: G.CMA.CER

### Certificate

Graduation requirement — 4 semester hours

The Medical Assisting Career Advancement Certificate program prepares students who are currently working in the medical assisting field. The courses are selected to meet specific employer needs in preparing experienced medical office assistants for national certification. A completion of 4–6 HCS credits are required to achieve the certificate. The Medical Assisting program is approved by the American Registry of Medical Assistants, [www.arma-cert.org](http://www.arma-cert.org) and the National Healthcareer Association, [www.nhanow.com](http://www.nhanow.com). Upon completion, students will be eligible to sit for the National Healthcareer Association (NHA) certification exam.

### Program Notes

- Students must be currently employed as medical office assistants.
- Students must be recommended by their employer.
- Students must maintain the following for progression and graduation: a 2.5 PGPA and a grade of C or higher in all program courses.
- The sequence of courses will be determined based on request from the employer and semester section offerings.

## MEDICAL LABORATORY TECHNOLOGY

Program Code: G.MLT.AAS  
Graduation requirement — 71 semester hours

The Medical Laboratory Technology Program is a sequence of courses and clinical practicum experiences that prepares students for technician positions in medical laboratories and related businesses and industries. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. Working in cooperation with Kankakee Community College, students may complete the general education course work at Parkland College. Graduates of this program are eligible to take the national registry examination given by the American Society of Clinical Pathologists (ASCP) and other certifying agencies.

Medical Laboratory Technology graduates are prepared to enter medical technology/medical laboratory science bachelor's degree programs at selected state universities with junior status.

The program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 5600 N. River Road, Suite 720, Rosemont, IL 60018, 773/714-8880.

Students must apply to and be accepted into the Medical Laboratory Technology program at Kankakee Community College. The MEDT courses from Kankakee will be offered in an online hybrid format with the exception of lab work. Students meet every two weeks.

For more information, call Parkland College, 217/353-2760, or Kankakee Community College, 815/802-8500, or email [advising@kcc.edu](mailto:advising@kcc.edu).

### Program Notes

- Students must maintain a C or higher in all courses.
- Students must have a physical exam, criminal background check without any disqualifying convictions, and a negative drug screen to enter this program.
- Please contact Glenda Forneris at 815/802-8835 or [gforneris@kcc.edu](mailto:gforneris@kcc.edu).

# NURSE ASSISTANT

Program Code: G.NAS CER

## Certificate

Graduation requirement — 6 semester hours

The Basic Nursing Assistant Training Program prepares students to care for patients under the direct supervision of a licensed nurse in a long-term care facility, a hospital, assisted living facility, or in the home. The program is approved by the Illinois Department of Public Health, [www.idph.state.il.us/nar/home.htm](http://www.idph.state.il.us/nar/home.htm). After successful completion of the program, students are eligible to sit for the Illinois Nurse Assistant Certification exam.

## Program Notes

To register for NAS 111, students must:

- Place into MAT 060 within the past two years, and must place into ENG 099 and CCS 099.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 20-20-26-20; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6.5-6.5-8-5.5.
- Complete a Livescan fingerprint background check. Please refer to the application checklist on our website at [parkland.edu/cna](http://parkland.edu/cna) for more information. For a list of disqualifying convictions and waiver information refer to [www.idph.state.il.us/nar/home.htm](http://www.idph.state.il.us/nar/home.htm)

Before attending clinical and to remain in the program students must:

- Meet attendance requirements
- Meet all ethical and professional standards of the program, Parkland College, and the clinical agency
- Earn a 75% C or higher in lecture
- Pass the final exam for lecture portion with a 75% C or higher
- Successfully complete all required lab skills
- Submit the proper documentation, which includes a current physical exam, current 2-step TB skin test or equivalent, proof of immunizations and Healthcare Provider CPR certification. More detailed information is available on the Nurse Assistant website [www.parkland.edu/cna](http://www.parkland.edu/cna).
- Have a valid social security number to attend clinical and sit for the state exam.
- Students in this program whose reading placement level is CCS 098 are eligible to take ALS 199 Support for Workforce Training in place of CCS 098. For more information, contact the Center for Academic Success at 217/353-2005.

## Required Program Course (6 hours) Cr. Hrs.

NAS 111 Basic Nursing Assistant Training Program . . . . 6

Total Semester Credit Hours 6

# NURSING

Health Career Admissions  
Program Code: G.NUR.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 68 semester hours

The Associate Degree Nursing Program prepares the student to practice nursing at a beginning level, such as a staff nurse position in health care facilities including hospitals, extended care facilities, clinics, and community agencies. The program integrates practice and theory and is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, 404/975-5000.

Graduates are eligible to take the R.N. license examination (NCLEX-RN). Students considering application to the Nursing program need to be aware of background check, drug screen, and potential legal limitations.

### Program Notes

- This is a selective admissions program—students must be admitted into the program before taking NUR courses. See the selective admissions page for more information regarding admission, progression, and graduation.

Requisite conditions to be met prior to scoring for admission:

- Attain college reading, writing, and mathematics placement:
  - Placement into MAT 108 Introduction to Applied Statistics within the past 2-½ years or completion of college level math within the past five years. Note: developmental math expires in two years.
  - Placement into ENG 101 Composition I and college level reading.
- For students who are non-native speakers of English, establish English proficiency prior to applying through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 20-22-26-20; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6.5-6.5-8-5.5.
- Complete the Kaplan Online Admissions Exam.

Minimum admission score:

- Achieve a selective admissions score of 2.75 or above.

Requirements for remaining in the program and graduation:

- Complete program requirements for graduation within a maximum of 6 semesters.
- Maintain a 2.5 minimum program GPA.
- Maintain a 2.5 minimum GPA in NUR courses.
- Attain at least a grade of C or higher in each program course including general education courses.
- Pass all clinical and lab requirements as specified in the course syllabus and core competencies.
- Complete the required standardized testing requirements as stated in each course syllabus.
- Demonstrate Level 4 behaviors and competencies as defined in the National League for Nursing (NLN) Core Clinical Competencies document in the Program Handbook.
- Adhere to the Parkland Code of Ethics; the Essential Qualifications for Nursing; and the American Nurses Association (ANA) Code of Ethics.

### Suggested Full-time Sequence

1st Semester	2nd Semester	3rd Semester	4th Semester
NUR 113	NUR 151	NUR 236	NUR 257
NUR 117	NUR 118	NUR 238	NUR 258
NUR 114	†BIO 122	NUR 255	NUR 215
†BIO 121	†PSY 101	†BIO 123	†ENG 102
†ENG 101		†PSY 209	†SOC 101
			†Hum/FA elec

### Suggested Part-time Sequence

Students wishing to pursue course work on a part-time basis should complete the courses marked with † before admission to the nursing program. See Program Notes for further explanation of requirements once admitted. Gen Ed and other non-NUR required courses can be taken prior to the semester recommended, but courses cannot be postponed past the semester scheduled in the full-time sequence.

Once the student is admitted to the nursing program, all courses in the first semester must be completed in order to progress to the second semester. The same is required for each subsequent semester.

### Required Program Courses (49 hours) Cr. Hrs.

BIO 121	Anatomy and Physiology I	4
BIO 122	Anatomy and Physiology II	4
BIO 123	Microbiology	4
NUR 113	Nursing Health Assessment	3

# NURSING: LPN ADVANCED PLACEMENT (LPN TO ADN BRIDGE)

Health Career Admissions

Program Code: G.NUR.AAS.BRDG.LPN

## Associate in Applied Science (A.A.S.)

Graduation requirement — 68 semester hours

The Associate Degree Nursing Program prepares the student to practice nursing at a beginning level, such as a staff nurse position in health care facilities including hospitals, extended care facilities, clinics, and community agencies. The program integrates practice and theory and is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, 404/975-5000.

Graduates are eligible to take the RN license examination (NCLEX-RN). Students considering application to the Nursing program need to be aware of background check, drug screen, and potential legal limitations.

## LPN Advanced Placement Program

LPN to ADN Bridge Program Completion — 40 hours

The LPN Advanced Placement Program (also known as the LPN to ADN Bridge Program) is a program within the Associate Degree Nursing (ADN) Program. It is designed to allow graduates of a state-approved Licensed Practical Nursing program or students in their last semester of such a LPN program to enter into upper level Nursing (ADN) courses. A valid Illinois LPN license will allow 17 nursing credits to be awarded as proficiency credit. The admitted Bridge student will have already completed BIO 121, ENG 101, and PSY 101 (11 credit hours). To complete the Associate in Applied Science in Nursing degree, the student will complete 40 additional hours in program and general education courses.

## Program Notes

- The program operates when there are sufficient qualified candidates to offer the class.
- This is a selective admissions program. Students must follow all the rules for admission to the ADN program, and be admitted to the ADN program before taking any NUR classes. See the selective admissions page for more information regarding admission, progression, and graduation.

Requisite conditions to be met prior to scoring for admission:

- Attain college reading, writing, and mathematics placement.
  - Placement into MAT 108 Introduction to Applied Statistics within the past 2-½ years; or completion of college level math within the past five years. Note: developmental math expires in two years.
  - Placement into ENG 101 Composition I and college level reading.
- Complete the following coursework: ENG 101 Composition I, PSY 101 Introduction to Psychology, and BIO 121 Anatomy and Physiology I.
- For students who are non-native speakers of English, establish English proficiency prior to applying through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 20-22-26-20; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6.5-6.5-8-5.5.
- Complete the Kaplan Online Admissions Exam.

Minimum admissions score:

- Achieve a selective admissions score of 2.75 or above.

Requirements for remaining in the program and graduation:

- Complete program requirements for graduation within a maximum of 4 semesters. At least one nursing course with a clinical component or lab must be taken each semester to remain in the program.
- Maintain a 2.5 minimum program GPA.
- Maintain a 2.5 minimum GPA in NUR courses.
- Attain at least a grade of C or higher in each program course.
- Pass all clinical and lab requirements as specified in the course syllabus and core competencies.
- Complete the required standardized testing requirements as stated in each course syllabus.
- Maintain:
  - The Parkland Code of Ethics
  - The Essential Qualifications for Nursing
  - The American Nurses Association (ANA) Code of Ethics
- Demonstrate Level 4 behaviors and competencies as defined in the National League for Nursing (NLN) Core Clinical Competencies document in the Program Handbook.

# NURSING: PARAMEDIC ADVANCED PLACEMENT (PARAMEDIC TO ADN BRIDGE)

Health Career Admissions

Program Code: G.NUR.AAS.BRDG.EMT

## Associate in Applied Science (A.A.S.)

Graduation requirement — 68 semester hours

The Associate Degree Nursing Program prepares the student to practice nursing at a beginning level, such as a staff nurse position in health care facilities including hospitals, extended care facilities, clinics, and other community agencies. The program integrates practice and theory and is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, 404/975-5000.

Graduates are eligible to take the RN license examination (NCLEX-RN). Students considering application to the Nursing Program need to be aware of background check, drug screen, and potential legal limitations.

## Paramedic Advanced Placement Program

Paramedic to ADN Bridge Program Completion — 48 hours

The Paramedic Advanced Placement Program (also known as the Paramedic to ADN Bridge Program) is a program within the Associate Degree Nursing (ADN) Program. It is designed to allow graduates of a state-approved EMS-Paramedic program with an unencumbered license to enter into upper level Nursing (ADN) courses. A valid national paramedic license will allow nine nursing credits to be awarded as proficiency credit. The admitted Bridge student will have already completed BIO 121, ENG 101, and PSY 101 (11 credit hours). To complete the Associate in Applied Science in Nursing degree, the student will complete 48 additional hours in program and general education courses.

## Program Notes

- The program operates when there are sufficient qualified candidates to offer the class.
- This is a selective admissions program. Students must follow all the rules for admission to the ADN program, and be admitted to the ADN program before taking any NUR classes. See the selective admissions page for more information regarding admission, progression, and graduation.

# OCCUPATIONAL THERAPY ASSISTANT

Health Career Admissions  
Program Code: G.OTA.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 71.5 semester hours

The Occupational Therapy Assistant Program prepares the student to practice occupational therapy at the assistant level. OT assistants work with clients who have physical, cognitive, and emotional impairments to improve and support functional performance in daily living activities. Employment opportunities are located in hospitals, clinics, extended care facilities, school systems, day-care centers, and home health care. Upon successful completion of the program, the graduate is eligible to take the certification examination given by the National Board for Certification in Occupational Therapy (NBCOT) to become a certified occupational therapy assistant (COTA). A felony conviction may affect a graduate's ability to sit for the NBCOT exam or attain state licensure. Licensure for COTAs is also required for practice by the state of Illinois. This program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association, Inc., 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449, 301/652-AOTA, www.acoteonline.org.

### Program Notes

- This is a selective admissions program — students must be admitted into the program before taking OTA courses. See the selective admissions page for more information regarding admission, progression, and graduation.
- OTA 111 Introduction to Occupational Therapy is open to students who have not been admitted into the OT program on a limited basis. Such students must have passed at least one course (100-level or greater) with grade of B or higher and must seek approval from the program director.
- To be admitted to the program, students must place into MAT 098 (or complete MAT 072 with a grade C or higher) within the past 2.5 years and must place into ENG 101 and college level reading.
- A selective admission score of 2.4 or above must be attained to be considered for admission.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 18-18-20-18; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6-6-6.5-5.5.
- The OTA program uses a rubric with the selective admission score that gives additional admission points for completion of BIO 121.
- For progression and graduation, students are required to maintain a 2.0 minimum GPA, a C or higher in all program courses, and a passing clinical grade in all OTA courses, and maintain Parkland College Code of Conduct and the OT Code of Ethics.

- A history of felony conviction may limit clinical placement and license to practice. Contact the Illinois Department of Financial and Professional Regulation at 217/785-0800.
- All Level II fieldwork requirements for OTA 213 or OTA 217 must be completed by the end of the following semester in order to progress and/or graduate from the program. Fieldwork II alternates may be required to take OTA 213 and OTA 217 in a different sequence.

# PRACTICAL NURSING

Health Career Admissions  
Program Code: G.NUR.CER

## Certificate

Graduation requirement — 49 semester hours

The Practical Nursing Certificate Program prepares students for employment in long-term care facilities, clinics, and hospitals. Graduates are eligible to take the licensing examination for Licensed Practical Nurse (NCLEX-PN). This program is approved by the Illinois Department of Financial and Professional Regulation.

## Program Notes

- This is a selective admissions program — students must be admitted into the program before taking LPN courses. Please see the selective admissions page for more information regarding admission, progression, and graduation.
- To be admitted to the program, students must place into MAT 098 within the past 2.5 years and must place into ENG 101 and college level reading.
- Students who are non-native speakers of English must establish English proficiency prior to applying through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 20-20-26-20; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6.5-6.5-8-5.5.
- For admission to the program students must have a minimum 2.50 GPA. Additional points are given for program GPA, number of program courses taken, biology GPA, and work as a CNA or CMOA. The number of times a student has withdrawn from or failed a course may result in fewer points.
- To remain in the program and graduate, students are required to keep a C or higher in all program courses, maintain a 2.50 minimum program GPA, successfully pass and complete all clinical rotations in all nursing courses, maintain Parkland College Code of Conduct, essential qualifications, and ANA Code of Ethics.

## CNA—Certified Nurse Aide Requirement

Students are required to complete the nurse assistant program, be certified, and be in good standing before they will be considered for admission to the LPN program. Applicants must demonstrate placement on the Nurse Aide Registry within the past two years, or show evidence of working at least part-time during the past two years as a paid nurse aide at a state-approved agency.

Students may be enrolled in a nurse aide training program at the time of application to the nursing program and be “conditionally” accepted. They must pass their state exam on the first attempt at the first scheduled availability and be on the Illinois Health Care Worker Registry to remain in the program.

## Certified Medical Office Assistant (CMOA) Option

Certified medical office assistants may qualify for admission by testing out of specific CNA skills if they are not currently a CNA. Only “certified” medical office assistants will be considered. Please contact the program director for specific information.

## Suggested Full-time Sequence

1st Semester	2nd Semester	3rd Semester
†BIO 121	†BIO 122	LPN 131
LPN 111	†DTP 120	LPN 135
LPN 114	or BIO 120	†PSY 209
LPN 117	LPN 118	
†PSY 101	LPN 130	
	LPN 132	
	†ENG 101	

## Suggested Part-time Sequence

Students wishing to pursue course work on a part-time basis are encouraged to complete the courses marked with † before admission.

General education and other non-LPN required courses can be taken prior to the semester recommended, but courses cannot be postponed past the semester scheduled in the full-time sequence.

Once the student is admitted to the LPN program, all courses in the first semester must be taken and completed in order to progress to the second semester. The same is required for each subsequent semester.

Total Semester Credit Hours 49

# RADIOLOGIC TECHNOLOGY

Health Career Admissions  
Program Code: G.XRA.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 68 semester hours

The Radiologic Technology Program prepares students to take the national examination for the American Registry of Radiologic Technologists (ARRT). The radiographer performs diagnostic procedures using an X-ray machine to take images of the internal parts of the patient's body.

### Program Notes

- This is a selective admissions program — students must be admitted into the program before taking XRA courses. See the selective admissions page for more information regarding admission, progression, and graduation.
- Completion of XRA 150, Introduction to Radiology, is strongly recommended prior to program admission. This is an open enrollment course that may be taken prior to program acceptance.
- To be admitted to the program, students must place into MAT 098 within the past two years and must place into ENG 101 and college level reading.
- A selective admission score of 2.75 or above must be attained to be considered for admission.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 18-18-26-17; OR
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6-6-7-5.5.
- A scoring rubric will be applied for students who have successfully completed BIO 121, BIO 122, and PHY 112 with a B or higher, and will result in a higher score for students who have taken these courses in advance.
- Students are required to keep a current healthcare provider CPR card while enrolled in the program.
- To remain in the program and graduate, students are required to maintain a minimum of 2.0 PGPA (75% or higher) for all XRA didactic and clinical courses and a C or higher in all program courses. Students must successfully pass all clinical and lab requirements as specified in course syllabi and complete the ARRT competency requirements prior to graduation. Students must adhere to all ethical and professional standards and behaviors as outlined in the ARRT Code of Ethics, Parkland College Code of Conduct, and Student Success Manual.

# RADIOLOGIC TECHNOLOGY: COMPUTED TOMOGRAPHY

Health Career Admissions  
Program Code: G.XCT.CER

## Certificate Program

Graduation requirements — 12 semester hours

The Computed Tomography Certificate Program offers advanced training for radiologic technologists. Upon completion of the certificate, graduates will be prepared to take the national ARRT certification exam.

### Program Notes

- This is a selective admissions program — applicants must be ARRT certified in Radiologic Technology. Contact Tammy Cox at tcox@parkland.edu for more information regarding admission, progression, and graduation.
- Clinical sites must be approved before enrolling in XCT 215. Clinical sites must be Joint Commission accredited and the clinical mentor must be an ARRT certified technologist in CT.
- XCT 212 and XCT 214 qualify for both CT and MRI certificates. Students taking those courses for the CT certificate who then pursue the MRI certificate within five years will not need to repeat the courses.
- Students are required to keep a 2.0 minimum GPA and a C or higher in all XCT courses.
- XCT 210, XCT 212, and XCT 214 are 8-week accelerated online courses.

### Suggested Sequence

SUMMER	FALL	SPRING
1st Semester	2nd Semester	3rd Semester
XCT 215	XCT 210	XCT 212 (first 8 weeks) XCT 214 (second 8 weeks)

# RADIOLOGIC TECHNOLOGY: MAGNETIC RESONANCE IMAGING

Health Career Admissions  
Program Code: G.XMR.CER

## Certificate Program

Graduation requirements — 15 semester hours

The Magnetic Resonance Imaging Certificate Program offers advanced training for radiologic technologists. Upon completion of the certificate, graduates will be prepared to take the national ARRT certification exam.

### Program Notes

- This is a selective admissions program — applicants must be ARRT certified in Radiologic Technology. Contact Tammy Cox at tcox@parkland.edu for more information regarding admission, progression, and graduation.
- Clinical sites must be approved before enrolling into XMR 217. Clinical sites must be Joint Commission accredited and the clinical mentor must be an ARRT certified technologist in MRI.
- XCT 212 and XCT 214 qualify for both CT and MRI certificates. Students taking those courses for the MRI certificate who then pursue the CT certificate within five years will not need to repeat the courses.
- Students are required to keep a 2.0 minimum GPA and a C or higher in all XMR and XCT courses.
- XMR 211, XCT 212, and XCT 214 are 8-week accelerated online courses.

### Suggested Sequence

# RESPIRATORY CARE

Health Career Admissions  
Program Code: G.RTT.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 69 semester hours

The Respiratory Care Program prepares students to enter into the practice of respiratory therapy. A Respiratory Care Practitioner (RCP) will assist in the diagnosis and treatment of patients with chronic respiratory disease or acute respiratory compromise due to illness or injury. Most respiratory therapists are employed in acute care hospital settings. Long-term ventilator facilities, home care, and outpatient diagnostic laboratories offer other opportunities. This program is accredited by the Commission on Accreditation for Respiratory Care. Upon successful completion of the program, graduates are eligible to complete the National Board for Respiratory Care exams for the Certified Respiratory Therapist (CRT) and Registered Respiratory Therapist (RRT) credential. Practice requires state licensure in every state except Alaska.

### Program Notes

- This is a selective admissions program—students must be admitted to the program before taking any RTT course except RTT 117. See the selective admissions page for more information regarding admission, progression, and graduation.
- To be admitted to the program, students must place into MAT 098 within the past two years and must place into ENG 101 and college level reading.
- A selective admission score of 2.2 or above must be attained to be considered for admission.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 18-20-26-21; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6-6.5-8-6.
- TOEFL iBT requirements in reading, listening, speaking, and writing are as follows: 18-20-26-21.
- For progression and graduation, students are required to maintain a grade of C (75%) or higher in all program courses, maintain a 2.2 minimum PGPA, and must adhere to the Parkland College Code of Conduct and the AARC Statement of Ethics and Professional Conduct. Students are also required to pass both the classroom and skills lab portions to pass the course.
- Clinical rotations may be denied if seasonal flu vaccine or any other required immunization is refused.
- Nontraditional schedules are required to complete some clinical rotations and professional development assignments. Clinical assignments are made by program faculty based on clinical site availability and the need to balance patient case mix with the CoARC requirements for clinical education. Students may be required to travel up to 100 miles from Parkland campus to complete all required clinical specialty rotations.

# STERILE PROCESSING TECHNICIAN

Health Career Admissions

Program Code: GSPT.CER

## Certificate

Graduation requirement — 7.5 semester hours

The Sterile Processing Technician training program prepares students to clean and sterilize reusable utensils and equipment, organize and package instrument trays and sets, keeping detailed records of equipment maintenance, stock crash carts, organize supplies and maintain an adequate inventory of instruments and disposable items to meet the needs of doctors, nurses, surgeons, and technical staff throughout the hospital. By training in this field, the student will learn infection control techniques to keep hospitals and other medical facilities as well as surgical instruments safe and free from the spread of diseases. Students will learn to operate a variety of equipment, barcode readers, steam autoclaves, chemical and gas sterilizers, computer software for database and supply chain management, follow precise instructions and adhere to rigid standards. The course is approved by the Illinois Community College Board and at the completion of this certificate, students are eligible to sit for the National Certification Exam through the Certification Board for Sterile Processing and Distribution (CSPDT).

## Program Notes

- To be admitted to the program, students must place into ENG 099 and CCS 099.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 22-22-17-16; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6.5-6.5-5.5-5.
- Students will complete a drug and background test. For a list of disqualifying conditions and waiver information go to <http://www.idph.state.il.us/nar/home.htm>.
- Students must maintain a C or higher in lecture, pass the final exam, and successfully complete the required skills before attending clinical.
- Students are required to provide the following before the first day of clinical:
  - current physical documentation
  - current two-step TB skin test or equivalent
  - proof of immunizations
  - Students that successfully complete SUR 116, SUR 210, and SUR 218 satisfy the requirement of SPT 110.
- Students registered for SPT 111 will meet with instructor to set up the schedule and location for the 400 hours of work experience clinical.

# SURGICAL TECHNOLOGY

Health Career Admissions  
Program Code: G.SUR.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 65 semester hours

The Surgical Technology Program prepares students with the technical expertise necessary to perform as vital members of the surgical team. Surgical technologists work in a fast-paced environment requiring physical stamina, critical thinking, technical skills, and professionalism. The A.A.S. is the recommended level of entry credential for the surgical technologist. Theory and clinical experience in area health agencies are included in the program. This surgical technology program is in the continuing accreditation cycle and accredited by the Commission on Accreditation of Allied Health Education programs (CAAHEP), [www.CAAHEP.org](http://www.CAAHEP.org).

### Program Notes

- This is a selective admissions program — students must be admitted into the program before taking SUR courses. See the selective admissions page for more information regarding admission, progression, and graduation.
- To be admitted to the program, students must place into MAT 072 within the past two years, and must place into ENG 101 and college level reading.
- A selective admission score of 2.30 or above must be attained to be considered for admission.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 22-22-17-16; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6.5-6.5-5.5-5.
- A scoring rubric will be used for placement in the program, awarding additional scoring points for students who have successfully completed BIO 121, BIO 122, or BIO 123.
- Advanced Placement option: students that have completed the BIO courses and general education courses required for the surgical technology A.A.S. may be eligible to be admitted as second-year SUR students if space is available. Contact the Surgical Technology program director.
- To remain in the program and graduate students are required to maintain the following:
  - Minimum 2.0 PGPA and a C or higher for all program courses, and pass all clinical and didactic courses with a 75% or higher.
  - Minimum of 120 surgical cases scrubbed with 80 in the first scrub role.
  - Adherence to the Parkland College Code of Conduct, the Surgical Technology Program Code of Ethics, and demonstrate professionalism and behaviors as defined in program handbook and syllabi.
  - To graduate, students must complete the National Board for Surgical Technology and Surgical Assisting (NBSTSA)

national certification exam administered annually on campus.

# VETERINARY TECHNOLOGY

Health Career Admissions

Program Code: G.VTT.AAS

## Associate in Applied Science (A.A.S.)

Graduation requirement — 61 semester hours

Veterinary technicians are dedicated veterinary professionals who aid animals by providing excellent care and services. Certified Veterinary Technicians under the supervision of a veterinarian may do the following: clinical laboratory testing, radiographic procedures, pharmacy duties, anesthesia induction and monitoring, surgical assisting, dental prophylaxis, nursing care and patient treatments, client education, and record keeping. This program is accredited by the Committee on Veterinary Technician Education and Activities (CVTEA) of the American Veterinary Medical Association (AVMA).

### Program Notes

- This is a selective admissions program — students must be admitted into the program before taking VTT courses. See the selective admissions page for more information regarding admission, progression, and graduation.
- To be admitted to the program, students must place into MAT 072 within the past two years, and must place into ENG 101 and college level reading.
- A selective admission score of 2.40 or above must be attained to be considered for admission.
- Students who are non-native speakers of English must establish English proficiency through:
  - Minimum TOEFL iBT scores in reading, listening, speaking, and writing: 15-20-22-22; or
  - Minimum IELTS scores in reading, listening, speaking, and writing: 6-6.5-6.5-6.
- A scoring rubric will be used for placement in the program, awarding additional scoring points for students who have successfully completed BIO 111 and/or BIO 123
- Additional points will be awarded to students with veterinary care work experience and will result in a higher score.
- All students are required to take the rabies pre-exposure vaccination. The approximate cost of the vaccine series is \$900. The cost for required equipment is \$250.
- For progression and graduation, students are required to maintain 2.0 minimum GPA and a C (75%) or higher in all program courses, pass all skills requirements, and meet all the ethical and behavioral requirements of the profession and Parkland College.

# Aviation

*Institute of Aviation, 1 Airport Road, Savoy, IL 61874  
217/244-8687 • parkland.edu/aviation  
Donald Talleur, chief pilot/director*

The Parkland Institute of Aviation provides flight training and teaches aviation safety. It offers the opportunity for students to earn a transferable Associate in Science degree (aviation) while earning Federal Aviation Administration (FAA) civilian pilot certificates. Students not seeking an associate's degree may take aviation classes leading towards FAA private pilot certification, instrument rating, commercial pilot certification, multi-engine rating, and/or flight instructor certification or unmanned aircraft systems certification.

## PROGRAMS

# AVIATION

Program Code: V.AVI.AS

## Associate in Science (A.S.)

Graduation requirement — 61 semester hours

The following curriculum is designed to provide students planning to transfer to a four-year institution to pursue a bachelor's degree with the opportunity to earn certifications necessary to enter the commercial aviation job market. Students will earn certifications in private pilot, private pilot with instrument rating, commercial pilot, and commercial multiengine in a sequential manner during the program. Graduates, upon the completion of a bachelor's degree and FAA flight time requirements, may enter the workforce as commercial cargo or passenger pilots.

Flight training will be offered at the University of Illinois' Willard Airport in Savoy, Illinois.

Students should plan their transfer programs with a Parkland academic advisor or counselor and the catalog of the four-year college or university they plan to attend.

### Program Notes

- Students must place into college level reading and writing (ENG 101 placement), and MAT 072 to register for AVI 101.
- Students who are non-native speakers of English must score a minimum of 85 (with min. 22 listening; min. 26 speaking) on the Internet-based (ibt) Test of English as a Foreign Language to satisfy the minimum English proficiency requirement.
- Students must possess at least a third class medical examination by an FAA approved physician before registering for classes. For assistance in locating an approved physician, consult [faa.gov/pilots/amelocator/](http://faa.gov/pilots/amelocator/)
- All non-U.S. citizens must obtain Transportation Security Administration (TSA) authorization through the TSA Alien Flight Student Program prior to registration for AVI 101.
- Students must purchase their own aviation headset.
- Students must provide their own transportation to Willard Airport.
- Students interested in the Parkland Pathway to Illinois (Aviation) must apply directly to the program. For information and application form, consult [admissions.illinois.edu/parklandpathway/](http://admissions.illinois.edu/parklandpathway/)

- Tuition and fees covered by Parkland College tuition waivers and/or scholarship awards do not include additional course fees (flight instruction fees) charged for aviation (AVI) courses.
- FAA certificate knowledge tests are required for Private Pilot, Instrument Rating, and Commercial Pilot certification; an additional fee is paid at the time of examination.
- General Education Core Curriculum requirements for the Associate in Science (A.S.) degree do not fully satisfy the IAI General Education Core Curriculum (GECC) requirements. Additional courses to complete the GECC may be taken at Parkland or after transferring. Contact Counseling Services for guidance on GECC completion.
- Recommended courses are designed to facilitate completion of the A.S. degree and transfer into a four-year college or university with junior standing. Students are advised to follow the recommendations.
- Completion of the A.S. (Aviation) degree and 30 or more qualifying aviation course credit hours are required for the R-ATP certificate.
- Students entering the A.S. (Aviation) degree program with pilot certificates already complete should meet with the chief pilot/director to determine eligibility for the R-ATP certificate.

# AVIATION: PRIVATE PILOT

Program Code: V.PRP.CER

## Certificate

Graduation requirement — 6 semester hours

The Private Pilot certificate will prepare the student to be certified under FAA rules as a private pilot. The student will become proficient at single-engine aircraft operations, cross-country flying, and can respond appropriately to air traffic control and a wide range of different airport operations. The Private Pilot certificate is the first of several certifications required to earn eligibility as an Airline Transport Pilot (ATP).

A certified private pilot may carry passengers without compensation in a range of general aviation aircraft during the day or night. Private pilots may also fly for business as long as flying is incidental to the business and no passengers or cargo are carried.

The courses in the Private Pilot certificate may be applied toward completion of requirements for the Associate in Science (Aviation) degree.

Flight training will be offered at the University of Illinois' Willard Airport in Savoy, Illinois.

## Program Notes

- Students must place into college level reading and writing (ENG 101 placement) and into MAT 072 to register for AVI 101.
- Students must possess a third class medical examination by an FAA-approved physician before registering for AVI classes. For assistance in locating an approved physician, consult <http://www.faa.gov/pilots/amelocator/>
- Students who are non-native speakers of English must score a minimum of 85 (with min. 22 listening; min.26 speaking) on the Internet-based (ibt) Test of English as a Foreign Language (TOEFL) to satisfy the minimum English proficiency requirement.
- All non-U.S. citizens must obtain Transportation Security Administration (TSA) authorization through the TSA Alien Flight Student Program prior to registration for AVI 101.
- Students must purchase their own aviation headset.
- Students must provide their own transportation to Willard Airport.
- Tuition and fees covered by Parkland College tuition waiver and/or scholarship awards do not include additional course fees (flight instruction fees) charged for aviation (AVI) courses.

<i>Total Semester Credit Hours</i>	<u>6</u>

# AVIATION: INSTRUMENT RATING

Program Code: V.INR.CER

## Certificate

Graduation requirement — 6 semester hours

The Instrument Rating certificate prepares the already certified private pilot student to be certified under FAA rules as a Private Pilot with Instrument Rating. The student will become proficient at flying a single-engine aircraft without reference to outside visual cues. The Instrument Rating certificate is the second of several certifications required to earn eligibility as an Airline Transport Pilot (ATP) as well as to become a flight instructor.

This certificate allows the pilot to fly in conditions of low visibility and clouds that would otherwise keep a private pilot grounded. Instrument rating certification teaches additional pilot skills and options for completing a flight safely if the weather deteriorates while en route.

The courses in the Instrument Rating certificate may be applied toward completion of requirements for the Associate in Science (Aviation) degree.

Flight training will be offered at the University of Illinois' Willard Airport in Savoy, Illinois.

## Program Notes

- To enroll in this certificate, students must have completed AVI 120 or fulfilled requirements for private pilot certification.
- Students must possess a third class medical examination by an FAA-approved physician before registering for AVI classes. For assistance in locating an approved physician, consult <http://www.faa.gov/pilots/amelocator/>
- Students who are non-native speakers of English must score a minimum of 85 (with min. 22 listening; min.26 speaking) on the Internet-based (ibt) Test of English as a Foreign Language (TOEFL) to satisfy the minimum English proficiency requirement.
- All non-U.S. citizens must obtain Transportation Security Administration (TSA) authorization through the TSA Alien Flight Student Program prior to registration for AVI courses.
- Students must purchase their own aviation headset.
- Students must provide their own transportation to Willard Airport.

AVI 140	Commercial Instrument II	.....3
<i>Total Semester Credit Hours</i>		<u>6</u>

# AVIATION: COMMERCIAL PILOT

Program Code: V.CMP.CER

## Certificate

Graduation requirement — 6 semester hours

The Commercial Pilot certificate prepares the certified Private Pilot with Instrument Rating to obtain certification under FAA rules as a commercial pilot. The student will become proficient at operating a complex single-engine aircraft. The Commercial Pilot certificate is a necessary step toward becoming a flight instructor and is the third of several certifications required to earn eligibility as an Airline Transport Pilot (ATP).

The commercial pilot may fly for compensation or hire in a variety of different flying jobs. The pilot can be hired by corporate flying companies for passenger or cargo carrying operations. Other typical commercial pilot jobs include aerial photography, skydiving, sightseeing, aerial advertising, pipeline patrol, and aerial surveying.

The courses in the Commercial Pilot certificate may be applied toward completion of requirements for the Associate in Science (Aviation) degree.

Flight training will be offered at the University of Illinois' Willard Airport in Savoy, Illinois.

## Program Notes

- To enroll in this certificate, students must have completed AVI 140 or fulfilled requirements for Private Pilot with Instrument Rating certification.
- Students must possess a third class medical examination by an FAA-approved physician before registering for AVI classes. For assistance in locating an approved physician, consult <http://www.faa.gov/pilots/amelocator/>
- Students who are non-native speakers of English must score a minimum of 85 (with min. 22 listening; min.26 speaking) on the Internet-based (ibt) Test of English as a Foreign Language (TOEFL) to satisfy the minimum English proficiency requirement.
- All non-U.S. citizens must obtain Transportation Security Administration (TSA) authorization through the TSA Alien Flight Student Program prior to registration for AVI courses.
- Students must purchase their own aviation headset.
- Students must provide their own transportation to Willard Airport.

# AVIATION: UNMANNED AIRCRAFT SYSTEMS CERTIFICATE

Program Code: V.UAS.CER

## Certificate

Graduation requirement — 6 semester hours

The following curriculum is designed to prepare the student to be certified under FAA requirements to be a commercial UAS operator. The student will be knowledgeable of the history and evolution of UAS, FAA regulations, airspace, weather, UAS types and performance, as well as safety and ethical issues. They will also be proficient at UAS operations.

### Program Notes

- AVI 111 and AVI 112 are full-semester courses.
- Normal course progression is AVI 111 followed by AVI 112.
- Registration for AVI 112 is contingent on either concurrent registration in AVI 111, holding a commercial UAS pilot's license, or upon the consent of the program director.
- Both AVI 111 and AVI 112 must be completed in order to receive the Unmanned Aircraft Systems Certificate.
- Students who are non-native speakers of English must score a minimum of 85 (with min. 22 listening; min. 26 speaking) on the Internet-based (ibt) Test of English as a Foreign Language to satisfy the minimum English proficiency requirement. This is a requirement in order to receive federal certification by the FAA as a commercial UAS operator.
- Students who have completed AVI 101 and AVI 120, and hold a private pilot certificate may receive proficiency credit for AVI 111.
- Tuition and fees covered by Parkland College tuition waivers and/or scholarship awards do not include additional course fees (flight instruction fees) charged for aviation (AVI) courses.

### Required Program Courses (6 hours)

AVI 111	Commercial UAS Ground School . . . . .	3
AVI 112	Introduction to Unmanned Aircraft Systems Flight . . . . .	3
<i>Total Semester Credit Hours</i>		<b>6</b>

# AVIATION: ADVANCED UNMANNED AIRCRAFT SYSTEMS CERTIFICATE

Program Code: V.ADV.CER

## Certificate

Graduation requirement — 9 semester hours

The following curriculum is designed to prepare the student to be certified under FAA requirements to be a commercial UAS operator. The student will be knowledgeable of the history and evolution of UAS, FAA regulations, airspace, weather, UAS types and performance, autonomous UAS systems, data acquisition and analysis, as well as safety and ethical issues. They will also be proficient at UAS operations.

### Program Notes

- Students who are non-native speakers of English must score a minimum of 85 (with min. 22 listening; min. 26 speaking) on the Internet-based (ibt) Test of English as a Foreign Language to satisfy the minimum English proficiency requirement. This is a requirement in order to receive federal certification by the FAA as a commercial UAS operator.
- Tuition and fees covered by Parkland College tuition waivers and/or scholarship awards do not include additional course fees (flight instruction fees) charged for aviation (AVI) courses.

### Required Program Courses (9 hours)

AVI 111	Commercial UAS Ground School . . . . .	3
AVI 112	Introduction to Unmanned Aircraft Systems Flight . . . . .	3
AVI 113	Drone Data Collection and Application . . . . .	3
<i>Total Semester Credit Hours</i>		<b>9</b>

# **ADDITIONAL FLIGHT TRAINING**

## **Advanced Courses**

AVI 220	Flight Instructor Certification Course . . . . .	4
AVI 222	Instrument Flight Instructor . . . . .	1
AVI 281	Cockpit Resource Management. . . . .	3

## TUITION AND FEE CHARGES PER SEMESTER HOUR:

Resident of District 505	\$247.50
Out-of-district but resident of Illinois	\$247.50
Out-of-state but resident of the U.S.	\$247.50
International student	\$531.00

<b>AVI 101</b>	<b>3 credit hours</b>
Dual Hours	24.2 at \$209/hour
Solo Hours	2.0 at \$209/hour

Course Numbering System . . . . .	230
Illinois Articulation Initiative (IAI) General Education Core Curriculum and Baccalaureate Majors Codes . . . . .	230
Course Offering Code . . . . .	231
Course Prefix Listing . . . . .	231
Credit Courses . . . . .	232

## Course Numbering System

Courses are identified by a code of three letters and three numbers preceding the course title and course description. The three letters identify the subject or program area (ACC = Accounting). The three numbers generally indicate course level:

1. Courses numbered below 100 are designed for students who need additional preparation. Students may enroll in these courses voluntarily or be placed in these courses upon recommendation of a college counselor or advisor. Credit for these courses applies toward the GPA but does not count toward baccalaureate- or career-oriented programs.
2. Courses numbered 100 through 299 and whose second digit is
  - even are generally designated as baccalaureate-oriented (only these courses may be counted as credit toward an A.A., A.S., A.E.S., or A.F.A. degree);
  - odd are generally designated as career- or occupation-oriented (may not be counted as credit toward an A.A., A.S., A.E.S., or A.F.A. degree).
3. Courses numbered 100 through 199 are primarily first-year courses but are offered to all students meeting course prerequisites.
4. Courses numbered 200 through 299 are generally second-year courses and are open to students who have completed their prerequisites.

SAMPLE COURSE LISTING:

5. Courses numbered 500 through 999 are vocational skills courses or continuing education courses. They are available on a credit or no-credit basis. Except for the noncredit courses (with a CMS prefix), vocational skills credit is awarded for courses numbered 500-999, but such credits do not apply toward any GPA nor toward baccalaureate- or career-oriented programs whose courses are numbered 100-299. Courses numbered 500-999 and certain remedial courses cannot be used to qualify for financial aid. For further clarification, contact the Office of Financial Aid or Counseling Services.

## Illinois Articulation Initiative (IAI) General Education Core Curriculum and Baccalaureate Majors Codes

To assist students in identifying qualifying general education core courses, appropriate course offerings listed on "General Education Courses" on page 68 as General Education Core Courses for Associate in Arts (A.A.), Associate in Science (A.S.), Associate in Engineering Science (A.E.S.), and Associate in Fine Arts (A.F.A.) degrees are designated with a 900 identification number as follows:

IAI C	—	Communications
IAI S	—	Social and Behavioral Sciences
IAI H	—	Humanities
IAI HF	—	Humanities/Fine Arts
IAI F	—	Fine Arts
IAI M	—	Mathematics
IAI P	—	Physical Sciences
IAI L	—	Life Sciences

To assist students in identifying qualifying baccalaureate major courses, course offerings are designated with a 900 identification number as follows:

IAI AG	—	Agriculture
IAI BIO	—	Biological Sciences
IAI BUS	—	Business
IAI CHM	—	Chemistry
IAI CS	—	Computer Science
IAI CRJ	—	Criminal Justice
IAI EGR	—	Engineering
IAI ENG	—	English
IAI HST	—	History
IAI IND	—	Industrial Technology
IAI MC	—	Mass Communication
IAI MTH	—	Mathematics
IAI PLS	—	Political Science
IAI PHY	—	Physics
IAI PSY	—	Psychology
IAI SOC	—	Sociology
IAI TA	—	Theatre Arts

\*IAI General Education Core Curriculum and Baccalaureate Major codes are approved as of print date of this catalog. IAI codes are subject to change.

