Physical/Life Sciences

Choose from any course numbered 100-299 with any of the following prefixes:

AST, BIO, CHE, ESC, PHY, SCI

*Satisfies non-Western culture requirement.

**Students must select two courses from this category to fulfill IAI general education physical and life sciences requirements.

General Elective Courses

Each student should check the requirements of the institution to which he or she is transferring.

Parkland's general elective degree requirements may be satisfied as follows:

Associate in Arts (A.A.)

Associate in Science (A.S.)

Associate in Engineering Science (A.E.S.)

Associate in Fine Arts (A.F.A.)

Student may select only baccalaureate-oriented courses (courses numbered 100-289 whose second digit is even) to meet this requirement. Student should check with his or her advisor in the selection of appropriate courses.

Associate in Applied Science (A.A.S.)

Associate in General Studies (A.G.S.)

Student may select any course numbered 100-299.

Course Numbering System

Courses are identified by a code of three letters and three numbers preceding the course title and course description. The three letters identify the subject or program area (ACC = Accounting). The three numbers generally indicate course level:

1. Courses numbered below 100 are designed for students who need additional preparation. Students may enroll in these courses voluntarily or be placed in these courses upon recommendation of a college counselor or advisor. Credit for these courses applies toward the GPA but does not count toward baccalaureate- or career-oriented programs.
2. Courses numbered 100 through 299 and whose second digit is
 - **even** are generally designated as baccalaureate-oriented (only these courses may be counted as credit toward an A.A., A.S., A.E.S., or A.F.A. degree);
 - **odd** are generally designated as career- or occupation-oriented (may not be counted as credit toward an A.A., A.S., A.E.S., or A.F.A. degree).
3. Courses numbered 100 through 199 are primarily first-year courses but are offered to all students meeting course prerequisites.
4. Courses numbered 200 through 299 are generally second-year courses and are open to students who have completed their prerequisites.

5. Courses numbered 500 through 999 are vocational skills courses or continuing education courses. They are available on a credit or no-credit basis. Except for the noncredit courses (with an NCR or CMS prefix), vocational skills credit is awarded for courses numbered 500-999, but such credits do not apply toward any GPA nor toward baccalaureate- or career-oriented programs whose courses are numbered 100-299. Courses numbered 500-999 and certain remedial courses cannot be used to qualify for financial aid. For further clarification, contact the Office of Financial Aid or the Counseling and Advising Center.

Vocational skills courses are designed to provide training for upgrading employee skills for persons employed in business and industry.

Noncredit continuing education courses are generally hobby, leisure, recreational, or are designed to enhance personal and professional growth.

Workshops are for both individuals and businesses; on-site training and customized training programs are available from the Business Development Center. See www.parkland.edu/bdc or call 217/351-2235 for workshop information.