Refer to the IAI website at [www.itransfer.org](http://www.itransfer.org) for updated information.

## Course Offering Code

To assist student program planning, course offerings are designated as follows:

F	—	Fall semester
S	—	Spring semester
Su	—	Summer session
FE	—	Fall semester in even-numbered years
SE	—	Spring semester in even-numbered years
SuE	—	Summer session in even-numbered years
FO	—	Fall semester in odd-numbered years
SO	—	Spring semester in odd-numbered years
SuO	—	Summer session in odd-numbered years

These codes appear at the end of each course description. Courses with no designation are offered on an irregular or on-demand basis.

<b>XMR</b>	Radiologic Technology: Magnetic Resonance Imaging	284
<b>XRA</b>	Radiologic Technology	284

## Credit Courses

The following descriptions are in alphabetical order by subject field; thus, the three letter abbreviated code may not be in alphabetical order. For example, MKT precedes MAT because alphabetically, Marketing precedes Mathematics. The college reserves the right to reproduce student work and retain copies of student work for teaching and exhibition purposes. The college will not be held liable for lost, stolen, or damaged work.

Note: Course fees are listed at [parkland.edu/findaclass](http://parkland.edu/findaclass).

### Term Key:

- (S) - Spring
- (F) - Fall
- (Su) - Summer

## Accounting

*Business/Computer Science and Technologies*  
217/353-2099 • [parkland.edu/bcst](http://parkland.edu/bcst)

### ACC 101 Financial Accounting 4-0-4

(IAI BUS 903) Financial statements as related to investors, creditors, and managers. Includes cash, receivables, inventory, noncurrent assets, investments, liabilities, and equities. F S Su

### ACC 102 Managerial Accounting 3-0-3

(IAI BUS 904) Managerial accounting concepts and procedures including classification of costs, job order and process cost systems, budgeting, standard costs and variance analysis, capital budgeting, variable and absorption costing, and cost allocation. Prerequisite: ACC 101. F S Su

### ACC 117 Accounting and Bookkeeping 3-0-3

Applied accounting and bookkeeping techniques covering the accounting cycle, special journals and ledgers, adjustments, accounts receivable and accounts payable, bank reconciliation, and payroll. Credit not given for both ACC 101 and ACC 117. F S

### ACC 201 Intermediate Accounting 4-0-4

Development, usefulness, and limitation of general financial accounting theory and practice with in-depth study of corporate capital, asset, and liability side of balance sheet, plus an analysis of income and cash flow statements. Includes use of Excel spreadsheet applications. Prerequisite: ACC 101. S

### ACC 219 Computerized Integrated Accounting 2-2-3

Accounting principles are integrated into computerized format. Develops understanding of computerized applications, including general ledger, accounts receivable, accounts payable, inventory, and payroll. Microcomputer experience recommended. Prerequisites: ACC 101 or ACC 117. F

### ACC 274 Principles of Income Taxation 4-0-4

Introduction to federal income taxation and income tax forms relevant to most taxpayers. Focus on measurement and reporting of taxable income (including property transactions). F

### ACC 275 Payroll Tax Accounting 3-0-3

Introduction to payroll accounting, including preparing quarterly and annual payroll tax forms and the use of computer applications. Prerequisite: ACC 101 or ACC 117. S

## Automotive Collision Repair

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

### ACR 116 Collision Repair Electrical Analysis 3-2-4

Theory and repair of electrical and electronic systems related to the collision repair industry. Includes electrical theory, DVOM use, wire and circuit repairs, electronic diagnosis of ABS and SIR systems, and schematic usage. Prerequisites: ACR 130, ACR 133, and MAT 131. F

### ACR 130 Unibody Construction, Estimating, and Measuring Principles 4-0-4

Overview of collision repair industry; emphasis on unibody vehicles and the repair process. Includes cost estimating and different measuring systems. Prerequisites: approval of program director or department chair and concurrent enrollment in ACR 131 and ACR 133. F S

### ACR 131 Collision Repair Work Experience I 0-10-2

Work experience in collision repair designed to reinforce class material. Prerequisites: concurrent enrollment in ACR 130. F S

### ACR 133 Unibody Collision Repair 3-2-4

Straightening unibody systems in collision repair; restore corrosion protection; outer panel protection; dent repair, door skins, quarter panels; remove and install fenders, doors, and decklids. Prerequisites: concurrent enrollment in ACR 130 and ACR 131. F S

### ACR 134 Collision Repair Work Experience II 0-10-2

Work experience in collision repair designed to reinforce class material and enhance ACR 131. Prerequisite: ACR 131. F S Su

### ACR 135 Collision Repair: Glass, Plastic, Trim, and Structural Repair 3-2-4

Second course in collision repair: passive restraints, glass work, plastics and plastic repairs, measuring principles, frame straightening techniques, and replacing and repairing structural components. Basic understanding and use of a nitrogen plastic welder. Prerequisite: credit or concurrent enrollment in ACR 130. F S

### ACR 136 Collision Repair Work Experience III 0-10-2

Work experience in collision repair designed to reinforce class material and to enhance ACR 134. Prerequisites: ACR 131 and ACR 134. F S Su

### ACR 137 Vehicle Prep/Top Coat Application 4-0-4

Collision repair paint systems, refinishing materials, blending techniques, surface preparation, safety practices, painting equipment, applying finish, and paint application problems. Prerequisites: ACR 130 or approval of instructor or department chair. F S

### ACR 154 Collision Repair Mechanical Analysis 3-2-4

Theory and repair of mechanical systems most often affected by collisions; includes steering, suspension, wheel alignment, brakes, air conditioning, and cooling systems. Prerequisite: ACR 130. F S

### ACR 155 Custom Automotive Upholstery 2-3-3

Basic and advanced principles of automotive custom upholstery fabrication including repair, design, and identification of materials used in the industry. F Su

### ACR 156 Custom Refinish Techniques 1-3-2

Theories of custom refinish and styling: hands-on experience with custom automotive finishes, flames, scallops, shadowing, airbrush, and hidden designs. Prerequisite: credit or concurrent enrollment in ACR 137 or approval of instructor or department chair. F S

**ACR 272 Advanced Structural Repair** 2-1-2.5  
Diagnosis and repair of today's unique vehicle structures emphasizing hydroformed full-frame vehicles, space-frame structures, and aluminum unibody vehicles. Analysis of the vehicle center section. Strategy for making a three-point measurement with computerized measuring systems. Prerequisites: ACR 130, ACR 133, and ACR 154. F

**ACR 273 Advanced Vehicle Systems** 2-1-2.5  
Operation, diagnosis, and repair of advanced vehicle systems including anti-lock brakes, traction control, SRS airbag systems, convenience systems, navigation systems, speed control, power accessories, collision avoidance systems, and active suspensions. Prerequisite: ACR 116 or approval of instructor or department chair. S

**ACR 274 Advanced Refinish Techniques** 3-2-4  
Advanced color theory, color evaluation and tinting, mica/pearl control techniques, wet bed blends, let down panels, tri-coats, quad-coats, advanced spot repair, paint defect evaluation and repair. Prerequisite: ACR 137 or approval of instructor or department chair. Su

## Automotive

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**AFD 110 Automotive Maintenance and Light Repair** 3-3-4  
Introduction to and application of entry-level skills for automotive maintenance and light repair. Emphasis on vehicle inspections, vehicle lifting procedures, and equipment; engine lubrication system service; and hybrid vehicle service safety precautions. Introduction to OBDII DTC retrieval and monitor readiness. F S

**AFD 111 Automotive Powertrain Maintenance and Light Repair** 5-5-7  
Automotive gasoline internal combustion engine theory of operation. Engine mechanical condition inspection and testing. Cooling system operation, analysis, and testing. Drive axle services and repair. Prerequisite: AFD 110 or approval of instructor or department chair. S

**AFD 112 Introduction to Power Trains** 2-2-3 or 3-3-4  
Component parts and principles employed in the transference of power from engine to drive axles, clutches, manual transmissions, trans-axles, transfer cases, final drives, and differentials. Prerequisite: AFD 111 or AFD 298. F

**AFD 113 Automotive Chassis Systems Maintenance and Light Repair** 5-5-7  
Automotive brake and steering system theory of operation, inspection, and service. Emphasis placed on inspection and repair as a maintenance and light repair technician. F

**AFD 115 Basic Chassis Electrical Systems** 5-5-7  
Theoretical and practical aspects of electricity. Cranking, charging, and accessory systems components and wiring circuits; introduction to semiconductors and electronics. Prerequisite: AFD 110 or AFD 297. S

**AFD 117 Basic Automotive Electronics and Computer Control Strategies** 2-2-3  
Basic automotive electronics fundamentals including solid-state components such as sensors, actuators, and microprocessors. Automotive computer components and control strategies. Use of appropriate diagnostic equipment such as DVMS, oscilloscopes, and scan tools. Prerequisite: AFD 115. F

**AFD 119 Chassis Electrical/Electronic Systems and Accessories** 3-2-4  
Advanced study of automotive electrical and electronic circuitry emphasizing ignition, solid state components, and processor-driven systems. Concentration on controlling devices, chassis and body wiring, troubleshooting, diagnostics, and repair procedures. Prerequisite: AFD 117. S

**AFD 210 Automotive Work Experience Seminar** 2-0-2 or 2-2-3  
Preparation for work in the automotive industry, including resumes, interviewing, insurance, and 10 work ethic traits employers seek. Also covers problems specific to the automotive work environment. Lab sections include vehicle operation, tools, component inspection, and assembly. F

**AFD 211 Auto Work Experience** 0-10-2 or 0-20-4  
On-the-job work experience for students preparing for employment in the automotive industry. Student is required to have an approved position, appropriate tools, and instructor approval prior to start. Prerequisites: AFD 111, AFD 210, and AFD 213. F S Su

**AFD 217 Basic Refrigeration** 2-2-3  
Construction and operation of mobile refrigerated units with emphasis on maintenance, service, diagnosis, and repair of automotive and light truck air conditioners. Prerequisite: AFD 115. S Su

**AFD 231 Fuel and Emissions Diagnosis** 3-2-4  
Diagnosis and service of electronic and computer systems using appropriate tools; fuel system analysis; on-the-vehicle adjustments; operation and maintenance of emission control systems. Drivability diagnosis emphasized. Prerequisite: AFD 232. S

**AFD 232 Multi-Cylinder Engine Overhaul** 2-6-5  
Multi-cylinder engine analysis, disassembly, repair, part replacement, and reassembly; development of skills required to make repairs and overhaul multi-cylinder engines. Prerequisites: AFD 111 and AFD 115, or AFD 298. F

**AFD 233 Automatic Transmissions** 2-2-3  
Theory and overhaul procedures for automotive and light truck automatic transmissions. Students work on transmissions in both lab and car, including transaxles. Prerequisites: AFD 110 and AFD 111, or AFD 297 and AFD 298. Su

**AFD 272 Motorsport Work Experience I** 0-10-2  
On-the-job work experience for students preparing for employment in the Motorsport industry. Student is required to have an approved position, appropriate tools, and instructor approval prior to start. Prerequisites: AFD 210 and AFD 298. F S Su

**AFD 273 Motorsport Work Experience II** 0-10-2  
On-the-job work experience for students preparing for employment in the Motorsport industry. Student is required to have an approved position, appropriate tools, and instructor approval prior to start. Prerequisites: AFD 210 and AFD 298. F S Su

**AFD 295 Service Shop Operations** 2-2-3  
Simulation of automotive shop situations including customer relations, vehicle diagnosis, repairs, and flat-rate concept. Learn shop practices, reinforce previously learned skills, and make smoother transition to placement experience. Prerequisites: AFD 113 and AFD 231. S

**AFD 296 Motorsport Vehicle System Assessment 2-2-3**  
Simulation of automotive aftermarket component installation repair shop. Emphasis on component selection, installation, and testing. Students will learn new shop practices, reinforce previously learned skills, and transition smoothly to job placement. Prerequisite: AFD 298. Su

**AFD 297 Motorsport Concepts and Vehicle Preparation 3-2-4**  
Introduction to proper motorsport vehicle maintenance, repair, and basic chassis tuning according to specifications set by, but not limited to, NHRA, IHRA, UMP, IMCA, and SCCA. F

**AFD 298 Motorsport Chassis Analysis 2-6-5**  
Application of typical motorsport chassis design, assembly of manufactured frames, and selection of components into a completed chassis for motorsport competition. Prerequisite: AFD 297. S

## Automotive Ford ASSET Program

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**AFM 112 Manual Transmission and Drivetrains 3-3-4**  
Component parts and principles employed in the transference of power from engine to drive axles; clutches, manual transmission, transaxles, axles, differentials, propeller shafts, drive axle suspensions. Students who successfully complete this course will receive current certification from Ford Motor Company in Manual Transmission and Transaxle Diagnosis, and Differential and 4WD Systems Diagnosis and Repair. Su

**AFM 115 Basic Automotive Electrical/Electronics 5-3-6**  
Theoretical and practical aspects of electricity. Cranking, charging, and accessory systems components and wiring circuits. Basic fundamentals of electronics. Students who successfully complete this course will receive certification from Ford Motor Company in Basic Electrical Diagnosis and Repair. F

**AFM 117 Computer Controls and Scan Tools 3-2-4**  
Automotive computers and control strategies, networks and multiplexing, electrical/electronic accessories, supplemental restraint systems, and introduction to driveability. Use of appropriate diagnostic equipment such as DVMs, oscilloscopes, and scan tools, will be emphasized. Students who successfully complete this course will receive current certification from Ford Motor Company in Electronic System Diagnosis. Prerequisite: AFM 115. S

**AFM 118 Noise, Vibration, and Harshness Principles and Diagnosis 1-2-2**  
Address NVH concerns in vehicle system using NVH diagnostic tools and equipment for diagnosis of vibration, noise, and harshness issues. Students who successfully complete this course will receive current certification from Ford Motor Company in Noise, Vibration, and Harshness Principles and Diagnosis Certification (30So6To). S

**AFM 132 Internal Combustion Engine 2-4-4**  
Application of theory and laboratory situations pertaining to present day power plants; engine operation, construction, dis-assembly, precision measuring, machining, and reassembly. Students who successfully complete this course will receive certification from Ford Motor Company in Engine Repair (32So9To). Su

**AFM 153 Brakes and ABS 3-2-4**  
Address brake and stability control system issues using lathes and other tools. Students who successfully complete this course will receive certification from Ford Motor Company in Brake System Diagnosis and Repair (38So7T1) and Advanced Brake System Diagnosis and Service (38So8T1). S

**AFM 156 Dealership Operations 2-1-2**  
Daily operations of modern Ford and Lincoln dealership service departments, including ethical and legal issues. F

**AFM 217 Climate Control Systems 3-2-4**  
Construction and operation of climate control systems. Emphasis on maintenance, service, diagnosis and repair of automotive and light truck air conditioners. Successful completion and fulfillment of Ford prerequisite requirements may lead to Ford Motor Company Advanced Climate Control Diagnosis certification (35So5T1). Su

**AFM 233 Automatic Transmissions 4-3-5**  
Theory, diagnostic, and overhaul procedures for Ford Motor Company automatic transmissions/trans-axles. Students who successfully complete this course will receive certification from Ford Motor Company for Automatic Transmission Service (37S13T1) and Automatic Transmission Advanced Diagnosis (37S15T1). S

**AFM 252 Engine Performance 6-4-8**  
Advanced study of automotive electrical and electronic circuitry emphasizing diagnosis and services of electronic ignition systems, fuel systems, and emission control systems. Driveability diagnosis emphasized. Students who successfully complete this course will receive current Ford Motor Company Certification in Engine Performance Operation and Diagnosis and Advanced Engine Performance Diagnosis and Testing. Prerequisites: AFM 115, AFM 117, and Ford Certification in Area 34 (Electrical Systems). F

**AFM 253 Steering and Suspension 2-2-3**  
Wheel alignment equipment, setup, and adjustment; suspension systems components and service; steering gears, power steering; struts, front-wheel drive, four-wheel alignment; wheels, tires, and balancing, and electronic steering and suspension systems. Students who successfully complete this course will receive current certification from Ford Motor Company in Steering and Suspension. Su

**AFM 256 Directed Co-Op I (Dealership) 0-10-2**  
Work experience sessions will provide the opportunity for students to apply the knowledge and skills obtained during classroom activities including, but not limited to, work ethics and mechanical skills. All work experience sessions must be completed in a Ford or Lincoln dealership as per Ford Motor Company requirements. F

**AFM 257 Directed Co-Op II (Dealership) 0-10-2**  
Work experience sessions will provide the opportunity for students to apply the knowledge and skills obtained during classroom activities including work ethics and mechanical skills. All work experience sessions must be completed in a Ford or Lincoln dealership as per Ford Motor Company requirements. S

**AFM 258 Directed Co-Op III (Dealership) 0-10-2**  
Work experience sessions will provide the opportunity for students to apply the knowledge and skills obtained during classroom activities including, but not limited to, work ethics and mechanical skills. All work experience sessions must be completed in a Ford or Lincoln dealership as per Ford Motor Company requirements. F

**AFM 259 Directed Co-Op IV (Dealership) 0-10-2**

Work experience sessions will provide the opportunity for students to apply the knowledge and skills obtained during classroom activities including, but not limited to, work ethics and mechanical skills. All work experience sessions must be completed in a Ford or Lincoln dealership as per Ford Motor Company requirements. S

**AFM 270 Diesel Engine Operations 2-2-3**

Theoretical and practical operation of both the 6.4L DIT Navistar diesel engine and the Ford 6.7L DIT engine used by Ford Motor Company in their super-duty trucks. Students who successfully complete their course receive Ford Motor Company certification in Diesel Engine Performance and Diagnosis (51S15To). Prerequisites: credit or concurrent enrollment in AFD/AFM 115 and AFD/AFM 132, and Ford Certification STST area 32 and 34, or approval of instructor or department chair. S

## Agriculture

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**AGB 101 Introduction to Animal Science 3-2-4**

(IAI AG 902) Principles of livestock production. Includes animal products, breed identification, livestock selection, genetics and reproduction, nutrition and ration formulation, and livestock management practices. F S

**AGB 102 Introduction to Agricultural Economics 4-0-4**

(IAI AG 901) Principles of economics as applied to agriculture; basic economic principles, finance, land, marketing, input allocation, and pricing, international trade, agricultural policies, fiscal and monetary policies. F S

**AGB 103 Introduction to Crop Science 3-2-4**

(IAI AG 903) Various plant species of economic importance; principles of plant growth, environment, selection, classification, cultural practices; weed, insect, and disease identification and control. F S

**AGB 104 Introduction to Horticultural Science 3-2-4**

(IAI AG 905) Horticultural crop biology, technology, and industry. Includes classification, plant structure, growth and development, environmental factors, mechanisms of propagation, plant improvement, harvesting, marketing, geography, and aesthetics of horticultural crops (fruits, vegetables, greenhouse, turf, nursery, floral, and landscape). F S

**AGB 105 Agricultural Applications of the Computer 3-0-3**

(IAI AG 913) Introduction to computer hardware, platform environments, file manipulation, printers and the use of word processing, electronic presentations and communications, graphics, spreadsheet, and database management software; solution of agriculture data-related problems and use of prepared software and templates. F S Su

**AGB 106 International Agricultural Field Experience 1-1-2**

Role of agriculture in international food production, international trade, governmental policy, and influence of cultural and economic diversity on agriculture; requires a supervised international field experience.

**AGB 110 Introduction to Precision Agriculture 1-0-1**

Introduction to precision agriculture, including history, applications, terminology, data management, and software.

Exploration of precision agriculture career opportunities. F S

**AGB 111 Agriculture Equipment Safety 1-1-1**

Introduction and application of required safety training for agriculture retail facilities. Overview of Department of Transportation and Environmental Protection Agency requirements with emphasis on compliance issues in the workplace. S

**AGB 113 Introduction to Agriculture Retail Operations 2-2-3**

Introduction to the day-to-day operations of a retail agribusiness company, including customer service, inventory management, and product delivery. S

**AGB 117 Applicator Equipment Operations I 2-2-3**

Introduction to and application of pesticides and fertilizers using knowledge and general operator skills required of agriculture custom applicator technicians. Covers pesticide safety, equipment calibrations, product calculations, use of precision technology, and product application. Prerequisites: AGB 111 and AGB 113. F

**AGB 118 Applicator Equipment Operations II 2-2-3**

Advanced application of pesticides using knowledge and operator skills required of agriculture professional applicator technicians. Covers handling and mixing of pesticides, economic thresholds, equipment maintenance and cleaning. Prerequisites: AGB 111, AGB 113, and AGB 117. S

**AGB 133 Introduction to Agricultural Marketing and Standards 2-2-3**

Survey of approaches to marketing agricultural products; implications for the producer, consumer, processor, and government; use of grain grading and standardization equipment. S

**AGB 135 Agricultural Business Management 4-0-4**

Organization and structure of agricultural businesses; resource evaluation, policy development and implementation, functions of management, and laws and taxes that affect business. F S

**AGB 155 Agricultural Salesmanship 3-0-3**

Role, dynamics, and principles of sales communications as related to food and agriculture; methods for analyzing, setting objectives, planning, conducting, and evaluating sales communications efforts; sales presentations. F S

**AGB 191 Agri-Business Work Exploration 0-10-2**

Placement in agricultural business for 150 hours of work in career exploration, developing skill requirements, and occupational opportunities. Dual supervision by college staff and cooperating businesses. Prerequisite: completion of 15 semester hours of college credit within the program area in which placement is desired. F S Su

**AGB 200 Introduction to Soil Science 3-2-4**

(IAI AG 904) Fundamentals of soil formation, development, texture, structure, color, temperature, moisture, organisms, organic matter, chemical composition, clay minerals, classification, nutrient testing, fertilizer use, conservation, and management. Includes laboratory projects. F S

**AGB 201 Introduction to Agricultural Mechanization 2-2-3**

(IAI AG 906) Principles and applications of agricultural mechanization with emphasis on structures, electrification, power sources, and soil and water conservation. S

- AGB 211 Plant Pest Identification and Control** 3-0-3  
Identification and control of weeds, insects, and diseases. Control methods include prevention, biological control, resistant varieties, and pesticides. Pesticide terminology, formulations, calibration, environmental concerns, safe handling, and laws and regulations concerning pesticides. Prerequisite: AGB 103 or AGB 104. Su
- AGB 212 Weed Identification and Control** 0-2-1  
Principles and applications of weed control by identifying 70 weed species, 30 herbicides and associated crop/weed response, use of spray equipment, and solving problems related to herbicide use. Prerequisite: AGB 103 or AGB 104. S
- AGB 213 Soil Fertility and Fertilizers** 3-0-3  
Use of fertilizers for peak production at optimum cost; evaluation and comparison of different forms of macro- and micro-nutrients, their manufacture, handling, and application; plant and soil chemistry. Prerequisite: AGB 200. S
- AGB 214 Precision Farming Technology** 2-2-3  
Introduction to the most common tools used in precision farming: global positioning systems, geographic information systems, unmanned aerial system (UAS), precision planters, variable rate technology, and yield monitoring. F
- AGB 215 Applications of GIS in Agriculture** 3-0-3  
Fundamental processes of geographic information systems (GIS) with application to agriculture. File formats, database management, spatial analysis, and manipulation of data. Georeferenced data from mapping and yield monitoring. S
- AGB 219 Precision Hardware Systems** 1-2-2  
Introduction to operation, troubleshooting, repair and calibration of precision agriculture components of auto-guidance systems, planters, combines, and application equipment. F
- AGB 232 Agricultural Business and Farm Management** 4-0-4  
Explores agricultural business management methods including decision making, strategic planning, budgeting, financing, human resources, acquisition of real estate, and appraisal of farmland. Use of spreadsheet programs to assist in management decision making. F
- AGB 233 Grain Marketing** 3-0-3  
Fundamentals of mechanics of futures and options markets. Emphasis on how individuals should develop grain marketing plans and how and when to use futures and options rather than forward pricing, price-later, speculating, or other choices in management of risk. F S
- AGB 252 Precision Data Analytics** 3-0-3  
Advanced processes of data mining, analysis, reporting and interpretation of agriculture data from various precision agriculture platforms. Prerequisite: AGB 215 or approval of department chair.
- AGB 290 Agri-Business Seminar** 1-0-1  
Seminar designed to assist students dealing with the management and day-to-day decision making involved in the operation of an agricultural/agri-business firm. Prerequisite: approval of department chair. S
- AGB 291 Agri-Business Work Experience** 0-20-4  
Placement in an agricultural business for 300 hours of work experience. Dual supervision by college staff and cooperating business. Prerequisite: completion of 45 semester hours of college credit within the program area in which placement is desired. F S Su

## Applied Learning Skills—Math

Center for Academic Success  
217/351-2441 • [parkland.edu/cas](http://parkland.edu/cas)

Designed for the student who wants to learn or improve skills in mathematics. Individualized instruction is provided on a small-group basis. Grades are determined by class attendance, weekly evaluation, completion of assigned work, and passing mastery tests. ALM credits do not apply toward A.A., A.S., A.E.S., A.F.A., or A.G.S. degree programs.

**ALM 110 Topics from Business Math** 1-0-1  
Scientific calculator usage; basic arithmetic operations, percentages, payroll, simple and compound interest, annuities, sinking funds, promissory notes, discounting, depreciation, merchandising, retailing, reconciliation, installment loans, periodic loans, mortgage loans, elementary descriptive statistics, spreadsheet applications. May not be used to fulfill MAT 110 course requirement. Repeatable for a maximum of 3 credit hours. F S Su

**ALM 124 Topics from College Algebra** 1-0-1  
Relations and functions; linear, polynomial, exponential, and logarithmic models; radicals and complex numbers; systems of equations and matrix methods; determinants and Cramer's Rule; sequences and series; and binomial theorem. May not be used to fulfill MAT 124 course requirement. Repeatable for a maximum of 3 credit hours. F S Su

**ALM 125 Topics from College Trigonometry** 1-0-1  
Trigonometric functions, fundamental identities, graphing, solving trigonometric equations, inverse trigonometric functions, complex numbers, and vectors. May not be used to fulfill MAT 125 course requirement. Repeatable for a maximum of 3 credit hours. F S Su

**ALM 130 Topics from Geometry (A)** 1-0-1  
Logical reasoning and proofs, definitions and symbols, angle and line relationships. Repeatable for a maximum of 3 credit hours. F S Su

**ALM 131 Topics from Geometry (B)** 1-0-1  
Logical reasoning and proofs, properties of triangles and quadrilaterals, congruent triangles. Repeatable for a maximum of 3 credit hours. F S Su

**ALM 132 Topics from Geometry (C)** 1-0-1  
Logical reasoning and proofs; ratio and proportion; similar triangles; right triangles; and arc, angle, and segment relationships in circles. F S Su

**ALM 133 Topics from Geometry (D)** 1-0-1  
Perimeter and area of polygons and circles, volume and surface area of solids. F S Su

## Applied Learning Skills— Natural Sciences

Center for Academic Success  
217/351-2441 • [parkland.edu/cas](http://parkland.edu/cas)

Designed for the student who wants to learn or improve skills in basic chemistry. Individualized instruction is provided on a small-group basis. Grades are determined by class attendance, weekly evaluation, completion of assigned work and passing mastery tests. ALN credits do not apply toward A.A., A.S., A.E.S., A.F.A., or A.G.S. degree programs.

**ALN 135 Elementary Chemistry** **1-0-1**  
Fundamental chemistry needed for success in CHE 100, including substances/mixtures, properties of matter, energy, atomic structure, Periodic Table, ions/isotopes, compounds, naming/formulas, metric system, chemical reactions, acids/bases. F S Su Su

## Applied Learning Skills—Reading

Center for Academic Success  
217/351-2441 • [parkland.edu/cas](http://parkland.edu/cas)

Designed for the student who wants to learn or improve skills in reading. Individualized instruction is provided on a small-group basis. Grades are determined by class attendance, weekly evaluation, completion of assigned work, and passing mastery tests. ALR credits do not apply toward A.A., A.S., A.E.S., A.F.A., or A.G.S. degree programs.

**ALR 135 Study and Test-Taking Skills I** **1-0-1**  
Focus on learning and memory process, effective reading-to-learn strategies, learning styles analysis, practical study and test-taking skills. Practical application to student's other concurrent course(s). Repeatable for a maximum of 3 credit hours. F S Su

**ALR 136 Study and Test-Taking Skills II** **1-0-1**  
Focus on learning and memory process, effective reading-to-learn and memorization strategies, test-preparation and test-taking skills, college vocabulary. Practical application to student's other concurrent course(s). Repeatable for a maximum of 3 credit hours. F S Su

**ALR 153 Essential Comprehension Skills** **1-0-1**  
Develops comprehension and thinking skills for academic reading. Emphasizes active reading strategies. May be taken with ALR 154 to meet CCS 098 requirements with reading director approval. Repeatable for a maximum of 3 credit hours. F S Su

**ALR 154 Essential Vocabulary Skills** **1-0-1**  
Develops vocabulary skills for academic reading. Emphasizes active vocabulary-building strategies. May be taken with ALR 153 to meet CCS 098 requirements with reading director approval. Repeatable for a maximum of 3 credit hours. F S Su

**ALR 156 Active Reading and the Learning Process** **1-0-1**  
Develops high intermediate reading/study skills with emphasis on active reading and memory/learning processes. May be taken with ALR 157 to meet CCS 099 requirements with reading director approval. Repeatable for a maximum of 3 credit hours. F S Su

**ALR 157 Summary and Critical Response Writing** **1-0-1**  
Develops high-intermediate reading and thinking skills through summary and critical response writing. May be taken with ALR 156 to meet CCS 099 requirements with reading director approval. Repeatable for a maximum of 3 credit hours. F S Su

## Applied Learning Skills— Assistive Technology

Center for Academic Success  
217/351-2441 • [parkland.edu/cas](http://parkland.edu/cas)

**ALS 176 Applying Assistive Technology to Academics I** **1-0-1**  
Exploration and evaluation of various assistive technologies for individual learning needs. Historical development and application to the online environment. Emphasis on online communication and strategies to support effective study skills. F S Su

**ALS 177 Applying Assistive Technology to Academics II** **1-0-1**  
Exploration and evaluation of various assistive technologies for individual learning needs. Emphasis on strategies to facilitate comprehension and manipulation of written language. F S Su

**ALS 199 Support for Workforce Training** **3-0-3**  
Basic skills necessary for success in the workforce, including critical thinking, reading comprehension, verbal and written communication, workplace math, financial literacy, interpersonal skills, and informational and technological literacy. F S Su

## Applied Learning Skills—Writing

Center for Academic Success  
217/351-2441 • [parkland.edu/cas](http://parkland.edu/cas)

Designed for the student who wants to learn or improve skills in writing. Individualized instruction is provided on a small-group basis. Grades are determined by class attendance, weekly evaluation, completion of assigned work and passing mastery tests. ALW credits do not apply toward A.A., A.S., A.E.S., A.F.A., or A.G.S. degree programs.

**ALW 153 Intensive Grammar Instruction** **1-0-1**  
Students will learn to write sentences that demonstrate a command of basic English grammar and punctuation. Correct use of phrases and clauses emphasized. Supplemental tutorial for ESL students. Repeatable for maximum of 3 credit hours. F S Su

**ALW 154 Intensive Grammar Instruction II** **1-0-1**  
Students will learn to write paragraphs that demonstrate a command of grammar and punctuation including correct use of period, comma, semicolon, colon, and quotation marks. Supplemental tutorial for ESL students. Repeatable for a maximum of 3 credit hours. F S Su

**ALW 155 Writing Effective Sentences** **1-0-1**  
Students will learn to write sentences that effectively utilize language—word choice, sentence structure, punctuation—to enhance their purpose. Emphasis on identification and correction of major sentence errors: run on, comma splice, and sentence fragments. Repeatable for a maximum of 3 credit hours. F S Su

**ALW 156 Writing Effective Paragraphs I** 1-0-1  
Focus on developing topic sentences and writing paragraphs that utilize topic sentences and concluding sentences to indicate direction and purpose. Emphasis on audience awareness. May be used for modular completion of ENG 098 per CAS director approval. Repeatable for a maximum of 3 credit hours. F S Su

**ALW 157 Writing Effective Paragraphs II** 1-0-1  
Focus on writing paragraphs that develop the topic sentence effectively. Practice use of a variety of writing strategies (narration, description, comparison-contrast, argumentation). May be used for modular completion of ENG 098 per CAS director approval. Repeatable for a maximum of 3 credit hours. F S Su

**ALW 192 Writing Effective Essays I** 2-0-2  
Focus on writing multiple-paragraph essays that support a thesis or controlling idea. Emphasis on direction, purpose, and audience awareness. May be used for modular completion of ENG 099 per CAS director approval. Repeatable for a maximum of 6 credit hours. F S Su

**ALW 193 Writing Effective Essays II** 1-0-1  
Focus on writing multiple-paragraph essays that stay focused on a primary topic and consistently maintain a point of view. May be used for modular completion of ENG 099 per CAS director approval. Repeatable for a maximum of 3 credit hours. F S Su

**ALW 194 Writing Effective Essays III** 1-0-1  
Focus on writing multiple-paragraph essays that support their thesis statements effectively using a variety of writing strategies (e.g., narration, illustration, comparison-contrast, argumentation). May be used for modular completion of ENG 099 per CAS director approval. Repeatable for a maximum of 3 credit hours. F S Su

**ALW 195 Writing Effective Essays IV** 1-0-1  
Focus on writing multiple-paragraph essays that exhibit critical thinking and demonstrate engagement with outside ideas and texts. Repeatable for a maximum of 3 credit hours. F S Su

**ALW 199 Bridge to College Composition** 3-0-3  
Intensive writing instruction for co-enrolled ENG 101 course. Focus on standard written English and essay components. Secondary focus on college reading skills and document design. Prerequisites: ENG 099 or higher placement and CCS 099 or higher placement and concurrent enrollment in ENG 101.

## Anthropology

*Social Sciences and Human Services*  
217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

**ANT 101 Introduction to Anthropology** 3-0-3  
(IAI S1 900N) Introduction to the study of humankind. Attention given to humanity as both a living, evolving organism and creator and product of culture. Substantial emphasis placed on cross-cultural material. Prerequisite: ENG 099 placement. F S

**ANT 103 Introduction to Cultural Anthropology** 3-0-3  
(IAI S1 901N) Study of structure and process of culture. Presents major features of culture including subsistence patterns, organizing devices, language, patterns of cultural transmission, political organization, religion, family forms, and cultural change. Examines methods of anthropological research and major theoretical orientations. Prerequisite: ENG 101 placement. F S

**ANT 105 Introduction to Physical Anthropology** 3-0-3  
(IAI S1 902) Introduction to the principles and course of human evolution from the perspective of biological and social sciences; introduction to archaeological methods. Prerequisite: ENG 099 placement. F S

**ANT 200 Introduction to Archaeology** 3-0-3  
(IAI S1 903) General introduction to theory and methods of archaeology. Emphasis placed upon conduct of archaeological research. Archaeology of the Midwest given special attention. For anyone interested in finding out about the past. Optional field trips. Prerequisite: ENG 099 placement.

**ANT 220 Field Archaeology** 1-4-3  
Field studies in archaeology of various sections of North America. Emphasis on prehistoric cultures and their relationships to biological and geological features of their environment. Prerequisites: an interest in science, good physical health, and approval of instructor or department chair. Su

**ANT 289 Topics in Anthropology** 3-0-3  
Study of selected topics in anthropology. Topics vary according to section and semester and are listed in class schedule. Prerequisite: 3 credit hours in the discipline. A total of 6 credit hours may be taken in topics courses numbered 289.

## Art

*Fine and Applied Arts*  
217/351-2217 • [parkland.edu/faa](http://parkland.edu/faa)

Initial student expenses for art tools and supplies may be substantial. Though materials vary from course to course, prudent financial planning should include such costs.

**ART 121 Two-Dimensional Design** 1-5-3  
Foundation course in basic design fundamentals: form, balance, rhythm, emphasis, unity, proportion, and space. Exploration of different compositional strategies in a variety of media. Concurrent enrollment in ART 122 recommended. F S Su

**ART 122 Drawing I** 1-5-3  
Skill-oriented beginning representational drawing. Visualizing and basic drawing construction, pathologies of drawing; linear perspective; presentation; elements of line, shape, value, and volume. F S Su

**ART 123 Drawing II** 1-5-3  
In-depth investigation of various drawing media and papers. Design issues, expression, envisioned and observational drawing, pathologies of drawing. Prerequisite: ART 122 with a grade of C or higher. F S

**ART 124 Three-Dimensional Design** 1-5-3  
Foundation course in three-dimensional design fundamentals. F S

**ART 125 Color** 1-5-3  
In-depth examination of color; exploration and application of color theories and media. F

**ART 128 Digital Photography** 1-5-3  
An introductory course covering the basic principles of digital photography as a fine art medium, including equipment selection and use, image processing, and aesthetics. Prerequisite: basic computer skills. F S Su

**ART 129 Film Photography** 1-5-3  
Basic techniques and principles of photographic process in visual communication. Practical working use of 35 mm camera, exposure, developing, and printing in black and white darkroom. F S

**ART 130 Studio Photography I** 1-5-3  
Advanced skills with digital camera, lighting, and exposure evaluation. Hands-on experience working in a studio environment will provide creative opportunities to work in areas such as still life, portrait, and commercial work. Prerequisite: ART 128. S

**ART 145 Ceramics I** 1-5-3  
Introduction to ceramic process. Hand-built and wheel-thrown forms; basic problems of forming, decoration, and glazing. For art majors and non-art majors. Repeatable for a maximum of 12 credit hours. F S Su

**ART 161 Art History I** 3-0-3  
(IAI F2 901) Survey of origins and development of visual arts, from prehistoric through Gothic period. F S

**ART 162 Art History II** 3-0-3  
(IAI F2 902) Survey of origin and development of visual arts, Renaissance to present. Influence of past on contemporary art. (Also in Salzburg Program) F S

**ART 163 History of Modern Art** 3-0-3  
(IAI F2 902) History of modernism in art from French Revolution to present with emphasis on contemporary issues. (Also in Salzburg Program) S

**ART 164 History of Photography** 3-0-3  
(IAI F2904) History of photography in art and society from its discovery to present. F

**ART 165 Art Appreciation** 3-0-3  
(IAI F2 900) Introductory survey of visual arts in relation to human society, with aim of providing wide acquaintance with art forms and an appreciation of factors that have determined their development. Includes museum field trips. (Also in Canterbury Program) F S Su

**ART 166 Intro to Non-Western Art** 3-0-3  
(IAI F2 903N) Survey of origins and development of visual arts from Africa, Middle East, Asia, South America, Mesoamerica, and Oceania. Examine artworks (Painting, drawing, printmaking, sculpture, architecture and other visual art forms) as forms of cultural expression. F S Su

**ART 181 Sculpture I** 1-5-3  
Use of techniques, principles, and materials of sculpture to interpret contemporary subjects in three-dimensional sculptural forms. Aesthetic, historical, and social perspectives explored. F

**ART 182 Sculpture II** 1-5-3  
Continued exploration and development of sculpture media and materials as means of expression. Emphasis on depth of conceptual development, professional presentation, documentation. Repeatable for a maximum of 12 credit hours. F

**ART 185 Metalwork and Jewelry I** 1-5-3  
Basic jewelry and metalworking techniques: sawing, piercing, filing, soldering, cold connections, forming, metal finishing. Repeatable for a maximum of 12 credit hours. Credit or concurrent enrollment in ART 121 recommended. F S

**ART 186 Metalwork and Jewelry II** 1-5-3  
Continuation of ART 185 with greater exploration of conceptual and technical problems. Introduction to silver casting, advanced stone setting, repousse chasing, and inlay. Student may concentrate and research particular technique, while designing and executing individual projects. Repeatable for a maximum of 12 credit hours. Prerequisite: ART 185. F S

**ART 201 Painting I** 1-5-3  
Introduction to techniques and principles of oil painting, preparation of painting surfaces, development of color, and explanation of pictorial space. Credit in ART 122 recommended. (Also in Canterbury Program) F S

**ART 202 Painting II** 1-5-3  
Application of technical painting skills to developing personal expression in response to various types of imagery. Repeatable for a maximum of 12 credit hours. Prerequisite: ART 201. F S

**ART 221 Figure Drawing** 1-5-3  
Use of the figure as basis for anatomical study and accurate representational drawing. Drawing from skeleton and live models. For art majors. Prerequisite: ART 122 (ART 123 is also recommended). S

**ART 228 Advanced Digital Photography** 1-5-3  
Advanced techniques and principles of the digital photographic process in visual communication. Exploration of materials and methods unique to digital photography with an emphasis on art. Prerequisite: ART 128. F S

**ART 229 Advanced Film Photography** 1-5-3  
Advanced techniques and principles of photographic process in visual communication. Exploration of materials and aesthetics unique to photography with an emphasis on fine art. Advanced development of darkroom skills. Repeatable for a maximum of 12 credit hours. Prerequisite: ART 129. F S

**ART 245 Ceramics II** 1-5-3  
Continued development of technical ceramic skills including: wheel work, hand building, clay body, glaze formulation. Exploration of past and contemporary ceramic forms and ideas. For art and non-art majors. Repeatable for a maximum of 12 credit hours. Prerequisite: ART 145. F S Su

**ART 283 Portfolio Seminar** 1-0-1  
Under faculty direction, students fine tune and edit their portfolios, create an artist's statement, and develop their personal resumes. Includes lectures on presentation, demonstrations on taking professional images of artwork, and faculty reviews of final portfolio. Repeatable for a maximum of 2 credit hours. Prerequisites: ART 121, ART 122, ART 123, ART 124, sophomore standing in Art and Design or Art Education, or approval of instructor or department chair. F

## Astronomy

*Natural Sciences*  
217/351-2285 • [parkland.edu/ns](http://parkland.edu/ns)

**AST 101 The Solar System** 3-2-4  
(IAI P1 906L) Historical ideas concerning stars and planets; structure and motions of Earth, planets, and moons; physical nature of the Sun, planets, comets, asteroids, and meteors; origin and evolution of the Solar System. Includes an evening telescope observation. Prerequisite: ENG 101 placement. F S Su

**AST 102 Stars, Galaxies, and the Universe 3-2-4**  
(IAI P1 906L) Star distances, motions, structures, origin, and evolution; white dwarfs, neutron stars, and black holes; atoms and radiation; structures and evolution of galaxies (including the Milky Way) and the universe. Includes some evening telescopic observations. Prerequisite: ENG 101 placement. F S Su

## Aviation

*Institute of Aviation*

217/244-8687 • [parkland.edu/aviation](http://parkland.edu/aviation)

**AVI 101 Private Pilot I 2-2-3**  
First of a two-course sequence to prepare for FAA Private Pilot Certification. Covers aerodynamics, airplane systems, airport and airplane operations, federal regulations, and airplane safety. Includes 30 hours flight training. Prerequisites: ENG 101 placement, MAT 072 placement, and for non-native speakers of English: ibt TOEFL score of min. 85 overall (min. 22 listening; min. 26 speaking), or approval of program director. F S Su FE

**AVI 111 Commercial UAS Ground School 3-0-3**  
Prepares the student for FAA Commercial Unmanned Aircraft Systems (UAS) Pilot Certification. Covers regulations, airspace, aerodynamics, weather, performance, registration, and aeromedical factors. Commercial UAS certification requires passing a FAA written exam. F S

**AVI 112 Introduction to Unmanned Aircraft Systems Flight 2-2-3**  
Introduces basic skills necessary to fly both fixed wing and quadcopter drones. Covers flight controls, payloads, checklist development and usage, mission planning, and emergency procedures. Students learn basic flight maneuvers and use simulator software. F S

**AVI 113 Drone Data Collection and Application 3-0-3**  
Introduction to basic drone data collection and application for various industries including agriculture, real estate, inspections, and media. Includes mission planning, autonomous flights, crew management, data collection, and data analysis while emphasizing legal and safe operations. F S

**AVI 120 Private Pilot II 2-2.5-3**  
Second of a two-course sequence to prepare for FAA Private Pilot certification. Covers operation, navigation, night flying, and meteorology. Flight training includes use of flight simulator. Private Pilot certificate issued upon successful completion of final examinations. Prerequisite: AVI 101 or approval of program director. F S Su

**AVI 129 Commercial Instrument I 2-2.5-3**  
First of two-course sequence to prepare private pilots for instrument rating; cross-country flight emphasizing instrument approaches and en-route instrument procedures; and instruction on instrument flying, navigation, aircraft instruments, and regulations. Flight training includes eight hours in flight simulator. Prerequisite: AVI 120 or approval of program director. F S Su

**AVI 140 Commercial Instrument II 2-2.5-3**  
Second of a two-course sequence to prepare private pilots for instrument rating. Classroom instruction on instrument maneuvers, aerodynamics, navigation, and aircraft systems. Flight training includes eight hours in flight simulator. Prerequisite: AVI 129 or approval of program director. F S Su

**AVI 184 Aircraft Systems for Pilots 3-0-3**  
Basic aircraft systems, their components, and theory of operation. Familiarization of Federal Aviation Administration maintenance rules and regulations applicable to pilots. Prerequisite: AVI 120 or approval of program director. F S

**AVI 200 Commercial Pilot I 2-3-3**  
Advanced course preparing for FAA Commercial Pilot Certification. Includes cross-country procedures, federal aviation regulations, maintenance inspections, and pilot responsibilities. Emphasizes complex airplane operation and instrument flying procedures. Flight training includes seven hours in a Flight Training Device. Prerequisite: AVI 140 or approval of program director. F S Su

**AVI 209 Commercial Pilot II 2-3-3**  
Final course preparing for FAA Commercial Pilot Certificate with Instrument Rating. Reviews cross-country procedures, federal aviation regulations, commercial maneuvers, and pilot responsibilities. Emphasizes complex airplane operation and commercial maneuvers. Flight training includes six hours in Flight Training Device. Prerequisite: AVI 200 or approval of program director. F S Su

**AVI 220 Flight Instructor Certification Course 3-2-4**  
Preparation for FAA Flight Instructor (Airplane) certificate. Teaching/learning principles, lesson planning, federal aviation regulations. Flight training includes one hour in flight simulator teaching techniques. One-hour flight check required. Prerequisites: FAA Commercial Pilot Certificate with Instrument Rating and approval of program director. F S

**AVI 222 Instrument Flight Instructor 1-1-1**  
Flight instruction and supervised training to add Instrument-Airplane rating to Flight Instructor certificate. Instrument operations emphasizing instructional aspects of operations. Includes a one-hour flight test. Prerequisite: FAA Commercial Pilot Certificate with Instrument Rating or approval of program director. F S Su

**AVI 280 Multi-Engine Land 0.5-1-1**  
Instruction and supervised training for commercial pilots to develop skills required for the Multi-Engine Rating. Prerequisite: approval of program director. F S Su

**AVI 281 Cockpit Resource Management 3-1-3**  
Examines societal/cultural, industry, governmental regulatory agency, organizational, group, and individual influences on cockpit behavior and cockpit resource management. Laboratory and flight sections use multi-engine flight simulators and multi-engine aircraft. Students gain experience flying preplanned scenarios in both aircraft and simulators. Prerequisite: AVI 280 or approval of program director. F S

## Biology

*Natural Sciences*

217/351-2285 • [parkland.edu/ns](http://parkland.edu/ns)

**BIO 100 Introduction to Biology 2-3-3**  
Basic introduction to biology, including scientific method, chemistry, cell structure and function, DNA and RNA, heredity, cell division, diversity and evolution of life, organ systems, reproduction, biotechnology, and the environment. Designed for those with limited biology course experience. F S Su

**BIO 101 General Biology** 3-3-4  
(IAI L1 900L) Survey of biology for students in A.A.S. and baccalaureate-oriented programs. General principles of biology emphasizing cell and organism structure and function, evolution and ecology. Credit not given for both BIO 101 and BIO 141-142 sequence. Prerequisite: ENG 101 placement. F S Su

**BIO 104 Environmental Biology and Sustainability** 3-3-4  
(IAI L1 905L) Examines relationship of humans to their environment, including consideration of natural cycles and balances, populations, energy, hazardous chemicals, air, water, noise, and solid waste pollution. Field trips included. Students are expected to provide own transportation on local field trips. Prerequisite: ENG 101 placement. F S Su

**BIO 105 Human Biology** 3-3-4  
(IAI L1 904L) Provides non-science majors basic principles of human biology in the context of current social issues. An emphasis on the human body and its interconnectedness to health, disease, growth, development, genetics, and evolution, as they relate to individuals and society. Prerequisite: ENG 101 placement. F S

**BIO 106 Heredity and Society** 3-0-3  
(IAI L1 906) Provides non-science majors with fundamentals of genetics and interrelationships between heredity and society. Includes exploration of inheritance, genetic technology, and population genetics. Must be taken with BIO 186 to fulfill life science general education lab requirement. Prerequisite: ENG 101 placement. F S Su

**BIO 107 Introduction to Evolution** 3-3-4  
(IAI L1907L) Topics include the philosophy of science, molecular bases of genetic variation, inheritance, speciation, geological and astronomical bases of biological evolution, history of evolutionary thought, origin of life, and application of evolution on modern society. Prerequisite: ENG 101 placement. F S

**BIO 109 Introduction to Plant Biology** 3-3-4  
(IAI L1 901L) Introduction to diversity, structure and function, and importance of plant life to ecological and human systems. Emphasis on scientific inquiry of real-world problems involving plant anatomy and growth, responsiveness, evolution, reproduction, economics, and symbiosis of plants. Prerequisite: ENG 101 placement. F S Su

**BIO 111 Basic Anatomy and Physiology** 3-3-4  
General survey of basic human body structure and function. Includes basic chemistry, cells and tissues, metabolism, skeletal, muscular, circulatory, respiratory, digestive, reproductive, urinary, nervous and endocrine systems, and special senses. Lab activities include use of models, the Anatomage, and cadavers. F S Su

**BIO 120 Fundamentals of Nutrition** 3-0-3  
Examines food sources and the functions of nutrients, principles of weight management, nutrition requirements during the life cycle, and the relationship between nutrition and health. Stresses practical application of nutrition concepts and explores current nutrition controversies. Prerequisite: ENG 101 placement. F S Su

**BIO 121 Anatomy and Physiology I** 3-3-4  
Structure/function of human body. Introduction to anatomy and physiology; chemistry, cytology, histology, integument, skeletal system, articulations, muscular, and nervous systems. Prerequisites: successful completion of high school chemistry, CHE 100, or CHE 106 within three years; or satisfactory score on Parkland's chemistry competency test and ENG 101 placement. F S Su

**BIO 122 Human Anatomy and Physiology II** 3-3-4  
Detailed analysis of special senses; endocrine, cardiovascular, lymphatic, respiratory, urinary, reproductive, and digestive systems; nutrition, metabolism, and energetics; fluid, electrolyte, and pH balance; introduction to genetics and human development. Uses anatomical models, human cadavers, and the Anatomage digital dissection table. Prerequisite: BIO 121 or equivalent with grade of C or higher. F S Su

**BIO 123 Microbiology** 3-3-4  
Basic principles of microbiology; classification, morphological and physiological characteristics of microorganisms, microbial control, pathogenesis and immunity, with associated laboratory assignments. Prerequisites: BIO 101, BIO 121, BIO 141, or equivalent; or admission to VTT program and BIO 111 with a grade of C or higher. F S Su

**BIO 141 Principles of Biology I** 4-3-5  
(IAI L1 910L, BIO 910) General biology for students concentrating in life science or in a pre-professional health program. Topics include cell biology, bioenergetics, molecular biology, genetics, and biochemistry. Credit not given for both BIO 101 and BIO 141-142 sequence. Prerequisites: ENG 101 placement; and high school chemistry, CHE 100, or equivalent. F S

**BIO 142 Principles of Biology II** 4-3-5  
(IAI L1 910L, BIO 910) Continuation of BIO 141 to complete biology sequence; diversity of life, structure, and function of animals and plants. Credit not given for both BIO 101 and BIO 142. Prerequisite: BIO 141 or equivalent with a grade of C or higher. F S

**BIO 166 Microbiology Laboratory Principles** 0-3-1  
Directed laboratory experience designed to enhance general microbiological laboratory skills. Prerequisite: approval of department chair. F S Su

**BIO 186 Heredity and Society Laboratory** 0-2-1  
(IAI L1 906L) Laboratory course to accompany BIO 106 to satisfy general education requirements. Fundamentals of genetics, including human inheritance, population, genetics, and DNA. Prerequisite: credit or concurrent enrollment in BIO 106. F S Su

**BIO 225 Pathophysiology** 3-0-3  
Physiological basis of various conditions in altered health. Focuses on deviation from the normal homeostatic condition. Prerequisites: BIO 111 or BIO 121 and BIO 122 or equivalent with grade C or higher. S

## Business

*Business/Computer Science and Technologies*  
217/353-2099 • [parkland.edu/bcst](http://parkland.edu/bcst)

**BUS 101 Introduction to Business** 3-0-3  
Survey of areas of business, including marketing, management, and finance for both business and non-business students. Provides opportunity to explore the total business environment and its related careers. F S Su

**BUS 106 Business and Organizational Ethics** 3-0-3  
Introduction to social and ethical issues of business, institutions, and organizations including but not limited to government regulations, consumerism, advertising, client relationships, employee and organizational responsibility, preferential hiring, conflicts of interest, and economic justice. Credit not given for both BUS 106 and PHI 106. Prerequisite: ENG 101 placement. F S Su

**BUS 117 Introduction to Entrepreneurship** 3-0-3  
Designed for all owners, managers, and employees of existing or proposed small or independent businesses, including nonprofit organizations. Fundamentals of entrepreneurship and small business management; emphasis on organizational, financial, and marketing management. Focus on business planning, investigation of information sources, and keys to business success. F

**BUS 131 Personal Finance** 3-0-3  
Overview of financial planning. In-depth study of investments and asset management relating to insurance, retirement, financial, and tax planning. Stocks, bonds, mutual funds, IRAs, real estate, collectibles, and other investments. F

**BUS 152 Introduction to Global Business** 3-0-3  
Entry-level overview of current world trade activities, practices, and issues. Designed to provide student with basic, practical understanding of global business operations in the context of global competitiveness and emerging trading blocks. F

**BUS 204 The Legal Environment of Business** 3-0-3  
Public law and legal environment in which business must operate; background of legal principles and systems. Examines major laws affecting commerce, competition, labor relations, product liability, and consumer protection; contracts, agency, principles of tort, methods of organizing a business, sole proprietorship, corporations, partnerships. F S

**BUS 245 Business Communications** 3-0-3  
Study of communication foundations; writing process for business letters, memos, and reports; oral presentation skills; team-building skills. Use of e-mail and the Internet. Working knowledge of PowerPoint necessary. Prerequisite: ENG 102 or concurrent enrollment. F S Su

**BUS 250 Business Work Experience I** 0-20-4  
Students obtain 300 hours of work experience to utilize their studies, expand their perception of work environment, and gain practical experience. Prerequisite: completion of at least 30 semester hours of college credit within program area in which placement is desired. F S Su

**BUS 252 Business Work Experience II** 0-20-4  
Students obtain 300 hours of work experience in job environment that expands experiences gained from BUS 250. Training experiences developed by the employer and faculty member. Prerequisite: BUS 250. F S Su

**BUS 264 Introduction to Finance** 3-0-3  
Introductory course in managerial finance: financial analysis, budgeting, sources of capital (short- and long-term), and cost of capital. Prerequisite: credit or concurrent enrollment in ACC 101. F S

**CAD 121 Materials for Industry** 3-0-3  
Survey of materials used by design engineers; ferrous metals, nonferrous metals, plastics, and ceramics; testing, heat-treating, finishing, and use of adhesives. S

**CAD 122 Computer-Aided Machine Design II** 4-0-4  
Theory and application of design processes including dimensions, tolerances, assembly, multi-view, and details. Also includes application of the design process to CAD drawings and solid models using SolidWorks software. Prerequisite: CAD 113 or approval of instructor or department chair. F S

**CAD 124 Introduction to AutoCAD (Computer-Aided Drafting)** 3-0-3  
Introduction to computer-aided drafting using AutoCAD software; architectural, mechanical, and electrical applications. F S

**CAD 132 Introduction to Microstation CAD** 3-0-3  
Introduction in computer-aided drafting (CAD) using Microstation software applied to civil and structural layouts, printing and publishing, referencing and creating simple drawing sheets. F

**CAD 214 Introduction to Revit Architecture** 3-0-3  
Use of Revit Architecture to assemble 3D commercial architectural plans, with an introduction to building information modeling. Prerequisite: CAD 124. S

**CAD 232 Advanced Microstation CAD** 3-0-3  
Advanced techniques in computer-aided drafting using Microstation and Geopak civil/survey software. Includes survey data acquisition and processing; terrain models, highway geometry and corridor modeling. Prerequisite: CAD 132. S

## Customized Career Preparation

*Business/Computer Science and Technologies*  
217/353-2099 • [parkland.edu/bcst](http://parkland.edu/bcst)

**CCP 111 Customized Career Preparation Portfolio** 1-2-2  
For persons with specific career goals to determine career field requirements, document requirements already mastered, and formulate an educational plan to achieve mastery of remaining requirements through portfolio preparation. Approval of portfolio and related educational plan is required prior to Customized Career Preparation degree admission. Prerequisite: approval of a department chair or the dean of Career and Technical Education. .

## Computer-Aided Drafting

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**CAD 113 Computer-Aided Machine Design I** 4-0-4  
Design process with practical and computer-aided evaluation of power transmission devices, including gears, shafts, belts, chains, and other components using SolidWorks software. F S

**CAD 117 Advanced AutoCAD - 3D Topics** 3-0-3  
Advanced techniques in computer-aided drafting: 3D design, show motion, libraries, symbols libraries, scripts, and 3D panel/button customization for AutoCAD. Prerequisite: CAD 124 or equivalent. F S

# Critical Comprehension Skills

Humanities

217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

## Reading Assessment Program

Students enrolling at Parkland must demonstrate college-level reading proficiency. Students may demonstrate reading proficiency by 1) their performance on Parkland's reading assessment test; 2) their ACT or SAT scores; or 3) successful completion (C or higher) of two reading intensive courses transferred from an accredited institution. (Contact the director of reading for questions about interpretation.) Students who do not demonstrate college-level reading proficiency are required to take one or more CCS courses. Students whose reading skills are assessed at a level below Parkland's admission requirement will be referred to other resources.

### CCS 098 Critical Comprehension Skills I 3-0-3

Develops intermediate comprehension skills basic to successful academic reading. Students who earn a grade of D or lower in CCS 098 must repeat the course or must demonstrate a CCS 099 or higher reading level by retaking Parkland's reading assessment test. Prerequisite: placement. F S Su

### CCS 099 Critical Comprehension Skills II 3-0-3

Develops reading skills basic to successful college-level work. Emphasizes essay analysis and reading efficiency; includes note taking (annotating) and critical thinking. Students who enroll in CCS 099 may concurrently enroll in college-level, reading-intensive courses. Students who earn a grade of D or lower must repeat the course or must demonstrate a college-level reading proficiency by retaking Parkland's reading assessment test. Prerequisite: CCS 098 with a grade of C or higher or placement. F S Su

## Child Development

Social Sciences and Human Services

217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

### CHD 105 Child Growth and Development 3-0-3

Theory and principles of development prenatal through adolescence with emphasis on early childhood; physical, cognitive, and social-emotional development according to Piaget, Erikson, Vygotsky, Skinner, and others; gender, family, culture, and societal contexts; implications for professional practice. Prerequisite: ENG 099 placement. F

### CHD 115 Socialization and Guidance for the Young Child 2-0-2

Basic theory and influences on children's behavior with an emphasis on social-emotional development. Emphasizes strategies for promoting prosocial behavior in young children. S

### CHD 122 Introduction to Early Childhood Education 3-2-4

Study and analysis of preschool/primary educational programs and practices, including techniques/methods utilized in working with young children. Orientation to a variety of child-care settings. Observations in local facilities focus on the purpose and organization of each program. Prerequisite: ENG 099 placement. F

### CHD 124 Program Planning for the Young Child 2-2-3

Total planning consistent with developmental needs of children

from two to five years of age in child-care situations. Includes workshop experiences in creating teacher-made materials and use of such materials. S

### CHD 125 Observation and Assessment 2-2-3

In-depth study of young children through the use of developmentally appropriate, culturally responsive observation screening and assessment techniques. Practice applying these techniques to plan appropriate curriculum and experiences and monitor children's development. F

### CHD 134 Caring for Infants and Toddlers 3-2-4

Development and needs of children under the age of three. Considers the infant in family, day-care home, and day-care center settings. S

### CHD 201 Health, Safety, and Nutrition of the Young Child 3-0-3

Provides an overview of personal health of the individual and of children in group settings, including nutrition, health and safety issues, and skills for teaching these concepts to young children. S

### CHD 216 Music and the Arts for the Young Child 2-0-2

Methods and planning of activities for aesthetic education for young children, with appropriate experiences in music and music appreciation, movement, drama, and art appreciation. F

### CHD 217 Language and Literature for the Young Child 3-0-3

Overview of language skills and activities for encouraging language development in areas of listening, speaking, prewriting, and prereading. Select and use appropriate books and literacy materials with children. F

### CHD 218 Math and Science for the Young Child 2-0-2

Basic mathematics and science concepts are introduced, acquainting the student with skills and methods appropriate for use with young children. F

### CHD 222 Assisting in the Child-Care Center 2-9-4

Students observe/participate in 135 hours in a early childhood program. Focus on observation, interaction, curriculum planning, guidance, and evaluation/reflection on own knowledge, skills, and attitudes. Prerequisites: sophomore standing, CHD 105 or PSY 207, and CHD 115, CHD 122, CHD 124, CHD 125, ENG 101, and approval for placement. F S

### CHD 223 Child, Family, and Community 3-0-3

Focuses on the child in the context of family and community. Includes issues of communication, diversity, professionalism, and social policy, and promotes awareness and effective use of community resources. Prerequisite: ENG 099 placement. F

### CHD 242 The Exceptional Child 3-2-4

Introduces range of cognitive, physical, social, and emotional special needs in children; identification, intervention strategies, methods, and programs in various settings; applicable laws, requirements, and family issues. Prerequisites: CHD 105 or PSY 207, and ENG 099 placement. S

### CHD 250 Field Experience in the Child-Care Setting 2-15-5

Student participates for 200 hours as an intern in a child-care center; becomes acquainted with teaching and administrative procedures of the center. Prerequisites: CHD 222, CHD 216, CHD 217, CHD 218, ENG 102, sophomore standing, and approval for placement. F S

**CHD 260 Administration of Day-Care Centers 3-0-3**  
Administrative duties in a child-care center; evaluation of child-care centers, development of leadership abilities, and utilization of community resources are emphasized. SE

**CHD 272 Administration of the Family Day-Care Home 3-0-3**  
Knowledge and skills needed to run a family day-care home; setting up a day-care home, business management and administrative skills, child development principles as applicable to home day care, home and community, home and parents. FO

## Chemistry

*Natural Sciences*  
217/351-2285 • [parkland.edu/ns](http://parkland.edu/ns)

**CHE 100 Introduction to Chemistry 3-2-4**  
Introduction to chemical concepts, including the metric system, moles, chemical composition, atomic structure, bonding, reactions, and solutions. Designed primarily for those with little or no high school chemistry who expect to continue with CHE 101-102. Prerequisite: MAT 072 with a grade of C or higher or placement. F S Su

**CHE 101 General Chemistry I 4-3-5**  
(IAI P1 902L, CHM 911) Introduces new concepts and broadens those learned previously; chemical names, formulas, and equations; types of reactions; stoichiometry; thermochemistry; atomic structure and bonding; behavior of gases, liquids, and solids; properties of solutions. Prerequisites: recent high school chemistry or CHE 100 with a grade of C or higher and MAT 098 with a grade of C or higher. Completion of MAT 124 is highly recommended. F S Su

**CHE 102 General Chemistry II 4-3-5**  
(IAI CHM 912) Equilibrium reactions (gas, acid/base, solution); nuclear chemistry; electrochemistry; redox reactions, transition metal complexes; properties of metals and nonmetals; rates and mechanisms of reaction. Introduction to organic chemistry and biochemistry. Prerequisite: CHE 101 with a grade of C or higher. F S Su

**CHE 104 Chemistry of Everyday Life 3-3-4**  
(IAI P1 903L) Introduction to chemical concepts through application to common activities in everyday life and modern issues. One-semester survey for non-science majors. F S Su

**CHE 106 Chemistry for the Health Professions 3-3-4**  
(IAI P1 902L) General principles and theories of chemistry and selected topics in organic and biochemistry. Topics are drawn from the health fields. CHE 106 is not intended to replace CHE 101. Prerequisite: MAT 072 or equivalent with a grade of C or higher or placement. F S Su

**CHE 107 Chemistry for the Health Professions II 3-3-4**  
Expanded coverage of general principles of chemistry, selected topics in organic and biochemistry. Topics drawn from the health fields. CHE 107 is not intended to replace CHE 102. Prerequisite: CHE 106 or equivalent with a grade of C or higher. F S Su

**CHE 203 Organic Chemistry I 3-0-3**  
(IAI CHM 913) Properties, preparations, and reactions of alkanes, alkenes, alkynes, alkyl halides, alcohols, epoxides, and organometallics. Mechanisms of reactions. Stereochemistry. Prerequisites: CHE 101 and CHE 102 with a grade of C or higher in both. F S

**CHE 204 Organic Chemistry Lab I 1-3-2**  
(IAI CHM 913) Introduction to laboratory techniques relevant to organic chemistry, including synthesis, extraction, separations, and spectroscopy. Prerequisite: credit or concurrent enrollment in CHE 203 or equivalent. F S

**CHE 205 Organic Chemistry II 3-0-3**  
(IAI CHM 914) Properties, preparations, reactions, reaction mechanisms for additional organic functional groups. Spectroscopy. Prerequisite: CHE 203 or equivalent with a grade of C or higher. F S

**CHE 206 Organic Chemistry Lab II 1-3-2**  
(IAI CHM 914) Continued exploration of laboratory techniques relevant to separation, purification, and identification of organic compounds, synthetic methods, and qualitative identification. Credit or concurrent enrollment in CHE 205 is recommended. Prerequisite: CHE 204 with a grade of C or higher. F S

## Computer Information Systems

*Business/Computer Science and Technologies*  
217/353-2099 • [parkland.edu/bcst](http://parkland.edu/bcst)

**CIS 112 Computing Essentials 3-2-4**  
Introduction to computer operation and software use; terminology, hardware and software fundamentals, word processing, electronic spreadsheets, databases, the Internet, microcomputer operating systems file management, networking fundamentals, programming, and logic. Advising and career choices are addressed. Keyboarding ability expected. F S Su

**CIS 122 Introduction to Computer Programming 3-2-4**  
Introduction to logic and fundamental programming concepts using a common computer language with emphasis on syntax and structure. Design tools such as GUI design and pseudocode. For students in science, mathematics, or technical programs. Prerequisite: MAT 072 or equivalent. F S Su

**CIS 131 Presentation Graphics (MS PowerPoint) 2-0-2**  
Learn to use PowerPoint to produce professional-looking presentations. Includes presentation management, wizards, importing/exporting, outlining, graphing, integration, hyperlinks, drawing, clip art, and scanning. Credit not given for both CIS 131 and CTC 197+CTC 198. Prerequisite: keyboarding ability. F S Su

**CIS 134 Spreadsheet Applications (MS Excel) 3-0-3**  
Introduction to spreadsheets using Microsoft Excel; spreadsheet software for various business applications. Data entry, basic spreadsheet commands, worksheet design, formula development, macros, business charts, security and analysis tools. Credit not given for both CIS 134 and CTC 174+CTC 175+CTC 176. Prerequisite: keyboarding ability. F S Su

**CIS 135 Word Processing I (MS Word) 4-0-4**  
Create, edit, save, print, manage, and merge documents in Microsoft Word. Create tables, headers, footers, macros, Quick Parts, and captions, citations, indexes, shared documents, protect and prepare documents. Credit not given for both CIS 135 and CTC 171+CTC 172+CTC 173+CTC 271. Prerequisite: keyboarding ability. F S Su

- CIS 138 Database Applications (MS Access) 3-0-3**  
Introduction to database use and applications. Create files and business reports, including file design and maintenance, report generation, and advanced concepts. Credit not given for both CIS 138 and CTC 177+CTC 178+CTC 179. Prerequisite: keyboarding ability. F S Su
- CIS 152 Web Design and Development I 2-2-3**  
Basic skills for creating websites covering a range of topics from HTML and CSS to basic usage of common design patterns and web frameworks. Covers use of common tooling and online resources for building websites. Credit not given for both CIS 152 and CTC 136+CTC 137+CTC 138. F S Su
- CIS 157 Keyboarding II 3-0-3**  
Development of computer keyboarding skill in order to rapidly and accurately produce business letters, memos, reports, tables, and a resume. Prerequisite: keyboarding assessment of at least 25 wpm or CTC 135 with a grade of B or higher. F S
- CIS 170 Professional Workplace Topics 3-0-3**  
Overview of soft skills and how to apply them in the workplace. Development of the following abilities: attitude, communication, conflict resolution, ethics, leadership, listening, stress management, and teamwork. F S
- CIS 171 Document Preparation and Editing 2-2-3**  
Proofreading and formatting various types of business correspondence including e-mail messages, letters, meeting minutes, new releases, and memos. Emphasis placed on using correct punctuation, grammar, spelling, and tone. Prerequisite: keyboarding ability. F S
- CIS 200 Business Computer Systems 2-2-3**  
(IAI BUS 902) Management information systems, systems analysis and design techniques, terminology, equipment, and applications. Hands-on experience with microcomputers including software packages (spreadsheets, database presentation, and word processing) for data analysis and business presentations. Prerequisite: MAT 072 placement. F S Su
- CIS 211 Windows Programming 2-2-3**  
Write event-oriented programs to run in a Windows environment using recent release. Covers classes, objects, controls, events, methods, and properties; designing user interfaces and data validation; and accessing sequential and database files. S
- CIS 231 Systems Analysis, Design, and Administration 3-0-3**  
Analysis, design, administration, and documentation of information systems, including requirements modeling, data and process modeling, and human-computer interaction principles. S
- CIS 270 Integrated Software Applications 3-0-3**  
Preparation for the contemporary workplace by using current application software to solve problems typically encountered in a business environment. Emphasis will be on a mastery of Microsoft Office suite to complete multi-layered projects. Problem-based learning methods and group collaboration is employed throughout the course. Prerequisites: CIS 134, CIS 135, and CIS 138 with grades of C or higher and knowledge of MS PowerPoint. S
- CIS 297 Job Seminar 1-0-1**  
Assists students with locating, preparing for, and conducting job interviews; what to expect in the first job; career opportunities; structure of the data processing industry. Prerequisite: completion of at least 15 hours of concentration courses. F S Su

- CIS 298 Work Experience 0-15-3**  
Students utilize their studies to expand their perception of the work environment and gain practical experience. Prerequisite: approval for placement. F S Su

## Construction Management

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

- CIT 111 Construction Materials 2-3-3**  
Primary construction materials, their properties, and proper applications: concrete, asphalt, aggregates, masonry, wood, and steel. Prerequisite: MAT 060 or higher. S
- CIT 113 Basic Surveying 2-3-3**  
Fundamental surveying applications: construction layout, topographic mapping, leveling, distance measurement, angular measurement, computations, and instrument skills. Prerequisite: MAT 059 or higher. F
- CIT 114 Plumbing 2-2-3**  
Demonstration and hands-on training in installation of plumbing pipe, fixtures, and fittings; interpreting plumbing drawings and selection of proper materials. F S
- CIT 115 Rough Carpentry 2-2-3**  
Carpentry hand and power tools. Measurement, layout, and framing methods required in residential construction. Exterior finish carpentry and shingling required in residential construction will be covered by building a structure. F S
- CIT 130 Construction Plan Fundamentals 2-3-3**  
Fundamentals of construction plan interpretation, manual drafting techniques, and industry drafting standards. F S
- CIT 133 Surveying Computations I 2-0-2**  
Computational processes relevant to land surveying: azimuth, bearing, slope, stationing, trigonometry, coordinate geometry, and earth volumes. Prerequisites: CIT 113 and MAT 131 or higher. F
- CIT 134 Surveying Computations II 2-0-2**  
Computational processes relevant to land surveying: horizontal curves, vertical curves, alignments, error analysis, and state plane coordinates. Prerequisites: CIT 113, CIT 133, and MAT 131 or higher. S
- CIT 135 Construction Practices and Sustainability 3-0-3**  
Basic building planning, construction materials, and methods, with emphasis on sustainable practices. Focus on residential and light commercial applications. Drawings, specifications and building codes. Plumbing, electrical, heating, and air conditioning systems and costs. Prerequisite: CIT 130. S
- CIT 211 Construction Surveying 2-3-3**  
Construction layout methods for commercial site improvements and commercial buildings. Prerequisites: CIT 113 and MAT 131 or higher. F
- CIT 212 Commercial Facility Systems 2-3-3**  
Overview of the primary systems involved in commercial facility construction: site work, utilities, foundations, structural steel and concrete, exterior finishes, mechanical / electrical / plumbing systems, and interior finishes. Construction plan and specification interpretation, basic review of building code issues, site visits to local construction projects. Prerequisites: CIT 130 and sophomore standing in Construction Management program or approval of program director or department chair. F

**CIT 213 Soil Mechanics 2-2-3**  
Elementary study of exploring, sampling, testing, and evaluating soil materials and their effects on foundations, subgrades, embankments, and construction practices. Prerequisites: CIT 111 and MAT 131 or higher. F

**CIT 215 Construction Cost Estimating 4-0-4**  
Introduction to estimating construction costs using plans and specifications to develop material quantities and costs. Complete residential and commercial estimates prepared. Prerequisites: CIT 130, MAT 131 or higher, and sophomore standing in the Construction Management program or approval of program director or department chair. S

**CIT 216 Construction Contract Administration 3-0-3**  
Introduction to construction office practice to familiarize student with specifications for building projects, contracts, project cost accounting, and critical path project scheduling. Prerequisite: sophomore standing in Construction Management program or approval of program director or department chair. S

**CIT 230 Construction Field Experience 0-10-1; 0-20-2; 0-30-3; 0-40-4**  
On-the-job work experience for students preparing for careers in the construction industry. Students are required to have temporary (or permanent) construction employment prior to enrolling in the course. Students must meet with a construction instructor prior to start. Repeatable 3 times. Prerequisites: successful completion of one semester of Construction Management program and approval of program director or department chair. F S Su

**CIT 233 Surveying Field Experience 0-10-1; 0-20-2**  
On-the-job work experience for students preparing for careers in the surveying industry. Students are required to have temporary (or permanent) surveying employment prior to enrolling in the course. Students must meet with a surveying instructor prior to start. Repeatable 3 times. Prerequisites: CIT 113 and approval of program director or department chair. F S Su

**CIT 234 Design Surveying 2-3-3**  
Survey field processes and theories for civil engineering projects, topographic surveys, as-built surveys, and route surveys. Prerequisites: CIT 113 and MAT 131 or higher. SO

**CIT 235 Control Surveying 2-3-3**  
Survey field processes and theories of control surveying, geodesy, state plane coordinate systems, and related computations. Prerequisites: CIT 113 and MAT 131 or higher. S SuO

**CIT 236 Site Development 2-3-3**  
Overview of planning, design, construction, and inspection processes in site development, including demolition, earthwork, utilities, paving, and civil structures. Plan and specification interpretation; site visits to local projects. Prerequisites: CIT 130 and sophomore standing in Construction Management program or approval of program director or department chair. S

**CIT 253 Legal Aspects of Surveying 2-3-3**  
Common and statute law; unwritten rights in land and their relationship to land surveys; survey standards; restoration of lost corners; rules of evidence and rights, duties and liability of the surveyor. Prerequisites: CIT 113 and MAT 131 or higher. SE

**CIT 254 Boundary Surveying 2-3-3**  
Survey field methods and theory of boundary surveying including the United States Public Land Survey System, original and retracement surveys, basic survey law, legal descriptions, title search, field monument search and related computations. Prerequisites: CIT 113, CIT 253 and MAT 131 or higher. SuE

**CIT 255 Engineering Surveying 3-3-4**  
Introduction to land surveying for civil engineering and geographic information science disciplines. Prerequisites: MAT 125 or higher and approval of program director or department chair. F S

## Criminal Justice

*Social Sciences and Human Services*  
217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

**CJS 101 Introduction to Criminal Justice 3-0-3**  
(IAI CRJ 901) History, development, philosophy, and constitutional aspects of criminal justice procedures and agencies. Interrelationship of various components and processes of the criminal justice system. Prerequisite: ENG 099 placement. F S

**CJS 102 Police Administration and Operations 4-0-4**  
Proactive approach to police organizational management; traditional, scientific, participative, proactive, and other models; administration of a police organization; recruitment and selection of personnel, training policies, planning operations, auxiliary, and staff functions. Patrol function emphasized. Prerequisites: CJS 101 and ENG 101 placement. F S

**CJS 104 Introduction to Corrections 3-0-3**  
Overview of the U.S. correctional system and its processes including its history, evolution of philosophy of sentencing, operation and administration, community corrections, and issues in correctional law.

**CJS 127 Juvenile Delinquency 3-0-3**  
(IAI CRJ 914) Juvenile delinquency analyzed from both legal and sociocultural perspectives: juvenile courts, probation systems, and treatment-prevention facilities examined in relation to the legal processing of delinquents; sociopsychological variables associated with determinants of delinquency. Prerequisite: ENG 099 placement. F S

**CJS 203 Criminal Law and Procedures I 3-0-3**  
Fundamental doctrines of criminal responsibility; criteria for criminal acts; requisite mental state, criminal parties, causation and defenses, common law crimes; application of the Illinois Criminal Code. Basic criminal procedure and evidence. Prerequisites: CJS 101 and ENG 101 placement. F

**CJS 204 Criminal Law and Procedures II 3-0-3**  
Advanced criminal procedure and evidence: bail, discovery, evidence, exclusionary rules, aspects of the criminal process prior to trial. Right to counsel, arrest, search, interrogation, lineups, and other police practices. Selected ILCS chapters. Prerequisites: CJS 101 and ENG 101 placement. S

**CJS 207 Traffic Law Enforcement and Administration 3-0-3**  
Development, purpose, enforcement, and administration of traffic law; elements of highway transportation system. Prerequisites: CJS 101 and ENG 101 placement. F

**CJS 209 Criminal Investigation 4-0-4**  
Theory and practice of investigations from scene to courtroom. Interviewing, interrogation, case preparation, criminalistic applications. Prerequisites: CJS 101 and ENG 101 placement. F S

**CJS 218 Internship and Seminar 1-10-3**  
Off-campus work experience in an appropriate field. Written reports required along with regular meetings with the faculty member. The student will also do individual research and study in the student's field of interest as approved and directed by the faculty member. Open to criminal justice majors only. Prerequisites: sophomore standing, CJS 102, and six additional hours of CJS credit completed prior to enrollment. Students must carry health insurance and pass a criminal background check prior to enrolling in CJS 218. F S

**CJS 221 Community Policing and Problem Solving 3-0-3**  
Examines the history and evolution of community policing coupled with the concept of proactive problem-oriented policing versus reactive incident-driven policing, ensuring that the student truly understands how the two work in tandem. F

**CJS 225 Issues in Criminal Justice 3-0-3**  
Study of specific criminal justice topics and problems in contemporary American society. Emphasis on developing critical thinking skills as the student learns to analyze current problems and issues. Prerequisites: CJS 101 or approval of program director or department chair and ENG 101 placement. S

**CJS 292 International Field Experience in Criminal Justice 1-6-3**  
Explores the role of criminal justice in other countries including police, judicial, and corrections. Examines differing governmental policies and cultural and economic diversity influences on criminal justice. Requires a supervised international field experience.

## Case New Holland

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**CNH 112 Diesel Engine Theory and Overhaul 3-3-4**  
Complete disassembly and reassembly of CNH brand diesel engines using appropriate company service manuals; measuring for wear; machining and overhaul procedures common to a dealership; parts evaluation; failure analysis; application of theory of operation and construction; emphasis on returning unit to field service. F

**CNH 114 Introduction to Fuel Systems 2-3-3**  
Principles of operation of mechanical fuel systems for CNH diesel engines, distributor pump style, in-line pump style, timing of pumps, hands-on laboratory practice including tune-up procedures, diagnosis, troubleshooting, adjustment use of diagnostic equipment. F

**CNH 119 CNH Dealer Work Experience I 0-5-1**  
On-the-job work experience for students preparing for employment at a Case IH, Case CE, or New Holland dealer. Students must meet with a diesel instructor prior to start. Prerequisites: CNH 112, CNH 114, CNH 131, CNH 214, CNH 231, and EST 114. Su

**CNH 131 Introduction to CNH Machine Electrical 3-3-4**  
Theoretical and practical application of machine electrical. Theoretical and practical application of Ohm's Law including series, parallel, and series-parallel circuits. Application of starting and charging circuits and testing equipment. Repair of electrical circuits with an emphasis on proper repair techniques. F

**CNH 132 CNH Precision Farming Systems 2-1-2**  
Theoretical and practical application of CNH precision farming systems as related to agricultural and construction equipment: Global Positioning Satellite and Advanced Farming Systems, emphasis on software, product information, calibration and hardware functions. F

**CNH 153 Service Department Operations 1-0-1**  
Broad overview of an agriculture and/or construction equipment dealership: proper tool usage, proper diagnostic equipment usage, safety, and time management. F

**CNH 155 Introduction to CNH Hydraulic Systems 2-3-3**  
Introduction to CNH hydraulics systems, open center, closed center, and pressure and flow compensating type systems. F

**CNH 171 Introduction to CNH Powertrains 3-3-4**  
CNH drive trains and components of agricultural and construction equipment, clutch systems, transaxles, differentials, axles; emphasis on disassembly, reassembly, and component identification. Prerequisites: CNH 112 and CNH 114. F

**CNH 214 Advanced Diesel Fuel Systems 2-2-3**  
Principles of CNH computer-controlled diesel engines, emphasis on diagnosis and troubleshooting and understanding user interface with electronic engine software. Prerequisite: CNH 114. S

**CNH 216 CNH Equipment Air Conditioning I 2-0-2**  
Principles and theory of air conditioning systems on agricultural, heavy equipment and trucks. Prerequisite: CNH 131. S

**CNH 218 CNH Equipment Air Conditioning II 0-2-1**  
Principles and theory of air conditioning systems on agricultural, heavy equipment, and trucks. Prerequisites: CNH 131 and CNH 216 or approval of instructor or department chair. Su

**CNH 219 CNH Dealer Work Experience II 0-5-1**  
On-the-job work experience for students preparing for employment at a Case IH, Case CE, or New Holland dealer. Students must meet with a diesel instructor prior to start. Prerequisites: CNH 155, CNH 214, CNH 231, CNH 255, and CNH 271. S

**CNH 231 Advanced CNH Machine Electrical 3-1-3**  
CNH machine electrical schematic reading; troubleshooting, diagnosis, and repair of monitoring systems, instrumentation, and other specialized electronic and computer-controlled equipment on CNH machinery and heavy equipment. Prerequisite: CNH 131. S

**CNH 255 Advanced CNH Hydraulic Systems 2-2-3**  
Hydraulic and hydrostatic systems used on CNH equipment; diagnosing and testing to solve system problems; interpretation of fluid hydraulic schematic and diagrams; electronic and computer-controlled systems. Prerequisite: CNH 155. S

**CNH 256 CNH Agricultural and Construction Equipment Functions 3-3-4**  
Setup, repair, and operational field testing of new and used CNH agricultural and construction equipment; emphasis on harvesting, planting, and construction equipment. Prerequisites: CNH 112, CNH 119, CNH 214, and CNH 231. F

**CNH 271 Advanced CNH Powertrains 2-3-3**  
Pressure and flow testing of powertrains used in CNH agricultural and construction equipment; calibration of transmissions; theory and operation of final drives and shuttles. Prerequisites: CNH 171 and credit or concurrent enrollment in CNH 255. S

**CNH 291 CNH Service Department Implementation** **2-2-3**  
Simulation of a CNH service department including diagnostic work, disassembly work, repair work, and assembly work on CNH equipment. Practice accurate and precise labor documentation. Prerequisites: CNH 155, CNH 171, CNH 216, CNH 231, and CNH 256. S

## Communication

*Fine and Applied Arts*  
217/351-2217 • [parkland.edu/faa](http://parkland.edu/faa)

**COM 101 Introduction to Mass Communication** **3-0-3**  
(IAI MC 911) Overview of the history, nature, functions, and responsibilities of the mass communication industries in a global environment with an emphasis on the media's role in American society. Prerequisite: ENG 101 placement. F S Su

**COM 103 Introduction to Public Speaking** **3-0-3**  
(IAI C2 900) Practice and study in public speaking involving informative, persuasive, and problem solution situations and issues. Emphasis on speaker's critical thinking in relation to audience, topic, occasion, and self. ENG 101 and college level reading placement strongly recommended. F S Su

**COM 105 Basic News Writing** **3-0-3**  
(IAI MC 919) Introduction to news writing including the techniques of news gathering, reporting, and interviewing; the use of library and online database research methods; and other related skills. Students write basic stories under real time constraints. Prerequisite: ENG 101 with a grade of C or higher. F

**COM 106 Broadcast Writing** **3-0-3**  
(IAI MC 917) Emphasizes writing for visual and audio presentations, including continuity, commercials, public service announcements, news, and special events. Prerequisite: ENG 101 placement. S

**COM 120 Interpersonal Communication** **3-0-3**  
(IAI MC 901) Explores communication theory and practice between individuals in workplace and social contexts. Practical application to develop communication competence in areas that include perception, self-concept, listening, verbal and nonverbal skills, communicating across cultures, and conflict management. F S Su

**COM 121 Introduction to Advertising** **3-0-3**  
(IAI MC 912) Role of advertising in integrated marketing communication, consumer behavior, creative strategies, and types of media. Practical applications are integrated into the course. Prerequisite: ENG 101 placement. F S

**COM 122 Introduction to Public Relations** **3-0-3**  
(IAI MC 913) Overview of the practices, theories, ethics, issues, and problems of public relations. Practical applications are integrated into the course. Prerequisite: ENG 101 placement. F S

**COM 140 Voice and Diction** **3-0-3**  
Basic factors of voice and speech sound production. Class study and analysis of variations in spoken English. Individual analysis and guided practice toward improvement of speech habits. F

**COM 141 Basic Broadcast Announcing** **2-2-3**  
(IAI MC 918) Broadcast announcing principles and techniques; creating, reading, and delivering commercials, public service announcements, news, and interviews. Participation in promotional events. Introduction to production using Adobe Audition. Practical applications at WPCD, Parkland's 10,500-watt FM radio station. F S

**COM 142 Introduction to Radio Production** **2-2-3**  
(IAI MC 915) Audio production techniques and equipment operation; terminology, basic script writing, editing and producing commercials, public service announcements, and newscasting in a studio setting. Advanced use of Adobe Audition. Prerequisite: COM 141. F S

**COM 144 Video Production I** **2-2-3**  
(IAI MC 916) Introduction to video production in a multi-camera television studio including studio and field production techniques, video and audio equipment operation, crew positions and responsibilities, lighting, and scriptwriting. Students gain hands-on experience producing videos from concept through digital post-production. F S

**COM 145 Video Production II** **2-2-3**  
Video production with an emphasis on equipment, techniques, and approaches specific to field production, including digital editing in a post production lab. Students gain hands-on experience producing videos from concept through post-production. Prerequisite: COM 144 or approval of instructor or department chair. S

**COM 160 American Sign Language I** **4-0-4**  
Introduction to American Sign Language as used by the hearing impaired. Manual alphabet and introduction of common individual signs. F S Su

**COM 181 Communication Practicum** **1-1-1**  
Forensics competition, community communication situations, and/or research projects in the areas of communication. Students prepare speeches and readings for a variety of events. Requires 2.0 GPA. Repeatable for a maximum of 4 credit hours. F S

**COM 200 Leadership and Small Group Communication** **3-0-3**  
(IAI MC 902) Theory and techniques of communication and problem-solving applied to leadership and small group situations to prepare students for working in groups and teams in their careers. Includes small group theory, relationships, problem-solving, research methods, leadership, and conflict resolution. F S

**COM 201 Mass Media and Society** **3-0-3**  
Analysis and critical examination of the role of mass media in society with a focus on the developments, impact, and influence of new media technologies on politics, economics, and culture. Prerequisite: ENG 102 placement. S

**COM 205 Business and Professional Communication** **3-0-3**  
Theory and practice of workplace oral, written and mediated communication. Presentations include interviewing, briefing/training, persuasion, and group problem solving. Analysis of organizational communication, barrier removal, listening, and leadership. Prerequisite: ENG 101. F S

**COM 292 Internship and Seminar** **2-10-3**  
Supervised work experience in approved business or nonprofit organization. Weekly discussions emphasize work ethics. Prerequisites: sophomore standing in Media Arts and Production, Broadcast Technology, Photography, or Graphic Design, and approval of instructor or department chair. F S

**COM 293 Portfolio Seminar** **2-2-3**  
Students fine tune and edit their portfolios, outline a promotional campaign including Internet presence, and develop resumes. Includes lectures on professionalism and presentation skills, demonstration of portfolio production, seminars with industry professionals, and faculty reviews of final portfolio. Prerequisites: sophomore standing and approval of program director or department chair. S

# Computer Science

Business/Computer Science and Technologies  
217/353-2099 • parkland.edu/bcst

## **CSC 105 Applications of Computers in Business and Commerce** 4-0-4

Introduction to computers; hands-on experience with the Windows OS, spreadsheets, databases, and introduction to programming. Prerequisite: MAT 072 placement. F S

## **CSC 115 Networking I—Routers and Switches** 2-2-3

Cisco router and switch configuration, static and dynamic routing, VLANs, NAT, DHCP, and ACL's. CSC 115 and CSC 116 prepare students for the Cisco Certified Network Association Exam. Prerequisite: CSC 130 with a grade of C or higher or approval of department chair. F S

## **CSC 116 Networking II—WAN Connectivity** 2-2-3

In-depth, hands-on coverage of router configuration for Wide Area Networks, IPv6, OSPF and EIGRP (WAN), Async, PPP, and the OSPF and EIGRP routing protocols. CSC 115 and CSC 116 prepare the student to take the Cisco Certified Network Associate Exam (CCNA). Prerequisite: credit or concurrent enrollment in CSC 115. F S

## **CSC 117 Google IT Support Professional** 3-6-6

Introduction to fundamentals of IT support critical for success in entry-level IT support jobs. Includes troubleshooting and customer service, networking, operating systems, system administration, and security. Course completion leads to Google IT Support Professional certificate. F S

## **CSC 123 Computer Science I (C/C++)** 3-2-4

(IAI CS 911) Introductory topics in computer science, intended for Computer Science and related majors. Emphasis on algorithms, program structure, data types, decision statements, strings, looping, functions, files, classes, objects, and documentation. Prerequisites: MAT 098 and CIS 122 or approval of department chair. F S Su

## **CSC 125 Computer Science II (C++)** 2-2-3

(IAI CS 912) Advanced topics in computer science, C++ object-oriented programming, fundamental data structures, and development of a larger-scale program. Prerequisite: CSC 123 with a grade of C or higher, or an equivalent C programming language course. F S Su

## **CSC 127 Introduction to Computing (Programming in C) with Engineering Applications** 2-2-3

Fundamental principles, concepts, and methods of computing with emphasis on applications in the physical sciences and engineering. Basic problem solving and programming techniques, fundamental algorithms and data structures, use of computers in solving engineering problems and numerical analysis. Course taught using C language. CIS 122 or equivalent programming experience recommended. Prerequisite: MAT 128. F

## **CSC 128 Introduction to Linux** 2-2-3

Comprehensive study of Linux user commands and utilities. History of Linux/UNIX and open source software, Linux file system structure, GNU utilities and commands, secure inter-system communications, text processing, vi editor, bash shell, shell scripting. Hands-on instruction. F S Su

## **CSC 130 Introduction to Computer Networks** 2-2-3

Introduction to local area networks, wide area networks, and the Internet; including hardware, software, terminology, components, design, connections of a network, and topologies and protocols for LANs. Listed objectives for CompTIA Network+ Certification Exam. F S

## **CSC 133 PC Hardware and OS Maintenance** 3-2-4

Technical emphasis; operating systems most commonly used on IBM compatible computers; MS Windows; issues related to computer networks and computer architecture. Listed objectives for CompTIA A+ Certification Exam covered in general. F S Su

## **CSC 140 Computer Science I (Java)** 2-2-3

(IAI CS 911) Introduction to computer science and programming using the Java language. Emphasis on problem solving, algorithm design, and program development including data representation, programming constructs, and object-oriented design fundamentals. Prerequisites: CIS 122 and MAT 072 or MAT 098, or approval of department chair. F S

## **CSC 150 Wireless Networking and Emerging Technologies** 2-2-3

Wireless networking standards and practice, including RF fundamentals and spread spectrum, the 802.11 family of standards, site surveys, hardware installation, troubleshooting, and security fundamentals. Lab component. Prerequisite: CSC 130 or equivalent experience or approval of department chair. F S

## **CSC 151 MS OS Workstation** 2-2-3

Manage Windows workstation including networking, operating system, installation, file system, profiles and policies, security, protocols, internetworking, remote access, printing, and troubleshooting. Listed objectives for Microsoft Windows Workstation Certification Exam covered. Prerequisite: CSC 133 or approval of department chair. S

## **CSC 153 MS OS Server** 2-3-3

Configure, customize, and troubleshoot Microsoft Network Operating Systems in a single-domain environment. Designing, managing, and deploying DNS, Active Directory Services, sites, trust relationships, group policies, and certificate services. Listed objectives for Microsoft Certified Technology Specialist Exam (MCTS) covered. Prerequisite: CSC 133 or approval of department chair. F

## **CSC 155 Systems Development I** 2-2-3

Introduction to developing software systems integrated with databases, file systems, and networks and to web application frameworks. Prerequisites: CSC 123 or CSC 140, CSC 128, and basic knowledge of HTML. S

## **CSC 159 MS Network Administrator** 2-2-3

Planning, deploying, managing, and monitoring a multiple Microsoft Server Environment. Patch, policy, administrative delegation, backup configuration and deployment decisions. Planning a business environment for continuity and high availability. Prerequisite: CSC 153 or approval of department chair. S

## **CSC 171 Linux Installation and Administration** 2-2-3

Fundamental Linux system administration, including X-windowing systems, environment variables, user and group administration, file systems, booting and partitioning, umask and quotas, process management, libraries common to all flavors of Linux. Prerequisite: CSC 128 with a grade of C or higher. F

**CSC 175 JavaScript Development 2-2-3**  
Basic programming skills using the JavaScript language to enhance websites; developing JavaScript applications and utilities; and gaining a deeper understanding of web development techniques. Prerequisite: CIS 152 or approval of department chair. F S

**CSC 176 Data Systems I 3-0-3**  
Introduction to modern database and structured data systems. Entity relationship modeling, normalization, database design and methodology, SQL, security, and transaction management. Prior programming experience recommended. F

**CSC 179 Digital Media Foundation 2-2-3**  
Introduction to foundational concepts, processes, applications, theory, and technology behind the digital media industry. Projects focus on fundamental techniques and processes in the digital media production pipeline. F S Su

**CSC 186 2D Animation 3-2-4**  
Introduction to concepts, processes, and history of animation. Emphasis on concepts, storytelling, and principles of motion design. Projects will focus on creating traditional as well as computer assisted animations for digital media using Flash and AfterEffects. Prerequisite: credit or concurrent enrollment in CSC 179 or approval of department chair. F S

**CSC 187 3D Computer Animation I 3-2-4**  
Fundamental topics in 3D design, modeling, lighting, and rendering for 3D applications including gaming, film, visual effects, virtual and augmented reality, and related disciplines. Prerequisites: Windows experience. S

**CSC 188 3D Computer Animation II 3-2-4**  
Intermediate topics in 3D animation and cinematography for 3D applications including gaming, film, visual effects, virtual and augmented reality, and related disciplines. Prerequisite: Windows experience. S

**CSC 189 3D Computer Animation III 3-2-4**  
Intermediate topics in 3D character design, development, and animation for 3D applications including gaming, film, visual effects, virtual and augmented reality, and related disciplines. Prerequisites: CSC 187 and CSC 188. F

**CSC 191 SQL Fundamental II 3-2-4**  
Using what was learned in SQL Fundamentals I (CSC 176), students will master stored procedures and functions, query performance approaches (including indexes and query plans), and write analytical SQL used for data science and data warehouses. F

**CSC 212 Mobile Application Development 3-2-4**  
Application development for Android mobile devices using Java within an integrated development environment. General theory, background, and hands-on experience with principles of mobile software development. Prerequisite: CSC 140. S

**CSC 220 Data Structures 2-2-3**  
Complex data structures and algorithms including lists, searching and sorting, stacks, queues, trees, graphs, and memory management with emphasis on algorithm analysis. Prerequisite: CSC 125 or CSC 256 with a grade of C or higher. F S

**CSC 231 Computer Graphics I 3-2-4**  
Fundamentals of 3D real-time graphics programming. General theory with hands-on programming projects and applications. Concepts include object representation, transformation and viewing, animation, selection, shading, texture mapping, and effects. Prerequisite: credit or concurrent enrollment in CSC 123. F

**CSC 233 3D Computer Animation IV 3-2-4**  
Advanced topics in 3D modeling and texturing for 3D applications including gaming, film, visual effects, virtual and augmented reality, and related disciplines. Prerequisites: CSC 187 and CSC 188. F

**CSC 236 3D Computer Animation V 3-2-4**  
Advanced topics in 3D lighting, rendering, and effects for 3D applications including gaming, film, visual effects, virtual and augmented reality, and related disciplines. Prerequisites: CSC 189 and CSC 233. F

**CSC 251 Advanced Topics in Computer Security 2-2-3**  
Advanced topics in securing local area networks, including operating system software, application and server software, and networked communications. Upon completion of course students should be prepared to pass Comp TIA Security+ test. Prerequisites: CSC 130 and CSC 153 or CSC 171. S

**CSC 256 Computer Science II (Java) 2-2-3**  
(IAI CS 912)Advanced topics in computer science, object oriented programming using Java, inheritance and polymorphism, linked list and tree data structures, stacks and queues, generic data types using good object-oriented design. Prerequisite: CSC 140 with a grade of C or higher. S

**CSC 271 Linux Networking and Security 2-3-3**  
Intermediate Linux networking and security systems management. Kernel configuration, runlevel configuration, networked printing, system documentation, shell scripting, logging and backup strategies, xinetd, firewalls, nfs, and Samba common to all flavors of Linux. Prerequisite: CSC 171 with a grade of C or higher. S

**CSC 294 Computer Graphics Portfolio 0-15-3**  
Design and develop advanced individual or group portfolio projects. Includes development of 3D animated short films, 3D still imagery, gallery exhibit pieces. Repeatable for a maximum of 6 credit hours. Prerequisite: approval of program director or department chair. F S Su

## Computer Technology Center

*Business/Computer Science and Technologies*  
217/353-2099 • [parkland.edu/bcst](http://parkland.edu/bcst)

**CTC 110 Beginning Computers 3-0-3**  
Introduction to entry level computer operation with emphasis on general understanding of terminology, hardware components, file management, and a general overview of Microsoft Office applications.

**CTC 119 Microsoft Outlook 1-0-1**  
Introduction to Outlook, Microsoft's business and personal information management tool: email, address book, calendar, task, and the organization and management of electronic data.

**CTC 130 Basic Keyboarding 1-0-1**  
Self-paced development of fundamental skills in the use of a computer keyboard.

**CTC 132 Computer Basics I 1-0-1**  
Introduction to the basic use of Microsoft Office, word processing, spreadsheets, and presentations. F S Su

- CTC 133 Internet Basics** 1-0-1  
Introduction to basic services available on the Internet, including e-mail, search engines, locating and evaluating information, transferring files, bookmarks, online communications, and security. F S Su
- CTC 135 Keyboarding Skill Building** 2-0-2  
Increasing speed and accuracy in computer typewriting; develops and strengthens use of proper and efficient keyboarding techniques. Prerequisite: typing ability of 25 words per minute with minimum errors.
- CTC 136 Webpage Coding I** 1-0-1  
Basic skills for creating business-oriented websites. File management, HTML5, XHTML, and CSS coding. Use of text editor software and online resources for building websites. CTC 136+CTC 137+CTC 138 covers the same course content as CIS 152, Web Design I. Prerequisites: computer and Internet experience. F S Su
- CTC 137 Webpage Coding II** 1-0-1  
Basic skills for creating business-oriented websites. Introduction to Dreamweaver, SFTP, formatting text, manipulating images, and adding links. CTC 136 + CTC 137 + CTC 138 covers the same course content as CIS 152, Web Design I. Prerequisite: CTC 136. F S Su
- CTC 138 Webpage Coding III** 1-0-1  
Basic skills for creating business-oriented websites. Intermediate Dreamweaver including tables, CSS layout, forms, and site optimization. CTC 136 + CTC 137 + CTC 138 covers the same course content as CIS 152, Web Design I. Prerequisite: CTC 137. F S
- CTC 139 Computer Basics II** 1-0-1  
Reviews and builds on tasks/concepts in word processing, and presentations. Prerequisite: proficiency in fundamentals of Microsoft Office.
- CTC 155 Basic Computer Literacy** 1-0-1  
Introduction to Internet, file management, email, and basic computer terms.
- CTC 157 Google Applications** 1-0-1  
Introduction to Gmail, Google Drive, Google search tools, Google Maps, Chrome browser, Blogger, YouTube, Google+, and Google Photos.
- CTC 171 Word Processing Applications I** 1-0-1  
Introduction to word processing using Microsoft Word; word processing software for various types of business documents. Prerequisite: keyboarding ability. F S Su
- CTC 172 Word Processing Applications II** 1-0-1  
Word processing using Microsoft Word; word processing software for more complex types of business documents. Prerequisite: CTC 171 or equivalent experience.
- CTC 173 Word Processing Applications III** 1-0-1  
Word processing using Microsoft Word; word processing software for more complex types of business documents. Prerequisite: CTC 172 or equivalent experience.
- CTC 174 Spreadsheet Applications I** 1-0-1  
Introduction to spreadsheets using Microsoft Excel; spreadsheet software for various business applications. No previous spreadsheet experience required.
- CTC 175 Spreadsheets Applications II** 1-0-1  
Spreadsheets using Microsoft Excel; spreadsheet software for more complex business applications. Prerequisite: CTC 174 or equivalent experience.
- CTC 176 Spreadsheet Applications III** 1-0-1  
Spreadsheets using Microsoft Excel; spreadsheet software for more complex business applications. Prerequisite: CTC 175 or equivalent experience.
- CTC 177 Database Applications I** 1-0-1  
Introduction to database applications using Microsoft Access to create tables, queries, and forms. No database experience required.
- CTC 178 Database Applications II** 1-0-1  
Database applications using Microsoft Access; to create reports, filter data, import and export data, manage field properties, and refine relationships. Prerequisite: CTC 177 or equivalent experience.
- CTC 179 Database Applications III** 1-0-1  
Database applications using Microsoft Access; complex queries, forms and reports; using and creating templates; automation; and data integration. Prerequisite: CTC 178 or equivalent experience.
- CTC 190 Introduction to Publisher** 1-0-1  
Introduction to basic skills needed to produce publications such as newsletters, brochures, calendars, and business cards using Microsoft Publisher.
- CTC 193 Windows** 1-0-1  
Introduction to basic use of a Windows-based operating system.
- CTC 196 Creating Web Pages Using XHTML** 1-0-1  
File management, basic XHTML coding, and using templates to create web pages. F S Su
- CTC 197 Presentation Applications I** 1-0-1  
Introduction to the use of Microsoft PowerPoint presentation software to produce professional-looking material.
- CTC 198 Presentation Applications II** 1-0-1  
Advanced use of Microsoft PowerPoint software to enhance presentations with customized features.
- CTC 271 Word Processing Applications IV** 1-0-1  
Word processing using Microsoft Word; word processing software for more complex types of business documents. Prerequisite: CTC 173 or equivalent experience.
- CTC 272 Advanced Word Processing** 1-0-1  
Microsoft Word advanced features: advanced formatting, styles, forms, outline view, table of authorities, sharing documents, customizing Word. Prerequisite: CTC 271 or CIS 135 with grade of C or higher.

## Dental Hygiene

*Health Professions*

217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

- DHG 110 Applied Head and Neck Anatomy** 2-0-2  
Gross anatomy of head and neck with special emphasis on maxilla, mandible, and oral soft tissues. Interactions of neuromuscular mechanisms of teeth, supporting structures, and temporomandibular joint. Prerequisites: BIO 121, CHE 100 or equivalent, and admission into Dental Hygiene program. F

<b>DHG 111 Oral and Dental Anatomy, Histology, and Embryology</b>	<b>2-2-3</b>	Terms and anatomic structures of the oral cavity, including detailed study of crown and root morphology of both primary and permanent dentitions. Introduction to development of the human organism with emphasis on face, teeth, and supporting periodontal structures. Application of oral histology and oral anatomy in assessing patient's oral health. Prerequisites: BIO 121, CHE 100 or equivalent, and admission into Dental Hygiene program. F
<b>DHG 113 Introduction to Prevention</b>	<b>1-0-1</b>	Introduction to causes and prevention of dental caries and periodontal disease. Student learns to assess patient needs and to provide information for patient self-care. Prerequisites: BIO 121, CHE 100 or equivalent, and admission into Dental Hygiene program. F
<b>DHG 114 Pre-Clinic</b>	<b>3-6-5</b>	Introduction to dental hygiene profession with emphasis placed on theory and practice of the fundamental skills including instrumentation, periodontal status and infection control. Instrument skills proficiencies performed on students. Prerequisites: BIO 121, CHE 100 or equivalent, ENG 101 placement, and admission into Dental Hygiene program. F
<b>DHG 115 Seminar I</b>	<b>1-0-1</b>	Continuation of topics related to patient treatment and patient management in DHG 116. Prerequisites: DHG 110, DHG 111, DHG 113, DHG 114, and BIO 122. S
<b>DHG 116 Clinic I</b>	<b>.5-8-2</b>	Continuation of preclinical skill development in the clinical setting treating patients; emphasis on calculus detection, patient rapport, oral hygiene instruction, applying consistent infection control, medical history data gathering, and developing recall systems. Prerequisites: DHG 110, DHG 111, DHG 113, DHG 114, and BIO 122. S
<b>DHG 117 Dental Radiology I</b>	<b>2-3-3</b>	Theory and procedures for exposing and developing various dental X-ray films; practical experience on mannequins and selected patients; identification, mounting, and general interpretation practiced. Infection control for radiographic equipment is emphasized. Prerequisites: DHG 110, DHG 111, DHG 113, DHG 114, and BIO 122. S
<b>DHG 118 Pharmacology for the Dental Hygienist</b>	<b>2-0-2</b>	Study of drugs, including their pharmacological effects, adverse reactions, indications, and contraindications as they relate to patient medical history and dental hygiene treatment. Prerequisites: DHG 110, DHG 111, DHG 113, DHG 114, and BIO 122. S
<b>DHG 119 Alterations of Oral Structures</b>	<b>2-0-2</b>	Study of alterations of basic biological processes as applied to the oral structures. Specific disease entities of local and systemic origin are studied. Prerequisites: DHG 110, DHG 111, DHG 113, DHG 114, and BIO 122. S
<b>DHG 210 Periodontology</b>	<b>2-0-2</b>	Histopathology, etiology, clinical features, and treatment of periodontal infections; emphasizes diagnosis, treatment planning, and management of periodontal patients. Incorporates periodontal case study project to foster the clinical application of course materials. Prerequisites: DHG 212, DHG 215, and DHG 216. F
<b>DHG 211 Local Anesthesia</b>	<b>1.5-5-1.5</b>	Integration of patient pre-evaluation, pharmacology, record keeping, anatomy/neuroanatomy/physiology, techniques, complications, postoperative instructions, and clinical experience in the administration of local anesthesia. Clinical sessions are included for students to develop competency in their administration. Prerequisites: DHG 118 and DHG 119. Su
<b>DHG 212 Dental Materials</b>	<b>2-4-3</b>	Study of materials utilized in dental office and laboratory. Infection control in the dental laboratory is emphasized. Prerequisites: DHG 115, DHG 116, DHG 117, DHG 118, DHG 119, BIO 123, and COM 103. Su
<b>DHG 214 Nitrous Oxide/Oxygen Sedation</b>	<b>1-0-1</b>	A comprehensive introduction to conscious sedation (i.e., the administration and monitoring of nitrous oxide and oxygen sedation). Anatomy, physiology, pharmacology, and the ethical and legal aspects of nitrous oxide and oxygen sedation use. Prerequisites: DHG 110, DHG 118, DHG 119, and CPR certification.
<b>DHG 215 Clinic II</b>	<b>.5-6-2</b>	Continuation of clinical skill development with emphasis on treating the periodontally involved patient, individualized oral hygiene instruction, medical history analysis, applying infection control, and patient assessment and analysis. Prerequisites: DHG 115, DHG 116, DHG 117, DHG 118, DHG 119, BIO 123, and COM 103. Su
<b>DHG 216 Seminar II</b>	<b>1-0-1</b>	Continuation of topics related to patient treatment and patient management in DHG 215. Prerequisites: DHG 115, DHG 116, DHG 117, DHG 118, DHG 119, BIO 123, and COM 103. Su
<b>DHG 217 Seminar III</b>	<b>2-0-2</b>	Provides information for the dental hygiene care of the medically compromised dental patient and patients with special developmental or acquired conditions, including sensory and/or psychological needs. Topics related to patient treatment in DHG 218. Prerequisites: DHG 212, DHG 215, and DHG 216. F
<b>DHG 218 Clinic III</b>	<b>0.5-12-4</b>	Continuation of clinical skill development with emphasis on the application of concepts learned in DHG 212, DHG 210, and DHG 217. Prerequisites: DHG 212, DHG 215, and DHG 216. F
<b>DHG 219 Clinic IV</b>	<b>0.5-12-4</b>	Continuation of clinical skill development with emphasis on periodontal maintenance/supportive maintenance and time motion management. Prerequisites: DHG 210, DHG 217, DHG 218, DHG 230, DHG 233, and ENG 101. S
<b>DHG 230 Community Dental Health</b>	<b>2-3-3</b>	Knowledge of public health system including community dental health. Dental health education program planning, including assessing, planning, implementing, and evaluating grade school program. Critically analyze research article. Communicate technical dental health information. Prerequisites: DHG 212, DHG 215, and DHG 216. F
<b>DHG 233 Dietary Analysis and Preventive Counseling</b>	<b>2-0-2</b>	Study of role of diet upon building and maintaining of oral structures as applied to dental hygiene patient through analysis of total oral consumption and subsequent preventive recommendations. Prerequisites: DHG 212, DHG 215, and DHG 216. F

**DHG 235 Seminar IV** 1-0-1  
Provides information related to credentialing, consumer issues, current dental hygiene issues, and management skills. Provides information on job interview techniques and developing a resume and cover letter. Prerequisites: DHG 210, DHG 217, DHG 218, DHG 230, DHG 233, and ENG 101. S

**DHG 236 Ethics and Jurisprudence** 1-0-1  
Rules of conduct and behavior that guides a dentist's and dental hygienist's practice, ethical and legal behavior expected of a professional, political action and the importance of the relationship between professions and government are discussed. Prerequisites: DHG 210, DHG 217, DHG 218, DHG 230, DHG 233, and ENG 101. S

**DHG 237 Licensure/Transition to RDH** 1-0-1  
The role of licensure in the dental hygiene profession. The processes, procedures, requirements, jurisdictions, and cost of becoming licensed to practice dental hygiene in the United States. Preparation for transition from student to licensed professional. Prerequisites: DHG 210, DHG 217, DHG 218, DHG 230, DHG 233, and ENG 101. S

## Diesel Power Equipment Technology

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**DPE 110 Agricultural and Heavy Equipment Power Trains** 2-4-4  
Drive trains and components of agricultural machinery and construction/earth-moving equipment; special transmissions, clutch systems, transaxles, differentials, axles, and PTOs; troubleshooting, diagnosis, and repair. Prerequisite: DPE 251 or approval of instructor or department chair. F

**DPE 130 Introduction to Diesel Electrical** 3-3-4  
Theoretical and practical application of Ohm's Law, series, parallel, and series-parallel circuits. Theoretical and practical application of starting and charging circuits. Repair of electrical circuits with an emphasis on proper repair techniques. Must have a DVOM (digital volt ohm meter). F

**DPE 135 Introduction to Mobile Hydraulics** 2-3-3  
Introduction to mobile hydraulics systems, including open, closed, and PFC types.

**DPE 151 Diesel Fuel Systems** 2-3-3  
Fuel systems for diesel engines; principles of operation for pump-style systems; timing of pumps; hands-on laboratory practice including diagnosis, troubleshooting, adjustment, and repair of fuel system components; use of diagnostic equipment. F

**DPE 215 Diesel Work Experience I** 0-10-2  
On-the-job work experience for students in the diesel industry. Students are required to have tool set on internship. Students must meet with a diesel instructor prior to start. Prerequisites: DPE 151, DPE 230, DPE 234, DPE 239, DPE 251, or approval of instructor or department chair. Su

**DPE 217 Diesel Work Experience II** 0-10-2  
On-the-job work experience for students preparing for employment in the diesel industry. Students are required to have tool set on internship. Students must meet with a diesel instructor prior to start. Prerequisites: DPE 151, DPE 230, DPE 234, DPE 235, DPE 239, DPE 251, DPE 254, or approval of instructor or department chair. S

**DPE 230 Electronic Systems and Accessories** 2-2-3  
Installation, analysis, testing, programming, diagnosis, and repair of monitoring systems, instrumentation, and other specialized electronic and computer-controlled equipment on agricultural machinery and heavy equipment. Prerequisite: DPE 130 or approval of instructor or department chair. S

**DPE 234 Vehicular Air Conditioning I** 2-0-2  
Principles and theory of air conditioning systems on agricultural, heavy equipment, and trucks. Prerequisite: DPE 130 or approval of instructor or department chair. S

**DPE 235 Advanced Hydraulics** 2-1-2  
Hydraulic systems of major power equipment; interpretation of fluid hydraulic schematic diagrams; electronic and computer-controlled systems; diagnosing and testing to solve system problems; tear down and repair of systems on agricultural and construction equipment. Prerequisite: DPE 135. S

**DPE 236 Equipment Adjustment and Repair** 2-4-4  
Adjustment, maintenance, and repair of new and used agricultural machinery and/or construction equipment and operational field testing; use of operator and service manuals to perform repairs. Prerequisites: DPE 215, DPE 230, DPE 239, and DPE 251. F

**DPE 238 Vehicular Air Conditioning II** 0-2-1  
Principles and theory of air conditioning systems on agricultural, heavy equipment, and trucks. Prerequisites: DPE 130 and DPE 234 or approval of instructor or department chair. Su

**DPE 239 Truck Suspension, Steering, and Brakes** 1-4-3  
Suspension systems, hydraulic and air brakes, and steering mechanisms and systems in motor trucks; theory of operation, diagnosis, and repair with emphasis on performing inspections, preventive maintenance, and required service. Prerequisite: DPE 251 or approval of instructor or department chair. S

**DPE 251 Diesel Engine Overhaul** 2-4-4  
Complete overhaul of a diesel engine and return to field service using an appropriate company service manual; disassembly and reassembly procedure; measuring for wear; machining and overhaul procedures common to a dealership; tune-up and break-in procedures. F

**DPE 253 Advanced Diesel Fuel Systems** 2-2-3  
Diesel fuel systems, principles of computer-controlled diesel engines, diagnosis and troubleshooting, understanding user interface with electronic engine software. S

**DPE 254 Advanced Power Trains** 2-3-3  
Troubleshooting and diagnosis of power shift transmissions, pressure and flow testing of transmission oil pumps, pressure testing of clutch packs, calibration of transmission controllers, following step-by-step testing flowcharts for power train diagnostic work. Prerequisites: DPE 110, DPE 135, and credit or concurrent enrollment in DPE 235. S

**DPE 259 Service Department Implementation** 2-2-3  
Simulation of service department including diagnostic work, disassembly work, repair work, assembly work, and customer relation skills. Practice labor documentation. Must have diesel program tool set. Prerequisites: DPE 110, DPE 135, DPE 151, DPE 230, DPE 234, and DPE 251, or approval of instructor or department chair. S

## Drafting

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

### **DRT 119 Blueprint Reading and Technical Drawing** 3-0-3

Interpretation of working drawings to translate drawings into product. Includes technical sketching to communicate modifications. Dimensioned projections, sectional views, symbols, and schematics are used. F

## Dietary Manager

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

### **DTP 120 Nutrition and Diet Therapy** 3-0-3

General nutrition with an emphasis on nutrition-related diseases. Diet therapy and why modified diets are prescribed for specific disease states. Prerequisites: ENG 101 and MAT 060 placement. F S Su

## Economics

*Social Sciences and Human Services*  
217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

### **ECO 101 Principles of Macroeconomics** 3-0-3

(IAI S3 901) Introduction to the American economic system. Covers basic economic concepts, including market analysis, followed by an emphasis on macroeconomic topics such as measures of overall economic performance, the monetary system, and economic policy. Prerequisite: ENG 101 placement. F S Su

### **ECO 102 Principles of Microeconomics** 3-0-3

(IAI S3 902) Introduction to basic economic concepts including market analysis, followed by an emphasis on microeconomic topics such as elasticity, consumer choice, production and cost, industry structure, and associated problems of American economy. Prerequisite: ENG 101 placement. F S Su

### **ECO 165 Economics and Politics of the European Community** 3-0-3

Process and institutions of European economic and political integration; emphasis on European Community countries and countries of the European Free Trade Area. (Salzburg Program only)

## Education

*Social Sciences and Human Services*  
217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

### **EDU 101 Introduction to Education** 2-2-3

Philosophy and history of American public education and the role of the teacher. Discussion of current issues in education and 30 hours of observation in public schools. A criminal background investigation is required prior to observation. Prerequisite: ENG 101 placement. F S

### **EDU 103 Introduction to Educational Technology** 3-0-3

Builds on basic computer and Internet knowledge; helps students find innovative ways to incorporate technology into lesson plans to meet the needs of all learners. Designed for education majors and individuals teaching full time. F

### **EDU 104 Introduction to Special Education** 3-0-3

Construct understanding of characteristics of exceptional learners, their education including history, categorical definitions, service delivery, legislation, along with principals, strategies and methods of effective instruction. Practical component of course addresses teaching methods and lesson plans incorporating differentiated instruction. Prerequisite: EDU 101.

## Electronics and Electrical Power

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

### **ELT 111 Computer Applications for Technicians** 2-2-3 or 2-0-2

Introduction to personal computers, using Windows-based operating system and applications to create and edit technical documents using the Internet, Word, Excel, and PowerPoint. F S

### **ELT 131 Residential Wiring** 2-2-3

Single phase power distribution and transmission systems. Interpretation and use of National Electrical Code; interpretation of blueprints and wiring techniques as applied from service entrance to load. Prerequisite: MAT 060 or MAT 094 or equivalent with a grade of C or higher. F S

### **ELT 134 Motors, Controls, and Drives** 2-2-3

Electrical symbols; ladder and wiring diagrams; used motors and motor control circuits including DC, single- and three-phase, electromagnetic, and DC and AC electronic controllers. Control, wiring, and troubleshooting of motors and control circuits. Prerequisite: ELT 150 with a grade of C or higher. S

### **ELT 150 Introduction to Electricity and Electronics** 2-2-3

DC and AC circuits and test instruments. Following national skill standards (EIA/EIF), includes work habits; basic and practical skills; and survey of motors, relays, and transformers. Prerequisite: MAT 060 or MAT 094 or equivalent with a grade of C or higher. F S

### **ELT 155 Digital Control Systems** 2-2-3

Digital control using a microcontroller, software control of counters, sequencing, logical decisions, digital outputs, digital inputs, analog input to digital conversion, digital to analog output conversion. Prerequisite: credit or concurrent enrollment in ELT 150. S

### **ELT 171 Analog Control Systems** 2-2-3

Characteristics and application of electronic components, and amplifiers. Component identification and testing, circuit construction, operation, and troubleshooting of analog control systems. Prerequisite: ELT 150. S

### **ELT 179 Industrial Control Devices** 2-2-3

Introduction to the electronic control devices and systems used in industry: interface devices, drives, controllers, motors, process control and instrumentation, industrial process techniques, detectors, sensors, and programmable controllers. F

**ELT 191 Security and Home Automation 2-2-3**  
Security, surveillance, and automation controls. Components, systems and the structured wiring used in home security, automation, and entertainment. Requirements for distributing and interfacing security systems, automation controls, communication, and entertainment in homes. Prerequisite: ELT 150. F

**ELT 231 Programmable Controllers 2-2-3**  
Programmable logic controllers with emphasis on creating application programs to solve control problems. Overview of PLC systems, number systems, I/O modules, basic and advanced instructions, system configuration, and troubleshooting. Prerequisite: ELT 179. S

**ELT 292 Process Control 2-2-3**  
Process control concepts using advanced capabilities of PLC systems: interfacing devices; process controllers; pressure, temperature, flow, and level measurement; A/D, D/A, PID control; and Human Machine Interface (HMI) using RSView32 to monitor and control machines and processes. Prerequisite: ELT 231. F

**ELT 293 Industrial Control Networks 2-2-3**  
Control networks used in industry; devices, media, protocols, and test equipment used to control devices and acquire data. Serial, DH-485, CAN, and Ethernet. Prerequisite: sophomore standing or approval of instructor or department chair. S

**ELT 295 Modicon Automation and Control 2-2-3**  
Use of Modicon M340 automation controller to configure I/O and data communications; create control programs using IEC 61131-3 international languages to include function block diagrams, structured text, and ladder diagram programming; interfacing and programming touchscreen terminals. Prerequisite: ELT 231 or approval of instructor or department chair. S

**ELT 299 Robotics and Automation 2-2-3**  
Robotics fundamentals: capabilities and applications; mechanical and electrical requirements, operation, and programming. Automation techniques and devices, controls and feedback mechanisms, servo motors and motion control. Prerequisite: sophomore standing or approval of instructor or department chair. F

## Emergency Medical Services

*Health Professions*

217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**EMS 110 Emergency Medical Technician 3-6-5**  
Role and responsibilities of the emergency medical technician. Skills in patient interaction, diagnosis, and emergency medical treatment. Upon successful completion, the student is eligible to take the Illinois EMT-B Certification Examination. F S

**EMS 111 Foundations of Paramedicine 4-0-4**  
Medical terminology, introduction to pharmacology, basic anatomy and physiology essential to the role of a paramedic. Prerequisites: EMS 110, ENG 099, college level reading, and MAT 060 placement. S

**EMS 113 Paramedic I 5-5-7.5-8**  
Occupation, history, and leadership skills. Assessment/management: accident scene, growth and development, and airway. Identify medical, legal, and ethical issues. Advanced pathophysiology, cellular growth/adaptation, fluid balance, and body responses to illness/accidents. Pharmacology and intravenous therapy. Community education. Prerequisites: acceptance into Paramedic Program, current BLS CPR card, current EMT License, and EMS 111. Su

**EMS 114 Paramedic II 7-5-8.5**  
Advanced level of patient assessment, critical thinking, and decision making skills. Communication skills including radio communication assimilations. Pathophysiology of pulmonary and cardiac system including EKG rhythm interpretation and treatment modalities. Prerequisite: EMS 113. F

**EMS 115 Paramedic III 5-3-6**  
Advanced treatment and assessment of pediatric and trauma patients, including advanced life support, mass casualty operations, hazardous material incidents, and general ambulance operations. Prerequisite: EMS 114. S

**EMS 138 EMT Work Practicum 0-20-5**  
Transitions the student from classroom setting to the field, utilizing previously learned skills and knowledge to work in an ambulance as part of an effective healthcare team. Prerequisite: current state of Illinois EMT License. F S

**EMS 238 Paramedic Field Internship 0-16-2.5**  
Application of all acquired skills, knowledge, and techniques used in patient care from previous EMS paramedic coursework. Perform as a team leader in management and transport of the patient until they reach the hospital. Prerequisites: EMS 111, EMS 113, EMS 114, and EMS 115 with a grade of C or higher and approval of program director or department chair. S

## English

*Humanities*

217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

### Assessment Program

Students enrolling in an English composition course for the first time at Parkland must be placed at the appropriate level on the basis of (1) their ACT or SAT scores, (2) their performance on Parkland's English assessment test, or (3) college-level composition credit transferred from another school.

Students placed in a preparatory English composition class (ENG 098 or 099) can satisfy the requirements for admission to college-level English composition by passing ENG 099 with a grade of C or higher.

### Bridge to College Composition

Students with ENG 099 placement who wish to accelerate ENG 101 completion can enroll in designated sections of ENG 101 with concurrent enrollment in ALW 199. For more information, see an academic advisor.

**ENG 098 Writing Skills Review I 3-0-3**  
Extensive writing practice with emphasis on paragraph organization and development leading to multiple-paragraph essays and engagement with outside ideas and texts. Systematic review of grammar, mechanics, and sentence structure. Concurrent enrollment in CCS 098 or CCS 099 may be required. Prerequisite: placement. F S Su

**ENG 099 Writing Skills Review II 3-0-3**  
Extensive writing practice with emphasis on organizing and developing essays and engagement with outside ideas and texts. Systematic review of grammar, sentence structure, and paragraph organization and development. Concurrent enrollment in CCS 098 or CCS 099 may be required. Prerequisite: ENG 098 with a grade of C or higher or placement. F S Su

**ENG 101 Composition I** **3-0-3**  
(IAI C1 900) Essay writing with emphasis on process, purpose, audience awareness, critical analysis, focus, organization, development, clarity, coherence, and engagement with outside texts. A grade of C or higher fulfills IAI General Education Core Curriculum requirements for transfer programs. Prerequisite: ENG 099 with a grade of C or higher or placement. F S Su

**ENG 102 Composition II** **3-0-3**  
(IAI C1 901R) Research-paper writing emphasizing: adoption, narrowing, and logical support of a thesis in awareness of audience; effective research techniques; and accurate documentation of sources. A grade of C or higher fulfills IAI General Education Core Curriculum requirements for transfer programs. Prerequisite: ENG 101 or equivalent with a grade of C or higher. F S Su

**ENG 106 Accelerated Composition** **4-0-4**  
(IAI C1 901R) Accelerated essay/research writing emphasizing process, purpose, audience, critical analysis, focus, organization, development, clarity, coherence, research techniques, and documentation. Fulfills freshman composition requirements; credit given for either ENG 101–102 or ENG 106. Grade of C or higher fulfills IAI GECC requirements. Prerequisite: placement. F S

**ENG 111 Workplace Writing** **3-0-3**  
Document writing for the workplace with emphasis on purpose, audience awareness, focus, organization, clarity, and coherence. Includes writing scenarios for workers in skilled technical service and support positions. Emphasizes format and correct grammar, punctuation, and mechanics. Prerequisites: CCS 099 and ENG 099 placement. F S Su

**ENG 115 English Grammar and Punctuation** **2-0-2**  
Grammar and punctuation of standard written English; parts of speech, types of punctuation, and common grammatical errors. F S

**ENG 161 Creative Writing I — Fiction** **3-0-3**  
Introductory course for exploring the structure and elements of fiction as well as the writing process; students will produce fully developed works, with attention to the development of fictional techniques, and learn terminology current in creative writing. Prerequisite: ENG 101 or equivalent with a grade of C or higher or approval of department chair. F

**ENG 162 Creative Writing I — Poetry** **3-0-3**  
Introductory course for exploring the structure and elements of poetry as well as the writing process; students will produce fully developed works, with attention to the development of poetic techniques, and learn terminology current in creative writing. Prerequisite: ENG 101 or equivalent with grade of C or higher or approval of department chair. F

**ENG 220 Professional Writing** **3-0-3**  
Principles of professional writing. Includes business and technical writing scenarios and case studies with an emphasis on problem solving; argumentative and process assignments; experiential projects with local or national companies. Prerequisite: ENG 102 or ENG 106 with a grade of C or higher. F S

**ENG 224 Advanced Composition — Creative Nonfiction** **3-0-3**  
Intermediate course for exploring the structure and elements of literary nonfiction and the writing process; students will produce fully-developed works of nonfiction and demonstrate an understanding of the critical terminology of the creative writer. Prerequisite: ENG 102 or ENG 106 with a grade of C or higher. F S

**ENG 261 Creative Writing II — Fiction** **3-0-3**  
Continuation of ENG 161. Intermediate course for exploring the structure and elements of fiction and the writing process. Students will produce fully developed works, with attention to the further development of fictional techniques, and learn terminology current in creative writing. Prerequisite: ENG 161 or equivalent or approval of department chair. S

**ENG 262 Creative Writing II — Poetry** **3-0-3**  
Continuation of ENG 162. Intermediate course for exploring the structure and elements of poetry and the writing process. Students will produce fully developed works, with attention to the further development of poetic techniques, and learn terminology current in creative writing. Prerequisite: ENG 162 or equivalent or approval of department chair. S

## Engineering Science

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**ENS 101 Introduction to Engineering and CAD** **2-3-3**  
(IAI EGR 941) An introduction to engineering design and graphics, including design problems, sketching, dimensioning, tolerancing, multi-view orthographic representations, auxiliary views, section views, and working drawings. Prerequisite: credit or concurrent enrollment in MAT 128. S

**ENS 201 Engineering Mechanics I (Statics)** **2-2-3**  
(IAI EGR 942) Particle statics, general principles and force vectors, rigid body equilibrium, moments of inertia, distributed forces and centroids, analysis of structures, virtual work, and friction. Prerequisite: PHY 141. F Su

**ENS 202 Engineering Mechanics of Solids** **2-2-3**  
(IAI EGR 945) Stress, strain, torsion, deformations, thermal stresses, thin-walled vessels, bending stresses and strains, transverse loading of beams, shear stress and combined loadings, Mohr's circle, beam design, shaft design, shear moment diagrams, beam deflection, energy methods, and columns. Prerequisite: ENS 201. S

**ENS 203 Engineering Mechanics II (Dynamics)** **2-2-3**  
(IAI EGR 943) Particle kinematics (rectilinear and curvilinear); Newton's laws; energy, work, and momentum methods; planar dynamics and rigid bodies; rigid body kinematics; impulse and momentum; and vibrations. Prerequisites: ENS 201 and credit or concurrent enrollment in MAT 229. S

## Earth Science

*Natural Sciences*  
217/351-2285 • [parkland.edu/ns](http://parkland.edu/ns)

**ESC 101 Introduction to Weather** **3-2-4**  
(IAI P1 905L) Basic meteorology with emphasis on applying meteorological principles to everyday weather. Topics include warming the earth and atmosphere, earth-sun relationships, air temperature and pressure, winds, humidity, atmospheric circulation, cloud development, precipitation, air masses and fronts, thunderstorms, tornadoes, and hurricanes. Prerequisite: ENG 101 placement. F S Su

**ESC 102 Introduction to Physical Geology** 3-2-4  
(IAI P1 907L) Introduces physical geologic processes, materials, and landforms through lecture, hands-on lab activities, map reading and optional field experiences. Topics include plate tectonics, geologic time, minerals, rocks, volcanoes, weathering, mass wasting, streams, glaciers, groundwater, earthquakes, and rock structures. Prerequisite: ENG 101 placement. F S Su

## English as a Second Language

Humanities

217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

### English as a Second Language Program

The ESL program offers a series of three-credit-hour courses for academic preparation in four skill areas. These courses are available from beginning through advanced levels in grammar/writing and listening/speaking/pronunciation. Students can enroll part-time in one course or full-time. Specialized electives appear as 500-level ESL courses.

**ESL 071 Reading/Vocabulary I** 2-2-3  
Development of high-beginning level academic reading and vocabulary skills for speakers of English as a second language. Repeatable for a maximum of 6 credit hours. Prerequisite: placement by advisor. F S Su

**ESL 072 Reading/Vocabulary II** 2-2-3  
Development of intermediate level academic reading and vocabulary skills for speakers of English as a second language. Repeatable for a maximum of 6 credit hours. Prerequisite: placement by advisor. F S Su

**ESL 073 Reading/Vocabulary III** 2-2-3  
Development of high-intermediate level academic reading and vocabulary skills for speakers of English as a second language. Repeatable for a maximum of 6 credit hours. Prerequisite: placement by advisor. F S Su

**ESL 074 Reading/Vocabulary IV** 2-2-3  
Development of low-advanced level academic reading and vocabulary skills for speakers of English as a second language. Repeatable for a maximum of 6 credit hours. Prerequisite: placement by advisor. F S Su

**ESL 076 English for Academic Purposes** 2-2-3  
Development of intermediate-level academic grammar/writing, listening/speaking, and reading/vocabulary skills for students of English as a second language. Prerequisite: placement by advisor.

**ESL 081 Listening/Speaking/Pronunciation I** 2-2-3  
Development of beginning listening/speaking/pronunciation skills for students of English as a second language. Prerequisite: placement by advisor.

**ESL 082 Listening/Speaking/Pronunciation II** 2-2-3  
Development of low-intermediate listening/speaking/pronunciation skills for students of English as a second language. Prerequisite: placement by advisor.

**ESL 083 Listening/Speaking/Pronunciation III** 2-2-3  
Development of intermediate listening/speaking/pronunciation skills for students of English as a second language. Introduction to academic listening, note taking, and small group participation. Prerequisite: placement by advisor.

**ESL 084 Listening/Speaking/Pronunciation IV** 2-2-3  
Development of high-intermediate listening/speaking/pronunciation skills for students of English as a second language. Academic listening, note taking, and small group participation. Prerequisite: placement by advisor.

**ESL 085 Listening/Speaking/Pronunciation V** 2-2-3  
Development of advanced listening/speaking/pronunciation skills for students of English as a second language. Academic lecture listening, note taking, small group leadership, and oral presentations. Prerequisite: placement by advisor.

**ESL 086 English Language Pronunciation** 3-0-3  
Integrated skills approach to evaluating and improving oral production skills for non-native speakers of English. F S Su

**ESL 087 English Language Conversation Practice** 1-0-1  
Improve students' conversational fluency in spoken English. F S

**ESL 088 Community English** 0-4-2  
Non-academic English language skills for immigrants and visitors to the community with attention being paid to reading, writing, listening, speaking fluency, and pronunciation. F S

**ESL 091 Grammar/Writing I** 3-3-4  
Introduction to basic grammar and structures of writing for students of English as a second language. Prerequisite: placement by advisor.

**ESL 092 Grammar/Writing II** 3-3-4  
Development of low-intermediate grammar and writing skills for students of English as a second language. Prerequisite: placement by advisor.

**ESL 093 Grammar/Writing III** 3-3-4  
Development of intermediate grammar and writing skills for students of English as a second language. Prerequisite: placement by advisor.

**ESL 094 Grammar/Writing IV** 3-3-4  
Development of high-intermediate grammar and writing skills for students of English as a second language. Introduction to essay format and college-level discourse. Prerequisite: placement by advisor.

**ESL 095 Grammar/Writing V** 3-3-4  
Development of advanced grammar and writing skills for students of English as a second language. Preparation for college writing and textbook reading. Prerequisite: placement by advisor.

**ESL 097 American Academic Culture for Non-Native Speakers** 2-2-3  
Introduction to and development of American academic culture for speakers of English as a second language. Preparation for college-level coursework. Repeatable for a maximum of 9 credit hours. Prerequisite: placement by advisor. F S Su

**ESL 570 TOEFL Preparation** 1-0-1  
Students will practice English skills and test-taking strategies for TOEFL. F S

# Engineering Science and Technologies

Agriculture/Engineering Science and Technologies  
217/351-2481 • parkland.edu/agest

## **EST 110 Engineering Science and Technologies CAD Work Experience** 0-5-1 or 0-10-2

On an independent study basis, students complete an advanced CAD project in an area in which they seek experience and employment. Prerequisites: credit or concurrent enrollment in CAD 132, CAD 214, and CAD 232, and approval of program director or department chair. Repeatable 3 times. F S

## **EST 113 Work Experience and Ethics** -5-4-1

Prepare resume and cover letter. Detailed journal documenting internship. Introduction to work ethics and traits that employers look for in current and prospective employees.

## **EST 114 Career and Technical Ethics** 1-0-1 or 2-0-2

Introduction to the importance of work ethics and the top 10 work ethic traits that employers look for in current and prospective employees. Emphasis on how strong work ethics help employees succeed in the workplace. F S Su

# French

Humanities  
217/351-2217 • parkland.edu/hum

## **FRE 100 Introduction to Basic French I** 2-0-2

Intended for students with no previous instruction in French. Basic French with attention to oral communication, culture, and language needs of student, traveler, and worker. F S Su

## **FRE 101 Beginning French I** 4-0-4

For students with no previous and/or little instruction in French. Development of basic communicative skills. Emphasis on speaking, listening, reading, writing, and on Francophone culture. Prerequisite: ENG 101 placement. (Also in Dijon Program) F S

## **FRE 102 Beginning French II** 4-0-4

Continued development of communicative skills. Emphasis on speaking, listening, reading, writing, and on Francophone culture. Prerequisite: FRE 101 or equivalent. (Also in Dijon Program) F S Su

## **FRE 103 Intermediate French I** 4-0-4

Development of intermediate-level communicative competence. Emphasis on speaking, listening, reading, writing, and on Francophone culture. Prerequisite: FRE 102 or equivalent. (Also in Dijon Program) F

## **FRE 104 Intermediate French II** 4-0-4

(IAI H1 900) Continued development and refinement of intermediate-level communicative competence. Emphasis on speaking, listening, reading, writing, and on Francophone culture. Prerequisite: FRE 103 or equivalent. (Also in Dijon Program) S

# Fire Service Technology

Health Professions  
217/351-2224 • parkland.edu/hp

## **FST 110 Work Experience I** 0-5-1

On-the-scene observation of fire service personnel at work and opportunity for students to interact with their community in an on-the-job perspective of the fire service. Through a collaborative effort with participating fire departments students learn about the various aspects of the life of a firefighter.

## **FST 111 Introduction to the Fire Service** 3-0-3

Provides an overview to fire service; career opportunities in fire protection and related fields; philosophy and history of the fire service; fire loss analysis; organization and function of public fire protection services; fire departments as part of local government; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics. F

## **FST 112 Command Officer Management I** 3-0-3

One of two management courses required for Illinois certification as a Fire Officer I. Presents a basic course to help individuals develop the skills needed to supervise and direct personnel and manage resources at the company level. Prepares student for certification as Fire Officer I. FE

## **FST 114 Fire Prevention Principles** 3-0-3

Provides basic information about fire prevention activities conducted by the fire department. SO

## **FST 115 Tactics and Strategy I** 3-0-3

Survey of fire suppression companies; basic elements of fireground tactics and organization; manpower, apparatus, equipment, and systems utilization. Emphasis on preplanning fireground organization and decision making for the company officer. SO

## **FST 116 Basic Operations Firefighter I** 3-0-3

Cognitive training needed to operate safely and effectively on the fire ground. Basic job requirements for an entry level firefighter. Topics discussed include history of the fire service, safety and health, building construction, and fire behavior.

## **FST 117 Pump Operator (FAE)** 3-0-3

Theoretical and practical hydraulics, maintenance procedures, and apparatus testing used by fire departments. Qualifies firefighters for OSFM Certification as a Fire Apparatus Engineer. F

## **FST 118 Fire Service Instructor I** 3-0-3

Methods of classroom instruction. Lesson plans and human relations in the teaching-learning environment. SO

## **FST 130 Civilian/Law Enforcement Bypass Course** 3-0-3

Required by the Office of the State Fire Marshal for certification of civilians as fire prevention officers and law enforcement officers as fire investigators. Emphasizes baseline fire science knowledge not possessed by civilians. F S Su

## **FST 132 Basic Operations Firefighter II** 3-0-3

Cognitive training needed to operate safely and effectively on the fire ground. Basic job requirements for an entry level firefighter. Topics discussed include ladders, hose, appliances, nozzles, fire streams, water supply, master streams, forcible entry, and ventilation.

**FST 152 Basic Operations Firefighter III 3-0-3**

Cognitive training needed to operate safely and effectively on the fire ground. Basic job requirements for an entry level firefighter. Topics discussed include search, rescue, fire control, loss control, wildland firefighting, installed systems, firefighter survival, RIT team operations, prevention, public education, cause, and origin.

**FST 210 Hazardous Materials Operations 3-0-3**

Systems approach to storage, transportation, and handling of hazardous materials, flammable liquids, combustible solids, oxidizing and corrosive materials, and radioactive compounds. Use of reference sources on various hazardous materials. Emphasis on control of hazardous materials incidents. F

**FST 212 Command Officer Management II 3-0-3**

One of two management courses required for Illinois certification as a Fire Officer I. Provides management principles and techniques used by mid-level managers and chief officers in the fire service and emphasizes principles of time management, decision making, motivation, and delegation. SO

**FST 215 Fire Fighting Strategy and Tactics II 3-0-3**

Strategic concepts in fire fighting, locations of fire fighting resources, tactics emphasizing use of operational plans, and pre fire plans. Establishment of command for operational control and use and control of mutual aid during multiple emergencies or simple catastrophic fires or disasters. SE

**FST 216 Advanced Technician Firefighter 4-0-4**

Cognitive training needed to operate safely and effectively on the fire ground. Advanced job requirements for a firefighter including fire behavior, fire control, tools and equipment, forcible entry, ventilation, firefighter survival, prevention, public education, cause, and origin.

**FST 218 Fire Service Instructor II 3-0-3**

Methods of classroom instruction structured to provide information about writing performance objectives, developing lesson plans, and methods of testing and evaluating students. SE

**FST 234 Command Officer Management III 3-0-3**

One of two management courses required for Illinois certification as a Fire Officer II. Provides management principles and techniques used by mid-level managers and chief officers in the fire service. Principles of public relations, labor relations, administrative liability, and personnel management emphasized. FO

**FST 235 Command Officer Management IV 3-0-3**

Prepares the fire officer to develop budgets, evaluate subordinates, maintain records, conduct public relations, and develop fire department rules and standard operating procedures. SE

**FST 250 Fire and Emergency Management Computer Systems 2-2-3**

Fire and emergency services information management systems, system analysis techniques, data processing concepts, terminology, equipment, and applications. Hands-on experience with microcomputers including software packages for data analysis and emergency management applications. Prerequisite: MAT 086, MAT 098, or assessment. F S Su

**FST 251 Fire Inspector I 3-0-3**

Course required for Fire Inspector I state certification. Authority of fire prevention responsibilities including inspection procedures, plans review, fire hazard recognition, installed systems familiarization, building construction, occupancy classification, site access and means of egress considerations, and emergency planning. FE

**FST 253 Public Fire and Life Safety Educator 3-0-3**

Provides the Public Fire/Life Safety Educator I component required for certification as Fire Prevention Officer I by Office of State Fire Marshal. Also provides Public Information Officer and Juvenile Fire-Setter Intervention Specialist I certification.

## First Year Experience

*Center for Academic Success*

217/351-2441 • [parkland.edu/cas](http://parkland.edu/cas)

**FYE 101 Strategies for College Success 1-0-1; 2-0-2; 3-0-3**

Designed to help students succeed in college and beyond. Includes self-assessment, goal-setting, educational and career planning, time management, interpersonal communication, and personal development. F S

## Graphic Design

*Fine and Applied Arts*

217/351-2217 • [parkland.edu/faa](http://parkland.edu/faa)

**GDS 102 Graphic Design History 3-0-3**

Surveys the field of graphic design from its origins to contemporary practice. Develops visual vocabulary, provides insight into the continuity of design thinking, and provides cultural and historical context for design practice. F S

**GDS 108 Design Media and Principles 2-2-3**

Introduction to composition and visual literacy for digital media artists and designers. Surveys a broad range of digital tools including the Adobe Creative Suite. Prerequisite: proficiency with personal computers and Internet browsing. F S Su

**GDS 110 Typography I 2-2-3**

Introduction to creative typography for visual communication. Create typographic compositions using Adobe Creative Suite for print and web. Emphasis on terminology, typographic traditions, type aesthetics. Prerequisite: proficiency with personal computers and Internet browsing. F S

**GDS 120 Graphic Design I 2-3-3**

Introduction to the creative process and image making with a focus on composition. Solve real world visual communication problems in a hands-on studio environment using Adobe Creative Suite. Prerequisites: GDS 108 or ART 121, and ART 122 or approval of instructor or department chair. F S

**GDS 122 Graphic Design II 2-2-3**

Introduction to systems of visual organization in graphic design with a focus on conceptual development and print production. Communicate creative concepts through effective use of type and images. Develop dynamic portfolio samples using Adobe Creative Suite. Prerequisite: GDS 120. F

**GDS 171 Introduction to Wordpress 2-2-3**

Design functional websites with an emphasis on the user experience. Create user interface design, sitemaps, and visual content for the web. Emphasis on creative problem solving, web standards and becoming power users of Wordpress. Prerequisites: CIS 152 and GDS 108, or approval of instructor or department chair. F

**GDS 172 Typography II** **2-2-3**  
Compose professional-level type for print using Adobe InDesign. Emphasis on publication design, grid systems, legibility, readability, typographic hierarchy, style sheets and pre-press issues. Prerequisite: GDS 110. S

**GDS 220 Graphic Design for the Web** **2-2-3**  
A visual approach to web design with an emphasis on creative concepts and applied design principles. Design dynamic web experiences using Adobe Creative Suite. Prerequisites: CIS 152, GDS 120, or approval of instructor or department chair. F

**GDS 222 Graphic Design III** **1-2-2**  
Self-directed advanced visual problem solving projects. Develop presentations skills and become power users of Adobe Creative Suite. Prerequisite: credit or concurrent enrollment in GDS 122. F

**GDS 230 Motion Design** **2-2-3**  
Create advanced motion graphics for digital video, broadcast, and the web. Develop client-driven portfolio samples with emphasis on creative concepts. Communicate advertising, promotion, and editorial concepts with AfterEffects and other digital tools. Prerequisites: GDS 108, GDS 120, GDS 220, and CIS 152, or approval of program director or department chair. S

**GDS 271 Interactive Design I** **2-2-3**  
Design user experiences for digital media with an emphasis on creative problem solving. Create interactive websites and apps that use current technology to meet real-world marketing communication objectives. Prerequisites: GDS 108, GDS 120, and CIS 152, or approval of instructor or department chair. S

**GDS 272 Interactive Design II** **1-2-2**  
Self-directed creative problem-solving and conceptual digital media projects with a focus on meeting real-world marketing communication objectives. Create dynamic user experiences in interactive websites and apps with an emphasis on building a portfolio of high quality samples. Prerequisite: credit or concurrent enrollment in GDS 271. S

**GDS 273 Illustration I** **2-2-3**  
Gain experience in visual communication by creating illustrations for editorial, advertising, information graphics and other commercial art applications. Advanced uses of digital tools for creating original art. Prerequisites: GDS 108 or ART 121, ART 122, and GDS 120. F

**GDS 274 Illustration II** **1-2-2**  
Self-directed creative problem-solving and conceptual thinking projects focusing on creating original images for editorial and advertising. Emphasis on building a consistent body of work with a distinctive individual style. Fine tune skills in Illustrator and Photoshop. Prerequisite: credit or concurrent enrollment in GDS 273. F

**GDS 292 Graphic Design Studio** **1-12-3**  
Supervised classroom service learning project. Gain practical experience in professional business practices. Portfolio review required. May be repeated for a maximum of 6 credit hours. Prerequisites: sophomore standing in Graphic Design and 3.0 program GPA, or approval of instructor or department chair. F S

**GDS 293 Portfolio Seminar** **2-2-3**  
Under the direction of the instructor, students fine-tune and edit their portfolios, design a self-promotion campaign, build a self-promotion web site, and develop their personal résumés. Includes seminars with industry professionals. Prerequisites: GDS 220, sophomore standing in Graphic Design, and 3.0 program GPA, or approval of instructor or department chair. S

## Geography

*Social Sciences and Human Services*  
217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

**GEO 140 World Geography** **3-0-3**  
(IAI S4 901) World places and peoples; world regions examined for their cultural response to the physical environment. Emphasis on technologically developed regions. (Also in Canterbury Program.) F S Su

**GEO 143 Geography of Underdeveloped Areas** **3-0-3**  
(IAI S4 902N) Survey of technologically underdeveloped regions of the world: spatial arrangements of population, human institutions, economic activities, and cultural landscapes. F S Su

**GEO 144 Geography of the United States** **3-0-3**  
Introduction to regional and social diversity of the United States. Physical, historical, and economic bases of regional divisions: south (old and new), northeast (rural and urban), interior (midwest and great plains), and west (mountain and desert). (Canterbury Program only.)

**GEO 200 Introduction to Economic Geography** **3-0-3**  
(IAI S4 903N) Introduction to the study of reasons for uneven distribution of activities relating to production, exchange, and consumption of goods and services and geographic patterns created by these activities. S

## German

*Humanities*  
217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

**GER 101 Beginning German I** **4-0-4**  
For students with no previous and/or little instruction in German. Development of basic communicative skills. Emphasis on speaking, listening, reading, writing, and on Germanic culture. Prerequisite: ENG 101 placement. (Also in Salzburg Program) F S

**GER 102 Beginning German II** **4-0-4**  
Continued development of communicative skills. Emphasis on speaking, listening, reading, writing, and on Germanic culture. Prerequisite: GER 101 or equivalent. (Also in Salzburg Program) S Su

**GER 103 Intermediate German I** **4-0-4**  
Development of intermediate-level communicative competence. Emphasis on speaking, listening, reading, writing, and on Germanic culture. Prerequisite: GER 102 or equivalent. (Also in Salzburg Program) F

**GER 104 Intermediate German II** **4-0-4**  
(IAI H1 900) Continued development and refinement of intermediate level communicative competence. Emphasis on speaking, listening, reading, writing, and on Germanic culture. Prerequisite: GER 103 or equivalent. (Also in Salzburg Program) S

# Geographic Information Systems

Agriculture/Engineering Science and Technologies  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

## GIS 110 Principles of Geographic Information Systems 3-0-3

Components of basic GIS and how they are assembled: requisition of data, maps, and other information used to build a database; basic pilot projects demonstrated step-by-step through various applications in GIS.

## GIS 111 Applied Geographic Information Systems 3-0-3

GIS application areas, both present and future; toxic materials, traffic flow, mining, forestry, agriculture, natural resources, energy, and communication; semester-long application project of student's choice developed on computer. Prerequisite: GIS 110. S

## GIS 112 Global Positioning Systems 1-0-1

Basic applications of Global Positioning System (GPS) methods for data collection. Overview of system operation, proper use and limitations. Data interpretation and export for use in Geographic Information Systems (GIS) and related processes.

## GIS 115 Remote Sensing Applications 2-2-3

Introduction to the characteristics of various sensors, data collection and analysis applicable to remote sensing applications with traditional aerial platforms and civil unmanned aerial system (UAS) operations.

## GIS 116 GIS Seminar 1-0-1

A group project through which students demonstrate their knowledge and skills developed while completing the required GIS courses. Students will present the collaborative project to a group of GIS practitioners. Prerequisites: GIS 110, GIS 111, GIS 112, and GIS 115.

# Health Careers

Health Professions  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

## HCS 112 Orientation to Health Careers 2-0-2

Duties and educational requirements of health care providers. Basic body systems. Develop and practice skills required in all health occupation. Equivalent to Health Occupations at high school level. Prerequisites: CCS 099, MAT 070 or MAT 080 placement, and ENG 101 placement. F S

## HCS 136 Basic Topics in Healthcare 1-0-1; 2-0-2; 3-0-3; 4-0-4

Study of new and cutting-edge topics of interest to the student new to healthcare. Repeatable for a maximum of 16 credit hours. F S Su

## HCS 150 Complementary Alternative Therapies in Health Care I 3-0-3

Guided learning experience to investigate various healthcare practices such as traditional Chinese medicine, botanicals, manual techniques, mind-body techniques, and other therapies. Prerequisites: CCS 099 placement and ENG 101 placement. F S

## HCS 151 Health Care Records Management 2-0-2

Application of health care records management terms and skills: records ownership, types, rules for filing and systems, common documents, correspondence, and computer application (EMR). Prerequisites: ENG 101 placement, or approval of program director or department chair. F S Su

## HCS 153 Phlebotomy Skills .5-1.5-1

Routine phlebotomy procedures, venipuncture techniques, phlebotomy equipment, micropuncture techniques, safe practices, and medicolegal aspects. Clinical laboratory experience in phlebotomy. F S Su

## HCS 154 Medical Terminology 3-0-3

Building medical vocabulary, including learning to pronounce, spell, define, and analyze medical terms. Prerequisites: CCS 099 placement and ENG 101 placement. F S Su

## HCS 173 Applied Electrocardiography 1-1-1

Entry-level training to perform, process, and explain the electrocardiogram; overview of cardiac anatomy, physiology, and conduction systems; commonly encountered drugs in cardiac medicine; data procurement, selection, processing, overview of diagnostic tests and presentation for physician's interpretation; professional conduct. F S Su

## HCS 174 Legal Issues in Health Care 1-0-1

Law as it pertains to health professionals, consent for medical services, invasion of privacy, malpractice, governmental regulations, actions for collecting patient bills, bioethical, and end of life issues. Prerequisites: CCS 099 placement and ENG 101 placement, or approval of program director or department chair. F S

## HCS 236 Advanced Topics in Healthcare 1-0-1; 2-0-2; 3-0-3; 4-0-4

New and emerging healthcare topics requiring some healthcare background and preparation. Prerequisites to be determined by the faculty. Repeatable for a maximum of 12 credit hours. Prerequisite: ENG 101 placement. F S Su

# History

Social Sciences and Human Services  
217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

## HIS 101 History of Western Civilization I 4-0-4

(IAI S2 902) Examination of the origins and development of major social, political, economic, and intellectual institutions of European civilization from the ancient cultures of Mediterranean world through 1715. Prerequisite: ENG 099 placement. F S

## HIS 102 History of Western Civilization II 4-0-4

(IAI S2 903) Examination of the origins and development of major social, political, economic, and intellectual institutions of European civilization from 1715 through the present. Prerequisite: ENG 099 placement. (3 credit hours in Salzburg program) S

## HIS 104 History of the U.S. to 1877 4-0-4

(IAI S2 900) Survey of American history from its European and Native American origins through Reconstruction. Emphasis on the economic, political, cultural, and social forces that have shaped the American past. Prerequisite: ENG 099 placement. F S

**HIS 105 History of the U.S., 1877 to Present 4-0-4**  
(IAI S2 901) Survey of American history from Reconstruction to the present. Emphasis on the economic, political, cultural, and social forces that have shaped the American past. Prerequisite: ENG 099 placement. F S Su

**HIS 107 The History of Illinois 4-0-4**  
Illinois history from the earliest times to the present. Includes political, economic, social, cultural, educational, and constitutional developments. Prerequisite: ENG 099 placement. S Su

**HIS 108 World History I 4-0-4**  
(IAI S2 912 N) Examination of the economic, social, cultural and political history of global peoples and cultures from ancient times to 1500. Prerequisite: ENG 099 placement. F S

**HIS 109 World History II 4-0-4**  
(IAI S2 913 N) Economic, social, cultural and political history of global peoples and cultures from 1500 to the present. Prerequisite: ENG 099 placement.

**HIS 120 African American History to 1865 3-0-3**  
(S2 923D) History of African American people in the United States from the African past to 1865. Emphasis on the changing economic, political, social, and cultural conditions of African Americans and on their contributions to American society. Prerequisite: ENG 099 placement. F

**HIS 121 African American History from 1865 to Present 3-0-3**  
(S2 923D) History of African American people in the United States from 1865 to the present. Emphasis on the changing economic, political, social, and cultural conditions of African Americans and on their contributions to American society. Prerequisite: ENG 099 placement. S

**HIS 123 History of the Middle East 4-0-4**  
(IAI S2 920N) Examination of origins and development of geographic, social, political, economic, and religious forces which have contributed to the formation of major institutions in the Middle East from the appearance of cultural complexity to modern times. Prerequisite: ENG 099 placement. S

**HIS 128 History of Asia and Pacific Region 4-0-4**  
(IAI S2 920N) Political, social, economic, and cultural history of Asia and the Pacific Region from ancient times to the present; responses and adaptations to Western influence, modernizations, and transformations to the present. Prerequisite: ENG 099 placement. F

**HIS 129 History of Africa 4-0-4**  
(IAI S2 920N) Origins and development of major geographical, social, political, economic, and religious forces which have contributed to the formation of major institutions in Africa from the appearance of humankind to modern times. Prerequisite: ENG 099 placement. S

**HIS 140 History of Latin America 4-0-4**  
(IAI S2 920N) Origins and development of major geographic, social, political, and religious forces which have contributed to the formation of major institutions in Latin America from the era of Teotihuacan and the Olmec, Maya, Inca, and Aztec to the development of contemporary Latin American nations. Prerequisite: ENG 099 placement. F

**HIS 145 History of the Labor Movement 3-0-3**  
Effects of labor on economic, political, and social systems of the United States.

**HIS 165 Austrian Civilization 3-0-3**  
Introduction to Austrian history and culture from seventeenth century to present. Prerequisite: ENG 099 placement. (Salzburg Program only)

**HIS 166 British History I 3-0-3**  
Survey of British history to 1714: Roman and Anglo-Saxon invasions, Norman Conquest, Chaucer's England, and British-American relations. Prerequisite: ENG 099 placement. (Also in Canterbury Program) F

**HIS 167 British History II 3-0-3**  
Survey of British history from 1714, including growth of the British Empire, the Irish question, the American Revolution, Victorian Britain, and contemporary Britain. Prerequisite: ENG 099 placement. (Also in Canterbury Program) S

**HIS 168 Modern Europe in Transition 3-0-3**  
Examination of the continuities and discontinuities of European affairs since modern revolutions that set the stage for today's political discourse. Prerequisite: ENG 099 placement. (Salzburg Program only)

**HIS 169 England in the Middle Ages 3-0-3**  
Study of medieval history focusing on events surrounding Norman Conquest of England in 1066. Prerequisite: ENG 099 placement. (Canterbury Program only)

**HIS 203 The History of Women in America 3-0-3**  
A multicultural survey of the roles, experiences, and problems of American women from the colonial period to the present. The images of womanhood, the Victorian woman, women at work and war, suffrage movement, and modern feminism. Prerequisite: ENG 099 placement. F S

**HIS 289 Topics in History 3-0-3**  
Study of selected topics in history. Topics vary according to section and semester and are listed in the class schedule. Students may also request topics. A total of 6 credit hours may be taken in topics courses numbered 289, but HIS 289 is not repeatable for credit. Prerequisite: ENG 101 placement and 3 credit hours in the discipline.

## Hospitality Industry

*Business/Computer Science and Technologies*  
217/351-2209 • [parkland.edu/bcst](http://parkland.edu/bcst)

**HPI 110 Foodservice Sanitation Certification 1-0-1**  
Foodservice sanitation as it applies to every phase of foodservice operations. Emphasizes cleanliness and protection of the health of the public served as well as of the organization's staff. Includes certification exam. F S Su

**HPI 111 Introduction to the Hospitality Industry 3-0-3**  
Overview of the hospitality industry focusing on the food service and lodging industries history and organization of hospitality industry with emphasis on career opportunities and management. Basic operational structures of restaurants, institutions, hotels, clubs, and resorts. F S

**HPI 112 Food Standards and Production I 3-4-5**  
Expands on skills and knowledge to develop a strong foundation within culinary arts management. This course examines food handling techniques, preparation, and production. Includes kitchen laboratory experiences in meat, poultry, seafood, vegetables, soups and salads. Prerequisites: HPI 110 and HPI 116, or approval of program director or department chair. S

**HPI 113 Food Service Systems 3-0-3**

A systems approach to management of food service operations. Examination of inputs, transformation, and output of food service operations. Management of food production, financial resources, human resources, marketing to achieve guest satisfaction, and profitability. S

**HPI 114 Human Resource Management and Supervision 3-0-3**

Management methods use to lead and supervise staff. Skills and techniques used to form an effective staff for the hospitality environment. Self management, staff selection, orientation, training, motivating, evaluating and retention. Study of leadership characteristics. S

**HPI 115 Menu Management and Design 2-2-3**

The menu's role in controlling and directing a foodservice operation. Computer use to calculate selling price and cost analysis of recipes. Menu engineering approach to menu design including consumer decision making behavior. F

**HPI 116 Kitchen Basics 1-3-2**

Survey of professional culinary standards and production methods. Lab experience with knife skills, mise en place and cooking methods. Proper use and maintenance of common commercial equipment. Foundational knowledge of classical cuisine preparation. Prerequisite: HPI 110 or approval of instructor or department chair. F

**HPI 117 Hospitality Managerial Accounting 3-0-3**

Hospitality management's use of the balance sheet, income statement, and statement of cash flow to analyze operational performance. Use of financial ratios to make business decisions. Depreciation, ROI and ROA, and interpretation of market forces on the unit operation. F

**HPI 132 Resort and Event Operations 3-0-3**

Examination of the resort segment of the lodging industry; tourism's relationship with types of resorts; quality service within the context of the hospitality industry. Event management and planning as a sub-function of resort operations. Su

**HPI 139 Food Standards and Production II 2-4-4**

Practical laboratory experiences with primary focus on desserts, pastries and other bakery products. Lab experience to include preparation of sandwiches, fruits, salads and dressings. Group planning, production, presentation, and serving of complete guest meal. Prerequisites: HPI 110 and HPI 116, or approval of program director or department chair. F

**HPI 211 Food and Beverage Cost Management Systems 4-0-4**

Examination of methods to measure and control operational costs. Use of Excel as a primary tool to collect and analyze data gathered from operational activities. Focus on controlling product costs, labor costs and controllable expenses. F

**HPI 214 Hospitality Industry Seminar 2-0-2**

Investigate and report on industry topics and trends. Prepare written evaluations of selected topics ranging from management and leadership to hospitality and culinary trends. Conduct Internet research to form personal opinions and support conclusions. Prerequisite: concurrent enrollment in HPI 215. S Su

**HPI 215 Hospitality Industry Work Experience 0-20-4**

Students perform 300 hours of work experience in approved hospitality facility related to their area of specialization. Prerequisites: HPI 111, completion of 15 semester credit hours in program area, and concurrent enrollment in HPI 214. S Su

**HPI 216 Bar and Beverage Operations 3-0-3**

Responsible management of for-profit beverage operations. Examination of planning, equipping, and staffing of beverage operations. Review of purchasing procedures, inventory control, pricing and marketing of all categories of alcohol beverages. Includes mixology training. S

**HPI 230 Housekeeping and Facilities Management 3-0-3**

Facility management methods necessary to meet visitor and guest expectations of quality. Technical knowledge of the hotel/motel housekeeping department and building/facilities maintenance department. Supervision and training required to build a professional facilities team. S

**HPI 231 Front Office Operations 3-0-3**

Reservations, registration, rooming, guest relations, accounting, and night audit; guest complaints and security; staffing; and emphasis on automated systems, including computerized property management system exercise. Prerequisite: credit or concurrent enrollment in HPI 111. F

**HPI 233 Hospitality and Travel Marketing 3-0-3**

Planning and implementing effective marketing strategies to maximize revenues and guest satisfaction; direct sales, public relations, and advertising. Relationships of carriers, suppliers, and travel intermediaries. Prerequisite: concurrent enrollment in HPI 111. S

**HPI 234 Hospitality Industry Law 3-0-3**

Legal concepts for the hospitality manager to recognize in a preventative approach to avoid liability. Knowledge of the law improves guest service and awareness to potential hazards. Review of negligence, merchantability, contract, Dram Shop, and employment laws. S

**HPI 237 Food Standards and Production III 2-4-4**

Advanced methods of food production integrate menu planning, product costing, and culinary methods. Examination of station setup, work flow and equipment layout required for specific menu production. Topics include international cuisine and nutritional considerations. Prerequisites: HPI 112 and HPI 139, or approval of program director or department chair. S

**HPI 239 Catering and Food Production 1-4-3**

Student management and experience in food production and service dynamics as they plan and operate special event catering and student cafes. Prerequisite: credit or concurrent enrollment in HPI 237, or approval of program director or department chair. S

## Horticulture/Landscape

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**HRT 111 Sustainable Urban Horticulture 2-2-3**

Overview of how to produce food crops and methods of overcoming the challenges facing the availability of fresh and nutritious food produce. Sustainable food production and gardening as alternative to traditional rural farming and distribution for local foods. F

**HRT 116 Introduction to Landscape Design 3-0-3**

Methods and techniques of drafting and preparing basic landscape designs for residential and commercial settings; theory and practical experience in large- and small-scale design projects; overview of business aspects. F

**HRT 118 Horticulture Equipment Operation 2-2-3**

Introduction to basic operation and maintenance of horticulture-related equipment; safe operation of equipment and use of safety materials. F

**HRT 119 Landscape Construction and Maintenance 3-0-3**

Construction methods for residential and commercial landscapes; techniques and uses of materials related to construction of various landscape features; use of construction materials and maintenance; reading and interpreting landscape plans and drainage techniques. S

**HRT 130 Floral Design I 2-2-3**

Introduces the art of floral design based on design elements and principles. Techniques and mechanics of constructing centerpieces, corsages, boutonnières, and theme designs are practiced in hands-on labs. Flower identification and care and handling are covered.

**HRT 211 Pest Management and Pruning Principles 2-2-3**

Identification, control, and management of insects, weeds and diseases of landscape plant material. Including the pest, its life cycle, hosts, symptoms, diagnosis and controls. Basic tree and shrub pruning for plant maintenance. Prerequisite: credit or concurrent enrollment in AGB 104. F

**HRT 230 Floral Design II 2-2-3**

Expands on concepts and skills learned in Floral Design I; How to take orders, conduct consultations, and order flowers wholesale. Designs focus on weddings and funerals and are practiced in hands-on labs. Prerequisite: HRT 130.

**HRT 253 Herbaceous Plants 3-0-3**

Identification, selection, use, and maintenance of herbaceous (perennial, biennial, annual, and bulbs) plants in the landscape. Techniques in growth and maintenance of herbaceous plants. Prerequisite: AGB 104 or approval of instructor or department chair. S

**HRT 254 Woody Ornamentals 2-2-3**

Identification of deciduous trees, shrubs, and evergreens used primarily in landscaping. Techniques in growth and maintenance of trees and shrubs. Prerequisite: AGB 104 or approval of instructor or department chair. FA F

**HRT 255 Landscape Graphic Design 3-0-3**

Advanced landscape graphic design techniques: freehand sketching, preparing quick designs, perspective sketching, color drawing, and computer design. Review design processes, principles, and design techniques and apply them to commercial and residential situations. Prerequisite: HRT 116 or approval of department chair. S

**HRT 257 Horticultural Business Management 3-0-3**

Provides current and future managers of landscaping businesses the opportunity to understand latest methods of combining resources to operate successful businesses. Emphasis on crew/team management and financial issues, including pricing materials, project bidding, and estimating. S

**HRT 270 Greenhouse Crop Production 2-2-3**

Production of various crops in the greenhouse environment, including flowers, herbs, and garden plants. Topics include propagation, cultural practices, and scheduling crop growth for target market periods. Hands-on experience in the greenhouse plus field trips. Prerequisite: credit or concurrent enrollment in AGB 104. S

# Humanities

*Humanities*

217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

**HUM 101 Western Culture: Antiquity to Renaissance 3-0-3**

(IAI HF 902) Exploration of Western culture as expressed in art, literature, history, philosophy, and music from ancient world to Renaissance. Prerequisite: ENG 101 placement. (Also in Dijon Program) F Su

**HUM 102 Western Culture: Renaissance to Present 3-0-3**

(IAI HF 903) Exploration of Western culture as expressed in art, literature, history, philosophy, and music from Renaissance through contemporary period. Prerequisite: ENG 101 placement. (Also in Dijon Program) F S

**HUM 103 Cultural Values in the Eastern World 3-0-3**

(IAI HF 904N) Exploration of East Asian cultures (Chinese, Japanese, Korean) as expressed in art, music, literature, history, and philosophy. Prerequisite: ENG 101 placement. F S Su

**HUM 104 Islamic Culture and Civilization 3-0-3**

(IAI H2 903N) Exploration of Islamic culture as expressed in art, music, literature, history, society, and philosophy. Prerequisite: ENG 101 placement. F S Su

**HUM 105 Cultures and Civilization of Sub-Saharan Africa 3-0-3**

(IAI HF 904N) Exploration of cultures in Sub-Saharan Africa as expressed in art, music, literature, history, and philosophy. Prerequisite: ENG 101 placement. F S Su

**HUM 106 Latin American Cultures and Civilizations 3-0-3**

(IAI H2 903N) Exploration of Latin American cultures, including arts, history, literature, and social institutions. Prerequisite: ENG 101 placement. (Also in Costa Rica Program) F S Su

**HUM 107 Introduction to Mexican Culture 3-0-3**

(IAI H2 903N) Exploration of Mexican cultural heritage from the pre-Columbian era through to the present. Prerequisite: ENG 101 placement. F S Su

**HUM 109 Cultural Values of India and Its Neighbors 3-0-3**

(IAI HF 904N) Exploration of South Asian cultures (India, Pakistan, Afghanistan, Myanmar, Sri Lanka, Nepal, Bangladesh) as expressed in art, music, literature, history, and philosophy. Prerequisite: ENG 101 placement. F S Su

**HUM 121 Women in Arts, Cultures, and Societies 3-0-3**

(IAI HF 907D) Survey of representation of women in both traditional and popular arts and cultures (film, literature, music, television, visual art); emphasis on the relationship of such representation to the values, behaviors, and structures of societies. Prerequisite: ENG 101 placement. F S

**HUM 122 Native American Cultures of North America 3-0-3**

Past and present Native American cultures through selected works of literature, history, visual art, music, and other contemporary forms of expression. Prerequisite: ENG 101 placement. F S

**HUM 123 The Irish Experience 3-0-3**

Provides international students attending Carlow College an overview of Irish history, geography, religions, art and architecture, emigration, and their impact on contemporary Irish culture. Prerequisite: ENG 101 placement. (Carlow, Ireland program only) F S

**HUM 124 Humanities Field Experience 3-0-3**

Students develop an appreciation of a country's culture through a greater understanding of art, music, literature, philosophy, geography, history, and other cultural aspects. The travel component of the course synthesizes the topics studied and enhances knowledge of the new culture. F S Su

**HUM 125 Culture and Society of Spain 3-0-3**

Spanish life and character as shaped through history, art, music and film, language and literature, social values, traditions. (Seville, Spain program only)

**HUM 166 European Cities 3-0-3**

Urban cultures and traditions of Europe. Survey of nine major cities in terms of historical development and changing aesthetic ideals. Includes some site visits. Prerequisite: ENG 101 placement. (Salzburg Program only) F S

## Heating, Ventilation, and Air Conditioning

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**HVC 111 Basic Air Conditioning 2-2-3**

Fundamentals of operation for residential and light commercial air conditioning systems. Proper handling of refrigerants. Prerequisite: credit or concurrent enrollment in ELT 150. F S

**HVC 112 Basic Heating 2-2-3**

Fundamentals of operation for residential and light commercial heating systems. Prerequisite: credit or concurrent enrollment in ELT 150. F S

**HVC 113 Residential HVAC Installation 2-2-3**

Basic HVAC system components and operation concepts, component installation, gas piping, low voltage wiring, basic tool skills, job safety. F

**HVC 114 Ductwork Fabrication 1-2-2**

Basic tool skills, job safety, and fabrication techniques for HVAC ductwork components and systems. Prerequisite: MAT 060 or MAT 094.

**HVC 132 HVAC Control Systems 2-2-3**

Fundamentals of installation, operation, and maintenance of control systems for commercial HVAC systems. Prerequisite: HVC 111 or HVC 112. S

**HVC 134 Commercial HVAC and Service 2-2-3**

Installation, operation, maintenance, and service of commercial HVAC equipment. Prerequisites: HVC 151 and HVC 152. S

**HVC 151 Basic Air Conditioning Service 3-2-4**

Diagnostic techniques for residential and light commercial air conditioning and heat pump systems. Common maintenance and repair methods. Prerequisite: HVC 111.

**HVC 152 Basic Heating Service 2-2-3**

Diagnostic techniques for residential and light commercial heating systems. Common maintenance and repair methods. Prerequisite: HVC 112.

## Independent Study

**IND 288 Independent Study 1-4 credits**

Designed for students who desire a broader opportunity to examine a special problem or subject area in greater detail than the present course offerings allow. Projects may take the form of a reading course, an experiment, or any other program of learning planned jointly by student and instructor. Independent study may not be used as a substitute for any present course in the curriculum. Course may be repeated up to a total of 4 semester hours credit. Prerequisites: 3.0 program GPA at Parkland College, sophomore standing, at least two previous courses in the subject field area, and written consent of the instructor and department chair.

## Italian

*Humanities*  
217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

**ITA 101 Beginning Italian I 4-0-4**

For students with no previous and/or little instruction in Italian. Development of basic communicative skills. Emphasis on speaking, listening, reading, writing, and on Italian culture. Prerequisite: ENG 101 placement. F

**ITA 102 Beginning Italian II 4-0-4**

Continued development of communicative skills. Emphasis on speaking, listening, reading, writing, and Italian culture. Prerequisite: ITA 101 or equivalent. S

**ITA 110 Introduction to Basic Italian I 2-0-2**

For students with no previous formal instruction in Italian. Basic Italian with attention to oral communication, culture, and the language needs of the student, traveler, and worker. F S Su

**ITA 112 Introduction to Basic Italian II 2-0-2**

Continued basic Italian with attention to oral communication, culture, and the language needs of the student, traveler, and worker. Prerequisite: ITA 110 or equivalent. F S

## Japanese

*Humanities*  
217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

**JPN 101 Beginning Japanese I 5-0-5**

Development of basic and oral and written communications skills in Japanese: speaking, listening, reading, writing; introducing Japanese culture. For students with no previous instruction in Japanese. Prerequisite: ENG 101 placement. F

**JPN 102 Beginning Japanese II 5-0-5**

Continued development of basic oral and written communications skills in Japanese: speaking, listening, reading, writing; learn more about Japanese culture. Prerequisite: JPN 101 or equivalent. S

**JPN 103 Intermediate Japanese I 5-0-5**

Development of intermediate-level communications skills in Japanese: grammar, vocabulary, conversation, reading, and writing; emphasis on becoming more familiar with Japanese culture. Prerequisite: JPN 102 or equivalent. F

**JPN 104 Intermediate Japanese II** 5-0-5  
(IAI H1 900) Continued development of intermediate-level communication skills in Japanese: grammar, vocabulary, conversation, reading, and writing; emphasis on Japanese culture. Prerequisite: JPN 103 or equivalent. S

## Kinesiology

Natural Sciences  
217/351-2285 • parkland.edu/ns

**KIN 101 Personal Fitness Training I** 3-3-4  
Fitness testing protocols and norms, client consultation, and the design of exercise prescription for a diverse clientele in the following areas: resistance training, cardiovascular exercise, plyometrics, speed training, nutrition and weight control, flexibility, stability ball, and body-weight exercises. Prerequisites: credit or concurrent enrollment in KIN 186 and BIO 111 or BIO 121 and approval of department chair. F

**KIN 103 Exercise Fitness** 0-2-1  
Emphasis on activities leading to an individualized fitness program. Activities include cycling, treadmill, elliptical, and the use of strength training equipment. No concurrent enrollment in KIN 147, KIN 203, or KIN 247. Repeatable for a maximum of 2 credit hours. F S Su

**KIN 110 Fundamentals Review for the Personal Trainer** 1.5-1-2  
Review of the structure and function of the body as it relates to human movement in the personal training setting. Intended for students pursuing an accelerated personal fitness training certificate. Prerequisite: approval of program director of department chair.

**KIN 124 Golf I** 0-2-1  
Basic skills and elementary theory of golf. S Su

**KIN 141 Beginning Basketball** 0-2-1  
Basic skills and elementary theory of basketball. F S

**KIN 145 Aerobic Dancing** 0-2-1  
Contemporary physical fitness program consisting of dances made up of easy-to-learn steps and step patterns performed to various types of music. Individuals progress at their own rate. Repeatable for a maximum of 2 credit hours. F S Su

**KIN 147 Weight Training** 0-2-1  
Fundamentals of strength training and conditioning through the use of free weights with emphasis on proper lifting techniques. No concurrent enrollment in KIN 103, KIN 203, or KIN 247. Repeatable for a maximum of 2 credit hours. F S Su

**KIN 160 Introduction to Kinesiology** 3-0-3  
Professional opportunities available in the field of kinesiology, including physical education, recreation, safety, intramural and intercollegiate athletics; role of physical education and physical activity in total education; development of vocational objectives. This is the gateway course for the kinesiology program. F S

**KIN 161 Basketball** 1-2-2  
Theory and practice in fundamentals and techniques of basketball with emphasis on skills and the theory and techniques of teaching and coaching basketball. F S

**KIN 164 Introduction to Sports and Exercise Psychology** 3-0-3  
Introduction to variables that affect motivation, goal setting, anxiety, and aggression in sports and exercise. Designed for individuals interested in applied psychological skills relevant to sports and exercise performance. F S

**KIN 168 Theories and Principles of Coaching** 3-0-3  
Theories and principles of coaching emphasizing motivation, practice, game preparation, professional certification/development, and administrative duties. Examines philosophies of notable coaches (Lombardi, Wooden, Robinson, Summit). Content applicable to all levels of competition. Eligible for certification via American Sport Education Program. F Su

**KIN 181 Health Education** 2-0-2  
Personal health and wellness; nutrition, exercise, and stress; alcohol, tobacco, and drugs; and intimate relationships. Emphasis on strategies for modifying behaviors to achieve optimal personal wellness. F S Su

**KIN 183 First Aid and CPR** 2-0-2  
Theory and techniques of first aid and CPR; emphasis on recognizing and responding to emergencies and developing skills needed to provide appropriate care. Health Care Provider level First Aid and CPR certification issued upon successful completion. F S Su

**KIN 184 Introduction to Athletic Training** 3-0-3  
Introduction to athletic training, including history of the profession, modalities, and the prevention, care, and treatment of athletic injuries. S

**KIN 186 Introduction to Human Movement** 2.5-1.5-3  
Introduction to human movement through development of skills and knowledge relative to the study of musculoskeletal anatomy.

**KIN 201 Personal Fitness Training II** 3-5-5  
Continuation of KIN 101 with an emphasis on special populations, including athletes, those with metabolic concerns, cardiovascular and respiratory conditions, injury rehabilitation, spinal cord injury, multiple sclerosis, epilepsy, and cerebral palsy. Also covers facility design and legal concerns. Prerequisites: BIO 111, KIN 101, and KIN 186 with grades of C or higher. S

**KIN 203 Exercise Fitness II** 0-2-1  
Advanced concepts of training under the direction of a personal trainer from Parkland's Personal Fitness Training program to improve fitness. Use of Parkland Fitness Center. No concurrent enrollment in KIN 103, KIN 147, or KIN 247. Repeatable for a maximum of 2 credit hours. F S Su

**KIN 247 Weight Training II** 0-2-1  
Advanced concepts of strength training under the direction of a personal trainer from Parkland's Personal Fitness Training program. Use of Parkland Fitness Center. No concurrent enrollment in KIN 103, KIN 147, or KIN 203. May be repeated for a maximum of 2 credit hours. F S Su

**KIN 262 Golf** 1-2-2  
Theory and practice of fundamentals, rules, and etiquette of golf with reference to teaching golf. S Su

**KIN 263 Sports Officiating** 2-2-3  
Fundamentals, techniques, and philosophy of officiating. Emphasis on knowledge of rules for various sports. S

**KIN 288 Exercise Physiology** 3-3-4  
Application of anatomy and physiology to human movement. How the body moves and physiological responses to exercise stress. Prerequisites: BIO 111 or BIO 121 with a C or higher and concurrent enrollment in BIO 122. S

## Liberal Arts and Sciences

Humanities

217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

**LAS 188 Diverse U.S. Cultural Expression** 3-0-3  
(IAI HF906 D) Application of the Inquiry Method, a critical thinking methodology, to a variety of artifacts originating from a diverse array of U.S. ethnic communities and cultural traditions, including Native American, Asian American, African American, and Latino/a American. Study and analysis of artifacts from a wide range of disciplines and expressive practices including music, art, literature, and historical, social, and political texts. Prerequisite: ENG 101 placement. F S Su

**LAS 189 Introduction to Liberal Arts and Sciences** 3-0-3  
Study of selected major works from the sciences, humanities, arts, and social sciences organized by themes and analyzed from different disciplinary perspectives. Students learn the Inquiry Method for analysis and interpretation, and they relate concepts and themes to their own lives. Prerequisite: ENG 101 placement. F S Su

## Literature

Humanities

217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

**LIT 120 Introduction to Literature** 3-0-3  
(IAI H3 900) Reading and analysis of literature from a variety of literary forms and periods; developing personal critical judgment about literature, as well as familiarity with different approaches to literary analysis. Prerequisite: ENG 101 placement. F S Su

**LIT 121 Introduction to Poetry** 3-0-3  
(IAI H3 903, EGL 915) Reading and analysis of poetry of various types and from various periods. Development of vocabulary to discuss poetic meanings, forms, and techniques. Prerequisite: ENG 101 placement. (Also in Canterbury Program) F S Su

**LIT 125 Introduction to Shakespeare** 3-0-3  
(IAI H3 905) Reading and analysis of Shakespearean comedy, history, tragedy, romance, and sonnets. Includes viewing and analysis of at least one film adaptation. Prerequisite: ENG 101 placement. (Also in Canterbury Program) F S Su

**LIT 126 Introduction to Drama** 3-0-3  
(IAI H3 902) Reading and discussion of plays of various types from classical to modern drama, with some attention to dramatic and theatre criticism. Includes examination of aesthetic and cultural dimensions of various dramatic forms. Prerequisite: ENG 101 placement. F S

**LIT 127 Introduction to Fiction** 3-0-3  
(IAI H3 901) Reading and discussion of short stories, novels, and other works of fiction, with some attention to critical approaches. Includes examination of aesthetic and cultural dimensions. Prerequisite: ENG 101 placement. F S Su

**LIT 130 Introduction to Children's Literature** 3-0-3  
Introduction to the classics of children's literature to develop personal critical judgment and skill in analyzing these works as literary and artistic achievements. (Canterbury Program only)

**LIT 141 Introduction to African American Literature** 3-0-3  
(IAI H3 910D) A survey of literature by African American writers, exploring the formation of racial/cultural identity, and developing a broader historical understanding of the cultural experiences expressed. Exploration of poems, novels, plays, speeches, and other texts. Prerequisite: ENG 101 placement. F S

**LIT 142 Women in Literature** 3-0-3  
(IAI H3 911D) Study of women writers and exploration of the experiences of women presented in literature, the construction of gender identity, and the evolution of the female voice as found in poetry, drama, and fiction. Prerequisite: ENG 101 placement. F

**LIT 146 Introduction to Non-Western Literature** 3-0-3  
(IAI H3 908N) Introduction to literature from a variety of epochs and cultures, such as Africa, Asia, Middle East, and Caribbean. An emphasis on the intellectual, social, and political contexts of the works. Prerequisite: ENG 101 placement. F S

**LIT 147 Introduction to African Literature** 3-0-3  
(IAI H3 908N) Reading and discussion of oral and written literature of Africa with attention to social, historical, political, and cultural contexts. Selections from pre-colonial, colonial, and post-colonial periods will be included, with emphasis on poetry, fiction, nonfiction, and drama of twentieth-century sub-Saharan Africa. Prerequisite: ENG 101 placement. F

**LIT 148 Introduction to Latin American Literature** 3-0-3  
(IAI H3 908N) Reading and discussion of major works of Latin American fiction and poetry in English translation, considered in the context of Latin American historical, cultural, and literary traditions. Prerequisite: ENG 101 placement. F S

**LIT 149 Modern Irish Literature** 3-0-3  
Examination of the manner in which language, history, politics, culture, and identity interrelated in late-nineteenth and early-twentieth century Ireland, and their impact on the development of contemporary literature. Prerequisite: ENG 101 placement. (Carlow, Ireland program only) F S

**LIT 201 British Literature I** 3-0-3  
(IAI H3 912) Survey and critical analysis of works of English literature before 1785, focusing on literary movements and genre delineation, intellectual, historical, cultural, and linguistic background, and emphasizing thematic and structural elements in the works. Prerequisite: ENG 101 or one semester of LIT. (Also in Canterbury Program) F

**LIT 202 British Literature II** 3-0-3  
(IAI H3 913) Survey and critical analysis of works of English literature from 1785 to the present, in focusing on literary movements and genre delineation, intellectual, historical, cultural, and linguistic background, and emphasizing thematic and structural elements in the works. Prerequisite: ENG 101 or one semester of LIT. (Also in Canterbury Program) S

**LIT 204 American Literature I** 3-0-3  
(IAI H3 914) Survey and critical analysis of works illustrating the development of American literature through the Civil War, including exploration of literary movements, as well as the intellectual, social, political, and historical contexts of the literature. Prerequisite: ENG 101 or one semester of LIT. (Also in Canterbury Program) F

**LIT 205 American Literature II** 3-0-3  
(IAI H3 915) Survey and critical analysis of works illustrating the development of American literature from the Civil War to the present, including exploration of literary movements, as well as the intellectual, social, political, and historical contexts of the literature. Prerequisite: ENG 101 or one semester of LIT. (Also in Canterbury Program) S

## Licensed Practical Nurse

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**LPN 111 Introduction to Nursing** 1-0-1  
Emphasizes effective therapeutic communication, time management, and critical thinking skills. Legal and ethical considerations in nursing will also be incorporated. Prerequisites: admission into the LPN program; credit or concurrent enrollment in BIO 121; and concurrent enrollment in LPN 114 and LPN 117. F S

**LPN 114 Nursing Fundamentals** 4-6-6  
Introduction to nursing process, functional health patterns, planning of care, and normal age-related changes. Prerequisites: credit or concurrent enrollment in LPN 111, LPN 117, and BIO 121. F S

**LPN 117 Nursing Pharmacology** 3-0-3  
Introduction to principles of nursing pharmacology and pharmacological agents relating to managing disease states. Nursing-specific interventions pertaining to medication administration and nursing practice. Prerequisites: admission to the LPN program and credit or concurrent enrollment in LPN 111, LPN 114, and BIO 121. F S

**LPN 118 Health Alterations I** 3-6-5  
Utilizes the nursing process for providing care to adults presenting with common functional or health deviations. Prerequisites: completion of all first semester courses and credit or concurrent enrollment in BIO 122, and DTP 120 or DTP 150. S Su

**LPN 130 Transition to Practice** 1-0-1  
Transition from a scholastic environment to a professional role. Prerequisites: completion of all first and second semester courses and concurrent enrollment in PSY 209 and ENG 101, or LPN 131, LPN 132, and LPN 135. S Su

**LPN 131 Health Alterations II** 3-6-5  
Uses the nursing process for providing care to adults with complex functional or health deviations. Prerequisites: completion of all third semester program courses and concurrent enrollment in LPN 130, LPN 132, and LPN 135. F Su

**LPN 132 Licensure Preparation** 1-0-1  
Legal requirements of the licensure process and the practical nurse's responsibilities under the Illinois Nurse Practice Act. Prerequisites: completion of all third semester courses and concurrent enrollment in LPN 131 and LPN 135. F S

**LPN 135 Nursing in Pediatrics and Obstetrics** 4-6-6  
Care of pregnant women, newborns, infants, children and adolescents. Normal physiological processes as well as health alterations are presented. Prerequisites: completion of all third semester courses and concurrent enrollment in LPN 131 and LPN 132. F S Su

## Life Saving Skills

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**LSS 210 Dysrhythmia Certification** 3-0-3  
Prepares professionals to be certified to work in monitored acute care areas and analyze cardiac strips. Prerequisite: completion of first year of a health professions program or approval of instructor or department chair. F S Su

**LSS 211 Advanced Cardiac Life Support** 1-0-1  
Certifies healthcare professionals to direct or participate in the management of cardiopulmonary arrest or other cardiovascular emergencies. Prerequisite: approval of instructor or department chair. F S Su

## Medical Assisting

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**MAS 116 Point of Care Testing** 1-0-1  
Fundamentals of basic laboratory testing at point-of-care setting; necessity, training, competency, instrument or test selection, advantages and disadvantages, and compliance. Prerequisites: CCS 099 placement, ENG 101 placement, and credit or concurrent enrollment in MAS 135 or approval of program director or department chair. F

**MAS 135 Introduction to Medical Assisting** 3-3-4  
Skills used in medical assisting: communication, safety, infection control, basic assessment, equipment, basic anatomy and physiology, and basic first aid. Prerequisites: admission into the Medical Assisting program, CCS 099 and ENG 101 placement, and MAT 070 or MAT 080 placement. F

**MAS 137 Medical Assisting Accelerated** 1-1-1  
Emphasis on administrative and clinical medical assisting skills and competencies within the scope of practice. Prerequisites: CCS 099 placement, ENG 101 placement, MAT 070 placement or MAT 080 placement, and current IDPH Certified Nursing Assistant Certificate. F

**MAS 155 Pharmacology for Medical Assistants** 2-0-2  
Chemical, generic, and trade names; drug references; pharmacological principles; routes of administration; Federal and Illinois regulations; classifications; abbreviations and symbols for drug measurement, administration, and prescription. Prerequisites: CCS 099 placement and ENG 101 placement, or approval of program director. S

**MAS 156 Aseptic Techniques** 1-3-2  
Fundamentals of microbial control; procedures for sanitation, disinfection, and sterilization; specimen collection and handling; compliance with OSHA, CDC, assisting with minor surgery. Prerequisites: admission into the Medical Assisting program, MAS 135 or MAS 137, and HCS 154 or approval of program director or department chair. S

**MAS 158 Administration of Medication** 1-2-2  
Principles and procedures for administration of medications; legal aspects, mathematical review; emphasis on routes of drug administration. Prerequisites: MAS 135 or CCS 099 placement, ENG 101 placement, and MAT 070 placement or MAT 080 placement, or approval of program director or department chair. S

**MAS 170 Medical Assisting Practicum** 0-18-3  
Application of clinical skills, procedures, and knowledge derived from medical assisting courses. Prerequisites: completion of all required program courses with a PGPA of 2.5 or higher and approval of program director or department chair. F

**MAS 172 Special Project for Medical Assistants** 1-0-1  
Tailored to interests and needs of individual student. Structured to provide atmosphere of research and study paralleled by professional expertise and guidance; allows best aspects of independent study and student development. Prerequisite: ENG 101 placement. F S Su

## Mathematics

*Mathematics*

217/351-2225 • [parkland.edu/math](http://parkland.edu/math)

### Assessment Program

Parkland College is committed to helping students achieve success in their course work. In this effort, the college has designed a mathematics assessment program to aid students in selecting the most appropriate mathematics course while taking into account wide and varied backgrounds. Assessment or credit in the listed prerequisite course is required prior to registering in any mathematics course. Assessment scores are valid for only two years; thereafter, the student must be reassessed. Students with transfer credit in mathematics are not required to take the assessment, but can be placed on the basis of mathematics credits earned within the last five years (after a review of transcripts).

**MAT 059 Enhanced Pre-Algebra Skills** 5-0-5  
Extended review of prerequisite skills, signed numbers, order of operations, word phrases, basic word problems, equations, area, perimeter, formulas, ratio, proportion, percent, conversion of units, basic exponent laws. Prerequisite: placement.

**MAT 060 Pre-Algebra Skills** 4-0-4  
Ratio, proportion, percent, conversion of units, area, perimeter, signed numbers, order of operations, formulas, basic equations, basic exponent laws, word phrases, and basic word problems. Prerequisite: placement. F S Su

**MAT 072 Mathematical Literacy** 5-0-5  
Numerical reasoning, unit conversions, linear equations/inequalities, models of growth, and data representation. Algebraic reasoning and graphical analysis using linear and non-linear functions. Emphasis on modeling, interpretation, and problem solving. Prerequisite: MAT 059 or MAT 060 with a grade of C or higher or placement. F S Su

**MAT 097 Geometry** 4-0-4  
First course in plane geometry; logical reasoning and proofs, angle-line relationships, triangles, congruence and similarity, polygons, the Pythagorean Theorem, arc-angle and segment relationships in circles, constructions, area, and space geometry. Prerequisite: MAT 072 with a grade of C or higher, placement, or approval of department chair. F S Su

**MAT 098 Intermediate Algebra** 5-0-5  
Relations, functions, graphs and their analysis, polynomials and factoring, radicals, quadratic equations and inequalities, algebraic fractions, quadratic functions, modeling and applications. Prerequisite: MAT 072 with a grade of C or higher or placement. F S Su

**MAT 105 Mathematics for Elementary Teachers I** 3-0-3  
Concepts and structures of real, rational, and integer numbers; sets; logic; development of numeration systems; and problem-solving techniques. Does not satisfy general education elective for any transfer program. Prerequisites: passage of a computational mastery test, MAT 097 with a grade of C or higher (or high school equivalent) and MAT 098 with a grade of C or higher, or placement. F

**MAT 106 Mathematics for Elementary Teachers II** 3-0-3 (IAI M1 903)  
Continuation of MAT 105. Concepts from number theory, probability, statistics, geometry, measurement, and non-metric geometry. Satisfies the general education requirements only for students seeking state certification as elementary teachers. Prerequisites: passage of a computational mastery test, MAT 097 with a grade of C or higher (or high school equivalent), and MAT 098 with a grade of C or higher, or placement. S

**MAT 107 General Education Mathematics** 3-0-3 (IAI M1 904)  
For non-mathematics, non-science, and non-business majors, mathematical reasoning and solving real-life problems using logic and set theory, mathematics of finance, probability, and statistics. Prerequisites: MAT 072 with a grade of C or higher, or MAT 097 with a grade of C or higher (or high school equivalent) and MAT 098 with a grade of C or higher, or placement. F S Su

**MAT 108 Introduction to Applied Statistics** 3-0-3 (IAI M1 902)  
Basic statistical principles, graphic presentation, descriptive measures of central tendency, dispersion and location, inferential statistics and hypothesis testing, analysis and inference of linear correlation coefficient, and slope of regression line. Credit not given for both MAT 108 and MAT 160. Prerequisites: MAT 072 with a grade of C or higher, or MAT 097 with a grade of C or higher (or high school equivalent) and MAT 098 with a grade of C or higher, or placement. F S Su

**MAT 110 Business Mathematics** 3-0-3  
Use of a scientific calculator; basic arithmetic operations, percentages, payroll, simple and compound interest, annuities, sinking funds, promissory notes, discounting, depreciation, merchandising, retailing, reconciliation, installment loans, periodic loans, mortgage loans, elementary descriptive statistics, and spreadsheet applications. Prerequisite: MAT 059 or MAT 060 with a grade of C or higher, or placement. F S Su

**MAT 124 College Algebra** 4-0-4  
Relations and functions; linear, polynomial, exponential, and logarithmic models; radicals and complex numbers; systems of equations and matrix methods; determinants and Cramer's Rule; sequences and series; and binomial theorem. Prerequisites: MAT 097 with a grade of C or higher (or high school equivalent) and MAT 098 with a grade of C or higher, or placement. F S Su

**MAT 125 College Trigonometry** 3-0-3  
Trigonometric functions, fundamental identities, graphing, solving trigonometric equations, inverse trigonometric functions, complex numbers, and vectors. Prerequisites: MAT 097 (or high school equivalent) and credit or concurrent enrollment in MAT 124 with a grade of C or higher, or placement. F S Su

**MAT 128 Calculus and Analytic Geometry I** 5-0-5  
(IAI M1 900-1, MTH 901) Derivative and its applications; integral and its applications; limits and continuity; trigonometric, exponential, logarithmic, and hyperbolic functions. Credit not given for both MAT 128 and MAT 143. Prerequisites: MAT 124 and MAT 125 with a grade of C or higher in both, or MAT 126 with a grade of C or higher, or placement. F S Su

**MAT 129 Calculus and Analytic Geometry II** 4-0-4  
(IAI M1 900-2, MTH 902) Conic sections, polar coordinates, methods of integration, applications of integration, parametric equations, indeterminate forms, infinite series. Prerequisite: MAT 128 with a grade of C or higher. F S Su

**MAT 131 Applied Mathematics** 3-0-3; 4-0-4  
Operations with whole numbers, fractions, decimals, and signed numbers; percents; measurement; scientific notation; calculators; equations; formulas; graphs; ratio and proportion; metric system; polynomials; plane and solid figures and their formulas; systems of equations; basic statistics; and right triangle trigonometry. Prerequisite: MAT 059 or MAT 060 with a grade of C or higher or placement. F S

**MAT 134 Technical Mathematics I** 4-0-4  
Mathematics used in technical applications. Fundamental algebraic and geometric concepts and operations, measurement, metric system, ratio, proportion, variation, functions and graphs, right triangle trigonometry, systems of linear equations, factoring, and algebraic fractions; quadratic equations, exponents and radicals, exponentials and logarithms. Prerequisite: MAT 072 with a grade of C or higher or placement. F S

**MAT 141 Finite Mathematics** 4-0-4  
(IAI M1 906) Sets, combinatorial analysis, theory of probability, linear programming, vectors, matrices, and Markov chains. Not recommended for mathematics/science transfer students. Prerequisite: MAT 124 with a grade of C or higher or placement. F S Su

**MAT 143 Calculus for Business and Social Sciences** 4-0-4  
(IAI M1 900-B) Mathematical analysis of polynomial calculus with applications to business and social sciences; algebraic review, derivatives and integrals of algebraic functions, limit and continuity theory, logarithmic and exponential functions, and partial derivatives. Credit not given for both MAT 143 and MAT 128. Prerequisite: MAT 124 with a grade of C or higher or placement. F S Su

**MAT 145 Linear Algebra for Business** 4-0-4  
(IAI M1 906) Basic concepts and techniques of linear algebra: systems of linear equations, inequalities, matrices, determinants, vectors, and eigenvalues; linear algebra applications: linear programming, simplex method, Markov chains, and Leontief models. Credit not given for both MAT 145 and MAT 220. Prerequisite: MAT 124 with a grade of C or higher or placement. F S Su

**MAT 151 Mathematics for Health Careers** 2-0-2  
Review of fractions, decimals, and percents; household, apothecary, and metric systems of measurement; ratio and proportion; infusion rates; units of drug measurement; stock solutions and dilutions; dosage and concentration application problems. Prerequisite: MAT 059 or MAT 060 with a grade of C or higher or placement. F S

**MAT 160 Statistics** 4-0-4  
(IAI M1 902) Data organization, distributions, measures of central tendency and variability, probability, sampling, the normal distribution, expected value, estimation, hypothesis testing, chi square analysis, analysis of variance, regression, correlation, nonparametric methods, and applications to business, social science, and life science. Credit not given for both MAT 108 and MAT 160. Prerequisite: MAT 124 with a grade of C or higher or placement. F S Su

**MAT 200 Introduction to Discrete Mathematics** 3-0-3  
(IAI M1 905, CS 915) Introduction to discrete mathematics, sets, functions, logic, proofs, Boolean algebra, combinatorics, probability, recurrence relations, trees, and graph theory. Prerequisite: MAT 124 with a grade of C or higher or placement. S

**MAT 220 Linear Algebra** 3-0-3  
(IAI MTH 911) Vector spaces, subspaces, linear independence, basis, dimension, linear transformations, eigenvalues, eigenvectors, matrices, and determinants. Credit not given for both MAT 145 and MAT 220. Prerequisite: credit or concurrent enrollment in MAT 228 with a grade of C or higher, or approval of department chair. S

**MAT 228 Calculus and Analytic Geometry III** 4-0-4  
(IAI M1 900-3, MTH 903) Three-dimensional vectors, solid analytic geometry, vector-valued functions, partial derivatives, multiple integrals, line integrals, Green's theorem, surface integrals, divergence theorem, and Stokes' theorem. Prerequisite: MAT 129 with a grade of C or higher. F S Su

**MAT 229 Differential Equations and Introductory Matrix Theory** 5-0-5  
(IAI MTH 912) Matrices and inverses, determinants, vector spaces, eigenvalues and eigenvectors; solution methods for first-order and higher order linear differential equations; systems of linear differential equations; Laplace transforms; numerical methods; elementary power series methods; and applications. Prerequisite: MAT 228 with a grade of C or higher or approval of department chair. F S Su

## Industrial/Manufacturing Technology

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**MFT 110 Mechanical Assemblies** 2-2-3  
Interpreting documentation for assembly and installation requirements; fundamentals of power transmission; basic and precision measuring tools; fasteners, tools, and torque specifications; bearing types and applications; seals, gaskets, and lubrication. F

**MFT 113 Introduction to Hydraulics and Pneumatics** 3-0-3  
Introduction to theory and applications of fluid and pneumatic power transfer and control. S

**MFT 114 Introduction to Pneumatics** 1-2-2  
Introduction to theory and applications of pneumatic power transfer and control. Typical components and systems are included, e.g., pumps, valves, filters.

**MFT 116 Introduction to Hydraulics** 1-2-2  
Introduction to theory and applications of fluid power transfer, generation, and control. Typical components, e.g., pumps, check valves, and filters.

**MFT 117 Pumps, Compressors, and Vacuum Systems** 2-2-3  
Theory and operation of centrifugal and metering pumps, piston and rotary type compressors, safety valves, pressure regulators, oil and water separators, and dryers. Vacuum pumps, surfaces and cups, gauges. S

**MFT 119 Introduction to Industrial Technology** 2-2-3  
Introductory skills in manual machine tool operation, computer numerical control (CNC) programming, pneumatics, hydraulics, and welding.

**MFT 121 Basic Machine Processes** 2-2-3  
General machining procedures including basic operations of lathe and mill. Basic bench work operations including layout and hand tools. Basic machine tool projects using cross section of machine tool equipment. F S

**MFT 122 Intermediate Machine Processes** 2-2-3  
Setup and operational procedures of mills, grinders, and lathes. Cutting speeds, feed rates, tool geometry for various types of alloy steels. Prerequisite: MFT 121. F S

**MFT 125 Principles and Processes of Modern Manufacturing** 3-0-3  
Introduction to principles involved and materials used in modern manufacturing. Analysis and comparison of several processes including cold and hot forming of metals, powder metallurgy, and plastic forming. Includes new processes and techniques.

**MFT 127 Introduction to CNC Programming** 4-0-4  
Introduction to computer numerical control (CNC) and programming CNC machines. Emphasis on fundamentals of CNC lathe and mill operations and good programming practices. Prerequisite: MFT 121 or equivalent. S

**MFT 128 Quality Assurance** 3-0-3  
Basic concepts of quality. Application of probability, statistics, and sampling for quality control, process control, and failure analysis. Military standards and reliability documents will be used to evaluate product performance and identify causes of failure. Prerequisite: MAT 072. S

**MFT 131 Introduction to Manufacturing** 3-0-3  
History, economics, employability skills, processes, and quality measurement as related to manufacturing. Emphasis on preparing student for co-op experience. F

**MFT 133 Valves and Piping** 2-2-3  
Piping, tubing, connections, and valve assemblies used in the control and transport of fluids in industry. S

**MFT 138 Intermediate CNC Programming** 4-0-4  
Intermediate computer numerical control (CNC) 3-axis programming and operation, CNC mill and lathe operation, and good programming practices. Prerequisite: MFT 127 or equivalent. S

**MFT 151 Manufacturing Work Experience I** 0-15-3  
Co-op experience in manufacturing; work experience in manufacturing or related industries. Prerequisites: MFT 131 or equivalent and approval of department chair. F S Su

**MFT 152 Manufacturing Work Experience II** 0-15-3  
Continuation of MFT 151. Work experience in manufacturing or related industries. Prerequisites: MFT 151 or equivalent and approval of department chair. F S Su

**MFT 153 Manufacturing Work Experience III** 0-15-3  
Continuation of MFT 152. Work experience in manufacturing or related industries. Prerequisites: MFT 152 or equivalent and approval of department chair. F S Su

**MFT 154 Manufacturing Work Experience IV** 0-15-3  
Continuation of MFT 153. Work experience in manufacturing or related industries. Prerequisites: MFT 153 or equivalent and approval of department chair. F S Su

**MFT 210 Industrial Safety** 3-0-3  
Introduction to industrial and workplace safety topics in manufacturing, including lock-out/tag-out, confined space, fall protection, safe lifting, fire safety, material safety data sheets, personal protective equipment, and others. F

**MFT 211 Advanced Machining Processes and Inspection Practices** 3-2-4  
Advanced manual machine tool operation and inspection practices. Prerequisite: MFT 122 or equivalent. F S

**MFT 212 Industrial Maintenance Applications** 2-2-3  
Introduction to mechanical repair and preventative maintenance as applied to the manufacturing environment. Includes installation, troubleshooting, and repair procedures for a variety of mechanical power transmission equipment. Also includes leveling, anchoring, and adjustment of machine tools and other equipment. F

**MFT 238 Advanced CNC Programming** 4-0-4  
Advanced computer numerical control (CNC) 3- and 4-axis programming and operation; setup and operation of industrial CNC turning center and vertical machining center. Prerequisite: MFT 138. S

## Management

*Business/Computer Science and Technologies*  
217/351-2209 • [parkland.edu/bcst](http://parkland.edu/bcst)

**MGT 101 Principles of Management** 3-0-3  
Managerial processes (planning, organizing, leading, and controlling) essential to the successful operation of various types of businesses. Student learns steps necessary to become an effective manager. Discussion of managerial challenges in today's workplace. F S Su

**MGT 112 Human Resource Management** 3-0-3  
Planning, developing, and controlling human resources within the organization: recruiting, selecting, training, labor relations, salary, and fringe benefit administration. F S

**MGT 113 Human Relations in the Workplace** 3-0-3  
Role of the individual in interpersonal relationships in organizations and business-related fields. Emphasis on the personal development necessary to succeed in the business organization. F S Su

**MGT 117 Customer Service Management** 3-0-3  
Students analyze the characteristics of a model of good service in business and apply the principles derived from a comprehensive customer service strategy. Practical techniques for achieving customer satisfaction are integrated through analysis of customer communications.

## Marketing

*Business/Computer Science and Technologies*  
217/351-2099 • [parkland.edu/bcst](http://parkland.edu/bcst)

### **MKT 101 Introduction to Marketing** 3-0-3

Marketing in business and other types of organizations. Emphasis given to manager's role in development of marketing strategy: product planning, distribution, promotion, pricing, consumer behavior, industrial marketing, and market research. F S Su

### **MKT 155 Salesmanship** 3-0-3

Principles of personal selling, including oral and written sales communication, business principles as applied to sales, consumer motivation, and product promotion. Includes sales performance demonstrations. F S

### **MKT 211 Marketing Management** 3-0-3

Practical application of marketing principles: marketing strategy, demand analysis, product, price, promotion, and distribution strategies. Prerequisites: MKT 101 and MGT 101. S

## Massage Therapy

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

### **MSG 110 Careers in Massage Therapy** 1-0-1

Introduction to the massage therapy program, profession, basic palpation, ethics, responsibilities, and nature of work. For individuals interested in a career in massage therapy. Not a prerequisite to the program. May be used as an elective for A.A.S. degree in Massage Therapy. F S Su

### **MSG 111 Introduction to Massage Therapy Theory** 1.5-0-1.5

Introduction to the profession of massage therapy, professional ethics, and Swedish Massage techniques. Prerequisites: admission into Massage Therapy program and BIO 111 with a grade of C or higher.

### **MSG 112 Massage Therapy I** 1-6-4

Expanded basic theory and techniques of massage therapy; benefits, indications, contraindications, draping, body mechanics, client interviews, chair massage, equipment, and supplies. Combine massage techniques to culminate in a full body massage. Prerequisite: concurrent enrollment in MSG 111 or MSG 116. S

### **MSG 113 Pathology for Massage Therapists** 3-0-3

Mechanics of selected disease processes and effects of massage on those processes. Indications and contraindications for massage included. Prerequisites: MSG 111 and MSG 112. S

### **MSG 114 Massage Therapy II** 3-7-6.5

Introduces intermediate level therapeutic techniques. Joint mobilization, hydrotherapy, sports massage, positional release, neuromuscular therapy, and deep tissue techniques. Contemporary massage and bodywork topics including myofascial release, manual lymph therapy, trigger point therapy, foot reflexology, hot stone massage, and others. Prerequisites: MSG 112 and current CPR card. S

### **MSG 115 Business Practices and Ethics** 3-0-3

Introduction to major aspects of building and maintaining a successful practice. Starting a new practice; establishing a bookkeeping system; maintaining client records delivering a business plan; and legal and ethical issues, including professional ethics, scope of practice, and contemporary issues in the profession. Su

### **MSG 116 Basic Anatomy Massage Therapy** 3-0-3

An overview of human anatomy, physiology, kinesiology, medical terminology, and massage history. General survey of basic human body structure and functions of each body system and how massage therapy affects the body. Prerequisites: admission into Massage Therapy program and concurrent enrollment in MSG 112 and MSG 119.

### **MSG 117 Massage Therapy III** 2-4-4

Asian bodywork traditions including acupuncture, Shiatsu, and Jin Shin Do. Reiki and cranial-sacral therapy, nutrition, stress reduction, assessment, treatment planning, and specific conditions addressed by massage therapy. Prerequisites: MSG 113, MSG 114, and MSG 119. Su

### **MSG 118 Advanced Massage Techniques** 1-3-3

Advanced techniques of massage therapy; condition-specific massage therapy techniques to address hyperkyphosis, tension headaches, thoracic outlet syndrome, carpal tunnel syndrome, piriformis syndrome, plantar fasciitis, and common chronic pain conditions. Client assessment and treatment planning. Prerequisites: MSG 112 and concurrent enrollment in MSG 116 and MSG 119.

### **MSG 119 Musculoskeletal Anatomy/ Massage Therapy** 3-0-3

Origin, insertion, action, and innervation for major muscles. Prerequisites: BIO 111, MSG 111, and MSG 112 or concurrent enrollment in MSG 116 and MSG 118. F

### **MSG 131 Massage Therapy Clinical Practicum I** 1-4-2

Supervised clinical experience designed to provide training and practical experience in therapeutic massage. Students must spend 45 hours at on- or off-campus locations experiencing real-life application of massage techniques. Prerequisites: MSG 118 or concurrent enrollment in MSG 114, and current CPR card. S

### **MSG 132 Massage Therapy Clinical Practicum II** 0-3-1

Supervised clinical experience designed to provide training and practical experience in therapeutic massage. Students must spend 45 hours at on- or off-campus locations experiencing real-life application of massage techniques. Preparation for MBLEX examination. Prerequisites: credit or concurrent enrollment in MSG 131 and current CPR card. Su

## Music

*Fine and Applied Arts*  
217/351-2217 • [parkland.edu/faa](http://parkland.edu/faa)

### **MUS 100 Music Fundamentals** 3-0-3

Music notation, scales, chords, and key signatures for non-music majors with little or no background in music fundamentals. F S Su

### **MUS 101 Music Theory and Harmony I** 3-0-3

Fundamentals of pitch, clef, and rhythm reading, scales and key signatures. Understanding tertian harmony and inversion of triads and seventh chords. Basics of voice leading culminating with species counterpoint study. Concurrent enrollment in MUS 103 and completion of MUS 100 or equivalent recommended. F

### **MUS 102 Music Theory and Harmony II** 3-0-3

Continuation of MUS 101: harmonic progression, four-part harmonization, non-harmonic tones. Principles of melodic writing: motive use and variation, phrase structure, and analysis involving inversions of seventh chords. Concurrent enrollment in MUS 104 recommended. Prerequisite: MUS 101 with a grade of C or higher or equivalent or consent of instructor or department chair. S

- MUS 103 Ear-Training, Sight-Singing, and Keyboard Harmony I** **2-0-2**  
Development of aural identification and notation skills via weekly lectures and computer lab assignments. Emphasis on fundamentals of pitch, rhythm reading, and solfege. Identification of diatonic major-scale intervals and triad qualities. Transcription of non-modulating chord progressions using root-position/first inversion triads. F
- MUS 104 Ear-Training, Sight-Singing, and Keyboard Harmony II** **2-0-2**  
Focus on melodic material of greater length with increasing chromaticism and some modulation; all triad qualities in all inversions; all 7th chords in root position. Non-tonal interval chains; 2-part rhythms for performance and dictation. Correlated keyboard experience. Prerequisite: MUS 103 with a grade of C or higher or consent of instructor or department chair. S
- MUS 121 Music Appreciation** **3-0-3**  
(IAI F1 900) Understanding music through perceptive listening. Deals with elements of music (melody, rhythm, harmony, form, tone color) and how they are combined to create a given musical effect. Emphasis placed on increasing one's aural awareness of what is happening in music. F S Su
- MUS 123 Introduction to American Music** **3-0-3**  
Introduction to music of the United States: religious music, folk influences, blues, gospel, country, rock, Broadway, ragtime, jazz, and fine art music studied. Focus on the awakening of critical abilities helpful in the understanding and enjoyment of music. F S Su
- MUS 124 Introduction to Non-Western Music** **3-0-3**  
Introduction to music from diverse cultures with special attention to the influence of society, religion and visual arts on music of various regions. Students will learn style and genre identification, primary instruments, dances, and compositional approaches found in world music. F S Su
- MUS 142 Choral Ensemble—Chamber Singers** **0-3-1**  
Performs the music from Renaissance to contemporary classics. Fair knowledge of sight-singing helpful. Audition required or consent of faculty member. Repeatable for a maximum of 4 credit hours. Offered to district residents as noncredit CMS 442. F S
- MUS 146 Instrumental Ensemble—Wind Ensemble** **0-3-1**  
Rehearses and performs challenging, contemporary literature for wind and percussion instruments. This auditioned ensemble is open to students, faculty, and members of the community. Repeatable for a maximum of 4 credit hours. Offered to district residents as noncredit CMS 446. F S
- MUS 147 Instrumental Ensemble—Orchestra** **0-3-1**  
Open to all students and members of the community. Reading and performance of all styles of symphonic repertory. Repeatable for a maximum of 4 credit hours. Offered to district residents as noncredit CMS 447. F S
- MUS 148 Instrumental Ensemble—Concert Band** **0-3-1**  
Maintains complete symphonic band instrumentation for study and performance of all types of band literature. Open to all students and members of the community. Repeatable for a maximum of 4 credit hours. Offered to district residents as noncredit CMS 448. F S
- MUS 161 Introduction to Music Recording** **2-2-3**  
Multi-track recording techniques; practical skills developed using microphones, audio editing software, signal processing, and mixing consoles. Students receive hands-on training and engineer recording sessions. F
- MUS 162 Advanced Music Recording** **2-2-3**  
Advanced audio production techniques in the studio environment, larger and more complex recording sessions, microphone placements, signal processors, and the use of MIDI and virtual instruments. Emphasis on mixing and mastering. Prerequisite MUS 161 or approval of instructor or department chair. S
- MUS 164 Class Guitar** **2-0-2**  
Group guitar instruction, including beginners to advanced levels. Learn to read music, play and analyze chords and scales, and perform in various styles, including pop, folk, bluegrass, blues, country-western, and classical. Repeatable for a maximum of 8 semester credit hours. F S
- MUS 165 Class Piano I** **2-0-2**  
Group approach to teaching the fundamentals of piano playing. For students with little or no previous piano study. Sight-reading, harmonization, transposition, improvisation, technical studies, and solo ensemble literature. F S Su
- MUS 166 Class Piano II** **2-0-2**  
Continuation of MUS 165. Emphasis on developing technique, functional use of chords, and study of piano literature in a wider range of different styles and periods. Prerequisite: MUS 165 or equivalent. S
- MUS 169 Jazz Ensemble—Small Jazz Ensemble** **0-3-1**  
Performs jazz literature from 1920s to the present in small combo format. Emphasis on development of improvisation skills in jazz, fusion, and Latin styles. Repeatable for a maximum of 4 credit hours. F S
- MUS 180 Applied Music** **0-4-2**  
Private, weekly instruction in voice or symphonic instrument for students majoring in music. Attendance and performances at recitals required. Repeatable for a maximum of 4 credit hours. Prior study with qualified teacher recommended; requires approval of instructor or department chair. F S
- MUS 184 Guitar Ensemble** **0-3-1**  
Performs variety of literature composed and/or arranged for guitar sextets to nonets. Repeatable for a maximum of 4 credit hours. Prerequisite: MUS 164 or approval of instructor or department chair. F S
- MUS 201 Advanced Theory and Harmony I** **3-0-3**  
Invention analysis and composition; fugue analysis and composition; ninth, eleventh, and thirteenth chords; Neapolitan and augmented sixth chords; borrowed chords; altered dominants; chromatic mediants; modulation to foreign keys; variation form composition: Concurrent enrollment in MUS 203 recommended. Prerequisite: MUS 102 with a grade of C or higher or approval of instructor or department chair. F

**MUS 202 Advanced Theory and Harmony II** 3-0-3  
Eighteenth-century counterpoint; fugue analysis; five-and seven-part rondo; review of sonata rondo form; sonata allegro form analysis; variation techniques. Study and analysis of music of post-Romantic, Impressionist, and 20th-century composers including study of contemporary period pieces. Students will compose several works exemplifying salient characteristics of each period/style. Concurrent enrollment in MUS 204 recommended. Prerequisites: MUS 201 with a grade of C or higher or approval of instructor or department chair. S

**MUS 203 Advanced Ear-Training, Sight-Singing, and Keyboard Harmony I** 2-0-2  
Harmonic (2-3 voice) dictation with harmonic analysis. 2-part rhythm dictation and performance. Identification and vocal performance of seventh chords in all inversions. Melodic dictation and performance with increasing chromaticism. Introduction of 5-7 pitch atonal interval rows. Prerequisites: MUS 103 with a grade of C or higher and MUS 104, or approval of instructor or department chair. F

**MUS 204 Advanced Ear-Training, Sight-Singing, and Keyboard Harmony II** 2-0-2  
Harmonic dictation including 2-, 3-, and 4-voice diatonic and chromatic examples. Singing of non-tonal material. 2-part rhythmic dictation and performance utilizing changing meters and metrical modulation. Advanced transcription project with emphasis on non-functional harmonies. Correlated keyboard experience. Prerequisite: MUS 203 with a grade of C or higher or approval of instructor or department chair. S

**MUS 244 Music Literature: 18th Century to Present** 3-0-3  
Study of music as an art in Western civilization from 1750 to the present; emphasizes acquaintance with representative musical works and style and understanding musical concepts in their historical background. S

**MUS 280 Applied Music** 0-4-2  
Private, weekly instruction in voice or any symphonic instrument for advanced students majoring in music. Attendance and performances at recitals required. Repeatable for a maximum of 4 credit hours. Prerequisites: MUS 180 and approval of instructor or department chair. F S

## Nurse Assistant

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**NAS 111 Basic Nursing Assistant Training Program (BNATP)** 4-7-6  
Prepares students to care for patients under direct supervision of a licensed nurse in a long-term care facility, hospital, assisted living, or home setting. NAS 111 is approved by IDPH and leads to certification. Prerequisites: valid social security number, CCS 099 placement, ENG 099 placement, MAT 060 placement, and fingerprint background check. F S Su

## Nursing

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**NUR 110 Paramedic Bridge I** 5-6-7  
Provides a bridge for paramedic transition to process, communication, medication administration, and pharmacological principles. Nursing physical assessment and skills are covered. Prerequisites: credit or concurrent enrollment in BIO 121 and ENG 101. F S Su

**NUR 113 Nursing Health Assessment** 2-3-3  
Introduction to health assessment with focus on physical assessment, health history, and communication/documentation. Prerequisites: credit or concurrent enrollment in NUR 119, ENG 101, and BIO 121. F S

**NUR 114 Fundamentals of Nursing** 2-6-4  
Introduction to the nursing profession and practice. Focus on technical skill acquisition with rationale and scientific base and use of functional health patterns. Prerequisites: credit or concurrent enrollment in NUR 113, NUR 117, BIO 121, and ENG 101. F S

**NUR 117 Introduction to Medication Principles for Nurses** 1-0-1  
Introduction to basic pharmacologic principles. Emphasis on knowledge needed to safely administer medications and the nursing role and responsibilities. Prerequisites: credit or concurrent enrollment in NUR 119, BIO 121, and ENG 101. F S

**NUR 118 Medical-Surgical Nursing I** 2-9-5  
Nursing care of clients with alterations in functional health patterns as a result of changes, variations, and/or illnesses in selected medical-surgical areas. Prerequisites: completion of all first-semester NUR courses and credit or concurrent enrollment in NUR 151, BIO 122, and PSY 101. F S

**NUR 151 Mental Health Nursing** 2-6-4  
Nursing care of clients experiencing emotional stress and those with mental illness. Emphasis on therapeutic communication, healthy behaviors, and self-esteem. Prerequisites: completion of all first semester NUR courses and credit or concurrent enrollment in BIO 122 and PSY 101. F S

**NUR 158 Practicum in Nursing** 0-4-1  
Clinical experience with a preceptor with emphasis on management of care of multiple patients and clinical skills. Repeatable for a maximum of 4 credit hours. F S Su

**NUR 210 LPN Bridge** 2-3-3  
Provides a bridge for LPN transition to the second year of the Nursing program. Legal and ethical responsibilities, nursing process, critical thinking, teaching, learning, physical assessment, fluid, electrolytes, acid base, Nurse Practice Act, and role transition are covered. Prerequisites: ENG 101, BIO 121, PSY 101, concurrent enrollment in NUR 151, credit or concurrent enrollment in BIO 122, and LPN license in Illinois.

**NUR 215 Leadership in Nursing** 1-0-1  
Exploration of current trends in the practice of nursing and the health care environment. Emphasis is on leadership/management skills required in professional nursing practice and transitioning from the nursing student to the professional nurse. Prerequisites: all first, second, and third semester NUR courses and credit or concurrent enrollment in NUR 257, NUR 258, ENG 102, and SOC 101. F S

**NUR 218 Paramedic Bridge II****5-7-7**

Part two of the bridge for the paramedic transition process that supplements the third and fourth semester medical-surgical subject matter and allows for practice of clinical skills for the acute hospitalized patient. Prerequisites: BIO 122, BIO 123, and PSY 209 and credit or concurrent enrollment in NUR 215, NUR 257, ENG 102, SOC 101, and HUM/FA elective.

**NUR 236 Maternal-Newborn Nursing****2-3-3**

Family-centered nursing care of newborns, childbearing families, and women throughout the lifespan. Prerequisites: completion of all first year nursing program courses and credit or concurrent enrollment in NUR 238, BIO 123, and PSY 209. F S

**NUR 238 Pediatric Nursing****2-3-3**

Family-centered nursing care for infants, children, and adolescents in a variety of settings. Emphasis is on promoting, maintaining, and restoring health, reinforcing uniqueness of each child and family, and establishing therapeutic nurse/child/family relationships. Prerequisites: completion of all first year NUR program courses and credit or concurrent enrollment in NUR 236, BIO 123, and PSY 209. F S

**NUR 255 Medical-Surgical Nursing II****2-6-4**

Nursing care of clients with alterations in functional health patterns as a result of changes, variations, and/or illnesses in selected medical-surgical areas. Prerequisites: completion of all second semester NUR program courses and credit or concurrent enrollment in NUR 236, NUR 238, BIO 123, and PSY 209. F S

**NUR 257 Population Health Nursing****2-3-3**

Explores the management of individuals and groups in community settings. Select emphasis on gerontologic population. Prerequisites: completion of all third semester NUR courses and credit or concurrent enrollment in NUR 215, NUR 258, SOC 101, and ENG 102. F S

**NUR 258 Medical-Surgical Nursing III****3-7-5**

Nursing care of complex patients with alterations in circulation, peripheral and vascular; respiration, acute and chronic; multi-organ failure and shock due to multiple causes; burn patients; and complications resulting from an acute, chronic, or traumatic illness. Emphasis on critical thinking, time management, delegation, and prioritization of multiple patients. Prerequisites: completion of all third semester NUR program courses and credit or concurrent enrollment in NUR 215, NUR 257, ENG 102, and SOC 101. F S

**NUR 610 Nursing Practice Update****4-0-4**

Designed for nurses who are seeking restoration of their Illinois nursing licensure after it has expired, have been placed on inactive status for more than five years, or currently have an active license but wish to update their professional practice. Repeatable for a maximum of 16 credit hours. Prerequisite: approval of department chair.

## Occupational Therapy Assistant

*Health Professions*217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)**OTA 111 Introduction to Occupational Therapy 3-0-3**

Introduction to the history, philosophy, and practice framework of occupational therapy. Includes OT personnel role delineation, practice settings, team collaboration, documentation, reimbursement, and ethical and professional development. Prerequisites: admission into Occupational Therapy Assistant program and concurrent enrollment in OTA 112, or approval of program director or department chair. F

**OTA 112 Therapeutic Media (Fieldwork I) 2-4-3**

Foundations in selecting, analyzing, adapting, and using goal-directed therapeutic activities and techniques to promote engagement in activities of daily living, work, play, and leisure. Fieldwork I experiences emphasize community services and observation/data collection skills. Service learning activities promote community health. Prerequisites: admission into Occupational Therapy Assistant program, KIN 186 or permission of program director, and concurrent enrollment in OTA 111. F

**OTA 113 Health and Occupation I 3-0-3**

Defines selected health problems (client factors) across the life span and their impact on occupational choices, performance skills, and role functions. Focuses on individuals who have mild or acute occupational performance deficits. Prerequisites: OTA 111, OTA 112, BIO 121, PSY 101, SOC 101, and concurrent enrollment in OTA 114, OTA 115, BIO 122, ENG 101, and PSY 209. S

**OTA 114 Therapeutic Process I 2-3-3**

Occupational therapy intervention processes and clinical reasoning skills used to remediate, prevent, and/or compensate for mild or acute occupational performance dysfunction resulting from specific physical and psychosocial problems across the lifespan. Case-based learning emphasized. Prerequisites: OTA 111, OTA 112, SOC 101, and concurrent enrollment in OTA 113, OTA 115, and PSY 209. S

**OTA 115 Fieldwork I/Clinic II 2-8-4**

Fieldwork Level I assignments conducted in a variety of community and clinical settings to develop clinical observation, data collection, treatment planning, documentation and basic intervention skills while assisting personnel in client services. Prerequisites: OTA 112 and concurrent enrollment in OTA 113 and OTA 114. S

**OTA 116 Fieldwork I/Clinic III 2-8-4**

Fieldwork Level I assignments conducted in skilled nursing facility to develop clinical observation, data collection, treatment planning, documentation and basic intervention skills while assisting personnel in client services. Prerequisite: OTA 115.

**OTA 211 Health and Occupation II 3-0-3**

Health problems (client factors) across the life span and the impact on occupational choices, skills, and roles. Focuses on individuals with moderate or chronic occupational performance deficits. Prerequisites: OTA 113, BIO 122, PSY 209, and concurrent enrollment in OTA 212 and ENG 102. F

**OTA 212 Therapeutic Process II** **2-3-3**  
Occupational therapy evaluation, planning, intervention, and clinical reasoning skills used to remediate and/or compensate for moderate occupational performance dysfunction resulting from specific physical and/or psychosocial problems across the life span. Case-based learning emphasized. Prerequisites: OTA 114, ENG 101, and concurrent enrollment in OTA 211, OTA 213, and OTA 214. F

**OTA 213 Fieldwork II/Clinic I** **1-26-5**  
Fieldwork Level II experiences in clinical settings working under the supervision of licensed OT personnel. Focuses on achieving entry-level performance competencies in planning and implementing individual and group OT interventions. Prerequisites: OTA 115, BIO 122, concurrent enrollment in OTA 214, and current CPR/health record. F

**OTA 214 Occupational Therapy Theory** **2-3-3**  
Presents frames of reference, therapeutic models, and approaches used in occupational therapy evaluation, clinical reasoning, and intervention processes. Includes the Model of Human Occupation, sensorimotor, cognitive, and psychosocial frames of reference. Prerequisites: OTA 111, OTA 114, and concurrent enrollment in OTA 213. F

**OTA 215 Health and Occupation III** **3-0-3**  
Defines selected health problems (client factors) across the life span and their impact on occupational performance skills, routines, and contexts. Focuses on individuals who have severe and/or progressive deficits in occupational performance. Prerequisites: OTA 211, OTA 212, OTA 213, OTA 214, ENG 102, and concurrent enrollment in OTA 216, OTA 217, OTA 218, and approved Social/Behavioral Sciences elective. S

**OTA 216 Therapeutic Process III** **2-3-3**  
Occupational therapy planning, intervention, and clinical reasoning in the support and management of services for persons with serious health problems resulting in severe and/or progressive deterioration of occupational performance. Prerequisites: OTA 212, OTA 214, and concurrent enrollment in OTA 215, OTA 217, and OTA 218. Su

**OTA 217 Fieldwork II/Clinic II** **2-25-6**  
Fieldwork Level II experience in clinical settings working under the supervision of licensed OT personnel. Focuses on achieving entry-level performance competencies in planning and implementing individual and group interventions. Prerequisites: OTA 213, OTA 214, concurrent enrollment in OTA 215, OTA 216, and OTA 218, and current CPR/health record. S

**OTA 218 Therapeutic Groups** **2-3-3**  
Focuses on OTA role in directing therapeutic groups in occupational therapy. Includes skills in group development, leadership, communication, conflict negotiation, and group treatment protocol plans. Applies group dynamics to professional team building and supervisory roles. Prerequisites: OTA 214 and concurrent enrollment in OTA 215. S

## Philosophy

*Humanities*

217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

**PHI 100 Introduction to Logic and Critical Thinking** **3-0-3**  
(IAI H4 906) Development of good thinking skills and habits ranging from cognitive processes within deduction, induction, everyday reasoning, problem solving, decision making, and productive thinking to the broader ideals of critical and reflective thinking. F S Su

**PHI 103 Introduction to Philosophy** **3-0-3**  
(IAI H4 900) Basic questions of human experience (human nature, freedom, values, knowledge, justice, reality, God) as reflected in the ideas of most significant thinkers and schools of thought in both Western and Eastern philosophical traditions. F S Su

**PHI 105 Introduction to Ethics** **3-0-3**  
(IAI H4 904) Study of significant moral problems in human experience (justice, human rights, freedom and determination, social vs. personal interests, duty, authority, and punishment) and the development of principles, distinctions, and methodologies for thinking critically about moral conflicts all human beings must face in their lives. (Also in Canterbury Program) F S Su

## Physics

*Natural Sciences*

217/351-2285 • [parkland.edu/ns](http://parkland.edu/ns)

**PHY 112 Applied Physics: Heat and Electricity** **2-2-3**  
For students in two-year technology curricula. Heat, temperature, sources of emf, resistance, current, electrical circuits motors, transformers, generators, light, optics, and radioactivity. Prerequisite: MAT 072, MAT 131, or equivalent with a grade of C or higher. F S

**PHY 120 How Things Work** **3-0-3**  
(IAI P1 901) Conceptual course for non-science majors exploring everyday phenomena: musical instruments, photography, flight, electricity, bicycles, engines, etc. to examine how they work. Students needing a physical science lab course may take PHY 120 and PHY 129 to fulfill this requirement.

**PHY 121 General Physics I** **4-3-5**  
(IAI P1 900L) Concepts and methods of physics for students in arts and sciences. Kinematics, dynamics, momentum, energy, heat, fluids, wave motion, and sound. Prerequisite: MAT 125 or equivalent. F S Su

**PHY 122 General Physics II** **4-3-5**  
Concepts and methods of physics for students in arts and sciences. Electricity, magnetism, optics, relativity, and atomic structure. Prerequisite: PHY 121 or equivalent. F S Su

**PHY 129 How Things Work Laboratory** **0-2-1**  
(IAI P1 901L) Laboratory course to accompany PHY 120 for the purpose of satisfying general education requirements. Explores everyday phenomena: musical instruments, photography, flight, electricity, bicycles, engines, etc. to examine how they work. Prerequisite: credit or concurrent enrollment in PHY 120.

**PHY 141 Mechanics** 3-3-4  
(IAI P2 900L) Basic principles of mechanics for physics, chemistry, engineering, and mathematics majors. Kinematics, dynamics, conservation laws of momentum, angular momentum, energy, rigid bodies, oscillations, gravitation, fluids. Prerequisite: MAT 128 or equivalent. F S

**PHY 142 Electricity and Magnetism** 3-3-4  
(IAI PHY 912) Heat, thermodynamics, electrical fields, potential, resistance, capacitance, and inductance; RC, RL, RLC circuits, and Maxwell's equations. Prerequisites: PHY 141 and MAT 129 or equivalents. F S Su

**PHY 143 Modern Physics** 3-3-4  
(IAI PHY 914) Mechanical waves, electromagnetic radiation, geometric and physical optics, kinematics and dynamics of special relativity, introduction to quantum mechanics, Bohr atom, elementary nuclear structure, and band theory. Prerequisite: PHY 142 or equivalent. F S Su

## Portuguese

*Humanities*

217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

**POR 101 Beginning Portuguese I** 4-0-4  
For students with no previous and/or little instruction in Portuguese. Development of basic communicative skills. Emphasis on speaking, listening, reading, writing, and on the culture of countries where Portuguese is spoken. Prerequisite: ENG 101 placement.

## Political Science

*Social Sciences and Human Services*

217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

**POS 110 Federal and State Constitutions and Civil Rights** 3-0-3  
Review of federal and state constitutions: emphasis on development of freedom of expression, civil rights, and Supreme Court operation. F S

**POS 120 Introduction to Political Science** 3-0-3  
(IAI S5 903) Introduction to politics and its meaning for the individual through consideration of power, the state, ideology, legitimacy, political linkages, institutions, constitutions, and change. F

**POS 122 American National Government** 3-0-3  
(IAI S5 900) Survey of American national government: political socialization, U.S. constitution, public opinion, political parties, interest groups, the courts, Congress, and the presidency. F S Su

**POS 124 State and Local Government** 3-0-3  
(IAI S5 902) Subnational politics focusing upon local governments, Illinois constitution, voting and political party organizations, legislatures, courts, budgeting and finance, and executive branches. F S

**POS 165 Introduction to European Politics** 3-0-3  
Discussion from cold war to new order with emphasis on political changes in Eastern Europe and their effects, restructuring of Europe, and transition from confrontation to cooperation in superpower relations. (Salzburg Program only)

**POS 167 Introduction to British Government and Politics** 3-0-3  
Main themes in British political life, including developing relations with Commonwealth, Europe, and United States. (Canterbury Program only)

**POS 202 International Relations** 3-0-3  
(IAI S5 904) Introduction to politics of international state system from its historical roots to contemporary events: arms control, transnationalism, United Nations, international finance, and southern hemispheric development. S

## Psychology

*Social Sciences and Human Services*

217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

**PSY 101 Introduction to Psychology** 4-0-4  
(IAI S6 900) Introduction to scientific study of human and animal behavior. Survey of research and theories, emphasizing social behavior, intelligence, creativity, behavior disorders, therapy, language and personality development, learning, motivation, emotion, sensation, and perception. Prerequisite: ENG 101 placement. F S Su

**PSY 107 Human Sexuality** 3-0-3  
Examination of the biological, psychological, and social aspects of human sexuality; development of sexual identity and effects of genetic, cultural, and environmental influences on human relationships and behavior. Prerequisite: ENG 101 placement. F S

**PSY 201 Theories of Personality** 3-0-3  
Scientific approach to the study of personality. Theories and research findings that focus on the variables related to normal personality development and change. Prerequisite: PSY 101. F

**PSY 203 Abnormal Psychology: An Integrative Approach** 3-0-3  
(IAI PSY 905) Integration of theory and research as they relate to research methods; definition, assessment, and categorization of abnormal behavior; biological, psychosocial, and sociocultural origins of abnormal behavior; and treatment and prevention. Prerequisite: PSY 101. F S Su

**PSY 205 Introduction to Social Psychology** 3-0-3  
(IAI S8 900) Systematic introduction to theory and research on the ways social factors influence individual and group behavior. Examines attitudes, social perception, social cognition, the establishment of norms, leadership, group dynamics, interpersonal relations, and research methods emphasizing their effects on the individual. Prerequisite: PSY 101. F S

**PSY 207 Introduction to Child Psychology** 3-0-3  
(IAI S6 903) Introduction to theory and research on the biological, physical, social, and cognitive development of the human child from conception to adolescence; genetic factors, prenatal development, sensory and perceptual changes, motor development, language acquisition, social learning, cultural influences, and abnormal development. Prerequisite: PSY 101. F S Su

**PSY 208 Adolescent Psychology** 3-0-3  
Introduction to adolescence with emphasis on physical, social, and cognitive development. Examines changing relationships with family, friends, and peers, with an emphasis on identity formation. Prerequisite: PSY 101. F S Su

**PSY 209 Human Growth and Development** 3-0-3  
(IAI S6 902) Interaction of biological and environmental factors affecting psychological development from conception to death. Study and application of the principles of development throughout the life cycle. Study and application of physical, social, moral, cognitive, and language theory included. Prerequisite: PSY 101. F S Su

**PSY 220 Educational Psychology** 3-0-3  
Analysis of effective instructional sequences and classroom behavior management: application of learning theory principles and evaluation techniques to the classroom setting. Recommended for students interested in teaching. Prerequisite: PSY 101. F S Su

**PSY 222 Industrial and Organizational Psychology** 3-0-3  
Introduction to application of psychological theory and research to organizations. Topics include theories of organizational structure, development and change, leadership and decision making, personnel issues and decisions, human interaction in organizations, and job satisfaction and motivation. Prerequisite: PSY 101. F S

**PSY 223 Introduction to Adult Development and Aging** 3-0-3  
(IAI S6 905) Examination of psychological and biological aspects of adult development and the aging process including relevant research in personality, learning, motivation, intelligence, achievement, creativity, and mental health across adulthood. Occupational patterns, social issues, and relationships within and between generations. Prerequisite: PSY 101. F S

**PSY 224 Psychology of Women** 3-0-3  
Examination of female life cycle that explores ways in which biological growth and intellectual and social behavior of women change over time. Theoretical, research, and discussion topics focus on gender-role development, socialization processes, and self concept formation. Prerequisite: PSY 101. S

**PSY 225 Death and Dying** 3-0-3  
Extensive review of thanatology in various cultures: review of current literature and practices in dealing with the dying person; grief and bereavement as it pertains to psychological, medical, religious, and general community. Prerequisite: PSY 101. F S

**PSY 289 Topics in Psychology** 3-0-3  
Study of selected topics in psychology. Topics vary according to section and semester and are listed in the class schedule. Prerequisite: three credit hours in the discipline. A total of six credit hours may be taken in topics courses numbered 289, but PSY 289 is not repeatable for credit. F

## Religion

*Humanities*  
217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

**REL 101 Introduction to Religion** 3-0-3  
(IAI H5 900) Interdisciplinary study of the nature of religion; the variety of religious beliefs, practices, and experiences; and religious issues common to all religions. F S

**REL 102 The World's Great Religions** 3-0-3  
(IAI H5 904N) Teachings and histories of world's major religions: Hinduism, Jainism, Buddhism, Taoism, Confucianism, Shintoism, Zoroastrianism, Judaism, Christianity, and Islam. (Also in Canterbury Program) F

**REL 104 The Bible: The Hebrew Scriptures (The Old Testament)** 3-0-3  
(IAI H5 901) Introduction to origin, development, historical influence, and interpretation of the Bible throughout the Hebrew Scriptures as a centerpiece of Western cultural and religious tradition and as an archeological and spiritual resource of Judaism and Christianity. F

**REL 105 The Bible: The New Testament** 3-0-3  
(IAI H5 901) Introduction to origin, development, historical influence, and interpretation of the New Testament as a centerpiece of Western cultural and religious tradition and as an archeological and spiritual resource of Christianity in its various forms (Roman, Greek Orthodox, Protestant, Coptic). S

**REL 120 Religions of the West** 3-0-3  
(IAI H5 904N) Teachings, histories, and influence of the major religions of Western civilization, including Judaism, Christianity, Islam, Zoroastrianism, and Native American religions. F

**REL 121 Religions of the East** 3-0-3  
(IAI H5 904N) Teachings, histories, and influence of the major religions of Eastern cultures, including Hinduism, Buddhism, Jainism, Taoism, Confucianism, and Shintoism. S

## Respiratory Care

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**RTT 117 Introduction to Respiratory Care** 1-0-1  
Introduction to the history and the roles, responsibilities, and opportunities in the respiratory care profession. Overview of Parkland program, licensing requirements, infection control, respiratory therapeutics, communication, professional ethics. F S Su

**RTT 130 Respiratory Therapy I** 3-3-4  
Fundamentals of routine respiratory care: infection control, body mechanics, oxygen delivery systems, vital signs, cylinder safety, oxygen analyzers, oxygen therapy devices, aerosol devices, airway clearance and techniques, cardiopulmonary resuscitation. Prerequisites: concurrent enrollment in RTT 131 and RTT 132; credit or concurrent enrollment in BIO 121; and MAT 085 placement, MAT 098 placement, or completion of MAT 081 or MAT 095 with a grade of C or higher within the previous two years. F

**RTT 131 Respiratory Science** 3-0-3  
Application of respiratory science including respiratory research, infection control, metric conversions, atmospheric gasses, gas behaviors, gas laws, fluidics, gas assessment, humidity, and changes of state. Prerequisites: concurrent enrollment in RTT 130 and RTT 132; credit or concurrent enrollment in BIO 121; and MAT 085 placement, or completion of MAT 081 with a grade of C or higher within the previous two years. F

**RTT 132 Respiratory Therapy II** 4-0-4  
Cardiopulmonary anatomy and physiology, essentials for respiratory care. Prerequisites: concurrent enrollment in RTT 117, RTT 130, and RTT 131; credit or concurrent enrollment in BIO 121; MAT 098 placement, or completion of MAT 072 with a grade of C or higher within the previous two years. F

**RTT 133 Clinical Practicum I** 0-8-1  
Clinical practicum in conjunction with RTT 134, RTT 135, and RTT 151. Prerequisites: completion of all first semester courses and credit or concurrent enrollment in ENG 101, RTT 134, RTT 135, RTT 151, and BIO 122. S

**RTT 134 Respiratory Therapy III** **3-3-4**  
 Invasive and non-invasive mechanical ventilation. Airway management, airway clearance techniques, ventilator operation, modes of ventilation, ventilator settings. Prerequisites: completion of all first semester courses and concurrent enrollment in RTT 117, RTT 133, RTT 135, RTT 151, ENG 101, and BIO 122. S

**RTT 135 Respiratory Therapy IV** **4-0-4**  
 Pharmacology for cardiopulmonary illness; interpretation and clinical application of arterial, venous and capillary blood gases; clinical manifestations, assessment, and treatment of respiratory diseases. Prerequisites: completion of all first semester courses and concurrent enrollment in RTT 133, RTT 134, RTT 151, and credit or concurrent enrollment in BIO 122.

**RTT 136 Clinical Practicum II** **0-8-1**  
 Completion of clinical practicum: entire spectrum of routine respiratory therapy. Prerequisites: RTT 133, RTT 134, RTT 135, RTT 151, BIO 122, ENG 101, and concurrent enrollment in RTT 137. Su

**RTT 137 Advanced Ventilation** **3-0-3**  
 Respiratory failure, initiation, monitoring, management, and discontinuation of mechanical ventilation. Prerequisites: RTT 133, RTT 134, RTT 135, RTT 151, and concurrent enrollment in RTT 136. Su

**RTT 151 Respiratory Therapy V** **3-0-3**  
 Anatomical changes and pathophysiology of cardiopulmonary disease. Physical assessment, diagnostic data, and application of respiratory therapy protocols. Prerequisites: RTT 117, RTT 130, RTT 131, RTT 132, BIO 121, and concurrent enrollment in RTT 133, RTT 134, RTT 135, and BIO 122. S

**RTT 212 Clinical Practicum III** **0-20-2.5**  
 Continued clinical practice with emphasis on critical care experiences, specialty area observation, and the development of inter-professional communication and collaborative practice. Prerequisites: RTT 136, RTT 137, and concurrent enrollment in RTT 213 and RTT 215. F

**RTT 213 Respiratory Therapy VI** **4-0-4**  
 Respiratory care management of the critically ill patient with emphasis on cardiopulmonary anatomy and physiology, bedside monitoring tools, comprehensive patient assessment, hemodynamics, diagnostic and therapeutic interventions. Prerequisites: RTT 136 and RTT 137 and concurrent enrollment in RTT 212 and RTT 215. F

**RTT 214 Clinical Practicum IV** **0-16-2**  
 Continuation of critical care experiences and physician interactions. Special rotations: home care, pulmonary functions, neonatal. Prerequisites: RTT 212, RTT 213, RTT 215, BIO 122, and ENG 102; concurrent enrollment in RTT 217; and credit or concurrent enrollment in BIO 123, PSY 101, and a social science elective. S

**RTT 215 Respiratory Therapy VII** **4-0-4**  
 Neonatal: fetal development, the newborn, patient assessment, emergency care, diagnostic testing, mechanical ventilation, newborn respiratory pathology, electrocardiography, Advanced Life Support (ACLS) and (PALS) pharmacology, airway management, and case based application of ACLS and PALS protocols. Prerequisites: RTT 136, RTT 137, and concurrent enrollment in RTT 212, RTT 213, and ENG 102. F

**RTT 217 Respiratory Therapy VIII** **3-0-3**  
 Pulmonary function testing. Kettering Respiratory Therapy Examination review. NBRC Examination preparation. Prerequisites: RTT 212, RTT 213, RTT 215, and ENG 102; concurrent enrollment in RTT 214; and credit or concurrent enrollment in BIO 123, PSY 101, ENG 102, and a social science elective. S

## Science

*Natural Sciences*

217/351-2285 • [parkland.edu/ns](http://parkland.edu/ns)

**SCI 108 Essentials of Forensic Science** **3-3-4**  
 (IAI LP 900L) Introduction to application of science to law with an overview of forensic chemistry, trace-evidence, forensic biology, and other sub-disciplines. Emphasis on techniques to process crime scenes and analyze physical evidence to help solve cases. Prerequisite: ENG 101 placement. F S

**SCI 208 Forensic Science II: Death Analysis** **3-2-4**  
 (IAI LP 901L) Selected topics in forensic science, emphasizing pertinent factors associated with cause, mechanism, and manner of death. These are correlated with cause of death, as well as physical evidence found on or near the decedent. Prerequisite: ENG 101 placement. F S

## Sociology

*Social Sciences and Human Services*

217/351-2229 • [parkland.edu/sshs](http://parkland.edu/sshs)

**SOC 101 Introduction to Sociology** **3-0-3**  
 (IAI S7 900) Principles and concepts of general sociology: general education course in the social sciences; introductory course for the prospective sociology major. Application of scientific methods in study of social phenomena. Prerequisite: ENG 099 placement. F S Su

**SOC 102 Social Problems** **3-0-3**  
 (IAI S7 901) Sociological analysis of social institutions and problems created by their efforts to meet demands of changing social environment. For students who want to more fully understand contemporary American society. Prerequisite: ENG 099 placement. F S

**SOC 200 Sociology of Marriage and Family** **3-0-3**  
 (IAI S7 902) Sociological investigation of processes involved in marriage and family: impact of social institutions on marriage and family structure; various marriage structures and their results; and interaction of family members. Prerequisite: ENG 099 placement. F S

**SOC 202 Sociology of Deviant Behavior** **3-0-3**  
 Nature and dynamics of deviant behavior in contemporary American society, including alcoholism, suicide, drug addiction, prostitution, mental disorders, juvenile delinquency, and adult crime; major sociological theories of social control, conformity, and deviance. Prerequisite: ENG 099 placement. F S

**SOC 203 Diversity and Society** **3-0-3**  
 (IAI S7 903D) Examination of racial, religious, ethnic, and other groups. Analysis of the persistence of group identity, intergroup relations, social movements, government policy, and related social problems. Prerequisite: ENG 099 placement. F S

**SOC 204 Criminology** 3-0-3  
(IAI CRJ 912) Contemporary analysis of crime and delinquency from sociological perspective: causation, distribution, and prevention are examined through American socio-economic-political structure and American criminal justice system. Prerequisite: ENG 099 placement. S

**SOC 205 Methods of Social Research** 3-0-3  
Introduction to the process and methods of social research. Construction of research questions or hypotheses, study design, qualitative and quantitative research methods, techniques of analysis and interpretation, and the process of evaluation and reporting. Prerequisites: MAT 107 or 108 and ENG 099 placement.

**SOC 220 Introduction to Social Work** 3-0-3  
Survey course in social work. Examines major social problems, identifying groups historically impacted by them. Includes overview of social work values, skills, and knowledge required for generalist practice. Introduces programs, services, and policies that impact social work and social welfare. Prerequisite: ENG 099 placement. F S

**SOC 240 Gender and Society** 3-0-3  
(IAI S7 904D) Introduction to sociology of gender: socialization into gender, social institutions and gender, social stratification and gender inequality, and gender and social change. Focus on contemporary American society with attention to socio-historical background and cross-cultural comparisons. Prerequisite: ENG 099 placement. F S

**SOC 289 Topics in Sociology** 3-0-3  
Study of selected topics in sociology. Topics vary according to section and semester and are listed in the class schedule. A total of 6 credit hours may be taken in topics courses numbered 289, but SOC 289 is not repeatable for credit. Prerequisite: ENG 099.

## Spanish

Humanities

217/351-2217 • [parkland.edu/hum](http://parkland.edu/hum)

Students who have taken college-level Spanish courses within the past three years and can document this via a college transcript will be placed in the appropriate level of Spanish. Other students who have taken Spanish classes in high school or college and students with informal Spanish language background (e.g., heritage speakers or individuals who have spent time in a Spanish-speaking country) should contact the Assessment Center to arrange to take the Spanish placement exam. Those with no Spanish experience may begin in SPA 100 or SPA 101.

**SPA 100 Introduction to Basic Spanish I** 2-0-2  
For students with no previous instruction in Spanish. Basic Spanish with attention to oral communication, culture, and the language needs of the student, traveler, and worker. F S Su

**SPA 101 Beginning Spanish I** 4-0-4  
For students with no previous and/or little instruction in Spanish. Development of basic communicative skills. Emphasis on speaking, listening, reading, writing, and basic introduction to Hispanic culture. Prerequisite: ENG 101 placement. (Also in Costa Rica Program) F S Su

**SPA 102 Beginning Spanish II** 4-0-4  
Continued development of communicative skills. Emphasis on speaking, listening, reading, writing, and Hispanic culture. May require out of class lab visits/work. Prerequisite: SPA 101 or equivalent. (Also in Costa Rica Program) F S Su

**SPA 103 Intermediate Spanish I** 4-0-4  
Development of intermediate level of communicative competence. Emphasis on speaking, listening, reading, writing vocabulary, grammar, and Hispanic culture. May require out of class lab visits/work. Prerequisite: SPA 102 or equivalent. (Also in Costa Rica Program) F S Su

**SPA 104 Intermediate Spanish II** 4-0-4  
(IAI H1 900) Continued development and refinement of intermediate-level communicative competence. Emphasis on speaking, listening, reading, writing, and Hispanic culture. May require out of class lab visits/work. Prerequisite: SPA 103 or equivalent. (Also in Costa Rica Program) F S Su

**SPA 120 Introduction to Basic Spanish II** 2-0-2  
Continuing basic Spanish with attention to oral communication, culture, and language needs of the student, traveler, and worker. Prerequisite: SPA 100 or equivalent. F S

**SPA 130 Beginning Spanish for Professional Purposes I** 3-0-3; 4-0-4; 5-0-5  
Development of Spanish communication skills for the workplace. Basic communication skills for working with Spanish speaking populations. F S

**SPA 131 Beginning Spanish for Professional Purposes II** 3-0-3; 4-0-4; 5-0-5  
Review and development of Spanish communication skills for the workplace. Basic communication skills for working with Spanish speaking populations. Prerequisite SPA 130 or equivalent. F S

**SPA 220 Spanish Conversation and Culture** 4-0-4  
Spanish conversation; development of advanced communicative competence and increased fluency and accuracy in speaking and writing. Prerequisite: SPA 104 or equivalent (grade of A or B) or approval of program coordinator or department chair. (Also in Costa Rica Program.) F S

**SPA 240 Readings in Hispanic Literature and Culture** 3-0-3  
Readings and discussion in Spanish of a variety of texts by leading Hispanic and Hispanic-American writers covering genres and themes. Emphasizes reading, discussion, and enjoyment rather than literary criticism. Prerequisite: SPA 104 or equivalent with a grade of A or B, or approval of program coordinator or department chair. F S

## Sterile Processing Technician

Health Professions

217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**SPT 110 Sterile Processing Technician Theory** 3-1-3  
Prepares students for careers as members of the hospital central service team. Basic introduction to the central service role, surgical supplies, basic and specialty surgical instruments, and packing and sterilization. F S

**SPT 111 Sterile Processing Technician Practicum** 0-27-4.5  
Hands-on experience in the sterile processing department. Active participation in the role of a sterile processing technician. Prerequisite: credit or concurrent enrollment in SPT 110 or credit or concurrent enrollment in SUR 210, SUR 116, and SUR 218. F S

# Surgical Technology

Health Professions

217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

## **SUR 116 Surgical Terminology I** 1-0-1

Medical terminology pronunciation and spelling; defining prefixes, suffixes, and root words for the purpose of defining medical terms. Medical terminology relating to surgical descriptions, surgical schedules, diagnoses, and understanding doctor's orders. Prerequisite: admission into Surgical Technology program. F

## **SUR 150 Personal and Professional Relations** 1-0-1

Professionalism relating to surgical technology including accountability, work ethics, communication, stress management, job searches and retention, professional obligations, certification, health care for a diverse community, and legal terms and topics. Prerequisite: admission into Surgical Technology program. S

## **SUR 158 Pharmacology for the Surgical Technologist** 1-0-1

Introduction to basic pharmacology principles. Emphasis on the surgical technologist's role in medication administration, calculation, handling and labeling. Medication classifications and use in the surgical setting and how they may alter or influence surgical intervention. Prerequisites: admission into Surgical Technology program and credit or concurrent enrollment in SUR 150.

## **SUR 210 Surgical Specialties I** 4-0-4

Orientation to surgical technology; asepsis, sterilization; wound closures; hemostasis; wound healing; anesthesia; pharmacology; surgical procedures in gastrointestinal, genitourinary, gynecology, and general. Prerequisites: BIO 121, BIO 122, BIO 123, ENG 102, and PSY 101; concurrent enrollment in SUR 218, SUR 231, SUR 232, SUR 238, and SUR 239; and credit or concurrent enrollment in SUR 116. F

## **SUR 218 Surgical Instrumentation I** 1-0-1

Introduction to preparation and use of standard instrumentation. Classifications; basic set assemblies. Specialty instrumentation utilized in surgeries of general, gastrointestinal, and genitourinary. Prerequisites: BIO 121, BIO 122, BIO 123, ENG 102, and PSY 101; concurrent enrollment in SUR 231, SUR 232, SUR 238, and SUR 239. F

## **SUR 231 Clinical Theory I** 4-3-5

Introduction to the surgical environment. Introduction and redemonstration of basic clinical skill components needed to participate as a member of the surgical team in actual operating rooms. Offered in Parkland's mock operating room. Prerequisites: concurrent enrollment in SUR 210, SUR 218, and SUR 238. F

## **SUR 232 Clinical Practicum I** 2-6-4

Introduction and redemonstration of advanced clinical skills for participation in the surgical specialties of general, gynecology, gastrointestinal, and genitourinary. Students function in the role of the surgical technologist in actual operating rooms. Prerequisites: SUR 231 and SUR 238 and concurrent enrollment in SUR 210, SUR 218, and SUR 239. F

## **SUR 238 Mock Operating Room Lab I** 0-1.5-0.5

Laboratory course for SUR 131. Students actively participate in demonstration of clinical skills in the mock operating room under direction and supervision of an operating room professional. Prerequisites: concurrent enrollment in SUR 210 and SUR 231. F

## **SUR 239 Mock Operating Room Lab II** 0-1.5-0.5

Laboratory course for SUR 131 and SUR 132. Students actively participate in demonstration of clinical skills in the mock operating room under direction and supervision of an operating room professional. Prerequisites: concurrent enrollment in SUR 210 and SUR 232. F

## **SUR 254 Surgical Specialties II** 3-0-3

Anatomy, pathology, diagnostic procedures, special preoperative preparation, pharmacology, surgical specialty services, obstetrical, orthopedic, plastic, otological, nose and throat, ophthalmic, thoracic, cardiovascular, neurology, and maxillofacial. Prerequisites: SUR 210, SUR 116, SUR 218, SUR 231, SUR 232, SUR 238, and SUR 239; concurrent enrollment in SUR 259, SUR 273, and SUR 274; and credit or concurrent enrollment in SUR 150 and SUR 158. S

## **SUR 259 Surgical Terminology and Instrumentation II** 1-0-1

Medical and surgical terminology and specialty instrumentation used in surgical specialty services of obstetrical, orthopedic, plastic, otological, nose and throat, ophthalmic, thoracic, cardiovascular, neurology, and maxillofacial. Prerequisite: concurrent enrollment in SUR 214. S

## **SUR 273 Clinical Theory II** 2-0-2

Anatomy and physiology; intraoperative preparation of the surgical patient; common procedures presented with instrumentation, equipment, supplies, medications, and intraoperative for each surgical specialty. Basics of electricity, physics, and robotics. Hazard preparation in the operating room. Prerequisite: concurrent enrollment in SUR 254. S

## **SUR 274 Clinical Practicum II** 0-30-10

Participation as a surgical team member in the role of the surgical technologist in the operating room. Includes experiences in labor and delivery and sterile processing department. Prerequisites: concurrent enrollment in SUR 254, SUR 259, and SUR 273. S

## **SUR 275 Clinical Practicum III** 2-12-6

Demonstration and supervised practice of specialized surgical procedures with emphasis on acquiring proficiency for entry level employment as a surgical technologist. Preparation and review for national certification exam. Prerequisites: SUR 116, SUR 150, SUR 158, SUR 210, SUR 218, SUR 231, SUR 232, SUR 238, SUR 239, SUR 254, SUR 259, SUR 273, and SUR 274. FE

# Theatre

Fine and Applied Arts

217/351-2217 • [parkland.edu/faa](http://parkland.edu/faa)

## **THE 100 Theatre Appreciation** 3-0-3

(IAI F1 907) Enhances appreciation of theatre as an art form through reading and analysis of scripts, theatre viewing, and discussion. Areas of investigation include types of plays; methods of production, design, and use of theatre; and the contributions of collaborative artists. F S Su

## **THE 101 History of Theatre** 3-0-3

(IAI F1 908) Historical development of theatre and drama from its earliest ritual beginnings to contemporary dramatic literature. Includes representative periods and styles, genres, key playwrights, aspects of technical production, social role, and critical interpretation of major works. F S Su

**THE 103 Performance of Literature** **3-0-3**  
(IAI TA 916) Analysis and performance of literature including prose, poetry, and drama with emphasis on using voice and movement to interpret the works and communicate that interpretation to an audience. S

**THE 104 Acting I** **3-0-3**  
(IAI TA 914) Fundamentals of acting introduced through acting exercises, improvisations, and scene study. Major acting approaches such as Cohen, Meisner, Stanislavski, and Shurtleff used as basis for helping actors acquire craft in order to create believable characters. F S

**THE 105 Stagecraft** **2-2-3**  
(IAI TA 911) Introduces safety procedures and basic techniques of scenery and property construction, tool use, scene painting, and backstage organization. Laboratory experience is mandatory. F

**THE 107 Practicum** **0-3-1**  
Increases proficiency in preparation and presentation of theatrical performances in performance or technical areas. Credit is awarded for completion of a college production assignment or by completing required theatrical shop hours. Repeatable for a maximum of 4 credit hours. F S

**THE 109 Costume and Stage Makeup** **2-2-3**  
Safety procedures and costume shop organization. Basic techniques of costume construction, tool use, fitting and draping, and through costume projects for production. Techniques of stage makeup and practical experience in their application. Additional experience may be obtained in THE 107. F

**THE 120 Script Analysis for Production** **3-0-3**  
(IAI TA 917) An introductory exploration of the relationship between dramatic text and the play in production with special emphasis on basic terminology and methodology. Representative plays are studied in their genre, historical, and social contexts. F

**THE 124 Film Appreciation** **2-2-3**  
(IAI F2 908) An introduction to film as an art form, emphasizing a study of the aesthetic and production elements of the medium, including narrative genres, directorial style, cinematography, acting, and editing. F S Su

**THE 125 Film History** **2-2-3**  
(IAI F2 909) An international survey of the historical development of film, emphasizing a study of films and innovations in film production that have had significant influence on film as an art form. F S Su

**THE 202 Acting II** **3-1-3**  
Development of fundamentals introduced in Acting I emphasizing intensive approach to acting exercise, auditioning and scene study. Repeatable for a maximum of 9 credit hours. THE 104 is strongly recommended. S

**THE 215 Advanced Stagecraft** **2-2-3**  
Advanced training in technical theatre including CNC, scenic structures, personnel lifts, arena and theatrical rigging, lighting console programming, and scenic automation. Laboratory experience is mandatory. Prerequisite: THE 105. S

## Transition to Developmental Math

*Center for Academic Success*  
217/351-2441 • [parkland.edu/cas](http://parkland.edu/cas)

**TRN 050 Transition to Developmental Math** **3-0-3**  
Development of basic math skills needed for a successful transition into a developmental mathematics course. Conceptual emphasis including operations with whole number, adding and subtracting signed number, fraction concepts, and simple linear equations in one variable. F S

## Veterinary Technology

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**VTT 110 Small Animal Nursing I** **1-6-3**  
Handling, restraint, and nursing techniques in dogs and cats: emphasis on TPR; bathing; administering tablet, liquid, and injectable medications; and obtaining blood and urine specimens. Prerequisites: admission into Veterinary Technology program and concurrent enrollment in VTT 113, VTT 114, VTT 116, and VTT 119. F

**VTT 111 Small Animal Nursing II** **2-4-3**  
Small animal nutrition, preventative healthcare, euthanasia and continued skill development in nursing techniques including: venipuncture, otic and ophthalmic procedures; dental procedures; bandaging; indwelling catheters and fluid therapy; ectoparasite identification; and ECGs. Prerequisites: VTT 110, VTT 113, VTT 114, VTT 116, VTT 119, and BIO 111. S

**VTT 112 Diagnostic Imaging** **1-3-2**  
Positioning for common views taken of animals; emphasis on methods for obtaining high quality diagnostic radiographs and radiation safety. Prerequisites: VTT 110, VTT 113, VTT 114, VTT 116, VTT 119, and BIO 111. S

**VTT 113 Introduction to Veterinary Technology** **1-0-1**  
Introduction to veterinary technology profession including history of profession, professional organizations, medical terminology, veterinary healthcare team, ethics and legal issues, stress, burnout, compassion fatigue, technology, medical records, communication, grief counseling, safety, and security. Prerequisites: concurrent enrollment in VTT 110, VTT 114, VTT 116, and VTT 119. F

**VTT 114 Clinical Lab I** **1-3-2**  
Routine laboratory tests, including complete blood counts (CBCs), fecal examinations, and blood chemistries; emphasis on developing laboratory techniques that produce consistent results. Prerequisite: concurrent enrollment in VTT 110, VTT 113, VTT 116, and VTT 119. F

**VTT 115 Clinical Lab II** **1-3-2**  
Proficiency in CBCs, fecal examinations, blood chemistries, urinalysis, abnormal hematology, serology, and cytology. Prerequisites: VTT 110, VTT 113, VTT 114, VTT 116, VTT 119, and BIO 111. S

**VTT 116 Large Animal Nursing** **1-2-2**  
Handling, restraint, and nursing techniques in horses, cows, and sheep. Prerequisites: concurrent enrollment in VTT 110, VTT 113, VTT 114, and VTT 119. F

**VTT 117 Surgery Technology I** **2-2-3**  
Introduction to anesthesia for dogs and cats: patient monitoring, anesthetic machine use, intubation, anesthetic drugs and pain management. Surgical support skills: surgery pack preparation, instruments, autoclaving, aseptic techniques, surgical preps, surgical procedures, suture materials, and post-op care. CPR. Prerequisites: VTT 110, VTT 113, VTT 114, VTT 116, VTT 119, and BIO 111. S

**VTT 118 Veterinary Clinical Practicum** **0-20-3**  
Full-time work experience in a veterinary clinical site. Practicum site to be arranged by the student in consultation with the program director. Prerequisites: VTT 111, VTT 112, VTT 115, VTT 117, and VTT 150. Su

**VTT 119 Common Veterinary Drugs I** **3-0-3**  
Basic concepts, terminology, references, and procedures necessary to dispense/administer drugs under the supervision of a veterinarian. Uses, actions, and secondary effects of common veterinary drugs. Mathematics necessary for veterinary professionals. Prerequisites: MAT 060 with a grade of C or higher and concurrent enrollment in VTT 110, VTT 112, VTT 114, and VTT 116. F

**VTT 150 Veterinary Anatomy I** **0-3-1**  
Veterinary Anatomy laboratory course for VTT students: external anatomy, skeletal, muscular, nervous, cardiovascular, respiratory, endocrine, renal and reproductive systems, sensory organs, and gastrointestinal tract of the dog and cat. Prerequisite: BIO 111 or equivalent.

**VTT 210 Clinic Care I** **0-21-4**  
Clinical rotations at University of Illinois College of Veterinary Medicine Veterinary Teaching Hospital and Parkland College. Includes review and redemonstration of technical skills; exposure to specialty areas. Prerequisite: VTT 118. F

**VTT 211 Clinic Care II** **0-21-4**  
Continued clinical rotations at University of Illinois College of Veterinary Medicine Veterinary Teaching Hospital and Parkland College. Prerequisites: VTT 210, VTT 212, VTT 214, and BIO 123. S

**VTT 212 Surgery Technology II** **2-1-3**  
Surgical support and anesthesia for dogs and cats: gas anesthesia, nonrebreathing systems, partial rebreathing systems, nitrous oxide supplementation, surgical assisting, emergency procedures, surgical drugs, fluids, and pain management. Prerequisite: VTT 118. F

**VTT 213 Animal Management** **4-0-4**  
Selected principles of animal and business management in veterinary technology: nutrition, reproduction, vaccinations, diseases, laboratory tests, history taking, costs, and client questions. Animals covered are the horse, cow, dog, cat, pig, and sheep. Prerequisites: VTT 210, VTT 212, VTT 214, and BIO 123. S

**VTT 214 Laboratory Animals** **1-2-2**  
Introduction to the care and use of laboratory animals with discussion of correct sanitation procedures, laboratory animal handling, anatomical differences, clinical pathology, common diseases and treatment, and laboratory animal facility procedures and equipment. Prerequisite: VTT 118. F

**VTT 215 Common Veterinary Drugs II** **1-0-1**  
Uses, mechanisms of action, and secondary effects of drugs commonly administered and dispensed by veterinary technicians. Includes calculating drug dosages and dilutions. Prerequisites: VTT 119, VTT 210, VTT 212, VTT 214, and BIO 123. S

**VTT 216 Transitioning to Practice** **1-0-1**  
Selected management principles: team leadership, conflict management, marketing, inventory management, resume preparation, interviewing skills, communication skills, appointment management, professional development, scope of practice, and preparation for the VTNE. Prerequisites: VTT 210, VTT 212, VTT 214, and BIO 123. S

## Welding

*Agriculture/Engineering Science and Technologies*  
217/351-2481 • [parkland.edu/agest](http://parkland.edu/agest)

**WLD 110 Beginning Gas and Arc Welding** **1-2-2**  
Introductory theory and practice in oxyacetylene and shielded metal arc welding. Includes oxyacetylene fusion welding and brazing in the flat position, shielded metal arc welding in flat position, manual oxyfuel cutting, and plasma arc cutting. F

**WLD 111 Introduction to Welding** **2-4-4**  
(IAI MTM 936) Selection and use of electric arc, oxyacetylene, inert gas, and wire-feed welders; emphasis on skills and competencies demanded by industry. F S Su

**WLD 112 Gas Metal Arc Welding** **1-2-2**  
Gas metal and arc welding fundamentals, welding safety, gas metal arc equipment adjustments, metal transfer, and shielding gases; skill development in all positions of welding on mild steel ranging from 1/8" to 22 gauge steel. Prerequisite: credit or concurrent enrollment in WLD 110 or WLD 111. F

**WLD 113 Gas Tungsten Arc Welding** **1-2-2**  
Gas tungsten arc welding fundamentals, arc characteristics, and welding safety; skill development on 16 gauge and 0.125 steel and stainless; setups, preparation of tungsten tips and selection of inert gases. Prerequisites: WLD 110 or WLD 111, and concurrent enrollment in WLD 213. S

**WLD 114 Fabrication Welding** **2-3-3**  
Further development of welding skills, especially in the "off position." Emphasis on fabrication of metal structures and development of related skills such as blueprint reading, use of welding symbols, and layout techniques. Prerequisite: WLD 111.

**WLD 212 Advanced Gas Metal Arc Welding** **1-2-2**  
Advanced gas metal and arc welding. Gas metal arc equipment adjustments, metal transfer, and shielding gases. Skill development in all positions of welding on mild steel ranging from 1/8" to 3/8" steel and aluminum. Prerequisites: credit or concurrent enrollment in WLD 110, WLD 111, or WLD 112. F

**WLD 213 Advanced Gas Tungsten Arc Weld** **1-2-2**  
Student will prepare tungsten electrodes to accommodate various metal types and thicknesses, 16 gauge to 1/4 plate; flat, out of position, and multipath procedures. Metals include mild, stainless steel, and aluminum. Prerequisites: WLD 110 or WLD 111, and concurrent enrollment in WLD 113. S

**WLD 215 Weldability Inspection/Composition of Welds** **3-2-4**  
Composition and weldability of metals and effects of heating and cooling metal on metal and weld strength; welding certification standards and guidelines to certify welding performance; nondestructive and destructive tests to check weld quality and strength. Prerequisite: WLD 111.

**WLD 216 Welding Certification I** **2-4-4**  
Welding codes and regulations covering: materials, service limitation, fabrication, inspection, test procedures and qualifications of welding operators. Special emphasis is placed on preparation for American Welding Society Certification. Prerequisite: WLD 111 or equivalent or approval of instructor or department chair. Su

## Radiologic Technology: Computer Tomography

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**XCT 210 Computed Tomography Imaging** **3-0-3**  
History, physics, and system operational components of computed tomography imaging. Image acquisition, display, reconstruction, and quality control. Prerequisite: ARRT primary certification or concurrent enrollment in XRA 213, XRA 214, and XRA 232. F

**XCT 212 Sectional Pathology** **3-0-3**  
Sectional imaging procedures and pathology commonly found in CT and MRI. Prerequisite: ARRT primary certification or XCT 210. S

**XCT 214 Patient Care** **3-0-3**  
Patient care for CT and MRI imaging, pharmacological classification, documentation, and administration of contrast agents and related drug administration. Prerequisite: ARRT primary certification, XCT 210 or XMR 211, and XCT 212. S

**XCT 215 CT Clinical** **0-20-3**  
Students will perform CT imaging procedures based on previous coursework and clinical objectives. Prerequisite: ARRT primary certification. F Su

## Radiologic Technology: Magnetic Resonance Imaging

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**XMR 211 Magnetic Resonance Imaging** **3-0-3**  
MRI imaging history, physics, and system operational components. Image acquisition, display, reconstruction, and quality control. Prerequisite: ARRT primary certification. Su

**XMR 217 MRI Clinical** **0-40-6**  
Students will perform MRI imaging procedures based on previous coursework and clinical objectives. Prerequisite: ARRT primary certification. F S

## Radiologic Technology

*Health Professions*  
217/351-2224 • [parkland.edu/hp](http://parkland.edu/hp)

**XRA 110 Basic Clinical Skills** **1-4-3**  
Orientation to the program and clinical affiliates, history of x-radiation, basic xray protection, and medical terminology. Prerequisite: admission into Radiologic Technology program. Su

**XRA 111 Radiologic Technology I** **2-3-3**  
Radiographic anatomy and positioning of upper and lower extremities, spine, thorax, contrast studies, and medical terminology. Prerequisites: credit or concurrent enrollment in XRA 114, XRA 131, and BIO 121. F

**XRA 112 Radiologic Technology II** **2-3-3**  
Xray imaging characteristics, factors affecting radiographic exposure, and digital imaging. Radiographic positioning of skull and facial bones. Prerequisites: XRA 111, XRA 131, BIO 121, and credit or concurrent enrollment in XRA 132, BIO 122, and PHY 112. S

**XRA 114 Patient Care** **2-3-3**  
Students apply basic skills in a variety of settings: health care trends, vital signs, body mechanics, cardiopulmonary resuscitation, isolation techniques, and communication skills. Prerequisites: credit or concurrent enrollment in XRA 111, XRA 131, and BIO 121. F

**XRA 131 Clinical I** **0-18-3-**  
Students assist and perform routine examinations of chest, abdomen, spine, and extremities; 270 clinical hours. Prerequisites: credit or concurrent enrollment in XRA 111, XRA 114, BIO 121, and HCS 216. F

**XRA 132 Clinical II** **0-24-4-**  
Students assist and perform fluoroscopy, exams, routine exams, and portable xray examinations with relative independence; 360 clinical hours. Prerequisites: XRA 111, XRA 114, XRA 131, BIO 121, HCS 216, and credit or concurrent enrollment in XRA 112, BIO 122, and PHY 112. S

**XRA 150 Introduction to Radiography** **1-0-1**  
Introduction to the radiologic technology program, profession, clinical affiliates, history of radiation, basic xray protection, and terminology. Hybrid course. F S

- XRA 213 Radiographer's Physics 3-0-3**  
Basic xray equipment construction and function, properties of electromagnetic radiation, and basic xray physics. Prerequisites: XRA 112, XRA 231, BIO 122, PHY 112, and concurrent enrollment in XCT 210, XRA 214, and XRA 232. F
- XRA 214 Advanced Radiologic Technology I 2-2-3**  
Advanced factors affecting radiographic exposure. Radiobiology, interactions in matter, health physics, and radiation protection. Prerequisites: XRA 112, XRA 231, BIO 122, PHY 112 and concurrent enrollment in XCT 210, XRA 213, and XRA 232. F
- XRA 216 Advanced Radiologic Technology II 3-0-3**  
Pathology and review seminars. Prerequisites: XRA 213, XRA 214, XRA 232, XCT 210 and concurrent enrollment in XRA 217, XRA 233, and XCT 212. S
- XRA 217 Advanced Clinical Skills 0-3-1**  
Critical positioning skills in atypical radiographic procedures. Prerequisites: XRA 213, XRA 214, XRA 232, XCT 210, and concurrent enrollment in XRA 216, XRA 233, and XCT 212. S
- XRA 231 Clinical III 0-16-2**  
Students assist and perform skull and emergency x-ray exams and perform all objectives stated in previous clinical courses with relative independence; 240 clinical hours. Prerequisites: XRA 112, XRA 132, BIO 122, and PHY 112. Su
- XRA 232 Clinical IV 0-24-4**  
Students perform most xray examinations with a minimum of assistance. Participation in rotations to various specialty areas; 360 clinical hours. Prerequisites: XRA 112, XRA 231, and concurrent enrollment in XCT 210, XRA 213, and XRA 214. F
- XRA 233 Clinical V 0-24-4**  
Students perform most routine and non-routine xray examinations with little or no supervision as a technologist would function; 360 clinical hours. Prerequisites: XRA 213, XRA 214, XCT 210, XRA 232, and concurrent enrollment in XRA 216, XRA 217, and XCT 212. S
- XRA 231 Clinical III 0-16-2**  
Students assist and perform skull and emergency x-ray exams and perform all objectives stated in previous clinical courses with relative independence; 240 clinical hours. Prerequisites: XRA 112, XRA 132, BIO 122, and PHY 112. Su
- XRA 232 Clinical IV 0-24-4**  
Students perform most xray examinations with a minimum of assistance. Participation in rotations to various specialty areas; 360 clinical hours. Prerequisites: XRA 112, XRA 231, and concurrent enrollment in XCT 210, XRA 213, and XRA 214. F
- XRA 233 Clinical V 0-24-4**  
Students perform most routine and non-routine xray examinations with little or no supervision as a technologist would function; 360 clinical hours. Prerequisites: XRA 213, XRA 214, XCT 210, XRA 232, and concurrent enrollment in XRA 216, XRA 217, and XCT 212. S

# 2019–2020 Faculty/Administrative Staff

Date in parentheses indicates first year of full-time appointment at Parkland College.

ADAWI, Omar (1995)  
Professor/Mathematics  
Tutoring Coordinator/Center  
for Academic Success  
B.S., Massachusetts Institute of Technology  
M.S., University of Illinois

ANGEL, Julie C. (2011)  
Associate Professor/Earth Sciences  
A.S., Parkland College  
B.S., Illinois State University  
M.S., Illinois State University

AYALA, Thomas (2008)  
Associate Professor/English  
B.A., University of Illinois  
M.A., University of Illinois

BACHTOLD, Beth (2002)  
Associate Professor/Reading  
A.B., University of Illinois  
M.A., National-Louis University  
BAHNKE, Rebecca R. (1992)  
Professor Emeritus/Occupational  
Therapy Assistant  
B.S., State University of New York at Buffalo  
M.H.S., University of Indianapolis

BAILS, Kelly (2002)  
Professor/Mathematics  
A.A., Hillsborough Community College  
B.S., University of Tampa  
M.S.Ed., State University of New York

BAKER, Derrick (2015)  
Dean/Learning Support  
B.A., University of Illinois  
M.Div., Southern Baptist  
Theological Seminary

BARBOUR-CONERTY, Kelly (2007)  
Associate Professor/Business  
B.B.A., East Texas State University  
M.B.A., Texas A&M  
Ed.D., Capella University

BARNARD, Thomas C. (1999)  
Professor/English  
B.A., University of California–Berkeley  
M.A., University of Illinois  
Ph.D., University of Illinois

BEATTY, Christina (2008)  
Associate Professor/Chemistry  
and Forensic Science  
B.S., University of Illinois  
M.S., University of Illinois  
M.S., University of Florida

BEHRENS, Michael (2014)  
Director/Assessment Center  
B.S., University of Illinois  
M.A., Eastern Illinois University

BERTI, Christopher A. (1995)  
Professor/Art and Design  
B.F.A., Alfred University  
M.F.A., Cranbrook Academy of Art

BISHOP, Clifford (2000)  
Technical Services/Electronic Resources  
Librarian, Professor/Library  
B.A., Union College  
M.A., Cornell University  
M.L.S., Syracuse University

BLACKBURN, Leonard (2004)  
Associate Professor/Mathematics  
B.A., Knox College  
M.S., University of Minnesota

BLACKMAN, Ann (2004)  
Associate Professor/Business  
Administrative Technology  
B.S., Eastern Illinois University  
M.S., Eastern Illinois University

BOCK, David P. (2000)  
Professor/Computer Science  
B.S., Southern Illinois University  
M.A., University of Illinois  
M.F.A., University of Illinois

BOSCH, Theresa (2002)  
Professor/Nursing  
A.A.S., Parkland College  
B.S.N., University of Illinois, Chicago  
M.S., University of Illinois, Chicago

BOSSAERS, Philippe (2000)  
Professor/Mathematics  
B.S., Bradley University  
M.S., Southern Illinois University

BOYCE, Peggy (2007)  
Associate Professor/Dental Hygiene  
A.A.S., Parkland College  
B.A., Eastern Illinois University  
M.A., University of Illinois

BOYD, Paula (2001)  
Associate Professor/English  
A.A., Broome Community College  
B.A., State University of New York  
M.A., State University of New York  
M.A.T., State University of New York

BRIGGS, Amanda (2014)  
Certified Flight Instructor/Aviation  
B.S., University of Illinois  
Airline Transport Pilot, Federal  
Aviation Administration  
Flight Instructor, Federal  
Aviation Administration  
Ground Instructor, Federal  
Aviation Administration

BROWN, Tracey (2008)  
Associate Professor/Intensive ESL  
B.A., Grand Valley State University  
B.A., Grand Valley State University  
Certificate, Grand Valley State University  
M.A., Central Michigan University

BUCHER, Debbie (2009)  
Associate Professor/Nursing  
B.S., Olivet Nazarene  
M.S., Weldon University

BUSKER, R. Lucy (2002)  
Professor/English  
B.A., University of Dayton  
M.A., University of Nebraska  
Ph.D., Arizona State University

BUSTARD, James (2000)  
Director/Physical Plant  
B.S., Illinois College  
M.B.A., Eastern Illinois University

CAFARELLI, Brian (2008)  
Associate Professor/Communication  
B.S., Ferris State University  
M.A., Eastern New Mexico University

CARLSON, Catherine Britt (2013)  
Associate Professor/Chemistry  
B.S., Earlham College  
Ph.D., University of Wisconsin

CLARK, Wayne (2000)  
Professor/Mathematics  
B.A., Eastern Illinois University  
M.A., Eastern Illinois University

COCKRUM, Dennis (2005)  
Counselor, Associate Professor/  
Counseling Services  
A.A., Parkland College  
B.S., Southern Illinois University  
M.S.W., University of Illinois

COLBROOK, William (2014)  
Chief/Director, Public Safety  
B.S., Illinois State University

COUSERT, Diane (2013)  
Assistant Dean, Nursing and Faculty  
Affairs/Health Professions  
B.S., Lakeview College of Nursing  
M.S., University of Illinois  
D.N.P., Rush University

COX, Tammy (2014)  
Associate Professor/Radiology  
A.A.S., Parkland College  
B.S., Grand Canyon University

CROSS, Megan (2012)  
Associate Professor/Nursing  
A.D.N., Northwest Mississippi  
Community College  
B.S.N., Jacksonville University  
M.S.N., Olivet Nazarene University

DALLAS, Derek (2001)  
Department Chair/Business/Computer  
Science and Technologies  
Associate Professor/Computer Graphics  
A.A.S., Lakeland College  
B.S., Eastern Illinois University

- DALTON, Rosetta A. (1998)  
Professor/Biology  
B.S., University of Illinois  
M.S.T., University of Illinois
- DONSBACH, David (2008)  
Controller/Business Office  
B.S., University of Illinois  
M.B.A., University of Illinois
- DOSSETT, Raeann (2001)  
Information Services and Electronic  
Resources Librarian/Library  
Associate Professor/Library  
B.S., Illinois State University  
M.L.S., University of Illinois
- DRAKE, Sheryl (2007)  
Associate Professor/Chemistry  
B.S., Illinois State University  
M.S., Illinois State University
- DUCEY, Terri (2017)  
Instructor/Nursing  
M.S.N., Benedictine University
- ELLER, Lisa (2011)  
Associate Professor/Veterinary Technology  
D.V.M., Purdue University
- EVERETT, Tamala (2007)  
Associate Professor/Massage Therapy  
B.S., Florida State University  
M.S., Florida State University
- FISCHER, Thomas (2014)  
Associate Professor/Automotive Ford ASSET  
B.S., Southern Illinois University  
(Automotive Technology)  
B.S., Southern Illinois University (Workforce  
Education and Development)  
ASE Certified
- FORD, David (2019)  
Certified Flight Instructor/Aviation  
Commercial Pilot/Federal  
Aviation Administration  
Flight Instructor/Federal  
Aviation Administration
- FOWLER, Willie (2000)  
Professor/Political Science  
B.A., Northern Illinois University  
M.P.A., Northern Illinois University  
Ph.D., Northern Illinois University
- FRIDGEN, Jennifer (2014)  
Assistant Professor/Business  
and Agri-Industries  
M.S., Mississippi State University
- GARRETT, Lori (2009)  
Associate Professor/Biology  
B.S., University of Illinois  
M.S., University of Illinois
- GREER, Kara (2008)  
Associate Professor/Mathematics  
B.S., University of Illinois  
M.S., University of Iowa
- GREWATZ, Janice (2018)  
Instructor/Surgical Technology  
B.S., Southern Illinois University
- GRISON, Sarah (2013)  
Associate Professor/Psychology  
Ph.D., University of Wales
- GULICK, Angela M. (1999)  
Professor/English Composition  
B.S., Iowa State University  
B.A., Iowa State University  
M.A., Iowa State University
- HALES, Wade (2014)  
Associate Professor/EMS  
B.S., Eastern Illinois University
- HANCOCK, Steven (2002)  
Assistant Professor/Diesel Power  
Equipment Technology  
A.A.A., Northeast Iowa Community College
- HARDEN, Rochelle (2003)  
Associate Professor/English  
B.A., Northern Illinois University  
M.A., Northern Illinois University  
M.Ed., University of Illinois
- HASTINGS, Kevin (2000)  
Professor/Mathematics  
A.S., Olney Central College  
B.A., Eastern Illinois University  
M.A., Eastern Illinois University
- HAVENLAND, Christina (2009)  
Associate Professor/Pre-College ESL  
B.A., Valparaiso University  
M.S., University of Illinois
- HAWTHORNE, Julia (2013)  
Director/ TRIO Student Support Services  
B.A., University of Puget Sound  
M.B.A., University of Illinois
- HEDRICK, Gordon (2010)  
Assistant Professor/Diesel Power  
Equipment Technology  
Certificate, Lakeland College
- HENDERSON, Triss A. (1996)  
Director/Community Education  
B.S., University of Illinois
- HETTINGER, Laura (2018)  
Instructor/ Dental Hygiene  
A.A.S., Parkland College  
B.S., University of Michigan- Ann Arbor
- HICKOX, Tracey (2014)  
Director/Center for Academic Success  
B.S., University of Memphis  
M.S., University of Memphis
- HORTON, Todd W. (1998)  
Associate Professor/Construction  
Management  
B.S., University of Illinois  
Professional Engineer, Illinois  
Professional Land Surveyor, Illinois
- HURT, Matthew (2003)  
Department Chair/Humanities  
Professor/English  
B.A., University of Illinois-Chicago  
M.A., University of Illinois-Urbana  
Ph.D., University of Illinois-Urbana
- JACOBSON, Justin (2019)  
Certified Flight Instructor/Aviation  
B.S., Illinois State University  
Flight Instructor/Federal  
Aviation Administration  
Commercial Pilot/Federal  
Aviation Administration
- JANCOLA, Angela E. (2000)  
Counselor, Professor/Counseling Services  
A.A., Parkland College  
B.S., University of Illinois  
M.S.W., University of Illinois
- JANESKY, Kerry (2017)  
Adjunct instructor/Radiology  
A.A.S., Danville Area Community College  
B.S., Grand Canyon University  
M.P.A., Grand Canyon University
- JOHNSON, Erik S. (2011)  
Associate Professor/Astronomy  
B.S., University of Iowa  
M.S., Iowa State University
- JONES, Marsh (2001)  
Professor/History  
B.S., University of Illinois  
M.A., University of Illinois  
Ph.D., University of Illinois
- JONES, William (2015)  
Certified Flight Instructor/Aviation  
B.S., Lebanon Valley College  
Airline Transport Pilot, Federal  
Aviation Administration  
Flight Instructor, Federal  
Aviation Administration  
Ground Instructor, Federal  
Aviation Administration
- KARCH, Adam (2013)  
Associate Professor/Automotive Technology  
A.A.S., Parkland College  
B.S., Eastern Illinois University
- KASSEM, Amin (2014)  
Chief Information Officer/  
Administrative Services  
M.S., Northwestern University
- KENNETT, Tami (2011)  
Associate Professor/Nursing  
B.S.N., Illinois State University  
M.S.N., Illinois State University
- KESLER, Mark (2008)  
Associate Professor/Business  
B.S., University of Illinois  
M.S., Eastern Illinois University
- KILAR, Jeffrey (2009)  
Associate Professor/Hospitality Industry  
B.A., University of Iowa  
M.B.A., Eastern Illinois University
- KLEPARSKI, Tracy (2019)  
Director/Student Life  
B.A., University of Northern Iowa  
M.S., Illinois State University

- KNOTT, Kevin (2008)  
Dean/Institutional Effectiveness  
A.S., Parkland College  
B.S., Illinois State University  
M.S., Illinois State University  
M.S., University of Illinois
- KO, Jaebum (2002)  
Professor/Mathematics  
B.S., University of Pittsburgh  
M.S., University of Illinois
- KRALL, Bryan (2002)  
Associate Professor/Biology  
A.A.S., Illinois Central College  
B.S., Illinois State University  
M.S., Illinois State University
- LANDIS, Amber (2006)  
Associate Professor/English  
B.A., Illinois State University  
M.A., University of Illinois
- LARENAS, Charles (2008)  
Associate Professor/Education  
B.S., University of Illinois  
M.S., University of Illinois
- LAU, Pamela (2000)  
Vice President/Academic Services  
B.A. (First Class Honors), National  
University of Singapore  
M.A., University of Chicago  
Ed.D., Ferris State University
- LEAP, John W. (1983)  
Professor/Engineering Science  
and Electronics  
B.S., Purdue University  
M.S., Purdue University  
Ph.D., University of Illinois
- LEUSZLER, Heidi K. (1995)  
Professor/Biology  
B.A., Knox College  
M.S., Utah State University
- LITTLETON, Jody (2001)  
Associate Professor/Communication  
A.S., Lake Land College  
B.A., Eastern Illinois University  
M.A., Eastern Illinois University
- LLOYD, Chelsea (2019)  
Instructor/ Microbiology  
M.S., University of Illinois  
Ph.D., University of Illinois
- LOBDELL, Laurie (2011)  
Associate Professor/Veterinary Technology  
B.A.S., Siena Heights University
- LYONS, Kyle (2018)  
Certified Flight Instructor/Aviation  
A.A.S., Southern Illinois University  
B.S., Southern Illinois University  
Flight Instructor/ Federal  
Aviation Administration  
Commercial Pilot/ Federal  
Aviation Administration  
Ground Instructor/ Federal  
Aviation Administration
- MANSFIELD, James C. (1998)  
Department Chair/Agriculture/Engineering  
Science and Technologies  
Professor/Electronics  
A.A.S., Parkland College  
A.S., Parkland College  
B.S., Illinois State University  
Ed.M., H.R.D., University of Illinois
- MANUEL, Stephanie (2018)  
Adjunct Instructor/Nursing  
B.S., Illinois Wesleyan University
- MARTIN, Molly (2012)  
Associate Professor/Respiratory Care  
A.A.S., Parkland College  
B.S., Greenville College
- MASTERS, Rebecca (2012)  
Associate Professor/Surgical Technology  
Certificate, Parkland College  
B.A., Eastern Illinois University
- MATTHEWS, Michelle (2012)  
Associate Professor/Nursing  
A.A.S., Parkland College  
B.S.N., University of Phoenix  
M.S.N., Walden University
- MAUNEY, Sean (2002)  
Professor/Computer Science  
B.S., Fresno State  
M.S., Purdue University
- MAY, Shelby (2014)  
Associate Professor/CNA (Nursing)  
A.A.S., Parkland College  
B.S., Illinois State University  
M.S., University of Alabama
- MCANDREW, Kathleen (2008)  
Director/Human Resources  
B.S., Eastern Illinois University  
M.P.A., Governors State University
- MCCLURE, Kendra (2010)  
Associate Professor/Communication  
B.A., Valparaiso University  
M.A., Eastern Illinois University
- MCHALE, J. Brendan (2018)  
Director/Athletics  
B.S., Western Illinois University
- MCMANUS, Ann M. (1998)  
Professor/Psychology  
B.A., University of the Pacific  
Certification, University of  
California-Berkeley  
M.A., San Francisco State University
- MEERS, Theresa (2006)  
Associate Professor/Agriculture  
and Horticulture  
B.S., University of Illinois  
M.S., University of Illinois
- MELANDER, Nicole (2018)  
Instructor/ Accounting  
A.A.S., Parkland College  
B.S., Illinois State University  
M.S., Illinois State University
- MENDELOWITZ, Seth J. (1994)  
Professor/English  
B.A., Union College  
M.A., San Francisco State University  
M.A., San Francisco State University  
M.A., University of Illinois
- MERCER, Brian A. (1998)  
Department Chair/Mathematics  
Professor/Mathematics  
A.S., Lake Land College  
B.A., Eastern Illinois University  
M.S., Southern Illinois University
- MEREDITH, Raymond D. (1998)  
Professor/Spanish, English as  
a Second Language  
B.A., University of Illinois  
M.A., University of Illinois  
Certificate of Advanced Study,  
University of Illinois
- MITEVA, Valentina (2012)  
Associate Professor/Biology  
M.S., University of Plovdiv
- MOBASSERI, Maria (1999)  
Assistant Professor/Computer Science  
B.S., University of Massachusetts  
M.S., University of Illinois
- MOORE, John E. (1980)  
Professor/Biology  
B.S., Grand Valley State College  
M.S., Southern Illinois University
- MOORE, Jonathon (2018)

# parkland college profile

## College

Two-year, public community college, located in East Central Illinois. Founded in 1966, the college is situated on 255 acres.

## Degrees Conferred

Associate in Arts; Associate in Science; Associate in Engineering Science; Associate in Fine Arts; Associate in Applied Science; Associate in General Studies; General Education Core Curriculum certificate and career program certification.

## Location

Champaign, Illinois. Champaign County population, 203,000, including students of the nearby University of Illinois. Conveniently located near Chicago, St. Louis, and Indianapolis, the college is accessible via Amtrak; Willard Airport; and Interstates 57, 72, and 74.

## Students

Annual enrollment of approximately 12,235 credit students, including minority (39.7 percent) and international (4.5 percent) students.

## Faculty

162 full-time tenured and tenure-track faculty and approximately 264 part-time faculty, most with advanced degrees, extensive experience, and professional awards and affiliations.

## Facilities

The campus has an award-winning architectural design with six instructional classroom-laboratory wings and an administrative wing interconnected and joined at the center. The Student Union on the east side of campus offers a front door into Parkland. The S, T, and W instructional buildings are situated on the main campus, while Parkland College on Mattis is about one-half mile from the main campus. All facilities are accessible.

## Library

Parkland College Library contains over 110,000 volumes, 150,000 electronic books, a wide variety of periodicals, and subscribes to numerous electronic online resources which are available 24/7.

*The mission of Parkland College is to engage the community in learning.*
